NINETEEN HUNDRED FIFTY-NINE

A PERIOD OF GROWTH FOR SUFFOLK

1959 will always be one of the more important dates in the history of Suffolk University. This will stand out in the records as the year in which Suffolk University played host to the Eastern Colleges Science Conference.

Comparisons have been offered between the University when we, the class of nineteen hundred and fifty-nine, entered in the year 1955 and as it is today. Viewed in retrospect, the amazing rise from small-college obscurity to a standing among the well known city schools in New England is ever more notable. Increases in facilities, the faculty,

the tremendous rise in the enrollment, all these come out in the comparison.

The Class of 1959 has been part of Suffolk University during the four years which have climaxed a great period of expansion. It has felt the growing cooperation among faculty, administrative body with the formation and development of the Student-Faculty Assembly. It has followed the climb of the University's prestige in the field of athletic competition as well as that of Debate and Drama. It has sensed a new unity, drawing closer all the elements that come under the name Suffolk University. And now it is witnessing the end of an era.

Moved by such spirit as is offered by our increasing alumni, Suffolk University will not stop now. An impetus that has been building up so rapidly for four years has just reached its first plateau. Dreams have been turned into reality. The past offers a challenge to the future. If such great growth has occurred in our four years, what will be accomplished in the next generation—and the two succeeding generations to follow?

THE FUTURE AWAITS YOU

Four years ago, it was pleasant to welcome you to the University and to look forward, with you, to a happy and profitable college experience. Now it is a privilege to congratulate you on the accomplishment and academic proficiency you have attained during your sojourn at Suffolk.

During your years here, "Sputnik" suddenly appeared and faded, and in so doing, cleared the air so that we may have a better chance to observe new "frontiers" and to view the world from a different position. Yes, the atmosphere is cleared but the perplexities and problems may have been multiplied.

History has taught us that our vision into the problems and perplexities of the future is of short range and of narrow scope—because, within a few hours the "old order" can change and techniques can become obsolete. New and more perplexing situations that challenge our potential, suddenly develop.

While the "old order" changes, the fundamentals and basic principles of all activities persist with very little change. The adaptations of the principles change and it is the adaptations to which one must adjust. But good adjustment to the changes comes through the understanding of fundamental principles. You are about to come to "crossroads." To help you determine the direction you should follow, refer back to your fundamentals of knowledge which you learned at Suffolk.

Along with congratulations, farewells are in order. In going out from an active life at your Alma Mater, be sure to remember your classmates and plan to participate with your classmates in alumni affairs. As graduates of Suffolk University, University activities will not be as great but they will be of tremendous importance to you.

It will be pleasant to greet you as Alumni at your first class reunion. Farewell and fare-you-well.

IN GRATEFUL APPRECIATION...

A growing university is made up of not one but many connecting facets. One of the more important facets at Suffolk is Dr. Frank M. Buckley, Sr. Throughout his long association with the university, Dr. Buckley has become one of the most liked and respected members of the faculty. His untiring willingness to listen to the many student problems has made him a friend of all. Because of his intervention, many students have been given another chance to continue their studies.

In appreciation of all his efforts, the Class of 1959 gratefully dedicate this yearbook to Dr. Buckley.

THE PROPER PURSUIT OF HAPPINESS...

Office of the Dean

SUFFOLK UNIVERSITY
Founded 1906
20 DERNE STREET • BOSTON 14, MASSACHUSETTS

To my friends, the Class of 1959:

As you conclude your life as an undergraduate student at Suffolk, you do not really leave us who will remain here. You will instead be joining that growing part of Suffolk University, the Alumni. Your friends who will continue to do their daily work within the University walls will follow your progress in with the same concern and pride with which we have followed your progress in college. We shall need and shall count upon your warm support as you engage in new activities.

This, then, is not a good-bye. Instead I am sending each one of you my friendly good wishes. You have successfully met the demands of your college course. You will successfully meet the further demands yet to be made of you in life. From the total experience of college - not only in the classroom and the laboratory, but in every activity in which you have worked or played with others - you have gained a sure foundation. I have confidence that you will pursue a successful life, achieving the goal of sufficient material satisfactions without forgetting the far more important goal of loyalty and understanding in all of your personal relationships with family and friends. This, I would suggest to you, is the proper pursuit of happiness.

The Class of 1959 began its contribution to the growth of Suffolk in September, 1955. We entered the auditorium that fateful day with mixed emotions. Some of us were apprehensive, some overjoyed, all of us Freshmen. In the process of becoming settled into the format of the university, some of us became well-known and were elected to class offices. Richard Novak was elected president and Richard Wheeler, vice-president. Although studies occupied most of our time, we were introduced to the social program at the university through the "Beanie Dance", given in our honor by the senior class. This was the beginning of many pleasant associations at Suffolk.

