## STATEMENT BY SELECTMEN

We, the Selectmen of Farmington, herewith submit our annual report for the year, 1961, for your consideration.

We, again, this year would call your attention to the Financial Report. Our Net Surplus this year is somewhat over \$10,000.00. This was due, primarily, to our ability to operate the several departments as we have done in the past by giving the townspeople the same quality of service and yet bearing in mind that the operation of each department must be done at the least possible expense. Last year our Surplus was used to offset appropriations for two of our departments. However, this year it is the thought of this Board to use the amount of Surplus as a capital outlay, by the purchase of a new piece of equipment. The acquisition of this equipment would be a step on a progressive basis yet not affect the individual taxpayer by increased taxation.

The work on Orange Street was completed this year, and funds appropriated from the Parking Meter Reserve fund were used to improve and construct many sidewalks in the town. We are fully aware that there are still many sidewalks that need attention and it is our intention to continue this year in improvements of these walks with the money from this Reserve account.

Our summer maintenance program will be continued on the same progressive basis as we have done in the past. Plans have already been formulated to continue with work on the drainage problems of the town by the installation of culverts where the need is urgent; a continuation of the tarring of the streets and general improvements of the highways with funds appropriated for this purpose.

In 1961 we requested and were granted an appropriation for the maintenance of the Cocheco River Flood Control Project; this maintenance being required of the town by the Federal Government. We had at the end of the year an unexpended balance which we have carried forward to this year and we are requesting an

additional \$500.00 for this maintenance. We would like to call your attention to this fact that the lower end of the Flood Control Project was completed this year and accepted by the town. This means additional land to be maintained, but we feel that with the balance we have plus our requested appropriation, we can do the necessary work that will be needed to pass the periodic inspection as made every year by the Federal Government.

With the money appropriated for TRA, or town road aid, work on the Tibbetts Hill Rd. was started at the Twitcheell place, formerly owned by Ira S. Brown and continued as far as the Waldron Mill Pond resulting in a much better road for travel in that particular area. With these same funds we also graded and filled the road from Howard Goodwin's to the Hornetown Four Corners, together with some work being done on Thompson Hill in preparation for it being finished this year.

Under the welfare departments we were fortunate in being able to meet all requests for assistance and yet maintain these departments within the budgets as appropriated. We have decreased the appropriation for town poor this year by \$500.00 and it is our hope that we can continue to give to the needy the necessary assistance as may be required and still be able to stay within the appropriation.

Mention of other departments and other pertinent data detailing the work of this Board is excluded from this statement for the sake of brevity, but they are for the most part explained elsewhere in this report.

In concluding, we express our appreciation for the fairness and understanding given us by the townspeople and sincerely hope that our efforts have resulted in benefits both to the individual and to our town.

ERNEST J. KELLEY  
CARROLL H. KIMBALL  
CLIFFORD L. TATTRIE

## BUDGET OF THE TOWN OF FARMINGTON NEW HAMPSHIRE

Estimates of Revenue for the Ensuing Year January 1, 1962 to December 31, 1962.

**TOWN WARRANT****THE STATE OF NEW HAMPSHIRE**

To the inhabitants of the Town of Farmington, qualified to vote in town affairs:

You are hereby notified to meet at the Town Hall in said Farmington on Tuesday, the 13th day of March next, at nine o'clock in the forenoon, to act on the following subjects:

Article 1. To choose one selectman for three years, a town clerk, a town treasurer, two auditors, a trustee of the trust funds for three years, three budget committee members for three years, and all other necessary officers and agents for the ensuing year.

You are also notified to meet at said Town Hall at seven o'clock in the afternoon on the same date, to act on the following subjects:

Article 2. To see what sum of money the town will vote to raise and appropriate to defray the expenses of general government as defined in the budget.

Article 3. To see what sum of money the town will vote to raise and appropriate for the police department.

Article 4. To see what sum of money the town will vote to raise and appropriate for fire protection.

Article 5. (By request) To see if the town will vote to raise and appropriate the sum of \$200.00 to be used in cooperation with State and Federal funds for the control of White Pine Blister Rust within the confines of the town.

Article 6. To see what sum of money the town will vote to raise and appropriate for civil defense.

Article 7. To see what sum of money the town will vote to raise and appropriate for the health department.

Article 8. To see what sum of money the town will vote to raise and appropriate to vital statistics.

