TOWN WARRANT

THE STATE OF NEW HAMPSHIRE

To the Inhabitants of the Town of Farmington, qualified to vote in town affairs:

You are hereby notified to meet at the Town Hall in said Farmington on Tuesday, the 12th day of March next, at nine o'clock in the forenoon, to act on the following subjects:

Article 1. To choose one selectman for three years, a town clerk, a town treasurer, two auditors, a trustee of the trust funds for three years, one budget committee member for two years and one budget committee member for one year and all other necessary officers and agents for the ensuing year.

You are also notified to meet at said Town Hall at seven o'clock in the afternoon on Wednesday, the 13th day of March, to act on the following subjects:

Article 2. To see what sum of money the town will vote to raise and appropriate to defray the expenses of the general government as defined in the budget.

Article 3. To see what sum of money the town will vote to raise and appropriate for the Police Department.

Article 4. To see what sum of money the town will vote to raise and appropriate for fire protection.

Article 5. To see what sum of money the town will vote to raise and appropriate for insurance for town employees.

Article 6. (By request) To see if the town will vote to raise and appropriate a sum not to exceed \$450.00 to maintain the Union Street skating rink.

Article 7. (By request) To see if the town will vote to raise and appropriate a sum not to exceed \$1,500.00 with which to provide

adequate court room facilities for the Farmington Municipal Court in accordance with the requirements of RSA 502:4-a (supp).

Article 8. To see if the town will vote to raise and appropriate a sum not to exceed \$1,000.00 for Civil Defense.

Article 9. (By request) To see if the town will vote to raise and appropriate the sum of \$1,800.00 to be applied to the payments for services of a district nurse of said town, said funds to be disbursed through the Farmington Visiting Nurse Association.

Article 10. To see what sum of money the town will vote to raise and appropriate for vital statistics.

Article 11. To see what sum of money the town will vote to raise and appropriate for the Health Department.

Article 12. To see what sum of money the town will raise and appropriate for summer and winter maintenance of highways and bridges and for the general expense of the Highway Department.

Article 13. To see if the town will vote to raise and appropriate the sum of \$1,151.01 in order to assure State Aid in the amount of \$7,673.38 for the improvement of Class V Highways.

Article 14. (By request) To see if the town will vote to raise and appropriate the sum of \$5,000.00 for the Farmington Public Library Association.

Article 15. To see what sum of money the town will vote to raise and appropriate for old age assistance, town poor and soldiers aid.

Article 16. To see what sum of money the town will vote to raise and appropriate to Clarence L. Perkins Post No. 60, American Legion, to be used for Memorial Day observance.

Article 17. To see what sum of money the town will vote to raise and appropriate for the care of parks and playgrounds.

Article 18. To see if the town will vote to raise and appropriate the sum of \$575.16 to pay balance due Sprague Brothers on Davidson contract.

Article 19. To see what sum of money the town will vote to raise and appropriate for the care or removal of dead trees located specifically on Town property.

Article 20. To see if the town will vote to authorize the Selectmen to hire such sums of moneys as may be necessary in anticipation of taxes.

Article 21. To see if the town will vote to raise and appropriate the sum of \$500.00 for the maintenance of the Cochecho River Project.

Article 22. To see if the town will vote to raise and appropriate the sum of \$1,315.77 to pay for water service at Davidson Rubber.

Article 23. To see if the town will vote to appropriate \$800,000 or any other sum of money approved by the town for the construction of a municipal sewage disposal system, including sewers, sewage interceptors, pumping station, treatment works, and other related facilities to meet the cost of abating pollution to its surfact waters as ordered by the New Hampshire Water Pollution Commission and to extend sewerage treatment to the compact area of said Town of Farmington, and for the acquisition of such land, easements and rights of way as may be required; to determine whether this appropriation will be raised by borrowing or otherwise; and to authorize the Selectmen to apply for and accept any Federal or State aid available for such purposes and to take all steps necessary to carry out this project. (By request)

Article 24. (By request) To see if the Town will vote to adopt the provisions of Chapter 252 of the Revised Statutes Annotated relative to the construction and maintenance of sewers and sewage treatment and disposal facilities in the Town.

Article 25. To see if the town will vote to raise and appropriate the sum of \$5,900.00 for the purchase of a new truck.

