STATEMENT BY SELECTMEN

We, the Selectmen of the Town of Farmington, herewith submit our annual report for the year, 1960, for your consideration.

We would first call your attention to the Financial Report. You will note in this report that we ended our fiscal year with a Net Surplus of better than \$18,000.00 We would like briefly to explain whereby this surplus was made possible. If you will further note in the detail of payments you will see that in each and every department with two exceptions we closed our year with an unexpended balance in these departments. In our bookkeeping procedure these balances are closed into the Surplus or Debt account, thereby resulting in a substantial surplus for the year. We know that this was all made possible by the close supervision by this Board of the operation and expenditures of the several departments together with the combined efforts of the personnel of each department to give the maximum of service at a minimum of expense.

In the case of estimated revenues and credits, it was our purpose at the beginning of the year to make conservative estimates yet substantial enough to appreciably decrease the net amount to be raised by taxation. Despite our conservatism you will note that in each case our revenues and incomes were in excess of our estimates. Here again the Surplus or Debt account was benefited by these net gains in income. It was these factors as outlined above that made this substantial surplus possible.

Bearing in mind that expenses and costs of operation of our department is showing gradual increase as it is with the individual taxpayer's personal expenses, we have submitted this net surplus amount in our budget and are asking for your authorization to use this amount to help defray the expenses of government for the year 1961. We feel that by utilizing this amount we can decrease the net amount to be raised by taxation which will benefit the individual taxpayer and will have a strong bearing on holding our present tax rate and may possibly help toward a decrease of rate.

In the matter of special projects which we did during

the past year, we would mention the work which had been done on Orange St. With the money appropriated from the Parking Meter Reserve we were able to do the proposed work in this street, and with the balance that was left it is our intention to finish the work with a coat of sealer this year.

With the \$1,000.00 appropriation from the parking meter income, we resurfaced many of the sidewalks and we particularly draw your attention to the work done on the sidewalk on Grove St. to the corner of Church St. and continuing up Church St. as far as the home of Percy York. With the same appropriation we were also able to resurface the Spring St. sidewalk as far as Eli Clough's. With time and funds permitting we repaired many other bad spots and areas on other walks in the compact area of the town.

We have submitted a request for an appropriation of \$1,000.00 for the maintenance of the Cochecho River Flood Control Project. It is the policy of the Federal Government to require the local communities to maintain at their own expense any flood control project that has been completed by the government. This maintenance consists primarily of seeding, mowing the banks together with the maintenance of the sand bars and all other general maintenance. This work is necessary in order to meet the approval of the annual inspection which is made by the government each year. Because it is an added cost, we ask for this special appropriation, for it is the opinion of this Board that the appropriation for summer maintenance could not meet this added expense.

It is our intent to continue our summer maintenance program the same as has been done in the past. This work would consist primarily of replacing culvert and the installation of any new culvert that would be deemed necessary. We would also continue the policy of tarring as many of the streets in the town as funds will allow. The yearly continuation of this type of work will result in better roads, sidewalks and drainage and will eventually relieve the burden of heavy expenditures in this department.

Under our TRA program, it is our hope to use the unexpended balance of the 1960 appropriation together with the appropriation of this year to start improvement of North Main St. near the home of Ira Brown and continue toward the

BUDGET FOR FARMINGTON

SOURCES OF REVENUE

TOWN WARRANT

THE STATE OF NEW HAMPSHIRE

*To the Inhabitants of the Town of Farmington, qualified
to vote in town affairs:*

You are hereby notified to meet at the town hall in said Farmington on Tuesday, the 14th day of March, next, at nine o'clock in the forenoon, to act on the following subjects:

Article 1. To choose one selectman for three years, a town clerk, a town treasurer, two auditors, a trustee of the trust funds for three years, three budget committee members for three years, and all other necessary officers and agents for the ensuing year.

You are also notified to meet at the said town hall at seven o'clock in the afternoon on the same date, to act on the following subjects:

Article 2. To see what sum of money the town will vote to raise and appropriate to defray the expenses of general government as defined in the budget.

Article 3. To see what sum of money the town will vote to raise and appropriate for the police department.

Article 4. To see what sum of money the town will vote to raise and appropriate for fire protection.

Article 5. (By request) To see if the town will vote to raise and appropriate the sum of \$1,800.00 to be applied to the payments for services of a district nurse of said town, said funds to be disbursed

through the Farmington Visiting Nurse Association, Inc.

Article 6. To see what sum of money the town will vote to raise and appropriate for the health department.

Article 7. To see what sum of money the town will vote to raise and appropriate to vital statistics.

