Thirty-seven foxes were killed by local hunters during the season just closed and J B Whitten, the veteran fox hunter, claims the distinction of taking the highest score with five pelts to his personal credit. Owing to conditions that prevailed and a scarcity of foxes, it appears to have been an off year for the hunters as it is not unusual for the total aggregate of hunters to capture 100 fine specimens.

It is gratifying to many friends of Richard L. Hayes to learn that in the senior finals of the semester just closed at Dartmouth, he secured a rank of three A's and three B's in the six subjects of his course. This accomplishment entitles him to hearty congratulations. Other honors have come to him in having been selected as class orator for the June Commencement and having been chosen as a member of the Dartmouth debating team soon to compete with Brown and Williams.

K. OF P FAIR

Although affairs of a somewhat similar nature have entertained the local public from time to time Harmony lodge K of P. is to offer something quite unique at its fair to be held at the opera house on Wednesday, Thursday and Friday evenings, March 24, 25, 26, under the combined efforts of the officers members and special committees and Pythian Sisters. Merchants, business men and the public generally have caught the spirit and are supporting the enterprise with cordial and generous spirit. On the opening date the opera house interior should present a pretty spectacle, resplendent as it will be, with various booths and decorations. Nearly all of the merchants have donated one or more articles or commodities that will be awarded as prizes in almost as many contests and these wares are on display in the various show windows about town. The entertainment program has been arranged with careful detail and will present a complete change each evening. On Wednesday the special feature will be the ladies minstrel show on Thursday a laughable farce entitled "That Rascal Pat," presented by the pupils of the high school, on Friday evening the program will consist of vaudeville features singing, music and dramatic reading. A sale of good food mystery packages fancy-work etc will take care of the commercial end of the program and there will be various contests of skill games etc to fill in between so that no one old or young should pass a dull or uninteresting moment while attending the fair. LOCAL BANK

There are three or four million families in the United States with kindred or friendly affiliations in central Europe where almost as many people actually are being slowly starved for want of means to procure food against the high prices enforced by approximately famine conditions who are desirous of giving direct personal assistance to those relatives and friends. Some are endeavoring to perform this service by preparing or purchasing packages of food for overseas shipment. In some cases the packing and extra freight involved adds one hundred per cent to the costs. The American relief administration has proposed to solve this difficulty by establishing warehouses to carry stocks of staple foodstuffs in European cities where distress is particularly acute. Consequently the administration has prepared a system whereby anyone who desires may purchase orders upon these warehouses in the form of food drafts which can be transmitted to friends or relatives in Europe. It is proposed to charge the buyer of the drafts the factory cost of the food plus a reasonable margin to cover cost of transportation etc. Profits if any will be turned over to the European children's fund. In order that the drafts be available to all they have been forwarded by the administration to the majority of banks throughout the country with full authority to dispose of them according to prescribed terms. They are sold in two denominations of \$10 and \$50 and are divided into four forms represented by the first four letters of the alphabet. Each one is redeemable at any one of the warehouses in Europe and draw commodities of the greatest food value such as wheat flour, bean, beans, salad oil, etc. Every draft specifies the group of commodities that will be turned over to the drawer on presentation. Drafts may be purchased at Farmington National bank and no extra costs for banking forwarding or any of the transactions are attached to any of the parties concerned. The American relief administration is headed by Herbert Hoover national food administrator and is a guaranteed institution that is performing a mission of mercy recognized by all the world.

Have you made the acquaintance of the new hand-shaking office-seeker yet? He is abroad as usual, and most all of us ordinary individuals realize again that we have become important factors in the commonwealth. That most cordial greeting and casual comment that is the prelude to our support being solicited diffuses a warm glow and puts us in a receptive mood. However, why not capitalize the opportunity to get returns in the way of securing some of the good administration we advocate in our grocery store gossip?

If we don't see a business from the smiling politician now, we cannot brag of being fathers of certain policies later on for experience has taught us that we lose our importance directly after election. Post-mortem ideas never put a president in the White House neither will after-thoughts get us anything after the "successful candidate" puts on the robes of office.

Now in National Forest.

Congress has set apart 1,116,000 acres of land in Idaho known as the Thunder mountain region as a national forest land. This great tract, difficult of access and having not over one per cent of its area suitable for agriculture, has for years been the scene of destructive fires and devastation due to overgrazing. It is now to be added to the Payette National forest, which adjoins it on the south, and west, and the Idaho National forest, which adjoins it on the north and west.

Chinese Shoes.

The Chinese are gradually adopting the European style of footwear. At the present time, almost 40 per cent of the footwear in China is reported to be of European style. Domestic factories of which Canton has twenty, Hongkong five and nearly every port of China at least one, are chiefly for the manufacture of the red leather used for the soles of the native shoes. The uppers of native shoes are generally made from cloth or an imitation box calf.

NORTH BARNSTEAD IN MEMORIAM

Mrs. Jane T. Walker. Again we are called to mourn the loss of another of our good town-people. This time it is the passing of Mrs. Jane (Titcomb) Walker, widow of Charles E. Walker, who died a little more than a year ago. After his death, Mrs. Walker and her daughter Lizzie lived on at the home place until last fall, when they went to Kingston to spend the winter with a niece, Mrs. Warren (Clarke) Tucker, where she enjoyed the best of health until January 31, when she was stricken with a shock. She passed away on February 2. The funeral was held Wednesday, February 4, at the home of Mrs. Tucker and the remains were taken to Alton. Mrs. Walker was born in East Kingston on July 24, 1839, the daughter of Charles and Sarah (Smith) Titcomb. She came to Barnstead when a very small child to live with her aunt, Mrs. Samuel Webster, where she had since resided. None too much can be said of her past useful and noble life spent in the community, where she will be greatly missed.
