

THE INTERNATIONAL WOMAN SUFFRAGE ALLIANCE

is going to help to

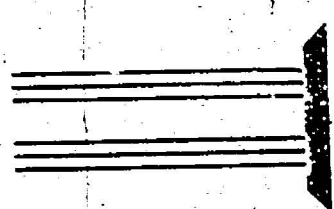

BUILD UP THE WORLD ON NEW FOUNDATIONS.

At its Congress in Geneva, Women representing thirty-one Nations resolved to work for some Big Things.

Here are some of them :

- 1.—That the Women of All Nations shall be enfranchised by the gaining of **Woman Suffrage**, and of a real equality of liberties, status, and opportunities between Men and Women.
- 2.—That the power thus gained shall be used :
 - a. To win free self-expression in government for men and women.
 - b. To fight the famine and restore the common economic life of Europe.
 - c. To establish a strong Society of Nations based on right and justice.
 - d. To educate the children in a greater understanding of all the peoples of the world.
 - e. To abolish the State regulation of vice, and to establish a higher moral standard, equal for men and women.

If you believe in these things, help them on. Get into touch with the Headquarters Office, 11, Adam Street, Adelphi, London, W.C. 1.
