SENIOR CLASS HISTORY

In the spring of 1923, about thirty-eight students assembled on the campus as freshmen. We put forth strong and faithful efforts during the nine months toward accomplishing what we should, and were very successful.

The next year we re-assembled with a class of thirty-four, just a step nearer the goal. We chose the motto "B²" which we clung to, thus completing the second year of school life victorious.

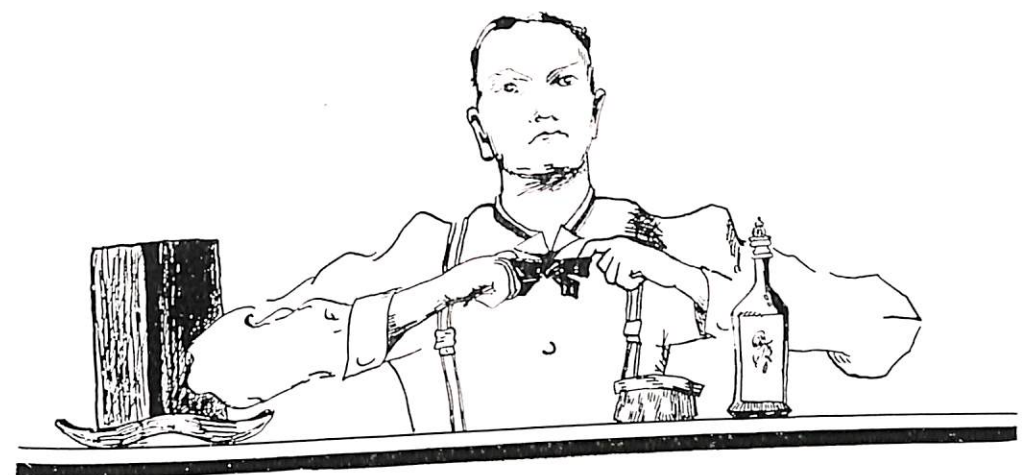

During the third year we won the queen contest, had creditable representatives in all athletics, and other school activities thus making much more competition for the other classes than during the previous years, in spite of the fact that the class had decreased in size.

And then as seniors in our last days of high school we still clung to the good motto "B²", and did to the end, therefore we still improved and hoped to continue improving.

The class boasted of six football and four basketball lettermen, and also had representatives in all the new clubs, such as debating and dramatics, and also the organizations carried over from last year.

The class still decreased in number, there being only twenty-five to graduate, yet they say, "Valuable articles come in small packages". The twenty-five remaining from the thirty-eight Freshmen were considered the "Survival of the Fittest".

JUNIOR CLASS HISTORY

Juniors! and three short years ago we were freshmen, as simple and unsophisticated as ever entered the halls of learning. We may have looked dazed at first but it was the other classes who looked dazed when the green-horns walked off with the honor of the Wichita Queen Contest. Again this year the Wichita Queen is a member of our class.

The annual Junior benefit this year was a play, "Cyclone Sally", which was a great success.

Class get-togethers throughout the year have drawn us into a closer friendship and fastened in our hearts a deep and true love for our class and school.

At an early meeting this year we learned the following song to the tune of "Collegiate". It is quite characteristic of our class.

Eight! Eight! Class of '28 we haven't come in late,

We're lucky yes'm, you tell 'em when we go we get 'em,
Maybe go to Heaven, Rah!

We've a hunch we're about the best,
We've got the pep, the spunk and all the rest.

Senior, Senior, wouldn't be a Senior,
They're not our superiors,

Juniors, Rah! Rah! Rah!

SOPHOMORE CLASS HISTORY

We, the class of '29, first entered the doors of Cameron on September sixth, nineteen hundred and twenty-five, and with a membership of forty-one, we enrolled as Freshmen. By the end of the year our ranks had been thinned by homesickness until there were only thirty; however, we feel that the work that we did had a great deal to do with our best members surviving and the weaker ones dropping out for we did a great deal of work and lost no opportunity to help our school.