Article 8. (By request) To see if the town will vote to raise and appropriate the sum of \$200.00 to be used in cooperation with State and Federal funds for the control of White Pine Blister Rust within the confines of the town.

Article 9. To see if the town will vote to authorize the Selectmen to transfer from the Net Surplus the sum of \$12,000.00 to be used for summer maintenance of highways and bridges.

Article 10. To see if the town will vote to raise and appropriate the sum of \$3,000.00 for winter maintenance of highways and bridges; and to authorize the Selectmen to transfer from the Net Surplus the sum of \$6,000.00 to also be applied for winter maintenance of highways and bridges.

Article 11. To see what sum of money the town will vote to raise and appropriate for the general expenses of the highway department.

Article 12. To see if the town will vote to raise and appropriate the sum of \$1,000.00 for the maintenance of the Cocheco River Project.

Article 13. To see if the town will vote to raise and appropriate the sum of \$936.32 in order to assure state aid in the amount of \$6,242.15 for improvement of Class V highways.

Article 14. (By request) To see if the town will vote

to raise and appropriate the sum of \$2,500.00 for the Farmington Public Library Association.

Article 15. To see what sum of money the town will vote to raise and appropriate for old age assistance, town poor and soldiers' aid.

Article 16. To see what sum of money the town will vote to raise and appropriate to Clarence L. Perkins Post, No. 60, American Legion, to be used for Memorial Day observance.

Article 17. To see what sum of money the town will vote to raise and appropriate for the care of parks and playgrounds.

Article 18. To see if the town will vote to authorize the Selectmen to transfer to the Net Surplus the unexpended appropriation of \$800.00 which was voted under Article 16, Town Warrant of March, 1959 for the construction of a permanent bandstand at Fernald Park; plans for this construction now having been abandoned.

Article 19. To see what sum of money the town will vote to raise and appropriate for employees' retirement and social security.

Article 20. (By request) To see what sum of money the town will vote to raise and appropriate for civil defense.

Article 21. To see if the town will vote to authorize the Selectmen to hire such sums of money as may be necessary in anticipation of taxes.

Article 22. To see what purpose or purposes the town will vote to appropriate the balance of the parking meter fund not otherwise earmarked and the income over and above the maintenance expenses, in accordance with the provisions of Laws of 1947, Chapter 74, Section 2.

Article 23. (By request) To see if the town will vote to discontinue as an open highway, subject to gates and bars, that portion of the old Trotting Track road, so-called, that extends in a northerly direction from the stone wall at the southerly boundary of land of Raymond Cardinal to its exit on Spring St., and being more or less parallel to the newly constructed by-pass leading to New Durham, said road not having been maintained by the town for five successive years and not leading to any public waters.

Article 24. (By request) To see if the town will vote to accept as a town road that street which starts at Main Street at a point opposite the Modern Heel Company factory and runs westerly, parallel with Union Street and which is commonly called Smith's Court, said street to be designated as Smith's Court if accepted.

Article 25. (By request) To see if the town will vote to construct a public road extending from the dead end of Courtland Street Extension by land of Clarence Smith, in a westerly direction for approximately 400 feet to the east boundary of land of the Farmington School District, the site of the proposed road being on land owned by the Town of Farmington at the present time.

Given under our hand and seal this 24th day of February, 1961.

FIRE WARDEN'S REPORT

PREVENTION IS YOUR BUSINESS

by Robert W. Smith
(District Chief)

Carelessness, HUMAN CARELESSNESS, causes 9 out of 10 forest fires. Each year 200,000 fires burn over 30 million acres in the United States. This represents 5 percent of our nation's woodlands being wasted each

year. Every fire takes its toll. Floods follow; stream flow is affected; timber, buildings, grazing and wildlife are destroyed—all because MANY are CARELESS with fire in and near woodland. This can be remedied. YOU can put an end to this shameful waste! PREVENTION is YOUR business!

YOU, whether YOU be a farmer, homemaker, business or professional man or woman, municipal, state or federal official, clerk or woodsman can play an important part in the continuing and vital prevention program.

First—by setting a good example YOURSELF — being sensible and complying with the necessary laws and regulations governing the use of fire in and near woodlands.

Second—by using YOUR individual influence in your community and valued council with others in insisting and encouraging them to do likewise.

The following simple rules may be used as a guide both for you and for them.

1. Before burning, secure a permit from your local forest fire warden—the law requires it.
2. Be sure to properly supervise your burning—don't leave it.
3. Make certain your fire, camp or debris, is DEAD OUT before leaving it.
4. Don't throw down lighted matches, cigars and cigarettes or from moving vehicles—make sure they are out—use your ash tray.
5. Don't burn at home—use your town dump and save yourself much possible difficulty, both personal and financial.

