

MOUNTAIN AIR

"HELPS CURE TUBERCULOSIS"

To . . .

F. P. BAKER, M. D.

Physician, Employer, Advisor, Teacher and Friend

I dedicate this issue of Mountain Air, in behalf of all patients, ex-patients, employees and friends who have learned to know and love him during his years of service at Eastern Oklahoma State Sanatorium.

With unbounded pride, it is my privilege to announce the honor bestowed upon Doctor Baker recently by the University of Oklahoma and the University of Oklahoma Association in selecting him as one of five most outstanding citizens of the State of Oklahoma to receive the Distinguished Service Citation Award.

A tribute richly deserved; a compensation for a lifetime given to the tuberculous.

Sincere congratulations, Doctor Baker.

EDNA COLBAUGH,
Secretary and Editor.

"ONE NIGHT'S DISSIPATION CAN SPOIL THE EFFECTS OF SIX MONTHS' CHASING"
