

12/10/75

W. Arthur Garrity Jr.
Federal District Court
Boston, Mass. 02109

Your Honor;

Your action of placing So. Boston High School in Federal Receivorship was, to my mind, a most inspired, courageous and positive move.

I, and countless others I'm sure, have prayed that God would guide your decisions throughout this sad conflict.

Over the years I have witnessed the So. Boston mentality in action, it would seem that their hostility is vented upon a broad scope of people, to include, any and all obvious non- residents of their area, and as reported in earlier newspaper accounts, several members of Bostons' Gay Community were mercilessly beaten at the L St. Beach this summer past, Puerto Ricans also.

I have no ax to grind, other than to say that the bitterness and bigotry of those involved on both sides can only be dissolved by sincere concern , and strong steadfast actions such as you have wisely taken.

Educators and politicians in So. Boston are obviously unaware that God created us All.....
Thanking you for your beleif and dedication to the most basic tenant of our Constitution, That all men are created equal.

It is not your busing directive , that is at issue here, but a deep spiritual cancer eating away at a large section of our city.

May God watch over you and continue to guide you.

RESPECTFULLY
A WHITE IRISH AMERICAN
