

**IMMIGRANT AND VISIBLE MINORITY WOMEN ORGANIZING AGAINST AIDS : TOWARDS THE  
DEVELOPMENT OF A NATIONAL NETWORK FOR AIDS PREVENTION EDUCATION**

Hello !

Enclosed please find copies of the flyer advertising Phase 2 of the NOIVMWC project IMMIGRANT AND VISIBLE MINORITY WOMEN ORGANIZING AGAINST AIDS . A summary of the project is included in the flyer, which is also intended as an invitation to the community consultations that will be held across the country in March and April of 1995. Please feel free to contact the National Working Committee member for your province, or Jeea Saraswati, the project researcher, if you require more information about the project.

The first objective of the consultations is to gather information about immigrant and visible minority women's concerns and needs relating to HIV/AIDS prevention, education and support. The second is to encourage further networking between those who are active or want to be active in the area. However, before we begin the process, we wish to compile a data base of existing prevention/education and support programming focusing on immigrant and visible minority women. To that end, we would like to request you to take a few minutes from your busy day to answer the questions on the next page. Please return the questionnaire in the enclosed stamped envelope by April 3 1995.

We thank you for your time, and welcome your input and your ideas. We also look forward to seeing you at the consultations !

Best Wishes ;

***The National Working Committee***