Article 9. (By request) To see if the town will vote to raise and appropriate the sum of \$1,800.00 to be applied to the payments for services of a district nurse of said town, said funds to be disbursed through the Farmington Visiting Nurse Association.

Article 10. To see what sum of money the town will vote to raise and appropriate for summer and winter maintenance of highways and bridges and for the general expenses of the highway department.

Article 11. To see if the town will vote to raise and appropriate the sum of \$931.34 in order to assure state aid in the amount of \$6,208.96 for the improvement of Class V highways.

Article 12. (By request) To see if the town will vote to raise and appropriate the sum of \$2,500.00 for the Farmington Public Library Association.

Article 13. To see what sum of money the town will vote to raise and appropriate for old age assistance, town poor and soldiers' aid.

Article 14. To see what sum of money the town will vote to raise and appropriate to Clarence L. Perkins Post, No. 60, American Legion, to be used for Memorial Day Observance.

Article 15. To see what sum of money the town will vote to raise and appropriate for the care of parks and playgrounds.

Article 16. To see if the town will vote to raise and appropriate the sum of \$500.00 for the maintenance of the Cochecho River Project.

Article 17. To see if the town will vote to authorize the Selectmen to transfer from the Net Surplus the sum of \$10,000.00, said sum to be applied toward the purchase price of a new loader for the highway department, together with the trade-in allowance on our presently owned loader.

Article 18. If Article 17 is not adopted, to see if the town will vote to authorize the Selectmen to transfer from the Net Surplus the sum of \$5,000.00 to be used to defray the expense of a complete overhaul of our present loader, or to apply this sum of

money toward the purchase price of another used loader together with the trade-in allowance on the present loader.

Article 19. To see if the town will vote to authorize the Selectmen to hire such sums of money as may be necessary in anticipation of taxes.

Article 20. To see what purpose or purposes the town will vote to appropriate the balance of the parking meter fund not otherwise earmarked and the income over and above the maintenance expenses, in accordance with the provisions of Laws of 1947, Chapter 74, Section 2.

Article 21. To see if the town will vote to authorize the Selectmen to file in behalf of the town an application (in form and manner required by the United States and in conformity with P.L. 560, 83rd Congress) and do whatever else may be required for an advance, in the amount of \$13,000.00, to be made by the United States to the Town of Farmington to aid in defraying the cost of preliminary report and plan preparation for sewerage and sewage treatment facilities for the Town of Farmington, and, further, to see if the town will make the necessary arrangements to provide such additional funds as may be required to defray the cost of preparation of the report and plans.

Given under our hands and seal this 23rd day of February, 1962.

## FIRE WARDEN'S REPORT

### AN APPEAL FROM YOUR FOREST FIRE WARDEN

In these days of constantly rising taxes and wages, any unnecessary expense is an added burden on everyone's pocketbook—yours and mine. Forest fires cost money and damage our valuable woodlands. Lightning sets some forest fires, but we have no control of lightning. Children cause many fires. Ninety-eight percent of our forest fires result from human carelessness—our carelessness. This, we—you—and I can do something about.

When we require you to obtain a permit for out-of-doors burning or forbid you to burn on days of high

fire danger or set up regulations—hours, etc., governing the use of the town dump we are simply protecting your and the town's interests.

The ever present threat of forest fires is the concern of all of us; the responsibility for preventing them is ours and the costs of extinguishing are ours. We can do something about this problem, by being aware of and alert to the danger and by cooperating with your warden.

Do the things that are required of you—

1. Follow the warden's directions.
2. Secure the required burning permit.
3. Keep your fires under control.
4. Completely extinguish your fires before leaving them.
5. See that your children are properly cautioned. Everyone will benefit by it.

#### 1961 FIRE RECORD

## HEALTH OFFICER'S REPORT

December 31, 1961

Between legislative sessions, except for executive order, there are few, if any, changes in the public laws governing health requirements and their administration. Directives for such, as are committed to Health Officers, are embraced in a manual too comprehensive for publication in a report of this order. However, the general public may have recourse to health laws by reference to the statutes and their amendments by consulting the session laws, so a check always is available in measuring the efficiency of administration. The manual referred to is being carried out in Farmington as nearly as possible considering physical and, possibly, emergency situations. These facts are matters of record with the state department.

In the experience of your Health Officer, this has been one of the most difficult years, with the incidence of Hepatitis in the community for a period of more than ten months of 1961 contributing much, together with more than the average of sanitation and general control work. Good cooperation has played a major role and is gratefully acknowledged and appreciated.