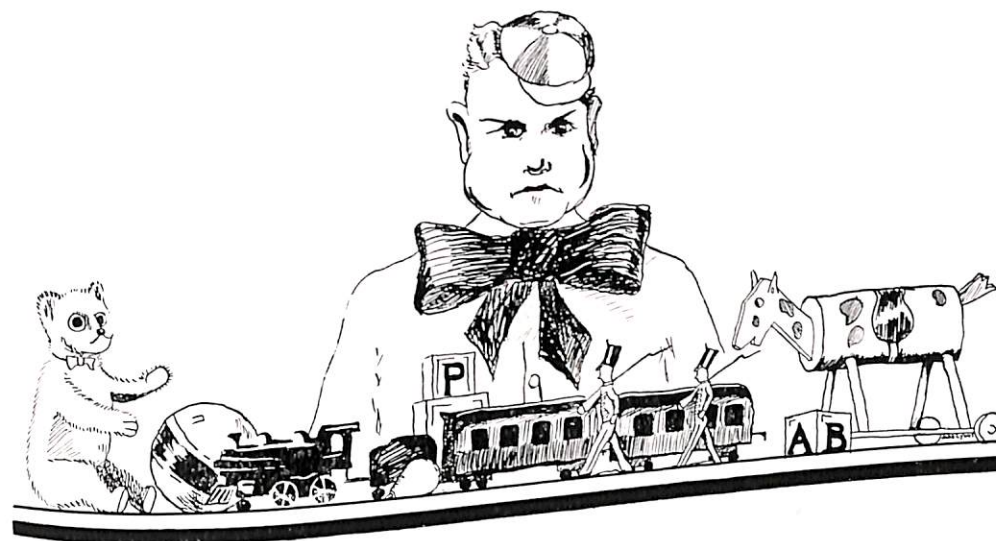

At the beginning of the school year '26-'27, we had a class of thirty members who were loyal to both the class and the school.

We were a lively class having representatives in all athletics, societies, and organizations.

We have tried to make a record for other Sophomore classes and have done our best toward setting an example for our Freshmen and have used our influence in correcting their mistakes.

After two more years as worth-while as the last have been we hope to have added to our record until the graduating class of nineteen hundred and twenty-nine will be one that our ALMA MATER will remember for many years.

FRESHMAN CLASS HISTORY

On Sept. 13th we, the class of '30, assembled in the auditorium and organized our Freshmen Class.

Naturally we were the laughing stock of the campus. But, with Miss Speairs as our class sponsor, we soon proved our ability by entering all the school activities.

When we graduate in '30 we hope we will be one of the best senior classes ever graduated from Cameron State School of Agriculture.

PREP CLASS HISTORY

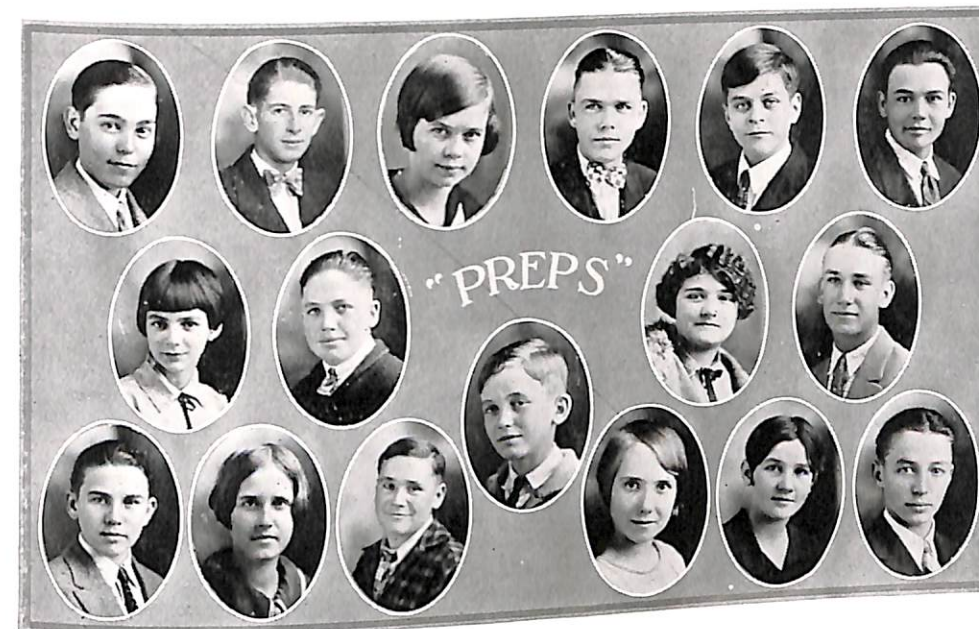

The Prep department at Cameron consists of nearly forty members in the seventh and eighth grades representing all parts of Oklahoma and part of Texas.

At the first of the year we were unacquainted with our new surroundings, however we soon got together and held our first class meeting on Sept. 15, 1926.

We had a candidate in the Football Queen contest, were represented in a number of school activities, and were always ready to boost for our school.

Last year there was some talk of discontinuing the Prep Department and the Seniors even went so far as to "Bury the Preps in effigy", however to show them that we were not dead we came back to begin things stronger than ever.