Number of local fires	0
Number of acres burned	0
Number of permits issued	58

HEALTH OFFICER'S REPORT

December 31, 1960

Everyone should consider themselves a citizen-member of the Health Department. Observe the axiom of Law and Good Citizenship: "So use your own as not to injure others." This applies in self-preservation and extends to family responsibility in sanitation and its relation to community health. The unrelenting urge for citizen-cooperation which, in effect, goes beyond organized or official effort in accomplishing better health status, is noted in Farmington. It is a compliment to good citizenship and is shared by all.

The ramification of health work in meeting standards are many; too many to be detailed in this report. However, primarily, patients ill, or suspected of being ill with a communicable disease, should be segregated—HAVE A DOCTOR. Physical nuisances should be reported to the health officer for his assistance at all times. clean and enviable town, the cooperation of all citizens, physicians, schools, town officials, protective agencies,

In pursuit of united effort for Farmington to be a the press, the state department and District Chief Kenneth Gunn are hereby gratefully acknowledged.

FOLLOWING ARE THE STATISTICS:

Miscellaneous complaints investigated, 311; hear-

ings, 0; prosecutions, 0; complaints outstanding (physical difficulty), 2; polio, 0; scarlet fever, 5; strep and septic throats, 29; mumps, 4; venereal diseases, 2; occupational diseases, 3; measles, 11; chicken pox, 17; tuberculosis (hospital releases) 2; pneumonia (all types), 12; board, foster care and convalescent homes, 9; restaurant inspections, 9; barber shops, 2; label violations, 1; improper display of foods and edibles, 1; dairy inspections, 5; quarantine for communicable diseases, 2; dog bite cases, 29; disposal dead animals, 37; collection of dairy products, foods, (open and packaged), 7; assists in state-supervised sanitation inspections, 4; sewage disposal violations, 7; food poisoning inspection, 1; trench mouth, 1. With the exception of the two complaints above noted, all cases were cleared, as of the close of the fiscal year. Revaccination certificates, 3; conferences with superiors, 19.

N. B. Seven of the cases of reportable diseases were local patients treated by out of town physicians.

Respectfully submitted,
 CARL B. CANNEY
 Health Officer

REPORT OF AUDITORS

AUDITORS' CERTIFICATE

We hereby certify that we have examined the accounts of the selectmen, tax collector, town clerk, town treasurer, trustees of the trust funds and municipal court, have compared their several accounts, vouchers and bank statement of funds on deposit and find these accounts in agreement and believe these reports to be a true account of the town business for the year ending December 31, 1960

ARTHUR G. WEBSTER,
BARBARA JENNESS,

Auditors of the town of Farmington

February 18, 1961

Continued from Page 5

New Durham town line as far as the funds available will allow. We also contemplate putting a seal coat on the Watson Cross Rd. which will complete the work which was done on this road under TRA funds voted at our last annual town meeting.

We would like particularly, to elaborate on the three welfare departments in which aid is given to those in need. Under the old age assistance program, we were again fortunate to meet all needs for the aged and still be able to stay within our budget. Despite the unexpended balance we continue to feel that no deduction should be made in this appropriation as the same needs continue and we can not guarantee that there will be a decrease nor can we be assured that there will be no increase in applications for this assistance.

Under our direct relief programs, ie: town poor and soldiers' aid, we were again fortunate in being able to meet each and every individual need for assistance and yet not over-expend our appropriation. Particularly in the cases under town poor, many of the cases were for assistance on a temporary basis and were not a continual expense to the town. Because of this situation, we feel that if the same pattern holds true for this year, we are reasonably safe in asking for a decrease in appropriation for this year yet financially in a position to continue to meet every requirement of the needy as it is brought to our attention.

We would like to extend to the State Department of Public Welfare, the County Commissioners and the personnel of these departments our appreciation for their cooperation and assistance which was a large factor in determining the efficiency of these departments resulting in the savings of many dollars for the town yet allowing the town to meet its every legal and financial responsibility.

In concluding, we express our appreciation to the townspeople for their consideration and understanding of the problems and operation of our local government. This appreciation of the problems has been of great assistance to us during the past year as we have tried to operate our affairs for the best interest of all.

FRANK W. LORD

ERNEST J. KELLEY

WARRANT

for SCHOOL DISTRICT MEETING

To the inhabitants of the School District in the town of Farmington, New Hampshire, qualified to vote in district affairs:

You are hereby notified to meet at the Town Hall in said town on the 22nd day of March, 1960 at 7:30 o'clock in the afternoon to act upon the following subjects.

