

TURNING UP THE HEAT!

Everyone welcome!

AIDS TOWN HALL!

7:30 January 31, Auditorium, Downtown YMCA

20 Grosvenor, 2 blks N. of College, just W. of Yonge.

- **VIDEO:** "Testing The Limits" - 30 minutes of vocal, colourful and inspiring AIDS activism from ACT UP New York.
- "And What Have We Been Up To?" - A brief skit taking a lighthearted look at a year of AIDS ACTION NOW! activism.
- **Open Community Discussion:** The first in an ongoing series of public meetings bringing together individuals, communities and organizations affected by AIDS to discuss strategies for future actions, lobbying and public education around the needs of People Living With AIDS. *Over the past year PLWAs and AIDS activists have been making public our need for access to experimental and alternative treatments and drugs, increased research, anonymous test-sites, an end to unethical placebo trials, and attention to the needs of PLWAs in hospital and home care. Where do we go from here? How can we turn up the heat on the government and AIDS bureaucrats?*