Especially due for thanks are: the Selectmen, local physicians, the school and visiting nurse, schools officials, teachers, police and precinct departments, welfare and civic agencies, the press and civic-minded community groups, dairies serving the community and District Chief Kenneth E. Gunn.

### FOLLOWING ARE THE STATISTICS:

Hepatitis, 31 cases.

Miscellaneous complaints investigated, 317; hearings, 0; prosecutions, 0; complaints outstanding (seasonal difficulty), 2; polio, 0; scarlet fever, 4; strep and septic throats, 17; mumps, 4; venereal diseases, 2; occupational diseases, 4; measles, 17; chicken pox, 21; tuberculosis (hospital discharges), 2; pneumonia, all types, 14; board, foster care and convalescent homes, 11; restaurant inspections, 12; barbershops, 2; label violations, 1; improper display of foods and edibles, 2; dairy inspections, 5; quarantine for com-

municable diseases, 3; dog bite cases, 31; disposal of dead animals, 30; Collection of dairy products, foods (open and packaged), 9; assist in state-supervised sanitation inspections, 4; sewage disposal violations, 9; food-poisoning investigation (suspected case), 1; trench mouth, 1; revaccination certificates, 9; conferences with superiors, 16; roadside dump violations, 2; premises vacated in unsanitary condition, 4. With the exception of the two complaints noted, all cases were cleared as of the close of the 1961 fiscal year.

N. B. Nine of the cases of communicable diseases reported were local patients treated by out of town physicians. Two were hospital cases, recovered.

Respectfully submitted,

CARL B. CANNEY

Health Officer

## **WARRANT FOR SCHOOL DISTRICT MEETING**

### **STATE OF NEW HAMPSHIRE**

To the inhabitants of the School District in the town of Farmington qualified to vote in district affairs:

You are hereby notified to meet at the Town Hall in said district on the 21st day of March, 1962, at 7:30 o'clock in the afternoon, to act upon the following subjects:

Article 1. To choose a moderator for the coming year.

Article 2. To choose a clerk for the ensuing year.

Article 3. To choose a member of the school board for the ensuing three years.

Article 4. To choose a treasurer for the ensuing year.

Article 5. To determine and appoint the salaries of the School Board and Truant Officer, and fix the compensation of any other officers or agents of the district.

Article 6. To hear the reports of agents, auditors, committees, or officers chosen, and pass any vote relating thereto.

Article 7. To choose agents, auditors and committees in relation to any subject embraced in this warrant.

Article 8. To see what sum of money the district will raise and appropriate for the support of schools, for the salaries of school district officials and agents, and for the payment of statutory obligations of the district, and to authorize the application against said appropriation of such sums as are estimated to be received from the state foundation aid fund together with

---

other income; the school board to certify to the selectmen the balance between the estimated revenue and the appropriation, which balance is to be raised by taxes by the town.

Article 9. To see if the district will vote to have its school district officers elected at the town election.

Article 10. To transact any other business that may legally come before this meeting.

Given under our hands at said Farmington this 6th day of March 1962

## REPORT

of

### SUPERINTENDENT OF SCHOOLS

To School Board and Citizens of Farmington:

Is education important to a community? Should you concur with me that it is important to the community, then it follows "that what a society honors it will cultivate." With this brief introduction, I urge you to read the reports submitted in this issue.

Education today, due to an exploding school population, requires many special services in addition to the regular curriculum. Specially trained personnel are necessary to perform these services. Your schools are currently enjoying the following services: Music, Art, Remedial Reading, Guidance, Health, Educational TV and a School Lunch Program at Memorial Drive and High School. Some of the services that we are lacking

to give us a well rounded program are Driver Training, Physical Education and particularly a special class for retarded children for which we can receive state aid. The expansion of the present services and the additions of new services, in fact, the type of education that you want for your children depends entirely upon the financial support which you give to your schools.

Our \$331 per pupil cost on the secondary level is the second lowest in the state, the N.H. average is \$436. Our elementary per pupil cost of \$229 also enjoys a favorable position with other communities and with a state average of \$265. Obviously, this community is receiving an optimum educational program at a minimum cost. This reflects credit to your school board.

The table below should be of interest to you. It shows a comparison of teachers' salaries in supervisory union #44 and the state average for 1961-62. During the last ten years, the average salary of classroom teachers has advanced more slowly in N.H. than in any other state in the northeast section of the country and the country as a whole.