Article 1. To choose a moderator for the coming year.

Article 2. To choose a clerk for the ensuing year.

Article 3. To choose a treasurer for the ensuing year.

Article 4. To choose a member of the school board for the ensuing three years.

Article 5. To determine and appoint the salaries of the school board and truant officers, and fix the compensation of any other officers, or agents of the district.

Article 6. To hear the report of agents, auditors, committees, or officers heretofore chosen and pass any vote relating thereto.

Article 7. To choose agents, auditors and committees in relation to any subject embraced in this warrant.

Article 8. To see what sum of money the district will raise and appropriate for the support of schools, for the salaries of school district officials and agents, and for the payments of statutory obligations of the district, and to authorize the application against said appropriation of such sums as are estimated to be received from the state foundation aid fund together with other income; the school board to certify to the selectmen the balance between the estimated revenue and the appropriations, which balance is to be raised by taxes by the town.

Article 9. To see if the District will vote to authorize the School Board to convey to Charles DiPrizio for the sum of one dollar, or other acceptable consideration, a certain strip of land presently belonging to the School District and extending from the end of Park Drive in a northerly direction near land of James Goodall to the southerly boundary of land of Charles DiPrizio, being a distance of approximately four hundred (400) feet, said land to be used for highway purposes and to be sufficiently wide to qualify under the statutory requirements for a public highway, with the exact location area to be determined by the School Board. (By petition).

Article 10. To see if the District will vote to elect its officers by an official ballot, and to adopt a non partisan ballot system as provided in the Revised Statutes annotated, Chapter 59, Section 73, 79-86.

Article 11. To transact any other business as may legally come before said meeting.

Given under our hands and seal this 27th day of February, 1961.

THOMAS K. DAVENHALL,
ALEX C. HASKELL,
BEULAH THAYER,

REPORT OF SUPERINTENDENT OF SCHOOLS

To the School Board and Citizens of Farmington :

The New Farmington High School, although far from being completed, admitted 275 pupils from grades 8 to 12 inclusive, on September 7th, 1960, which was our regularly scheduled day of opening. This was made possible by the cooperation of the Titus Construction Co., the Farmington School Custodians, H. Woods, Builder & Decorator and the Farmington School Board, all of whom worked around the clock on Labor Day weekend.

Memorial Drive had an enrollment of 310 pupils in grades 1 to 4 inclusive. Principal Donald Drake, newly elected and replacing Richard Keith, was indoctrinated in the Farmington Public School system under conditions which were considered insurmountable by many. With the cooperation of the pupils and faculty, the "fait accompli" has now become history.

In the meantime, Principal David Roberts was facing a similar problem in moving into and organizing the South Main Street School with a total enrollment of 213 pupils of grades 5 to 7 inclusive. To become better informed with the excellent program offered to the youth of the community, please be sure to read the individual reports of Principals Drake and Roberts. Farmington should be justly proud of its educational facilities, staff and curriculum.

Each year it is necessary to reiterate the importance of retaining well qualified teachers. Therefore, with the adoption of a Teachers' Salary Schedule by the School Board, subject to the approval of the citizens at the next school district meeting, it will now be possible to have a planned program of salary increases, thereby, retaining our experienced teachers and enticing new teachers to remain and possibly settle in our community. Reducing the teacher turnover to a minimum will insure a better education for the youth of the community.

Changes in personnel last September are indicated below :

Mr. Donald Drake replaced Richard Keith as High School Principal and Mrs. Doris Barnes as Memorial Drive Principal. Mrs. Barnes became Guidance Director.

Mrs. Helen Ferry replaced Mrs. Clarice Lougee in grade 2.

Miss Louise Nutter replaced Mrs. Lillian Spencer in grade 2.

Miss Constance Crosby replaced Mrs. Ruby Towle in grade 2.

Mrs. Helen Abbott replaced Mrs. Patricia Towle in grade 5.

Miss Kathleen Jackson replaced Miss Isabelle Hunt in Business Education.

Mrs. Frances Dunn replaced Mr. Walter Sundstrom in Mathematics.

Mr. Peter Paquette replaced Mr. Maurice Bernier in Science. (Mr. Bernier was given a leave of absence to continue advance study at the University of New Mexico.)

Miss Charlene Fletcher replaced Mrs. Gertrude McClintock in Home Ec. on Jan. 16, 1961.

Additional personnel added to the staff are as follows:

Mr. Thomas Watman, Social Studies.

Mr. Arthur Podaras, English and Math.

Mrs. Ardys Elliott was employed as part time secretary in the High School office to assist Principal Drake.

