

## **D.S.A.N. - Disability, Sexuality and AIDS Network**

We are working towards empowering people with disabilities, who in the past have not had control over their lives. We are working in conjunction with P.U.S.H. Ontario, (Persons United for Self-Help) which is a cross disability organization. P.U.S.H. advocates and lobbies on concerns of persons with disabilities, and from this D.S.A.N. strives to provide information and education on sexuality, safer sex practices and AIDS prevention. We plan to provide training to consumers across Ontario in both the rural and urban communities.
