

Vol. II pg. 270 H

Lincoln, Nebr., March 17th, 1917.

Mr. Harry L. George,
St. Joseph, Mo.,

Dear sir:-

I have in my collection two Pawnee Indian scalps, attached to one of which is a human ear. These scalps were taken by the Osage in the last battle between that tribe and the Pawnees. Would you be interested in these two scalps at the value of \$10.00 to apply on the Crow spear? Please let me know soon about it, and if you wish to see the scalps.

Yours truly,

Sam Hornburg

P.S. I wish you would describe to me in detail, how your fire making apparatus is made, how many pieces and how they are used. I believe you said your "innebago War Bundle contained one of these, and I wish to have this information to compare with a fire making piece that I recently procured.