Article 26. To see if the Town will authorize a committee to be appointed by the Moderator, for the purpose of investigating the possibility of changing the boundaries of the Farmington Village Precinct by enlarging the same and, if found desirable,

to petition the Selectmen to change said boundaries, following the statutory procedure in such cases provided. (By request)

Article 27. (By petition) To see if the town will raise and appropriate a sum not to exceed \$27,500.00 for the purchase of a fire truck, being a combination pumper and tanker type vehicle, and to determine how said appropriation shall be raised, whether by taxation, borrowing or otherwise and if by borrowing, to authorize the issuance of serial notes upon the credit of the town and to further authorize the Selectmen to determine the terms and conditions upon which such serial notes shall be issued in accordance with RSA 33.

Article 28. (By petition) To see if the town will vote to have townwater run to the old Ira G. Fisher lot on Spring Street (from where it now ends on Spring Street).

Article 29. To see if the town will authorize the Selectmen, acting separately as a body or in cooperation with the Planning Board, to draft a building code of reasonable regulations for new construction under RSA 31 and report back to the voters for consideration in due course. (By request)

Article 30. To see if the town will vote to establish a Historic District in the Town for the preservation of structures and places of historical and architectural value within the Town and for that purpose to create a Historic District Commission to consist of seven members to serve without pay and, initially, to be appointed by the Moderator, but thereafter in later years to be appointed by the Selectmen, said Commission to prepare articles governing policy and procedural regulations for subsequent approval of the Town. (By request)

Article 31. To see if the Town will vote to authorize the Selectmen to accept the roadway leading easterly from Spring Street into the housing development of Charles DiPrizio & Sons, Inc. as a public town highway and to further authorize the Selectmen to determine the length, width, construction details, name and other details of said road in the interests of the town and report the same to the Town Clerk as required by statute. (By request)

Article 32. To see if the Town will vote to authorize the Select-

men to accept the roadway leading northerly from the Waldron Schoolhouse Road into the housing development of Charles Currier as a public town highway and to further authorize the Selectmen to determine the length, width, construction details, name and other details of said road in the interests of the town and report the same to the Town Clerk as required by statute. (By request)

Article 33. To see if the Town will vote to adopt the provisions of RSA 36-A for the creation of a Conservation Commission for the promotion and development of natural resources of the Town and the protection of its water shed resources, said Commission to consist of five members to be appointed by the Selectmen and to report their activities back to the voters. (By request)

Article 34. To see if the town will authorize the Board of Selectmen to appoint a committee which will help the town participate in a state-wide contest to improve the appearance of New Hampshire. (By Request)

Article 35. To hear reports from the Sewer Committee and Planning Board and to transact such other business as may legally come before this meeting.

Given under our hands and seals this 23rd day of February, 1968.

Barbara G. Drew, R.N.
Visiting Nurse, Farmington

FIRE WARDEN REPORT

After several successive years of drought, the rains of 1967 came as a welcome change. Our record of the past fire season is good. Our thanks to all who contributed to achieve this good record. Continued improvement in the matter of accurate, prompt detection and rapid effective suppression action can help to maintain this good, worthwhile record even though we do not have an abundance of rain as in the fire season of 1967.

It will help if we follow these simple suggestions:

1. No burning of debris and waste between the hours of 9:00 A.M. and 5:00 P.M. and then only with a written permit from the Forest Fire Warden.
2. Take debris and waste to the town dump.
3. Maintain a clean, safe dump.
4. Keep matches away from young children.
5. Be sure matches and smoking material are dead out when we discard them.
6. Set a good example for others in fire prevention.

SCHOOL WARRANT

THE STATE OF NEW HAMPSHIRE

To the Inhabitants of the School district in the town of Farmington qualified to vote in district affairs:

You are hereby notified to meet at the Town Hall in said district on the 12th day of March 1968, at 9:00 o'clock in the forenoon, to act upon the following subjects:

1. To choose a Moderator for the coming year.
2. To choose a Clerk for the ensuing year.
3. To choose a Member of the School Board for the ensuing three years.
- 3a. To choose a Member of the School Board for the ensuing year.
4. To choose a Treasurer for the ensuing year.
5. To choose Auditors, and all other necessary officers and agents for the ensuing year.

Given under our hands at said Farmington this 23rd day of February, 1968.

WARRANT

THE STATE OF NEW HAMPSHIRE

To the Inhabitants of the School district in the town of Farmington qualified to vote in district affairs:

You are hereby notified to meet at the Town Hall in said district on the 20th day of March 1968, at 7:30 o'clock in the afternoon, to act upon the following subjects:

1. To determine the appoint the salaries of the school board and truant officer, and fix the compensation of any other officers or agent of the district.