"... WE WEREN'T BORN; WE JUST GROW'D!"

1956 found us all Sophomores and "old hands" at school. We buckled down to our studies, joined the clubs of our choice, and elected as our class officers Joseph Archiprette, president; Rocco Malfitano, vice-president; Kathrine Whelan, secretary; and William R. Doherty, treasurer. Some of us even participated in the sports offered at the university, and a few of us became accomplished Thespians in the excellent drama club presentation, "Picnic."

We grew intellectually and socially, and in September 1957 we became upperclassmen—Juniors. Now we were on the homeward trail and the prestige was wonderful. We attended classes and took on more responsibilities in our favorite clubs. We still had time to grab that last cup of coffee at Conda's and discuss our classes with friends. We enjoyed a full social calendar climaxed with our Junior-Senior Prom in May. Truly, we had climbed "right up to the sky" in our roles as students.

Finally, we entered the climactic year when we were called by that hallowed name—Seniors. To help us succeed in our final endeavors, we had as officers Ed McDonnell, Tony Feroci, Kathy Whalen, and Hal Corkum.

We planned many things and saw them all through successfully. Our two main events, the Coronation Ball and the Senior Prom were outstanding successes. Our classes took on a renewed importance; our goal was common—Graduation. Some of us excelled so well that they were elected to WHO'S WHO in American Colleges and Universities. During the year, we helped Suffolk grow notably by successfully sponsoring the 13th Annual Eastern Colleges Science Conference. Only one thing happened that marred our happiness—the tragic death of a good friend and fellow student, Mike Picardi.

Now we are on our way into the world of business and science, equipped with a truly well-rounded education, ready to take our places as responsible citizens. We feel confident that the Class of 1959 will forge ahead with vigor, ready to make many notable contributions to the welfare of the nation and the world.

SENIORS

SENIOR CLASS OFFICERS

Dr. Hartmann's "Message to the Seniors".

Graduation is just the beginning—the beginning not only of new careers in various economic endeavors, but the beginning of civic leadership and responsibility as well. Our country's future lies in the hands of its educated leadership. Those who have been fortunate enough to have received the benefits of a good education must never forget their civic obligations and responsibilities. It is with full confidence that this Senior Class will not forget theirs that I extend to all my best wishes and congratulations!

ACTIVITIES

WE GROW...

A round of applause for our photographer!

Gathering grounds for mischievous minds.

The most popular room in the school!

Counseling by the faculty is a tremendous asset.

Publishing the Journal is everybody's business.

WITH ACTIVITIES...

Wrapping Christmas gifts for the patients at the State Hospital.

WITHIN THESE WALLS . . .

A typical scene right after exams.

On-the-job training in sales persuasion.

Discussions are liable to start anywhere!

Composing a yearbook is not ALL work.

The study of the languages—a lost art.

An experiment in hypnotism for Sociology students.

Mean, median, mode — all part of statistics.

Only by practice can we attain perfection.

Practical application of chemical theory.

Aristotle, Plato, Socrates—the wisdom of the ancients.

Only if we understand the past can we plan for the future.

AND WE GROW IN KNOWLEDGE

The new generation of businessmen.

Theories in Education—necessary in a changing world.

Learning the complex regulations of our government.

VETERANS' ORGANIZATION

The Veterans' Organization was headed for the second year in a row by Philip Doherty, and under his capable leadership it enjoyed another successful season. Aided by the student body, the Vets were able to hold their traditional Christmas and Easter

parties for the shut-ins of the Childrens' Ward at City Hospital. In addition to the charitable work undertaken by the club, a banner social season was held and the organization continued to be one of the outstanding groups in the university.

Alumni Reception For Seniors - May 30

The General Alumni Association of Suffolk University will sponsor a reception for the members of the graduating class of 1959 on Saturday, May 30. The affair will be held at the 1200 Beacon Street Motor Hotel, in Boston. Dancing will be from eight o'clock until midnight.

This is the first year the Alumni Association has sponsored such an event for prospective graduates. All individual and general expenses for the affair will be assumed by the Alumni.

It is hoped by the Association that the turnout will be large enough to justify further Student-Alumni meetings of this nature.

Credit for the organization of this affair is given to the

The newly redecorated Lounge.

The only women's organization at Suffolk is Gamma Sigma Epsilon, formerly known as W.A.S.U. Some of its activities include: the initiation ceremony, a mother's and daughter's tea, a Christmas party, and an end-of-the-year celebration. This year, the lounge was completely redecorated with the aid of the sorority treasury.