If you don't believe that we are alright, then just "Watch our smoke", when we get to be Seniors.

DOMESTIC SCIENCE

A great deal of attention is given to the study of foods, their planning, selection, preparation, and service.

A series of breakfasts, lunches, dinners and teas are served by the students of various classes.

A major in Home Economics is usually chosen by the girls, which makes it necessary for three years of the subject to be offered.

This department is under the direction of Mrs. Wilburn Evans, who has had training in the university of Oklahoma and the Oklahoma A. and M. College.

DOMESTIC ART

Domestic Art is a course of the Home Economics department at Cameron which gives the girls a special knowledge of textiles, the art and hygiene of clothing, also the principles of home planning and interior decoration.

The major part of this class deals with the actual practice preparation. The girls learn to buy wisely, design becomingly, cut, fit and make garments in the best possible manner. This proves to be of great economical importance and vital social significance.

SCIENCE DEPARTMENT

Science is a search for truth concerning all laws of nature. Science may be divided into three distinct divisions, Physical, Chemical and Natural Science.

In the school room these divisions are known as "Physics", dealing with the mysteries of why a rock rolls down hill, what is the source of power in an electric charge, and what transports the words of a person speaking in New York to a person in London with nothing connecting them but the pressure of the atmosphere; "Chemistry", which may be said to be the basis of all science for it deals with the changes taking place in nature, of the characteristics of the elements of nature and their different reactions under various circumstances; and "General Science", for if chemistry is the basic science then we must know something of their physical characteristics.

For the purpose of giving an elementary course combining the principles of Chemistry and Physics, and to give a general outline of the natural laws of science we have General Science.

fifty-four

MANUAL TRAINING DEPARTMENT

The Manual Training department at Cameron offers four courses to the boys for the purpose of training them to meet the needs of the average American farm of tomorrow.

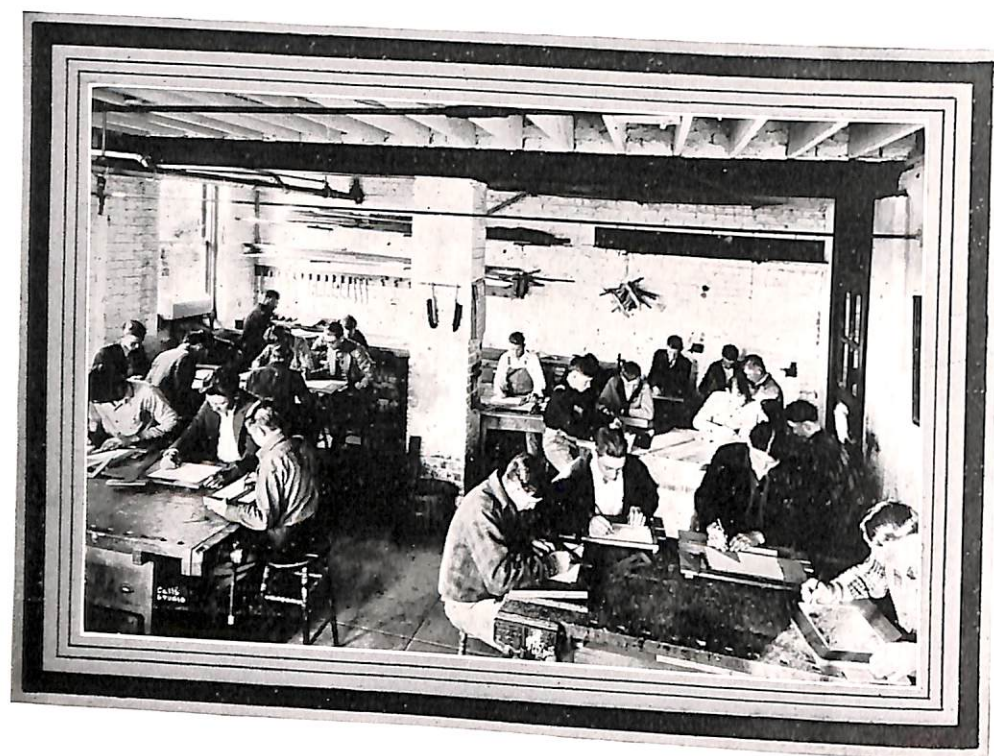

In Freshman Manual Training the student learns to take the proper care of his tools, he learns the various uses of each tool and to demonstrate his skill with hand carpenter tools he must make some piece of furniture before the completion of his course.

In Sophomore Manual Training the boys with the use of the power tools such as band saw, jig saw, circular saw, and lathe make the more complicated pieces of furniture. At the present time some of the pieces under construction are sewing tables, taboretts, and library tables.