2. To hear the reports of agents, auditors, committees, or officers chosen, and pass any vote relating thereto.

3. To choose agents and committees in relation to any subject embraced in this warrant.

4. To see what sum of money the district will raise and appropriate for the support of schools, for the salaries of school district officials and agents, and for the payment of statutory obligations of the district.

5. To see if the district shall have a school board of either three, five, seven, or nine members as required by 1967 laws, Chapter 343, Section 1, and to determine the number of members to be elected each year until the desired number of members is reached.

6. To see if the district will vote to raise and appropriate the sum of three thousand dollars for a Contingency Fund, as provided by the New Hampshire Revised Statutes Annotated, 196:4b.

7. To see if the district will vote to continue the AREA School Study with Rochester which was authorized at the Special Meeting, November 30, 1966.

8. To see if the district shall create a cooperative school planning committee consisting of three qualified voters of whom at least one shall be a member of the school board. The members of the committee shall be elected at the meeting at which the committee is created, unless the district determines that they shall be appointed by the moderator.

9. To see what sum the district will vote to raise and appropriate for the construction, equipment, and furnishings for the addition to Farmington High School of two classrooms and adequate storage space and whether the district will vote to authorize the issue of serial notes or bonds upon the credit of the district for all or any portion of the sum so raised and appropriated; and to authorize the School Board to determine the terms and conditions upon which the notes or bonds shall be issued including their sale, the time and place of payment of the principal and in accordance with the municipal bond statute, New Hampshire Revised Laws, Chapter 72, and any amendments relating thereto.

10. If the district has adopted Article 9 for the addition, to see if the district will vote to appoint a building committee to consist of the School Board and three persons appointed by the moderator and the School Board to supervise the construction of said addition, provided that the plans, specifications for the addition shall be approved by the School Board acting as required by law, and the School Board be further authorized to execute and all contracts or agreements necessary in connection with the construction of said addition.

11. To transact any other business that may legally come before this meeting.

Given under our hands at said Farmington this 23rd day of February, 1968.

Paul R. Place
Elsie Hart
Harold Meserve
Gladys Lepene
Cornelius Sullivan, Jr.

As time passes, there seems to be little diminution in the size, number, or complexity of problems facing public education on any level of government - national, state or local. Included among these problems are financing, housing, teacher recruitment, and, most important, maintaining a reasonable level of educational opportunity for our young people.

In New Hampshire, the problem of financing is most acute, as so great a portion of the burden falls upon the local community, in contrast with the situation in other states. At this writing, there seems little likelihood that this burden will be reduced by the creation of other sources of school monies, yet the prices of goods and services for education continue to rise. To date, the voters and taxpayers have risen to the task of providing a good school system for the community, and is being requested to continue to do so.

According to the magazine, School Management, spending on public schools reached a new height last year, rising 6.9%. In New England, the average per pupil cost for elementary schools was \$483 and for high schools, \$628. In reporting on the whole nation, the magazine cited the following facts: the median teacher salary was \$7,134 per year; the average cost of textbooks and other materials of instruction per pupil was \$19.85; the average annual per pupil cost of transportation was \$20.75; and the amount of money raised by schools for each district varied from \$.62 in the wealthiest districts to \$2.36 in poorest districts per \$100 of true property value.

In addition to the task of providing for the operation of the present school system from year to year, the school district is faced with the need of providing sufficient housing for its growing number of students. To this end, Farmington and Milton have joined in an informal study of the possibility of establishing a joint or cooperative arrangement for the two communities. The following citizens are currently working on this study: Milton - Edwin Boggs, Forrest Sceggell, and Blake Booth; Middleton - Enid DiPrizio, Ann Hynes, and Harold Nicola; and Farmington - Beulah Thayer, Harold Meserve, and Cornelius Sullivan, Jr. It is thought that by using the plants already available in the two localities, it would be possible to provide good facilities with a minimum of construction and a reduction in the cost of new buildings. Further advantages that might be gained would be an increase in the number of educational opportunities for the pupils, and a better utilization of the faculties now available in the two systems.

The past five years have shown an emergence of a new militancy on the part of school teachers in the United States.

Our daily newspapers feature front-page headlines reporting teacher strikes and educational sanctions across the nation.

In education, direct negotiations with school boards is becoming more and more common in New Hampshire. Direct negotiation is a process by which the teachers in a locality choose an organization to represent them. This organization, either an association or labor union, meets with the local school board. The two, together, and jointly, set and determine the salaries and working conditions of the teachers in that district. This is a bilateral decision making process as opposed to the unilateral process customarily used. The agreements that are reached in these negotiations are incorporated in a written document signed by both parties. The New Hampshire Association of School Administrators has adopted a legal form to be used in this state.

