

LINIMENTUM CAPSICI COMPOSITUM.

Compound Liniment of Guinea Pepper.

This liniment is a stimulating, rubefacient, warming, discutient, detergent and antispasmodic medicine; which is used in rheumatism, gout, pains of the joints or muscles, tooth-ache, paralytick numbness, tumours, scrophulous enlargements, quinsy, decaying of the flesh, strains, lameness, wens, cramps, head-ache and sunpain. It is also used with horses and cattle in the decay of the flesh, called the sweany. It discusses the polleivil and fistula, if used in their commencement, and is excellent in all kinds of lameness, tumours, swellings and stiff joints.

Directions for using this Liniment.

The parts affected are to be bathed with some of this liniment and rubbed in before the fire, with a warm hand, till a sufficient quantity is soaked in.

In this manner it may be used every night going to rest; but in acute pains it may be used every three or four hours.

The vial ought to be well shaken, before using of this liniment.

This liniment is prepared and sold only in New-Market, Shenandoah County, Virginia, by
