

Barnum's unit in it with the Populist show that closed last week

There is no rhyme for silver—St Paul Globe.

Yet can anything can make it jingle

A wild man is roaming the woods of Maine He is thought to be an escape from the Populist Convention

Those fellows who are poking so much fun at the Populists whippers, should remember Parson McKinley

This is the best sort of weather to depart for an exploration of Greenland.

On the authority of the old Psalm tune there are "icy mountains there"

The August Scribner is the fiction number of that magazine, and contains six short stories, a little comedy, and several special articles of wide popular interest

A New York paper attempts to prove that the man of the future will have no lungs—Chicago Dispatch

Which means, when that time comes there will be no camp-meeting at Alton Bay

The Rev. Julius H. Ward, of Boston, has written a highly interesting paper on the late Harriet Beecher Stowe for the August Forum

It is a comprehensive estimate of her career, her position in literature, her moral aim—in short, an analysis of what went to the making of this great writer

Mr. J. B. Bishop in the August Forum is of the opinion that it is an error to call bicycling a "craze."

It is something very different from that. The simple fact is that the human race has discovered a new power for its own use.

From the earliest dawn of civilization man has been experimenting with motion. Finally he has hit upon a device which makes his own body the source of power.

He has placed wheels upon his feet, and as a result finds his powers of locomotion multiplied by five and even ten.

Instead of walking five or ten miles with more or less effort and fatigue, he finds himself traveling ten, twenty, fifty, and even a hundred miles, according to his physical vigor and experience, with little perceptible fatigue and with a most delightful sense of animation.

He has become master of his new power,—the most valuable he has acquired since he learned to walk,—and it is henceforth a part of his equipment for his struggle with life.

Is it probable that having once become possessor of a power like this the human race is going to abandon it?

As well might we expect it to abandon railways, and gas, and electricity

NEW ENGLAND FAIR.

Arrangements for the New England Fair at Rigby Park and City Hall, Portland, Maine, August 17, 18, 19, 20 and 21, are now near completion.

A full and choice exhibit of live stock, equalling or exceeding that of last year, is assured.

Mr. S. S. Sanborn, of Boston, is to exhibit some twenty-six head of his celebrated French coaching stud, eight or ten English and American vehicles and numerous sets of harness, four of which cost \$600 per set in England.

C. I. Hood, of Lowell, is to exhibit—though not in competition—his famous Jersey cattle and Berkshire swine.

The racing program is unquestionably the best ever offered by any agricultural society in the Eastern States.

There are fifteen races, the yearling for a purse of \$600 and the balance for purses of \$1,000 each. Three hundred and twenty-seven horses are named in the fifteen races, thus assuring a large field of starters.

The Adrian Wire Co. are to exhibit a car load of wild animals consisting of buffalo, deer, elk, bear and coyotes.

W. A. Eddy, of Bayonne, N. J., and C. H. Lamson, of Portland, will give daily exhibitions of kite flying, including tandem, mid-air photographing, drawing electricity from the clouds and other novelties in the way of air navigation.

It is expected a Lillenthal flying machine will be in operation during the week of the fair.

Mr. Lamson expects his 30 foot kite will carry a man aloft.

Prof. and Madam La Roux will make daily balloon ascensions and parachute jumps.

A contract is made with T. W. Eck whereby he is to bring John S. Johnson, the world champion bicycle rider, Ray McDonald, Al Weinig, and several noted French and English bicyclists direct from Europe to the fair.

The Portland Wheel Club are to make an evening parade, and predict two hundred wheels in line, many of which will be ridden by ladies.

Col. Brigham of the National Grange, and several advocates of good roads are to lecture during the week.

Olive Thorne Miller, at City Hall, will talk upon the birds of New England.

The Fish and Game commissioners will exhibit specimens of our inland fish.

Hon. Thomas B. Reed's quota of government seed will be exhibited. Thos. A. Lamb is to show a large collection of New England minerals.

There will be afternoon and evening concerts by leading bands as well as the usual exhibits and such novelties as may be found of interest.

Every effort is being made to make this the fair attraction of the year and the management are sanguine it will so prove.

Portland Cape Elizabeth and Old Orchard at this season of the year are in gala dress, and the special rates granted by transportation companies should admit of all our people attending this New England institution.

STRAFFORD CORNER.

Having is progressing finely and many of our farmers have nearly finished

A valuable colt, belonging to Cyrus K. Potts, was found dead in the pasture, one day, last week

Miss Mamie Young and friend of Exeter have been visiting the former's sister Mrs. F. T. Stanton. They made the journey on their wheels.

The Barnum & Bailey big show, at Rochester, Monday, was the attraction for many people from this place.

