Lyrics available below:

Keep all your preachers and your prophet makers
I'm breaking with your family plan
Keep all your morals and your status quo symbols
I've found all I need in a man!
Disease and greed - playing with power
Cause for fear and alarm
But power for me lies not in your weapons
The power I want lies in his arms!...

You got your guns and your ammunition
That fuel this restless world
Empty promises don't mask your ambitions
Do you really want a peaceful world?
I've found peace
Whenever he holds me... I move
I loov love love love love love love another man
I need need need need need need need his hot embrace
I want want want want want want want his tender touch
I love another man!...

You say I'll burn
Unless I turn
I say I'm going straight to hell
Straight to hell in my lover's hands
Straight to hell in my lover's arms
Straight to hell with my loving man
Straight to hell I'm his loving man
Straight to hell and back again
Revolution
Lavender unfurled!
I've found a peace when he holds me
I move... He moves me
Chorus to fade...