The reason for the above description of collective negotiation is to make the general public aware of what it may face in the future. At this writing, for example, some of the immediate goals of New Hampshire teachers, as published by the New Hampshire Education Association are as follows: a base starting salary of \$5,600; improved working conditions, increased sick leave; partial payment of group life and health insurance by the local district; a signed professional negotiations agreement; et cetera.

The continuing shortage of certified teachers, and the growth of student population, makes a serious consideration of the above trends of great importance in considering a sensible solution of problems which confront the local school district.

Citizens are encouraged to refer to the reports of other school personnel for details as to the operation of the local schools, and the statements of progress being made in the various aspects of public education locally.

In closing, the undersigned should like to express their appreciation of the cooperation they have received from the local citizens, school boards, and professional staff. During the days ahead we will appreciate, as in the past, your continued cooperation in the best interest of good education.

RAMON MARTINEAU, Superintendent
CHARLES H. MORGAN, Business Administrator

REPORT OF THE PRINCIPAL

To the Superintendent of Schools:

The undersigned herewith submits his report for the period from January 28, 1967 to December 8, 1967.

The overall enrollment of pupils in Farmington High School has increased from that of the previous reporting period. The chief cause of this increase was the graduation of a small class last June combined with the entrance of a large eighth grade in September. The number of students enrolled in September of 1967 was 317. It is anticipated that the number of students enrolled will increase to about 380 in September of 1968. The number scheduled to graduate is small in comparison with the anticipated eighth grade enrollment.

On June 16, 1967, thirty-three (33) pupils were graduated from Farmington High School. This is the smallest number of graduates since June of 1963, when thirty-one (31) were given their diplomas. Of the total graduating last June, ten elected to continue their formal education, two entered the armed services; two married; seventeen entered gainful employment; and two were unemployed at the time this report was written.

The program of studies remains the same, with no major additions to the curriculum from those of last year. There have been internal changes, however, such as the addition of a secondary level of algebra and French for those students who need these subjects to enter some areas of post secondary training, but who did not need the intensive study that college-bound students must have. It is noted that the only addition to the curriculum needed to qualify Farmington High School as a comprehensive high school is an additional subject in the area of fine arts.

The co-curricula program continues to offer many experiences of value to the students. This program includes athletics, various clubs, and the class organizations.

It is noted that the faculty and students engaged in a most worthwhile cooperative program to raise money for a screen for the auditorium. The profits realized from the resulting basketball games and food sale has enabled the school to install a large motion picture screen on the stage. Not only did this program result in a much more extensive assembly program, but it also proved that students and faculty had many common aims and they could, by working together, reach their goals.

Other acquisitions made possible by the activities of the students include the gift of a motion picture projector by the Class of 1967; and additional physical education equipment by the Class of 1966.

Farmington High School has been fortunate in retaining many experienced faculty members, and in obtaining replacements for those who have chosen to move. The quality of any school is reflected in the quality of its staff, and the contributions made to local education by the faculty have been significant. With the increasing rewards and benefits being offered by neighboring states and communities, it is becoming increasingly difficult for Farmington to compete for qualified replacements. The effects which the current studies of teacher certification, salaries, and working conditions in New Hampshire will have on the local situation cannot be assessed at this time.

The building remains in good condition, but requires the continuance of a program of preventive maintenance to preserve the district's investment. This continued attention would tend to prevent the sudden failure of equipment resulting in hazards to the pupils. Outside organizations continue to use the school's facilities when they are not being used in connection with the educational program.

In closing, the writer would like to express his appreciation of the fine cooperation he has received from the Farmington School Board, the Superintendent of Schools and his staff, fellow principals, faculty and staff, and from the students and their parents. The voters of the Farmington School District must also be sincerely thanked for their continued support of the schools, and for the additions to the program which their efforts have made

possible during the past years.

As this is my final report for Farmington High School, I should like to re-emphasize my gratitude for the support which I have received since beginning in September of 1963, to serve as Principal of Farmington High School. I am certain that the same cooperation will be extended to my successor, Mr. Robert Dumais, who will become principal of Farmington High School on December 11, 1967.