Teachers Average Salaries—Supervisory Union #44—1961-62.

	Elementary	High
Barrington	\$3,875	.....
Epsom	4,008	.....
Farmington	4,068	\$4,144
Milton	4,100	4,189
Northwood	4,133	4,771
Nottingham	3,975	.....
Strafford	3,875	4,571
N.H. Average	4,656	5,006

Farmington is in dire need of playground equipment. We now have one slide at Memorial Drive School for 300 pupils, there is no playground equipment at the South Main Street School other than tether balls. It is recommended that we extend some effort in this area.

During the three school years of 1958-59, 1959-60, and 1960-61, a total of 568 students were enrolled in the High School. Of that number 9.7% withdrew during the three years, September to June; of the 87 high

schools in the state, we ranked 55 in percentage of withdrawals, this compares with a state median of 9.1%.

If we subtract from the total withdrawals the number of students who during the school year, transferred to another school, who were deceased, or who were formally excused under RSA 193.1 because of physical or mental condition, then the remainder might be considered as "dropouts." The percentage of dropouts in Farmington for the three-year period was 6.5% and of the 87 high schools in N.H., the school ranked 60 and compared with the state median of 5.7%.

The above data indicates the need for serious study of the problem and the need to re-evaluate our facilities, curriculum, staff, and our special services. This is an administrative goal for the coming school year.

The subject of education is limitless and could be pursued in much greater detail, however, in such limited space, it is necessary to generalize. Therefore, you are encouraged to become better informed by taking an active part in the support of your schools.

In conclusion, I should like to express my appreciation for the cooperation given me during the year by the citizens, school board, pupils and teachers of Farmington.

Respectfully submitted,

RAMON MARTINEAU  
Superintendent of Schools

## REPORT OF THE HIGH SCHOOL PRINCIPAL

To the Superintendent of Schools:

I herewith submit my annual report for Farmington High School and Memorial Drive School.

On the opening day of school our enrollment, by grade, was as follows:

Grade	Boys	Girls	Total
1	43	38	81
2	40	38	78
3	42	30	72
4	35	22	57
8	54	50	104
9	38	35	73
10	26	23	49
11	19	20	39
12	9	20	29
Total Elementary			288
Total Jr. and Sr. High			294
<b>GRAND TOTAL</b>			<b>582</b>

Of course pupils have moved in and out of town with resulting change in our enrollment. At the present time, mid-January, our enrollment by schools is as follows:

Total Elementary	296
Total Jr. and Sr. High	296
<b>GRAND TOTAL</b>	<b>592</b>

In the Memorial Drive school we are fortunate to have the remedial reading service for the first time this year. Mrs. Haskell has screened the children and has been giving the necessary aid to them, although there are many more pupils waiting for help.

We are in need of certain work on the playground such as additional equipment, patching the surface and probably black top on the ground against the building.

In the high school we have been able to add Art to our curriculum this year as a regularly scheduled class.

There are certain minimum standards being con-

sidered for revision by the State Department of Education which we should be aware of and prepared for. These standards are:

1. to increase the school day from 5½ to 6 hours.
2. to lower the class size from 40 pupils to 35.
3. to require college preparatory students to have 20 units instead of 16.
4. to require a certified librarian-teacher, at least part of the time as school librarian. Our projected enrollment would indicate a full time school librarian.
5. to require a school library of 1500 books and 1200 titles not including paperbacks.
6. to require at least one course in physical education.

School organizations are maintaining themselves quite well this year. The following is a list of our extra-curricular activities and the sponsor of each:

Cheerleaders	Kathleen Jackson
Cheerleaders, J.V.	Margaret Cooney
Dramatics	Cynthia Perkins
Future Teachers	Daniel Antonopolos
Library Council	Lillian Emerson
Tiger Tales	Arthur Podaras
Yearbook	Kathleen Jackson
Student Council	Thomas Watman
Volleyball	Margaret Cooney
Soccer	Roger Owen
Cross-Country	Walter McIntire
Basketball	Roger Owen
Basketball, J.V.	Thomas Watman
Basketball, Girls	Stanley Towle
Basketball, Girls J.V.	Cynthia Perkins
Baseball	Stanley Towle
Softball	Roger Owen

The following section of this report shows what the members of the graduating class of 1962 are doing at the present time.

