On Saturdays & Sundays we do no drilling, but are confined to stay in camp during the day except Sunday when I understand we are entitled to free, I will see Chaplain this morning & he invited me to spend some of my leisure time in his tent.

We are having much better now than usual having some vegetables for our dinner our sleeping apartments are very good & nice and cool. Called to keep our blankets over us at night, because they are very cool, the days are hot, except in the shade & then in it is very pleasant, the wind is blowing all the time.