In submitting an annual report to the general public it is extremely difficult to review, in such limited space, all of the informative materials to which the citizens are entitled. Therefore, you are encouraged to visit your schools often.

May I take this time, to express my appreciation for the cooperation given me during the year by the citizens, school board, building committee, pupils and teachers of Farmington.

Respectfully submitted,

RAMON MARTINEAU,

Superintendent of Schools

REPORT OF THE HIGH SCHOOL PRINCIPAL

To the Superintendent of Schools:

I herewith submit my annual report for Farmington High School and Memorial Drive School.

On the opening day of school our enrollment, by grade, was as follows:

Grade	Boys	Girls	Total
1	44	40	84
2	47	28	75
3	46	40	86
4	36	29	65
8	39	37	76
9	43	39	82
10	19	26	45
11	11	24	35
12	11	25	36
P. G.	1		1
Total Elementary			310
Total Jr. and Sr. High			275
GRAND TOTAL			585

The pupils and faculty of the high school are to be commended for their enduring patience under the quite trying circumstances of construction being carried on during school sessions.

At the present time only minor jobs stand to be completed and these consist largely of painting.

The language laboratory, consisting of fifteen units has already proved to be most helpful. In school systems where these units have been in use, results show marked improvement in learning. In this connection, I recommend the addition of nine more units as indicated by enrollment figures.

In mid-November our lunchroom began to operate and averaged three hundred meals daily. In order to feed this number of pupils, it was necessary to take time away from the activity period originally planned to provide opportunity for extracurricular activities. This resulted in inadequate time for club meetings, so the program

was dropped and high school pupils were allowed to go home for the noon meal. Mrs. Richardson is still feeding an average of two hundred forty pupils daily.

It is indeed encouraging to have so many of our pupils taking courses in the field of mathematics and science as well as foreign language. There are currently sixty pupils taking elective mathematics which includes Algebra, Geometry and Trigonometry only. Forty upper-classmen are enrolled in various sciences as well as in French. This year, all pupils in the high school are enrolled in English or Public Speaking, thus strengthening our curriculum.

Our more capable students must be encouraged to study in these areas I have mentioned because of the greater demands being made on all of us today.

Two boys in our present junior class studied in the Advanced Studies Program at St. Paul's School during the past summer. The same two boys have had an opportunity to apply again for the program this coming summer.

This year, for the first time, girls will be admitted to the Advanced Studies Program and again our junior class has two who have the opportunity.

Our four pupils will be given consideration by St. Paul's because of their high scores on the statewide testing program. Needless to say, we are proud of them.

This year Farmington High School has a guidance program for the first time. Doris Barnes works with the eighth and ninth grades in classes, but works with all pupils through individual conferences. The purpose of this program is to help pupils to become familiar with and to choose occupations, as well as to prepare themselves in the best manner for higher education.

I believe that we are already feeling the benefits of Mrs. Barnes' work, as indicated by the interest of so many of our pupils in our program.

During the Christmas vacation, we were sorry to learn of the resignation of Mrs. Gertrude McClintock, Home Economics Teacher. Miss Charlene Fletcher replaced Mrs. McClintock on January 16, 1961.

Student organizations have been rather active this year despite the lack of facilities in the early part of the year. The following is a list of student organizations which are currently formed:

Organization	Advisor
Art Club	Doris Barnes
Arts and Crafts	Charlene Fletcher
Band	Dorothy Bassett
Cheerleaders	Kathleen Jackson
Cheerleaders, J. V.	Margaret Cooney
Chorus	Arthur Mirabile
Dramatic Club	Cynthia Perkins
Future Teachers	Doris Barnes
Key Club	Peter Paquette
Library Council	Lillian Emerson
Science Club	Kathleen Jackson
School Paper	Thomas Watman
Year Book	Peter Paquette

All pupils who entered Grade 1 in September were given the Metropolitan Reading Readiness Test as a means of assisting us in placing the pupils in groups of approximately their own ability. Because most of the children took these tests before the opening day, it provided the opportunity for both pupil and parent to see the school and to meet the first grade teachers.

Our elementary enrollment has increased from 310 on opening day to 326 just prior to Christmas vacation. This has made some bulges which I did not expect and has strained our furniture supply to the very limit.

I am pleased to report that some of the elementary teachers are making use of television broadcasts available from Channel 11. These programs, in the fields of Science, Social Studies and Music, supplement an already fine curriculum in our early grades.

The teachers already are giving tests developed by the Scott Foresman Company in connection with the reading program developed in recent years, and are laying plans for annual standardized achievement tests.