Mrs. James Stiles, who with her three children has been stopping with her parents, Mr. and Mrs. C. C. Dame, for several weeks, returned to her home in Merrimac, N. H., last week.

Rev. N. C. Lathrop, a former pastor, occupied the pulpit at the church again last Sunday, and was listened to by a large audience. A call to become pastor of the church, has been extended to Mr. Lathrop and we sincerely hope it will be accepted.

Miss Leora J. Holmes is quite sick

Mr. Simeon Webster is in town renewing old acquaintances

Mr. Anni G. Walker of Michigan, is expected here this week

John K. Davis visited his brother S. W. Davis at Rochester last Sunday

Mrs. Abbie Wright, of New York, is visiting her parents Mr. and Mrs. John F. Holmes.

Miss Blanche Tuttle has a crow that has laid a litter of eggs and wanted to set

Mr. and Mrs. Samuel Walker of Pittsfield, called on friends in this place Sunday

Mr. and Mrs. G. Alonzo Hall of Boston, Mass., spent a few days last week with James Locke and family

Mrs. Emma Drew Clark of Lynn, Mass., spent the day last week with her cousin, Mrs. James Locke.

The school-board of Barnstead held an examination for teachers last Saturday at the Centre school-house. Not a large number of applicants were present

Mr. Herbert Hill and family of Rochester spent Sunday with relatives here. Returning they left their two daughters, Ida and Lola with their aunt, Mrs. James C. Tuttle, for a week

One day last week Grover Chealey aged 4 1/2 years spent the day with his grandmother and for amusement, with his little axe, chopped down a tree 8 ft high and 10 inches in circumference, brought it to the shed and sawed it into stove wood before he left it

LOOK OUT

for breakers ahead when pimples, boils, carbuncles and like manifestations of impure blood appear. They wouldn't appear if your blood were pure and your system in the right condition. They show you what you need—a good blood-purifier, that's what you get when you take Dr. Pierce's Golden Medical Discovery

It carries health with it. All blood, skin, and scalp diseases, from a common blotch or eruption to the worst scrofula, are cured by it. It invigorates the liver, purifies and enriches the blood, and rouses every organ into healthful action. In the most stubborn forms of skin diseases, such as salt-rheum, eczema, tetter, erysipelas, carbuncles, and kindred ailments and with scrofula in every shape, and all blood taints, it effects permanent and permanent cures of the worst cases

IN GENERAL.

Burglars entered the handsome new residence of Mrs. John Burleigh, at South Berwick, Friday night, and secured nearly \$400 worth of jewelry and solid silver plate. They held a revolver at the head of the servant girl, who had been aroused by the noise, and threatened to kill her if she made any outcry.

The Discovery Saved His Life.

M. G. Callouette, druggist, Beaverville, Ill., says: "Dr. King's New Discovery I owe my life. Was taken with a gripe and tried all the physicians for miles about, but of no avail, and was given up and told I could not live. Having Dr. King's New Discovery in my store I sent for a bottle and began its use, and from the first dose began to feel better, and after taking three bottles was up and about again. It is worth its weight in gold. We won't keep store or house without it." Get a free trial at Roberts & Peavey's drug store. (2)

THE STATE.

The musical convention at the Weirs was a great success.

The late Dr. F. A. Colby of Berlin carried a life insurance of \$28,000.

Laconia forms the first Bryan and Sewall club of the campaign.

Kendall & Ladd will issue a Bryan and Sewall newspaper in Manchester, beginning Aug. 1.

Camp Idlewild on Cow Island, Lake Winnepesaukee, contains 40 boys this summer.

The veterinary surgeons of the State are to ask the Legislature to establish a State Board of Registration in veterinary surgery with power to debar from practice all who are not qualified.

North Conway proposes to pass its coaching parade this year.

HERE AND THERE.

The report made on Sunday evening at the earlier service in the Congregational church, by Mr. Goodwin, was full of interest, and was marked by quotations worthy of remembrance, from many of the addresses made in the national convention of the Y. P. S. C. E. held in Washington recently. One of the sayings was that "every member of the society should be as a live wire carrying energy to every other part of the body," and "to all needful places outside of the organization" may have been added to the first phrase. Another word of note was "pulmonary patriotism." One can make his own application of this characterization.

The Harper's weekly of July 18 has a short editorial upon Militant Patriotism, which is similarly suggestive, and its concluding phrase is one to consider;

"GREATEST ON EARTH."

Dr. Miles' Restorative Nervine.

