

Congrats!

KEEP UP THE GOOD WORK

Prostitutes are safe sex pros.

Studies are finding that we are more likely to use condoms than people who have sex for free. We use condoms for fucking to prevent AIDS. Many of us use condoms for blow jobs too. This way we do not get herpes, syphilis, venereal warts or anything else.

FOR MORE INFORMATION

Check with your friends who have been on the scene for a while, or come to the coffee house at Maggie's, 298 Gerrard Street East at Parliament, Tuesday and Wednesday from 10 pm until 2 am.

OR

Call the AIDS Committee of Toronto at 926-1626, Ontario Ministry of Health at 392-AIDS or Hassle Free Clinic at 922-0603/922-0566.

But some prostitutes think they only need to use condoms for work. Not true. Condoms are for lovers, too.

And if you shoot drugs, never share a needle unless you clean it first with bleach, and then rinse it with water.