Respectfully submitted,
Charles H. Morgan, Principal
Farmington High School

MAIN STREET SCHOOL ELEMENTARY PRINCIPAL'S REPORT

To the Superintendent of Schools:

Two projects which we have undertaken this year are, perhaps, worthy of note. One of these projects completes a process which we have been carrying out, in limited states, for the past several years: the complete departmentalization of instruction for all of the grades at this school. This system of instruction, coupled with the technique of ability grouping, tends to provide, we feel, greater potential for meeting the diverse needs of our students. Each grade has three teachers, with each teacher specializing in two subjects, both of which she gives instruction in to all pupils of that grade. Greater emphasis can be given to each subject in this way, and greater attention can be given to specific pupil needs and/or talents in each area.

The second project relates to a system-wide program, having its effect this year for the first time at this school: the introduction of modern math into the fifth grade, following the gradual introduction of this subject into the first four grades at the Memorial Drive School. Especially for the potential college-bound student, this new program of mathematics instruction represents an extremely desirable advancement, providing, as it does, both the proper background in mathematics concepts, symbolism, etc., and real experience in the vital techniques of mathematical reasoning. Insofar as it can be valuable for the development of greater independent thinking, it can be of greater value to all pupils than traditional math. The entire grade had to be equipped with new math texts for this new program.

A major improvement was made to the physical plant this year. The plumbing fixtures in all of the basement units had been installed in the early 1920's, and in recent years had been a source of constant problems and considerable undesirable expense. New fixtures, fitted with flushometers, have greatly improved both the efficiency and the appearance of the basement units. In order to ensure a sufficient volume of water for the proper operation of these new facilities an additional entrance had to be brought to the building from the street main.

Some new equipment was provided for us this year, primarily new furniture to help complete the replacement of the lingering vestiges of the old furniture which we had inherited from the old high school when we first moved to this building.

David Roberts, Principal
Main Street School

MEMORIAL DRIVE SCHOOL PRINCIPAL'S REPORT

To the Superintendent of Schools:

Our initial September, 1967 enrollment was 335. This showed a decrease of 19 pupils from the previous September due to the 1966-67 adopted ruling concerning the first-grade entrance age. Under this ruling, a child must be six years of age by October 1, to enter the first grade.

Our four grades are each divided into three sections. All our teachers returned in September. One has since taken a leave of absence due to illness and has been replaced by Mrs. Marcia Sterns, a former Memorial Drive teacher.

As for instruction, we are continuing the reading program as outlined by Mrs. Haskell. In other fields, too, new texts have been put into use that will provide continuity throughout our grades in the "New Math," Science and Social Studies. Educational TV programs continue to furnish valuable teaching instruction.

We are fortunate in having the supervisory union library books housed in the high school library, where they are readily available to us.

Mrs. Bassett continues to teach both vocal and instrumental music.

A teacher aide has been secured for Memorial Drive School through the use of Federal funds.

Several of our teachers have taken extension courses this year. An outstanding change has been made in the Hot Lunch Program. Memorial Drive children are now served hot lunch in their classrooms. This eliminates their waiting in lines and also gives them ample time to eat.

Very few children go home at noon. In view of this fact, and to be consistent with the closing times of the other schools, changes were made in our schedule which shortened our previously long noon recess.

In closing, the Memorial Drive teachers wish to express their appreciation to the principals, the high school students, and particularly to the Future Teachers of America, for their cooperation.

Respectfully submitted,
Bernice A. Parshley

REPORT OF THE SCHOOL NURSE

To the Superintendent of Schools:

The undersigned herewith submits her report for the 1966-1967 school year.

The communicable disease incidence was average. The following number of cases were found: three chicken pox, eight skin ringworm, four mononucleosis, eight whooping cough, nine mumps, eleven impetigo, and twelve cases of pink eye.

Pediculosis (headlice) had seven cases compared to sixteen cases last year. The seven cases were reported and properly taken care of.

The School Dental Clinic sponsored by the Farmington Visiting Nurse Association was started in February 1967 and grades one through twelve participated with a total of five hundred children taking advantage of the clinic. The teeth were cleaned, examined and received a fluoride treatment; all parents were notified of any defects and advised to take their children to their family dentist as soon as possible.

Orthopedic Clinics were held in Dover during September, January, and June. Four children attended these clinics.

Dreypak Testing (urine-sugar) was offered in grades one through twelve and seven hundred and twenty-nine children took advantage of this clinic testing.

The Pre-School Round-Up was held May 8, 9, & 10, 1967, and forty-eight children were registered at the round-up to start school in September 1967. Each child received a vision test, a hearing test, was weighed, measured, had a dental check, and a medical history was taken of each child.