Mr. B. T. Caldwell is book-keeper in the First National Bank of Fulton, Ky. "I was completely run down, my nerves became so unstrung through loss of sleep and worry that I felt sure I would be compelled to forego my profession, and to wake all night long, and it took but little

to shake me up so that I could not possibly attend to my business as I should. In connection with this I had severe trouble, heaviness about the stomach, and pains in different parts of my body. I was also much reduced in flesh. I was persuaded to try

Dr. Miles' Restorative Nervine.

I first procured a trial bottle from a local druggist and good results quickly followed. Then I procured a dollar bottle, and by the time I had used this up I was a different man. I am now on my feet, and able to sleep soundly and eat regularly, something I could not possibly do before taking your Nervine. I am now fully recovered, and do not hesitate to pronounce Dr. Miles' Restorative Nervine the greatest medicine on earth."

R. T. CALDWELL, Fulton, Ky.

Dr. Miles' Nervine is sold on a positive guarantee that the first bottle will benefit all druggists sell it at 25¢ bottles for \$2.00. It will be sent prepaid, on receipt of price by the Dr. Miles Medical Co., Elkhart, Ind.

Dr. Miles' Nervine

Use Dr. Miles' Nerve Plaster for SPINAL WEAKNESS. All druggists sell 'em for 25¢.

The profound patriot, the sort that boys should be taught to emulate, is a forbearing citizen and a profoundly reluctant fighter, but when he does bring his howitzer out he enlists for the whole war."

The same issue of the paper named announces that, in view of the welfare and honor of the nation as connected with sound money, it will support McKinley in the Presidential campaign

The Outlook of July 25 gives fine papers upon both McKinley and Bryan, with others upon Mrs. Stowe, the Rev. Francis E. Clark, D. D., the founder of the Christian Endeavor movement, and upon The Higher Life of Philadelphia, all these being well illustrated

The good cause of international bi-metallicism is declared by the Bimetallic League of Great Britain to have made substantial progress in the past year, and there is probability of a permanent tribunal of arbitration between our own and the mother country

An important strike in the excellent printing house of J. J. Little & Co. in New York City has been settled by arbitration, the referee being President Seth Low of Columbia College. Things like these make one feel that civilization really advances and climbs upward as well

To return to the exercises of Sunday,—Mr. Goodwin was compelled to condense his carefully noted record of the convention, in his report, as the Rev. E. N. C. Barnes was to speak at seven o'clock in the audience room, concerning prohibition. Mr. Barnes is a very young man and his gifts as a public speaker are certainly uncommon to men of his years. Hardly any one doubts that the manufacture and sale of intoxicants, for use as beverages, should be done away with. Failing the enforcement of prohibitory law, a high license has seemed to some men better than no check at all upon the evil referred to. To enforce properly the laws of New Hampshire, in this respect, a strong public opinion is necessary, or the authority must be used by State rather than local officials.

Local officers never yet have found any attempt to carry out the spirit of the law, to be a desirable undertaking. People who advocate temperance are apt to swell the successes of them who sell liquor, through a lack of thought, indifference, or other cause, and the sentiment of a community needs to be aggressive before any one man can do effective work in the putting down of any practice which menaces the public health.

Mr. Goodwin's conscientious and excellent remarks at the close of the meeting gave food for thought. He never urges hearers to do that in which he cannot rightfully say "Come," instead of "Go," but he tries to find out his own duty as well as to indicate that of his audience.

A pleasantly large number of people were present at the lecture, and the Rev. J. S. Harrington made the opening prayer. A chorus choir led the singing of hymns.

Mrs. Safford, Mrs. Putnam and Mrs. Frank Pearl, who were at the Weirs last week, seem to have found the musical gathering even more delightful than in former years, and they say that Mrs. Dexter of our own county sang superbly. Dr. Carl E. Duft of New York, Mr. Bancroft of Montpelier, Vt., Mrs. Brown of Concord, and the inimitable Blaisdell with his orchestra, with the pianists present, were favorite performers, and Miss Dora Haley, of this county, gave pleasure in her singing, as did Mr. Conant of Concord, and with these the musicians engaged.

Miss Blanche Townsend came on Saturday evening.

In Europe, Asia, Africa, Australia and America, the five great continents, Shaker medicines are being used by suffering humanity for the cure of sickness and disease.

Never was there such a universal demand, never such wonderful results.

Shaker Digestive Cordial, a cure for indigestion, is prepared from roots and herbs, and is a natural remedy, which cures by aiding nature and not by fighting her.

Shaker Digestive Cordial makes those fat, who have become thin by not digesting their food.

It restores the spirits and the appetite of those who are dejected and fagged out from the wearing effects of indigestion.

It relieves the symptoms of dyspepsia, and, after using a reasonable time, finally cures the complaint.

