

Just some Italian Americans
who have already
made up their minds.

DANIEL C. DANICK/1812 COLUMBIA ROAD, BOSTON

Dammit, people in the North End
know what their problems are.
What we need is a Congressman
who can do something about them.

Anthony 'Patrick' Campo

The Italo-American
put JOE MOAKLEY in Congress
Committee

Over 2,500 kids and only one ballpark.

On November 7, North End Residents have a very important choice for Congress.

It's not merely a choice between Joe Moakley or Louise Day Hicks.

It's a choice to give this area some representation.

Let's face it.

What has Mrs. Hicks done for the people of the North End in her two years in Washington?

Look around you.

It's time Italian-Americans faced the facts. We're just not being represented.

And now we can do something about it.

We can get behind Joe Moakley.

Joe knows where the North End is, and what bothers people around here!

Things like decent recreational facilities for their kids.

He knows that people want to keep this neighborhood together. Not be forced out by high rents only outsiders can pay.

That's why Joe Moakley fought to put the present rent control laws on the books when he was State Senator. At the time Mrs. Hicks was voting against rent control.

Joe Moakley knows what the people in the North End want in a representative.

It's not just because Joe shares a common heritage with us through his mothers' people that he can work for us.

Joe has been working for people like us a long time.

That's why an awful lot of people around here want to see Joe Moakley in Congress.