Operation Head Start was a summer program with thirteen pre-school children participating in it for seven weeks.

Heaf Testing (tuberculosis) was offered to grades one through twelve and to the staff. Eight hundred and twenty-six took advantage of this testing. Fifty-five received chest x-rays.

School health physical examinations were carried out by the school physicians, Dr. Robert E. Lord and Dr. George E. Quinn. Five hundred and nineteen children were examined. Whenever there was an abnormal condition existing in any child, the parents were notified and advised to consult their family physician. Minor defects were promptly treated.

Vision testing was administered to check defective vision on four hundred and one students and hearing tests with the Maico Audiometer were done throughout the school year to help students: one hundred and forty-seven students were tested.

No child needs to go without glasses because financial assistance is available in obtaining proper diagnosis and corrective treatment. This may be arranged through the school nurse with the help of various organizations.

During the school year four hundred and eighteen calls were made by the school nurse.

In concluding this report it is a privilege to cite the cooperation of the following organizations and groups who helped in many ways and many times: Kiwanis Club, Salvation Army, Farmington Woman's Club, American Legion, Legion Auxilary, Elks Club, Rainbow Girls, 500 Boys Club, and Ladies Church Service Organizations. These clubs and organizations are continuously serving and providing suitable clothing, dental and visual aid, food and many things for the school children, and by doing so, they help build a better and healthier community.

The following is a statistical report of the school health work for the school year 1966-1967.

Pupils examined by school physicians.....	519
Pupils examined by school nurse	401

Defects found by school physicians.....	10
Defects found by school nurse	52
Defects treated	47
Inspection of Heads	1010
First aid to children	827
Ill children transported home.....	129
Ill children transported to doctors	79
Home visits made by school nurse	418

Respectfully submitted,
Mrs. Rachel N. Feeny, R.N.
School Nurse-Teacher

REPORT OF THE GUIDANCE COUNSELOR

To the Superintendent of Schools:

The guidance services are an essential part of the school curriculum. The services are concerned in acquiring a thorough knowledge of each student as an individual; to know his abilities, interests, aptitudes, mental, physical, and emotional condition, family background including economic status, and other pertinent information which indicate the way to his best adjustment now and in later life. As in previous reports, I still hold to this philosophy of guidance.

The team approach is employed in assisting each student. Conferences are held frequently with teachers, principals, and the school nurse in concentrating thought and effort on the special problems of individual students. These conferences are implemented by frequent conferences with the Strafford Guidance Clinic, reading supervisors, Farmington Police Department, New Hampshire Department of Probation, Department of Vocational Rehabilitation, parents, and the Department of Employment Security. Duplication of services is eliminated if good communication is maintained by the guidance department and those agencies that offer services for the various needs of each student.

A majority of each day is spent in individual counseling. Counseling provides a one to one relationship between a student who seeks a better understanding of self and/or his world and the counselor skilled in the techniques necessary to help the student in the relationship to achieve such an understanding. Information which would apply to large numbers of students is imparted at group meetings to release more of the counselor's time for individual counseling. Small groups of students who have similar problems attend group counseling sessions.

Students most often refer themselves for counseling. Those who are referred to the counselor by teachers, parents, and/or administrators are sought out by the counselor and the opportunity for counseling is explained and encouraged. In some instances, the counselor may suggest that a student schedule an appointment.

The counselor orders and administers the testing program. Test results are interpreted to students, teachers, and parents. Aptitude, intelligence, achievement, and personality tests are administered upon the student's request or counselor's recommendation.

Each senior is requested to discuss post-secondary plans. Arrangements are made for conferences with college and special school admission officers for students who have appropriate interests and abilities. The counselor co-operates with the Department of Employment Security for the administering of the General Aptitude Test Battery to interested seniors who expect to enter the world of work. The test results are interpreted to the seniors and employment possibilities are explained.

Typical occasions or conditions that may indicate a need for counseling are (1) personal problems; (2) educational, vocational, or avocational problems; (3) selection of subjects; (4) disseminating scholarship information; (5) school, home, or social problems; (6) subject failures; (7) armed service information; (8) dropouts; (9) four year program planning; and (10) occupational information.

The following is a statistical report from September 6, 1967 to January 23, 1968:

Pupils Interviewed	275
Counseling Sessions	725
Group Counseling Sessions	266
Parent Conferences	35
Testing Sessions	50
College Representatives	16
Service Representatives	3

Counseling sessions vary from five minutes to two hours depending upon student needs.

Respectfully submitted,
George Kourkounas
Guidance Counselor