The Forging class learns the fundamentals of blacksmithing, drawing, bending, shaping, and tempering.

After a course in our Manual Training department a young man may do numerous jobs necessary on the farm in constructing and keeping in repair buildings, furniture, tools and machinery.

fifty-five

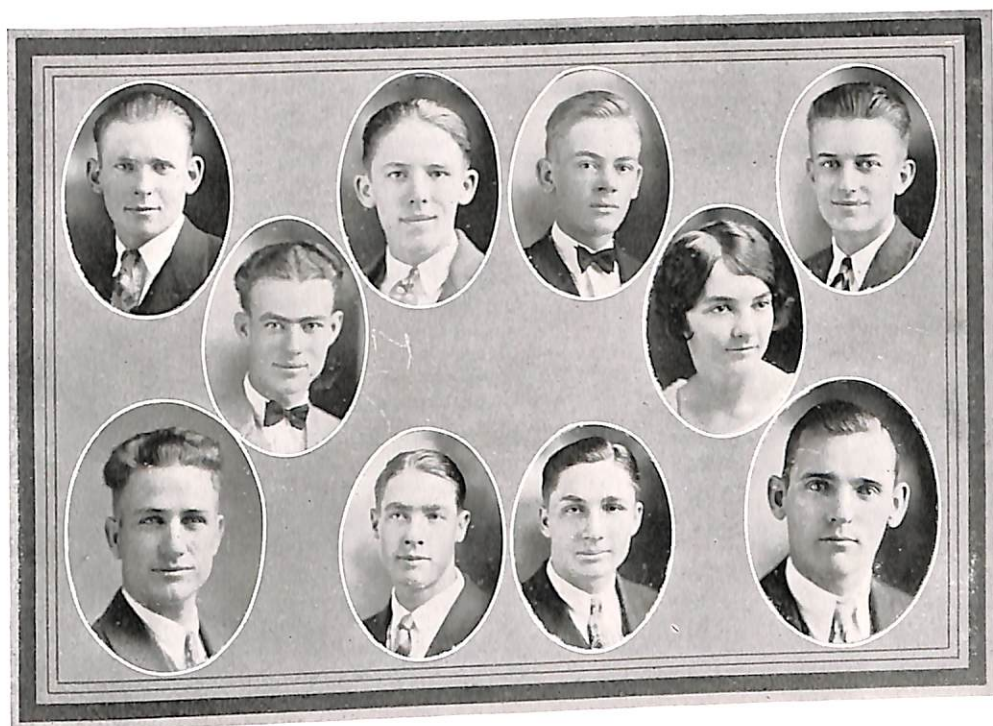

MECHANICAL DRAWING

Mechanical Drawing is taught in this school as a required subject for Freshmen Boys because it is primarily necessary if the boy expects to become a civil engineer, an architect, or a draftsman. It is helpful if the boy is going to build a simple piece of furniture, or if he expects to be a farmer then the training will not have been wasted as a knowledge of Mechanical Drawing will help him visualize his fields, his fences, it will assist him in systematically arranging his farm buildings, his pastures and feeding lots.

However the immediate reason for teaching Mechanical Drawing is that it stimulates active thinking, trains the hand and eye, and causes the student to get the habit of forming a mental picture of what he intends to make or do.

FIRST BAND

The First Band is composed of thirty members, including the Director and Drum Major, who are selected from the school band because of their playing ability. The personnel of the First Band is subject to change at the first of each month, which means that if a member does not do the best he can he may fail to hold his place. Thus the possibility of getting in and remaining in the First Band acts as a considerable stimulant to all who are interested in band work at Cameron as it is to be considered an honor to be allowed to wear the First Band uniform.

The purposes of the First Band are to make it possible for the more advanced members of the band to work on more difficult compositions than would be possible if all were combined in one band, and to provide a good grade of music when desired with a small number of instruments.

CAMERON BAND

The Cameron Band was organized in February, 1922, by Hugh D. Corwin and has been under his direction until recently. At present the band is making splendid progress under the able leadership of Phil Cato. The band has grown steadily since its organization, in numbers, prestige, and ability until it is now recognized as one of the strongest organizations on the campus and as one of the best boosters for the school.

Altho our band has been noted in the past as being one of the largest in this part of the state we surpassed previous records by enrolling seventy-eight members this year. However we can not expect to make musicians from all those who enroll for some find that they prefer other activities; therefor the band is a survival of the fittest.

The purpose of the band is to make it possible for those boys who are interested in instrumental music to get effective instruction in the most attractive way possible, to create an appreciation for good music, and to advertise and boost our school in concert halls, on the athletic field and at the head of the parades.

