The Fifth International Aids Conference held in Montreal, from June 4 to the 10 is primarily a Public Relations scam, and a bonding session between government officials, M.D.'s, scientists, and government related non/action groups. This is a chance for activists, and activist groups to raise issues being ignored by this conference, and expose the lack of action on the part of the governments, drug companies etc.. in regards to HIV/ARC/AIDS related issues.

Please come and join Action Groups and activists for a week of activity and actions in response to the International Conference. Aids Action groups from Montreal, Toronto, N.Y.C., Boston, and overseas are so far known to be participating. Some issues to be tackled are access to drugs, testing, prison HIV/ARC/AIDS related issues, government misinformation that is homophobic, racist, classist, sexist and sex-negative.

A Media and Organization Centre will be available the whole week for anybody interested. The location is still tentative, but one organization space has been found, on Parc Ave. and Pins St. (3728 Parc). Please call the contact number if you want to find out more, and to confirm places, dates etc..

Other activities planned are demonstrations, street fair, music, safe sex video nights in bars, sports, and spontaneous actions. Two demos are confirmed for Sun 4th at 5pm at the Palais de Congress and at 8pm at the Ritz Carlton. One is confirmed for Thurs 8th at 5pm at the Palais de Congress. Tentatively a prison issues demo is being planned in regards to the situations in Montreals prisons-tentative date is Wed 7th in the evening. Most activities are still in the planning stage, so no definite times, places, dates can be given yet. As the conferece date approaches more specifics will be known.
