I always reflect on my self how many faults I have: how happy the
was to have had such a pious turn so early in life, and to have let his
self be devoted by y^e great servant of God, y^e former Minister, who
I long to know whether he will do y^e mention our action as to call
this foundation, his zeal is great & am more if the Don is the may be
Compass'd to y^e grain mustard seed in y^e gospel, tho' our house is y^e least
in y^e order has it in our power to do more good of any, and y^e God see
the with son with spread if she is inspir'd to it: I am reading books to y^e next
Babies some charitable gentlemen get you selves to great expense for no other
motion only as they are well instruct'd, and as y^e true factor is decaying very much
they by reason of y^e y^e leave this County, knowing nothing of their religious
practice, they this when w^o hope may have the dispos'd affect at my children, are
brought up to be fond of instructing as I think it lies in y^e power of y^e good
to be of service y^e way, then y^e wish then children promise me they will take
great pains with y^e little blacks to instruct, y^e next year I will have pictures
for y^e y^e goe to give the negroes y^e learn the Law, I must beg y^e will be
so good as to buy me some dozens of y^e common pictures of y^e y^e for y^e
to forget to speak to Miss P^r to send y^e to me by the first opportunity
I am glad she is liked by y^e Ladies, where she is had they know all she
suffer'd for y^e foundation as well as I do; it wou'd make y^e y^e
many imperfections they may see in her, I am confident her intention
good ignorance may make her Los: I own now risk in giving any device
about her to a person, of y^e party and reason as y^e reason confident had to
know the full v^o Joseph, where Davinist, I shou'd never have sent her
there and hope you'll act in regard of the young Ladies as y^e think proper
and be sure to shall always approve of it: I must say I was surpris'd they wou'd
I learn what was proper to teach young Ladies, here as there is such a great
complaint ^{made} in this Kingdom, and in England y^e their children are taught only
to say their pray's, as for spiritual matters I was sure they wou'd take
good care of y^e: I must beg y^e favour of y^e to present my compliments to y^e y^e
y^e Ministers and y^e former men; and my best wish's attend y^e ^{your} ^{service} ^{and} ^{the} ^{happi}
of being acquainted with y^e, I shou'd imagine y^e were laughing at me
to think I fatigue me self in y^e least I can spare y^e I never thought the best
trouble in acting in regard of y^e schools only in part of my duty, but to be on every about
my health nobody can enjoy better than I do when I god I must beg y^e suffer'd
a great deal in mind which for a time w^o: I thought I wou'd have had my contribution
had not in y^e least I am afraid y^e all will be bid of me to may live to be so old y^e what
is most to be desired to beg you'll believe me to be with y^e reverence & esteem
I wrote to Mr. Halkier a ^{last} ^{time} ^{this} ^{Week} ^I ^{sent} ^{you} ^{my} ^{love} [&] ^{affection}
and shall be glad to hear from him as he is a good judge ^{of} ^{our} ^{affairs}