**SURVEY OF GRADUATES  
CLASS OF JUNE, 1961**

	Boys	Girls	Total
<b>Section I. Graduates Continuing Schooling:</b>			
A. Number of graduates entering a four-year college or university:			
*University of New Hampshire	1	2	3
Plymouth Teachers College	0	2	2
Keene Teachers College	0	1	1
Other Colleges	0	2	2
	—	—	—
Total	1	7	8
B. Number returning to secondary school for postgraduate study	0	1	1
C. Number continuing education in some other manner (junior college, nurse training for RN or Practical Nursing, business school, technical institute, two-year agricultural school, three-year programs, etc.)	2	5	7
	—	—	—

*Report Students Enrolled in Two-Year Agriculture Course Under Part C.			

Respectfully submitted,

DONALD P. DRAKE  
Principal

---

## MAIN STREET SCHOOL ELEMENTARY PRINCIPAL'S REPORT

To the Superintendent of Schools:

### STAFF

We are indeed fortunate to have what might be called a "veteran" staff, with all of our teachers having considerable experience, several of them having been teaching for more than thirty years. Such an experienced staff gives assurance of a high quality of instruction and guidance in the education of the community's youth.

The breakdown of teaching assignments by grades is as follows:

Grade 4A	Miss Burleigh
Grade 5-A	Miss Stevens
Grade 5B	Mr. Muggleston
Grade 5C	Mrs. Towle
Grade 6A	Mrs. Maxfield
Grade 6B	Mrs. Batchelder
Grade 7A	Mr. Roberts
Grade 7B	Mrs. Spear

Plans which were developed before the opening of school called for the use of only two sections for the fifth grade. However, more than ten new fifth grade pupils were registered at the beginning of school. Since the original plan called for both sections of fifth grade to be unusually large, the unexpectedly high increase in fifth grade pupils necessitated the formation of another section of that grade. If we had tried to continue with the originally planned two sections, each would have consisted of over 40 pupils, producing a highly inefficient and undesirable educational environment.

Therefore, even though the hiring of a new teacher placed a considerable strain on the school district's budget, it was the only thing that could be done in order to be fair to these children. If they had been required to remain in classes of more than 40 pupils their educational prerogatives and opportunities would have been seriously jeopardized and/or impaired—for the efficiency, the effectiveness, the quality of elementary educa-

tion becomes lower as the number of pupils per classroom becomes higher. The action of the School Board in rectifying this situation can only be deemed as commendable.

### ENROLLMENT

During the 1961-62 school year the Main Street School housed grades 4-7. Due to unavoidable circumstances, mainly a problem of room, it was necessary to move one section of the fourth grade (there were three sections) from its normal location at the Memorial Drive School to a new location, the Main Street School. It would normally be considered preferable to keep all sections of a single grade together in the same building, but our situation this year did not make this feasible.

In addition, the fifth grade, composed of three sections, the sixth grade, composed of two sections, and the seventh grade, composed of two sections, were located at this building.

The total enrollment at the beginning of the year was 240 pupils. The grade by grade breakdown was as follows:

Grade 4	35 pupils
Grade 5	82 pupils
Grade 6	55 pupils
Grade 7	68 pupils
	<hr/>
Total	240 pupils

There have been some minor fluctuations during the course of the year, with the result being that the present enrollment stands at 238.

### EDUCATIONAL TV

One of the major improvements in our curriculum for the present year concerns the increased use which we have made of the many fine educational programs offered by New Hampshire's Educational TV station, WENH-TV. Last year we inaugurated our use of this highly effective educational medium by utilizing its fifth grade science program. This year, however, we

have greatly expanded our use of its offerings, taking advantage of not one, but four of its special programs.

In the fourth grade a most important and desirable program in the area of social studies is being utilized. The Story of Our Granite State is a program about the history of our own state, certainly a worthwhile addition to our school's curriculum, for who can argue the value of an increased understanding of the history, traditions, and culture of our native state.

In the fifth grade the science program, dealing with the natural sciences, the sciences of plant and animal life, is again being taken advantage of. This program offers a vastly enriching and highly colorful supplement to the usual science fare of this grade.

In the sixth grade we are utilizing another science program, this one concerning itself with the physical sciences, which deal with the characteristics and properties of matter and energy. All of these programs, but this one in particular, represent a great upgrading of curriculum content and materials over what has been offered in the recent past. The post-sputnik hysteria in part, but more important, the natural rapid development and increase of scientific knowledge in the last few years, have demanded of the schools an upgrading of their science offerings. These excellent TV science programs have certainly helped us to do this in our school.

