

MANHATTAN CLUB,  
FIFTH AVENUE.

1891 Jan 12

My dear Doctor Carver:

I beg you to pardon my  
silence which is due to my  
being so pressed with work that  
I could not find time to draw  
up a list of persons to  
whom I would like the  
Monist No 2 sent.

I should be mad to  
expect or desire people to  
fall in with my views at  
once. They are the fruit of  
long studies & I have held

them in reserve, - studying  
them, testing them, devel-  
oping them, - for 12 years  
before venturing before  
the public with them. If  
I myself hesitated so long,  
I can not ask others to be  
precipitate in accepting  
them. I like your article  
very much. I wonder anew  
at your graceful English.  
I don't think you are  
very far from one I  
am hopeful of counting  
you for an ally before very

long. As for a chance, without  
any degree of conformity to  
Law, I regard that as nonexis-  
tence, a mere person of  
being in so far as it may  
acquire habits. My 1878 ar-  
ticle is in no conflict with  
my present views, which  
were then in embryo.

I thank you for the  
invitation to send another  
article which I shall do  
as soon as I can get  
time.

May I trouble you to have

Copies sent (at my ex-  
pense - Please send bill)  
& the following. I will  
send a further list soon.