Sold by druggists. Trial bottle 10 cts.

day, after a pleasant fortnight at Mid-

dleton.

Mr. and Mrs. Irving Grace and Mrs. W. P. Blake visited Mrs. Joseph Blake of Barnstead, on Sunday.

The Woman's auxiliary mission society will meet on Friday August 7 with Mrs. J. E. Fernald. A. C. W.

MIT THE BALL HARD.

HEAVY BATTING CHARACTERIZED THE GAME AT BURGET PARK.

It was unfortunate for Manager Sanders that by reason of sickness, and other circumstances, his team that lined up against the Somersworths, Saturday, at Burget Park, was of the picked-up variety.

Unfortunate because it put the home team back into last place again. Cota had by no means recovered from his accident of the Saturday before, and it was noticeable in his work behind the bat. Both teams had on their batting togs, and base hits were as plenty as flies about a bald man's pate.

Leighton's playing at first was simply great, and he had the unstinted admiration of the crowd present. Nedeau had an unusual number of chances, and, despite his errors, made some good plays.

The score follows:

Table with columns for SOMERSWORTH and FARMINGTON, listing players and scores.

The managers of the Cochecho League held a meeting at Rochester Saturday evening and sustained the original scores in the contested games between the Rochester and Somersworths, so the standing in the league is as follows:

Table with columns for Played, Won, Lost, Per cent. for Somersworth, Rochester, and Farmington.

CHIPP'S CONTRIBUTION

A party of our citizens enjoyed an excursion over the lake in the steamer "Perhaps" last Sunday and report a fine time.

Put your money in the savings bank for safe keeping and we'll warrant those burglars won't get it.

We visited the garden of Hiram Stevens last Sunday and were very surprised to see such a variety of vegetables growing on such a small piece of land.

Anyone interested in gardening will do well to call and see for themselves what can be done in this line with proper care. Mr. Stevens has our thanks for a basket of the largest currants we ever saw and we feel safe in saying that we never raised in this town.

Well, Dean you're always in the lead. We never knew you fail. But we'd like to know just how you do that without a fail.

Say, Abe, don't let the boys fool you for that is a genuine little Nig. I saw him winking at the Farmington girls last night as he turned the crank. Don't take too much stock in what Joe says.

Should anyone find my umbrella marked on the handle T. H. F., and leave at the office of the News, I will receive the thanks I there have left.

Mr. James Perdue, an old soldier residing at Monroe, Mich., was severely afflicted with rheumatism but received prompt relief from pain by using Chamberlain's Pain Balm. He says: "At times my back would ache so badly that I could hardly raise up. If I had not gotten relief I would not be here to write these few lines. Chamberlain's Pain Balm has done me a great deal of good and I feel very thankful for it. For sale at Parker's Pharmacy."

Are You Tired? This condition is a sure indication that your blood is not rich and nourishing as it ought to be and as it may be if you will take a few bottles of the great blood purifier, Hood's Sarsaparilla. Thousands write that Hood's Sarsaparilla has cured them of that tired feeling by giving them rich, red blood.

Hood's Pills act easily yet promptly on the liver and bowels. Cure sick headache.

It is a well known fact that Hood's Sarsaparilla is the best place among medicines. It is the One True Blood Purifier and nerve tonic.

It is well for those approaching this time, to write Mrs. Pinkham, at Lynn, Mass. She has the experience of years to aid her in advising. She will charge you nothing.

She helped this woman, who says: "I have used Lydia E. Pinkham's Vegetable Compound in my family ten years, with the best results. Some time ago my daughter had catarrh of the womb, and it entirely cured her. I was approaching the 'change of life,' and was in a deplorable condition. My womb had fallen, and the bearing-down pains and backache were terrible, and kidneys affected. I began taking the Compound, and my pains ceased. I consider it the strong bridge between sickness and health, and recommend it to every body I meet who needs it."—Mrs. L. Keller, Patchogue, L. I.

THE TURN OF LIFE.

The Most Critical Period in the Life of a Woman.

Experience of Mrs. Kelly, of Patchogue, Long Island.

There is no period in woman's earthly career which she approaches with so much anxiety as the "change of life." Yet during the past twenty years women have learned much from a woman.

It is safe to say that women who prepare themselves for the eventful period, pass through it much easier than in the past.

There is but one course to pursue to subdue the nervous complications, and prepare the system for the change. Lydia E. Pinkham's Vegetable Compound should be used.

It is well for those approaching this time, to write Mrs. Pinkham, at Lynn, Mass. She has the experience of years to aid her in advising. She will charge you nothing.

She helped this woman, who says: "I have used Lydia E. Pinkham's Vegetable Compound in my family ten years, with the best results.