Two other programs have been utilized on a part-time basis, primarily to provide remedial work in the vital area of reading. Some pupils in the fifth grade have been using a phonics program in order to sharpen the word attack skills so vital to success in reading. A special seventh grade remedial reading program has been used on occasions when its lessons seem to be appropriately in conjunction with the work being covered at that time in the seventh grade.

Needless to say, we feel that our use of educational TV has greatly increased the quality of our educational offerings in each grade. The time spent is reasonable, ranging from an hour per week to an hour per month for each program. Intensive follow-up work is usually carried on in class between programs. We feel that

great benefits are gained for the periods of time that are used. To make possible our increased use of this media, a second TV set was provided for our building.

### SPECIAL INSTRUCTION

We are exceptionally fortunate to be as well staffed as we are in the area of special instruction. We have been provided with the services of four special instructors this year.

Again we are utilizing the Rinehart writing program in our school. The program is conducted by the classroom teachers under the supervision of Mr. Matava, a very efficient and capable Rinehart representative, who provides a monthly rating and instructional lesson for each class. Very definite improvement has been noticed in the quality of the student's handwriting under the aegis of this program.

Mrs. Elizabeth Watman is supervising our vocal music program, spending one day per week at our building providing very enriching and satisfying experiences for our pupils in this area.

Mrs. Dorothy Bassett is again supervising our instrumental music program, spending about a day at our building and working again with some of our students at the High School in their capacities as members of the school band. She is providing our pupils with very capable instruction in this area.

A new service offered in our schools this year in the area of special instruction has been remedial reading, under the guidance of Mrs. Leona Haskell. This has become one of the most important and successful improvements which has been made to our educational program for many years. Under this program pupils who are known to have the requisite innate ability to become good readers, but who have failed to do so for any of many possible reasons, are given special attention and specialized instruction by Mrs. Haskell, who has special training and experience in this area, so that they may become the type of proficient readers that is more in keeping with their actual abilities. The most heartening and rewarding aspect of this program has

been the very definite, noticeable improvement in the reading skills and comprehension of the pupils who have participated in the program, as pointed out so poignantly by their teachers in reference to their improved reading in class and to the better grades which are its effect. The program has been and should continue to be very successful and very important.

### **U.S. SAVINGS STAMP AND BOND PROJECT**

The U. S. Savings Stamp and Bond Project has been continued this year and continues to enjoy great success, with the pupils investing about \$30 per week under this program. The program is almost entirely student-operated this year, so pupils are making additional gains in developing their sense of responsibility and service.

### **ACTIVITY PERIOD**

The student activities sponsored by our Activity Period have been carried out again this year. Such activities include: Art Club, Cheerleading, Dramatics Club, Library Club, Music Club, Newspaper Club, Sewing Club and Square Dance Club. This program provides the educationally desirable exploratory activities which professional educators say are needed by youth before they begin to specialize in high school and college.

### **INSURANCE**

Our students were again provided with an opportunity to participate in an inexpensive group accident insurance plan. A total of 137 pupils took advantage of the program.

### **PHYSICAL EDUCATION**

Because of a lack of staff, time and funds our physical education program is a rather limited one. However, we do try to provide some instruction and activity in this area. A program of inter-mural and intra-mural sports has been organized on a rather informal basis.

The inter-mural program consists of a winter pro-

gram in basketball, the boys playing teams from about five neighboring schools, and the girls playing one or two such teams.

The intra-mural program is carried on during fall, winter and spring on a once a week basis. Volleyball, basketball, calisthenics and softball are provided. A booklet designed by President Kennedy's Council on Youth Fitness has served as the basis of a program in calisthenics during the winter months.

At this time I would like to express to the town of Farmington, to the School Board, to Mr. Martineau and his staff, and to my excellent and dedicated staff, a sincere expression of appreciation for all that has been done to make this year an enjoyable and successful one.

Respectfully submitted,

DAVID C. ROBERTS, Principal  
Main Street School

---

## REPORT OF GUIDANCE DIRECTOR

To the Superintendent of Schools:

I herewith submit my annual report of the Guidance Department of Farmington High School

### Philosophy and Objective of the Guidance Department

The development of educational thought and philosophy in recent years has added many important factors to be considered in the learning process. Among the most significant contributions to the improvement of the educational program are the great strides which have been made in the discovery of important knowledge concerning the emotional growth and development of children and how learning takes place. The guidance point of view in education may be considered as an educational attitude which is aimed towards the **NEEDS OF INDIVIDUAL PUPILS** in the school. It considers each child as a unique human being with

varying adjustment needs which must be satisfied by all the forces concentrating on the best methods available to promote his maximum development and welfare.

