Dear Joe,

Every time I look over the voting records of the members of the Massachusetts delegation and then think of how Bud Shuster votes I drool a bit. Some day I hope that our Pa. delegation may be improved quite a bit.

I am greatly inspired for the solid stand of your delegation on Reagan's wars in Central America. We are going to continue to plug at it here in this state.

You were right. I greatly appreciated your sending me a copy of your article that was published in the Christian Science Monitor. I agree with you completely.

Hang in there and defeat Reagan soundly when he tries to sell Congress on more murder in Central America!

Sincerely,

E. Paul Weaver