Respectfully submitted,

DONALD P. DRAKE,
Principal

ELEMENTARY PRINCIPAL'S REPORT

To the Superintendent of Schools:

MAIN STREET SCHOOL

As all of the citizens of Farmington realize, the year 1960 was a memorable one for the school system. Not only did that year mark the opening of Farmington's new high school, one of the finest and most modern of its kind in this area, but it also saw the closing of two long-outmoded and, in many ways, inadequate school buildings. Both the Glen Street and the School Street schools had served their purpose long and well, but that fact notwithstanding, they both had, many years previously, ceased to be wholly adequate—becoming inadequate in space as the town grew and inadequate in facilities as concepts of education grew.

It was, therefore, with some pleasure and anticipation that the staffs of these two schools were combined and provided with new quarters at the old high school building on South Main Street. With this one move the potential of our elementary educational program was greatly enhanced, for we now had a building with not only adequate space for our classroom needs, but also for some of the special services that should be a part of modern elementary education. Therefore, the greatest single event in the school year, for us, has been the transfer to our new location, now known as the Main St. School.

STAFF

Our school has indeed been favorably blessed with a very fine staff. Not only are we fortunate to have some of Farmington's more experienced teachers, who have long since proved their dedication and capabilities, but so have the newer members of our staff proved to be dedicated and exceptionally capable. The fine spirit of harmony and cooperation that exists among the staff has aided greatly in producing the excellent results that have been achieved in both the regular classroom work and in our various extra-curricula activities.

School opened September 7 with the following teachers on the staff:

Grade 5—Miss Florence Stevens, Mrs. Helen Abbott

Grade 6—Mrs. Izola Batchelder, Mr. Frank Muggleston

Grade 7—Mrs. Vera Maxfield, Mrs. Barbara Spear
Mr. David Roberts

The seventh grade has operated under a departmentalized system, with the dual purpose of familiarizing the students with soon-to-be-experienced secondary school practices, and to provide a high quality of instruction with each teacher concentrating his effort on the subject fields in which he is most talented. Mrs. Maxfield has handled English and Reading, Mrs. Spear has been teaching Social Studies and Spelling, and Mr. Roberts has handled Science and Math.

ENROLLMENT

At school's beginning the enrollment was as follows: Grade 5—59 pupils; Grade 6—59; Grade 7—95. This constituted a total of 213. Since that time we have had a net gain of 13 pupils. The figures therefore stand as follows: Grade 5—63 pupils; Grade 6—64; Grade 7—99. Our total enrollment now stands at 226 pupils.

CHANGES OR IMPROVEMENTS

As previously stated, the most important changes or improvements in the educational program of grades 5-7 have come about primarily as a result of our moving to our "new" building. Some very important improvements and additions have been made to our program as a result of the extra facilities offered at our new location.

Preparatory to our moving in, several modifications were made to the building itself in order to convert it from a secondary to an elementary school. This involved such things as transferring the fluorescent lighting at Glen St. School to several of the rooms at our new location which did not have this lighting, remodeling the science and Home Economics labs into elementary classrooms, installing elementary furniture and equipment

from the abandoned schools and remodeling the classroom-auditorium so that it could be used for whole-school activities at appropriate times.

Among the more important improvements to our program which were made possible due to the advantages of our new location are the following :

1. A new library, remodeled from the old high school business room (a room too small for a regular elementary classroom, but about right as a library for a school our size). In past years each classroom in the two schools has had a rather limited library within its room. This system was unfortunate and inefficient in that it made it difficult and impractical to use the books that you wanted at the time that you wanted them. Now, by centralizing all of our library books in one area, cataloguing them and setting up a regular library system, the books we have will be made more available and easier to use for all who need them, and an added dividend will be earned—teaching the children about the operation and use of a modern library.

2. The school now has its own auditorium, capable of accommodating the entire student body for school-wide programs. We've utilized this feature on several occasions already, having witnessed programs presented by several of the clubs which were formed in the Activities Program which we inaugurated at Glen St. School last year. Thus, besides providing us with a convenient room in which to organize and develop a program in the auditorium arts, the Activities Program is strengthened by this added feature of our new location.

3. A health room, where the school nurse may administer to sick or injured pupils, conduct her health checks, etc., has been provided.

4. A teacher's room, where teachers may relax momentarily during off-duty periods, is also an added feature. In past years the nurse's room, teachers' room and office have been combined, often producing confusing and inefficient situations. Therefore the improvement in this area has been very desirable.