Guidance as a point of view is much broader than good classroom teaching for it encompasses all those functions which are necessary to meet the varied needs of individual students. It recognizes that no one teacher can satisfy all of the needs of students because of individual differences which may vary according to personality traits, and biological and social forces. It is the thesis and the objective of this department to help the individual to adjust to himself and to society, to become a well adjusted and integrated individual able to take his place in society and apply what he has learned and experienced.

The belief of the importance of guidance to education has recently become of great importance to those who represent us and who have attempted to take a useful and serious look at educational policy. In the widely quoted report of education established under the Rockefeller Brothers Fund, "The Pursuit of Excellence," we find these words:

"The identification of talent is no more than the first step. It should be only part of a strong guidance program. The word guidance has a variety of meanings. We use it here to mean advice concerning the young person's educational problems and the most appropriate course of study for him. It cannot be emphasized too strongly that such guidance is essential to the success of the system. As many teachers as possible should be trained to take part in it. As many schools as possible should have special guidance officers to supplement the teachers where greater technical knowledge is required."

Hence to assist in this identification and evaluation of the talented student and to provide for the services which are needed to help facilitate the adequate development of all students, the National Defense Education Act was passed. Public Law 85-864 of this Act gave grants to state agencies to assist them to establish, develop, and maintain, programs of Counseling and Testing.

## THE FACTS AND FIGURES

The organization of the guidance program emphasizes the development of each child to the fullest extent of his potentialities—educationally, vocationally, personally, and socially in the following ways.

### (1) Counseling Service

An average of 250 students per month are seen privately on an individual basis, periodically, for time intervals between fifteen minutes and one hour or more depending on the needs of the student. Some of the following reasons are:

1. problems in classwork
2. social problems
3. personal problems
4. college selection and application
5. vocational aspirations and plans
6. adjustment problems
7. to obtain information

The student is encouraged to work the problems out self-directively with the advice, understanding and support of the counselor.

### (2) Testing Service

More should be known about students and more use should be made of what is known. The testing program is aimed at the identification of talent and the evaluation of students in order to denote strengths and weaknesses of aptitudes, abilities, and achievements and provide recommendations for remedial measures. This is also of major value in facilitating the placement of the individual in the curriculum. Tests are statistically analyzed and compared with national norms.

The following standardized tests are administered and available:

1. Differential Aptitude Test.
2. California Short Form Test of Mental Maturity.
3. Preliminary Scholastic Aptitude Test (Preliminary College Boards).

4. National Merit Scholarship Test.
5. Kuder Preference Vocational Record (Interest Test).
6. Science Research Associates Reading Record.
7. SRA Clerical Aptitude Test.
8. Pintner General Ability Test.
9. Metropolitan Achievement Test.
10. School and College Ability Test.
11. Cooperative English Test.
12. SRA Mechanical Aptitudes Test.
13. American College Testing program.
14. College Entrance Examination Boards.

### **(3) Parent Conference**

This year a program of Counselor-Parent Conferences has been initiated to enhance greater understanding and appreciation of the individual student and his needs and problems. The Guidance Office is open every Thursday evening from 7:30-9:00 p.m. for parents who wish to discuss their children's educational needs and to promote closer harmony between the home and school. The guidance counselor is available at any time for those parents who are unable to confer on Thursday evenings.

### **(4) Regional Conferences Attended by Guidance Director.**

To maintain the professional status of our school the guidance department has participated in the following regional and area conferences.

1. New England Guidance Directors Conference in Boston, Mass.
2. Conference of the Midwest College Council in Boston, Mass.
3. Seacoast Guidance Directors Conference in Portsmouth, N. H.
4. UNH Invitational Guidance Directors Conference at New England College in Henniker, N. H.
5. NH State 8th Grade Testing Program Conference in Concord, N. H.

6. New Hampshire Guidance Council Conference in Concord, N. H.

### **(5) College Representatives**

Opportunities to meet with college admission officers are provided under guidance services. The following colleges have been represented at our school this year.

1. University of New Hampshire.
2. Burdett College
3. Nasson College
4. Fisher Jr. College
5. New Hampshire College of Accounting and Commerce.

