

Réaction SIDA is a sex-positive, life-affirming group of women and men who are committed to reacting directly and aggressively to the criminal silence, inaction, bungling and distortion with which all levels of government, the media and the medical establishment have greeted the AIDS crisis. We intend, wherever and whenever possible, to expose the sexism, racism, classism, homophobia, careerism and corporatism that continue to kill people attempting to live with AIDS. We demand that government fulfill its responsibility to ensure that everyone has access to accurate and relevant AIDS and safe-sex information, and to the means of preventing AIDS--condoms, dental dams and clean works. Our ultimate responsibility is to people living with AIDS: it is our intention to rant and rave until government does everything in its power to make promising AIDS treatments and humane healthcare available to PLWA's. We will do everything in our power to take up the slack created by government inaction and bungling, but will hold government responsible for every AIDS death until government action makes our reaction unnecessary.

Slogans?!

Silence=Violence

AIDS is not caused by sex.

Your body is your business.

The medical is political.

SAFE SEX WORKS

AIDS is not a death sentence.

AIDS WANTS YOU

Le Silence et l'Inaction Doivent Arrêter!

AIDS kills people, not victims.

Réaction SIDA is a ^{sex-positive} ~~safe-sex~~, life-affirming organization committed to bringing about the release of accurate information about AIDS, as well as the universal free accessibility to the means of preventing AIDS--condoms and clean works. We are committed to the demystification of the illness: to exposing the politics inherent in media and medical representations of AIDS. We are committed to the maximum well-being of people living with AIDS and demanding the immediate release of drugs when necessary to alleviate various AIDS symptoms and conditions.