Our program in fifth grade science has been strengthened this year due to our use of the educational TV services offered by WENH-TV, New Hampshire's educational TV station. Some very exceptional programs in the field of natural science have aided greatly in providing color and enrichment to the regular science fare of our fifth grade classes. This area offers room for considerable expansion in the future, since the caliber and number of such TV programs is increasing in subject areas covering all of the grades.

The U. S. Savings Stamp and Bond Project has been continued this year and has grown in its success, with a larger per cent of students investing a greater amount of money each week. The pupils have been saving an average of \$50 per week under this program.

Some improvements have been made in our Activities Program which merit some mention, since this program provides the educationally desirable exploratory activities which professional educators say are needed by youth before they begin to specialize in high school and college. These fairly limited programs give pupils an opportunity to sample the offerings in various fields of human endeavor so that they may better know which fields it would seem best for them to concentrate on. We sponsor clubs which offer experiences in science, music, dramas, literature, art, foreign language and journalism. Many other advantages, too numerous to mention also accrue from this program.

INSURANCE

Our students were again provided with an opportunity to participate in an inexpensive group accident insurance plan. A total of 137 pupils took advantage of the program.

SPECIAL INSTRUCTION

We are fortunate again this year to be provided with the services of three special instructors. The Rinehart writing program is in effect in our school for the second year. This program is conducted jointly by the classroom teachers under the supervision of Mr. Matava, a most effi-

cient and capable Rinehart representative, who provides a monthly rating and an instructional lesson for our various classes. Excellent progress has definitely been noticed in this area under this program.

Mr. Arthur Mirabile is again supervising our vocal music program, spending one day per week at our building providing our pupils with very capable instruction in this area.

Our instrumental music program is operating effectively this year, again under the capable guidance of Mrs. Dorothy Bassett. An added feature this year which benefits these pupils concerns the use of the old wood-working shop as our instrumental classroom. In previous years it has been necessary for the children to leave school and walk to and from the Town Hall while participating in this program. Now, with a practice area available at the school, much classroom time that was previously wasted in traveling to and fro is more advantageously utilized.

PHYSICAL EDUCATION

Our physical education program remains pretty much the same as it has in the recent past. However, one minor change is worthy of note. The junior high school sports program which was organized and developed over two years ago has been developed a little further through the organization of a junior high school league, patterned after the high school's Southeastern League. A limited schedule of soccer in the fall and basketball in the winter have thus far been provided.

PROFESSIONAL ACTIVITIES

All of our teachers are members of the New Hampshire Education Association and several are members of the National Education Association. All of our teachers are also members of the Union No. 44 Teachers Association.

During the course of the year several of our teachers have made professional advancements through participation in education courses offered by institutions of higher learning in this locale.

At this point it seems appropriate to express my gratitude and appreciation to the Town of Farmington, to the School Board, to Mr. Martineau and his staff, and to my excellent and dedicated staff for the great spirit of cooperation and helpfulness that has existed and must exist between all of this educational team in the successful performance of our singular task of providing the youth of the community with a sound and modern education. The existence of this spirit this year has made the year a very enjoyable and successful one.

Respectfully submitted,

DAVID C. ROBERTS,

Principal

DIRECTOR OF GUIDANCE REPORT

The high school initiated this program new to your school under the National Defense Education Act of 1958 Title V (Guidance) subsidizing 50% for personnel salary, a state testing program, guidance library, materials and other equipment.

The following program has been in progress this year of 1960 and 1961:

A, Group Guidance in Grades 9 and 10

Each group meets once a week for a one hour class period, with these four purposes in mind:

- 1, To impart information not available in other group meetings.

- 2, To provide opportunities for the students to discuss problems and issues related to their educational and occupational plans and choices and to their personal and social lives.

- 3, To students opportunities to learn to accept responsibilities for their own learning in a group situation, to learn to work together as a means to achieve common goals and to practice democratic behavior.

4, To give them a chance to develop effective and satisfying impersonal relations that may aid them in adjusting to future experiences in a group living.

B, Tests

Our century has witnessed a nationwide effort to discover, through the applications of scientific procedures, the effect of education on the behavior of the learner. Many tests have been devised in an effort to appraise the various facets of a child's growth and development.

1, Achievement tests to help teachers diagnose individual strengths and weaknesses.

2, Mental ability tests to find the level at which a child can perform successfully.

3, Aptitude tests for pupils to discover their own power and abilities—A most important part in planning a life of work. Areas included in these tests are:

Abstract reasoning, verbal reasoning, numerical reasoning, clerical speed and accuracy, mechanical reasoning, language usage, space relations. The afore mentioned are the differential aptitude tests and are considered the best battery available providing good predictors of success.