Arrangements for students to visit colleges are also made. This year the seniors interested in business and the commercial fields visited McIntosh business school, and one of our students was a guest of the engineering department at the University of New Hampshire.

### **(6) Informational Materials on Colleges and Occupations.**

The guidance services here at Farmington provide for the following types of information in detail:

1. Information is available concerning current educational opportunities and requirements of schools beyond high school. We have on file over 300 bulletins from various Universities, Colleges and Technical Schools in the United States.
2. Information is available concerning current occupational opportunities, requirements, rewards and conditions of work. We have two kits of career information consisting of about 400 pamphlets and about 300 occupational briefs.
3. Current information is available and on file regarding scholarships, loans and financial assistance and is made known to those who desire further education.

### (7) Group Guidance Lectures and Discussions

Grades 8 and 9 meet once a week for one hour class periods for the following reasons:

a. To impart information and provide opportunities for students to discuss problems and issues related to their scholastic and vocational plans and choices and to their personal and social lives.

b. To give students opportunities to learn to accept responsibilities for their own learning in group situations and to develop positive attitudes and ideals.

Respectfully submitted,

D. PETER ANTONOPLOS  
Guidance Director

### SCHOOL NURSE'S REPORT

To The Townspeople, School Board, and Superintendent of Schools:

The incidence of communicable diseases during the last school year 1960 to 1961 was high.

The cases reported to me were as follows:

Chicken-pox	Epidemic
Measles	Epidemic
Mumps	Four
Impetigo	Seventeen
Infectious Hepetitis	Seventeen

The annoying incidence of pediculosis (head lice) totaled sixty-three throughout the school year; about the same as last year and, I feel that number is still too high for this day and age of living. In all cases this condition was reported to the parents and the child was excluded from school. In some cases prompt and correct treatment was carried out by the parents. However, in other cases the treatment was not carried out correctly or else there was a lack of interest and the child missed much time from school.

There were three students transported to Rochester to the Orthopedic Clinic at one time or another throughout the school year.

There were six students plus the staff at the two schools which visited the Chest Mobile Unit in town February 8, 1961.

There were two Polio Clinics held last year. First clinic for booster and first polio shot had five-hundred and fifty-two students attending. At the second clinic for second polio shots fifty-two students attended.

There were four students who received physiotherapy treatment at the clinic held during the school year. Miss Mary Bullock, R.N., State Physiotherapist gave care and instructions at the clinic.

The usual health or physical examinations were carried out by the school physician, Dr. Robert Lord. Five-hundred and seventy-four students were examined. Whenever it was noted that there was an abnormal condition existing in any pupil, the parents were notified and advised to consult their family physician. Minor defects were promptly treated.

Hearing tests with the Maico Audiometer were done throughout the school year to help the students. Vision testing was administered to check defective vision in students. The parents were notified and advised to consult their family physician or optometrists if any defects were found in the vision or hearing of a student.

No child needs to go without glasses because financial assistance is available in obtaining proper diagnosis and corrective treatment. This usually can be arranged by me (school nurse) through various organizations.

The Pre-School Round-Up was held May 8 - 9 - 10, 1961. Sixty-five children were registered at the clinic to start school in September 1961. Each child was weighed, measured, had a hearing test, vision test and their teeth checked. The history of the child was taken at the round-up also.

During the school year one-hundred and eighty ill

children were transported home. PLEASE, if parents work, be sure the school nurse or the office knows where the child is to be taken in case of illness in school and who is to be notified in an emergency.

Sixty-seven children were transported to the doctors during the school year and four-hundred and sixty home visits were made by the school nurse during 1960-1961.

In concluding this report it is a privilege to mention the cooperation of the following service organizations and groups who have helped in many ways and many times. Kiwanis, Salvation Army, Red Cross, Farmington Woman's Club, Ladies Church Service Organizations, Arts and Craft Club, American Legion and private parties. These groups and organizations are continuously serving in providing suitable clothing, dental and vision aids and are helping to build a better foundation for a thriving healthy community in which we live.

Following is the statistical report of the health work for the 1960-1961 school year:

Pupils examined by physician	574
Pupils inspected by nurse	429
Defects found by nurse	122
Defects under treatment	107
Inspection of heads	2239
Inspection of eyes (hepetitis)	4510
First Aid	592
Polio Shots given	604
X-rays	46
Home Visits	460
School Visits	421

Respectfully submitted

MRS. R. N. FEENY, R.N.

School Nurse
