

THE ECONOMIC
SUMMIT

**Their Summit
ignores AIDS.**

SILENCE = DEATH

Starting June 19th the leaders of the seven major industrialized Western nations will be meeting in Toronto to discuss the future of the world.

Community, church and activist groups are planning parallel "*Popular Summit*" activities to make sure the world leaders hear about the issues and concerns of ordinary people.

Lesbians and gay men have a wide variety of concerns - but perhaps the most pressing is the lack of response to the AIDS crisis, in Canada and around the world. Needless to say this major world health crisis is not on "their" agenda.

AIDS ACTION NOW! is organizing a lesbian and gay contingent to make sure the voice of our community is not lost.

COME OUT AND DEMAND:

- * *International co-ordination of AIDS research.*
- * *International recognition of AIDS drug and treatment trials.*
- * *Support for People Living With AIDS (PLWAs) around the world.*
- * *Opening borders around the world for people affected by the AIDS crisis.*
- * *International aid for treatment and care of PLWAs in Third World countries.*

MEET US AT 519 CHURCH STREET

11.00 am SUNDAY JUNE 19, 1988

*then on to Queens Park to join other communities
in the massive Popular Summit Rally and March!*
