NOTE TO BILL

SUBJECT: Major Buckland/Salvador Jesuit Investigation

All seems to have worked out well. After coordinating with State, FBI offered Moakley the opportunity to review Buckland's statements. He asked to put it off until next week due to the press of business, but the FBI reports he was very pleased with the offer. Bernie Aronson and Mike Kozak appreciated DOJ/FBI cooperation.

Two issues may remain, but neither really involves us: whether DOD will discipline Buckland and whether (and if so, why) the Embassy in El Salvador delayed in turning material over to the judge (it appears to be clear that the FBI got it to the Embassy promptly).

Hopefully, this one is behind us.
