

has been operated on
for appendicitis, she
is getting along very
well, it was just
as sudden an attack
as Mr W. Mautenski's
a week ago, who is also
getting well fast.

I hope to hear from
you again soon, I am
planning now to go up
to Chicago next week,
about the 20th for a couple
of days. I hope you can
come up then. With much love
Mother

March 11th 1909. -

Dear Edward,

I was glad to
have your letter
which you sent as
soon as it reached
you. I am afraid
you will not have
such pleasant
weather this Sunday.
If you are going to
be so busy, I hope
you will be out
of doors enough.

Drule fulvius was
up for two days.
& Mr Tuzen has
been down to talk
over enquiries - they
will need a stranger
over at the coal
shaft face, which is
to run about $\frac{1}{2}$
faster than formerly.
The water has for-
tunately not been
high enough to
flood the tunnel.

John I made about the
Clay in the tunnel was
nearly as long that it
the water has been in the
tunnel it would have
appeared it would not,
as it does not in water but
they are getting along with
well with the lining.
Recent signs of water, they
has gone to the top of it &