MUSIC AT SUFFOLK

The Suffolk University Band, consisting of six members, was formed at the beginning of this year. Completely backed by the school with the unlimited help of Mr. Colburn, director of student activities, the band now has a variety of music as well as a comfortable place in which to rehearse.

The band has already performed with great success at the Mattapan State Hospital. We are looking forward to rapid growth during the coming years.

FRENCH CLUB

The Cercle francais attempts to create a greater understanding of things French, be they literature, songs or folk customs. This is done by films, group discussion and dramatic sketches by the members. Groups of students also attend French musicals, plays and other outside interests.

SPANISH CLUB

The Circulo español tries to nurture in the student of Spanish at Suffolk University a greater appreciation for the language and of the many cultures associated with it. This is done by means of films of Spain and Hispano-

america; discussion among the members of folk mores, Spanish literature and music. The use of Spanish is always encouraged during the meetings.

S.U. EXTRA-CURRICULAR ACTIVITIES

The Jewish Club will operate in affiliation with Harvard-Radcliffe Hillel House and Boston Univ. Hillel House under the guidance of Rabbi Zigmund and Rabbi Pearlman. The group eventually hopes to attain independent recognition as S.U. Hillel.

Officers for next year include Lloyd Weierman, Sumner Bodkins, and Carol Lecht. Faculty directors include Mr. Stolper, Mr. Stone, and Mr. Diamond.

The Near and Middle East Club is a newly formed organization in February, 1959 and it is open to all Orthodox students at Suffolk University. The club has a threefold purpose: spiritual, social and intellectual. Spiritually, its efforts are directed toward increasing the religious activity of the individual member and socially to activate its members to meet other Hellenic organizations from other colleges. Plans are in the making for a foundation for a scholarship for use of students here at Suffolk.

HAVE DIVERSIFIED APPEAL

During the school year 1958-1959 the newly re-organized Suffolk University Political Science Club emerged as an outstanding medium for student expression and as a forum where controversial topics of a political nature were discussed by prominent local personalities.

The public forums were well received by the student body and large crowds turned out to hear political leaders defend their views.

The officers and members feel that the new school year should see the Political Science Club continue its successes.

ATHLETICS

BASKETBALL AT SUFFOLK

Our basketball team is a credit to our school. Under the leadership of Captain Frank Crotty, the team over-came a pre-season disaster. Due to unforeseen difficulties, four key players left the university.

The team still wound up with a successful season despite this handicap due to the hard work and skillful coaching of Charlie Law.

Prospects for an even more successful season next year seem bright. The Rams will

lose only one valuable player in the person of Eddy Moore. Next year's team will be under the leadership of Lou Farrell.

The only senior, Eddy Moore was elected to participate in the New England all star game in which he was one of the five starters.

The Class of 1959 salutes Coach Charles Law and George Doucette for their sustained efforts and patience in building our team up in both skill and sportsmanship.

Our school takes pride in its sports program. The baseball team is a credit to good sportsmanship and a true fighting spirit. It was in our team's heart to win and the close losses were heartbreaking.

chool becomes known through two channels, academic, and athletic. The broadening of this second field is placing our school on the map. We are growing in many

ways, and in no greater way than in our athletic program. This year's Co-Captain Gallagher kept the boys hustling on the diamond. The team will miss him and his teammates Joe Travato and Gerry Cohen. Next year's Captain Charlie Alves expects a very successful season with the strong hitting and fielding that will be returning for next season.

TO THE CLASS OF 1959

It is always gratifying to observe those who establish a worthwhile goal for themselves, work diligently toward it and succeed in reaching it in the face of many obstacles. This exemplifies the typical Suffolk University student. You have reached your goal over a period of difficult years and you should be congratulated on a job well done. May we welcome you to the ranks of the alumni and wish you future success in your new undertaking.

If you reflect back over the past four years, you will realize that the Class of 1959 is represented by the progress, growth, maturity and recognition that Suffolk University has achieved during this period of time. Under the astute leadership of President Munce and under the keen administration of Dean Goodrich, Suffolk University has emerged on the horizon as a major educational institution. The Suffolk success story can be told in terms of its students continuously striving to achieve, its understanding faculty with high academic standards and its high calibre, inspiring administrative leadership. You will find in your new endeavors that the qualities of leadership found at Suffolk University are rare and to be had by only a few.

We hope that you will continue your relationship with the University through your alumni association and make Suffolk University an even greater institution. Continue with us in the true Suffolk family spirit, for it is a relationship of which you can be proud.

Good luck and God bless you.