4, An interest inventory, the Kuder preference record, from which pupils can make individual profiles of interests. This is valuable in that it helps the student decide in which areas he would be most successful because of interest shown.

5, ACT (American College Testing); PSAT (Preliminary Scholastic Aptitude Tests); NMSP (National Merit Scholarship Program) and College Boards are tests offered for students who plan to attend college. These are an expense to the pupil, therefore they did not apply. I obtained the Air Force Aptitude Test that was given free to all seniors.

C, Other aspects of the Guidance Program are the educational and occupational materials made available. We have two kits of career information consisting of about 300 pamphlets. We have catalogs from all the colleges and universities in New England.

D, Television

Your school will offer a careers program to the pupils interested in area given at a scheduled time from Channel 11 at UNH.

E, Armed Forces Program

All students can discover for themselves the extensive educational programs offered in all branches of the service. All five have visited our school.

F, Counseling

There are opportunities for counseling to all students who wish an interview concerning educational, vocational or personal needs. Counseling is both supplemented and complemented through group guidance procedures which are employed at times when there is common knowledge to be considered.

To assist persons in their growth toward optimum development—physically, educationally and psychologically is the goal of guidance work. This is done through maximum utilization of the services of all agencies and all aspects of the community's program for education, work and social activity.

Respectfully submitted,

DORIS C. BARNES

REPORT OF SCHOOL NURSE

To the Townspeople, School Board and Superintendent of Schools:

Last school year 1959 to 1960 the incidence of communicable disease was low. Cases reported to me were: chicken pox, two; measles, four; whooping cough, one; impetigo, seventeen; skin ringworm, five; scarlet fever, six; and bullus contagiosa, three.

The annoying incidence of pediculosis (head lice) totaled sixty-seven throughout the school year, not as high as last year but still too high in number for this day and age. In all cases this condition was reported to the parents and the child was excluded from school and

prompt treatment was carried out by the parents. However in some cases the treatment was not carried out correctly or else there was a lack of interest or means and the child missed a lot of time from school and other means had to be taken.

There were two students transported to Rochester to the Orthopedic Clinic at one time or another throughout the school year.

Patch Testing was done on three-hundred and eighty students. Seven children were transported to Rochester to the T. B. Clinic for X-Rays.

There were two Polio Clinics held last year. First clinic for third polio shots had thirty people attending it. The second clinic for third and fourth polio shots had one-hundred and fifty people attending it.

The usual health or physical examinations were carried out by the school physician Dr. Robert Lord. Four-hundred and forty nine students were examined. Whenever it was noted that there was an abnormal condition existing in any pupil the parents were notified and advised to consult their family physician. Minor defects were promptly treated.

Hearing tests with the Maico Audiometer were done throughout the school year to help the students, also vision tests were administered to check defective vision in students. The parents were notified and advised to consult their family physician or optometrists if any defects were found in the vision or hearing of a student.

No child needs to go without glasses because financial assistance is available in obtaining proper diagnosis and corrective treatment. This usually can be arranged by me (school nurse) through various organizations.

The Pre-School Roundup was held May 9, 10, and 11, 1960. Seventy-six children were registered at the clinic to start school in September 1960. Each child was weighed, measured, had a hearing and vision test and had their teeth checked. The history of the child was taken at the roundup also.

During the school year ninety-six ill children were transported home. PLEASE, if parents work be sure the school nurse or teacher knows where the child is to be

taken in case of illness in school and who is to be notified in an emergency.

Sixty-six children were transported to the doctors during the school year. Home visits made by the school nurse during the school year 1959 and 1960 were two hundred and seventy.

In concluding this report it is a privilege to mention the cooperation of the following service organizations and groups who have helped in many ways and many times. Kiwanis, Salvation Army, Red Cross, Farmington Woman's Club, Key Club, Ladies Church Service Organizations, Arts and Craft Club, American Legion and private parties. These groups and organizations are continuously serving in providing suitable clothing, dental, medical and vision aid and are helping to build a better foundation for a thriving healthy community in which we live. Remember through the efforts and understanding of these organizations it will insure a stronger America.

Following is the statistical report of the health work for the 1959-1960 school year.

Pupils examined by physician	449
Pupils inspected by nurse	536
Defects found	61
Defects under treatment	49
Inspection of heads	2097
Visits to homes	207
Visits to schools (4 schools)	507

Defects	Number	Number Under Treatment
Vision	47	34
Hearing	4	2
Skin	3	3
Scalp (heads)	67	67
Teeth	Many	Many
Tonsils	3	9 some from last year
Glands	1	0

Respectfully submitted,

MRS. R. N. FEENY, R. N.,
School Nurse-Teacher