GIRLS GLEE CLUB

Miss Robertson, Director

The girls glee club was organized for the purpose of creating greater interest in good music.

The club started with a very small membership, but has grown until it now has twenty-four members. The girls are willing at all times to furnish music for our programs. In the spring the girls gave an Operetta, "The Ghost of Hilo". The program was free to the student body.

The financing of this club is done entirely by its members.

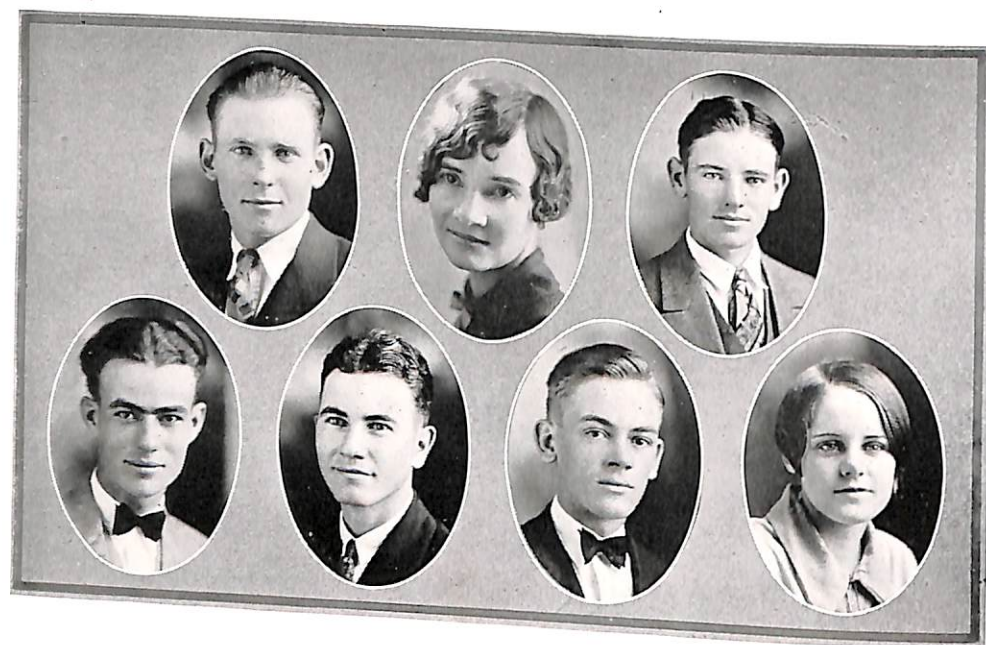

DRAMATIC CLUB

"All the world's a stage."
—Shakespeare.

The Dramatic Club is a very recent addition to our school, only being organized last fall.

The purpose of this organization is to promote the interest as well as the production in good plays. The students also have an opportunity to study stage lighting and effect. The membership of this club can never exceed twenty-five and entrance can be gained only by try outs.

We have very little stage equipment to work with; however, we believe that this helps us rather than hinders our progress, for with a poor stage we must have better actors to make the play successful, thus further developing the talent and appreciation of our members.

DEBATING TEAM

Miss ARDA FRANS, Coach

Affirmative Team,
Elbridge Tucker, Robert White, Alvin Middleton.
Negative Team,
Ralph Hankins, Jake Lyons, Francis Watson.

Our school is a member of the High School Debating League of the Fifth District of Oklahoma. We meet a number of the other schools in the district and the school who gains the highest number of victories will be allowed to represent the district in the annual inter-scholastic meet at Norman.

Up to the present time each of our teams have debated the following teams: Fletcher, Walters, and Randlett, totaling eleven points against our opponents seven.

Although this is the first time in a number of years that we have had a debating team, quite a lot of interest has been shown and we hope that in the coming years this work will be carried on as one of the major activities at Cameron.

CAMERON YOUNG PEOPLES UNION

ELBERT WOLF.....*President*
IRMA WOLF.....*Vice-President*
VIVIAN HAY.....*Secretary*

In joy or sorrow, or health or pain
Our course be onward still.
We sow on Burnabarrens plain;
We reap on Zions hill.

The C. Y. P. U. was organized on January 16, 1921, largely due to the efforts of Arlene Havens, our first president.

The purpose of the C. Y. P. U. was to make it possible for the students of Cameron to assemble and study the word of God on Sunday evenings without leaving the campus.

We believe the words of Lincoln who said, "The man who is entirely ignorant of the Bible can not be said to be educated, and the man who knows the Bible can not be said to be entirely ignorant."

GIRLS RESERVE

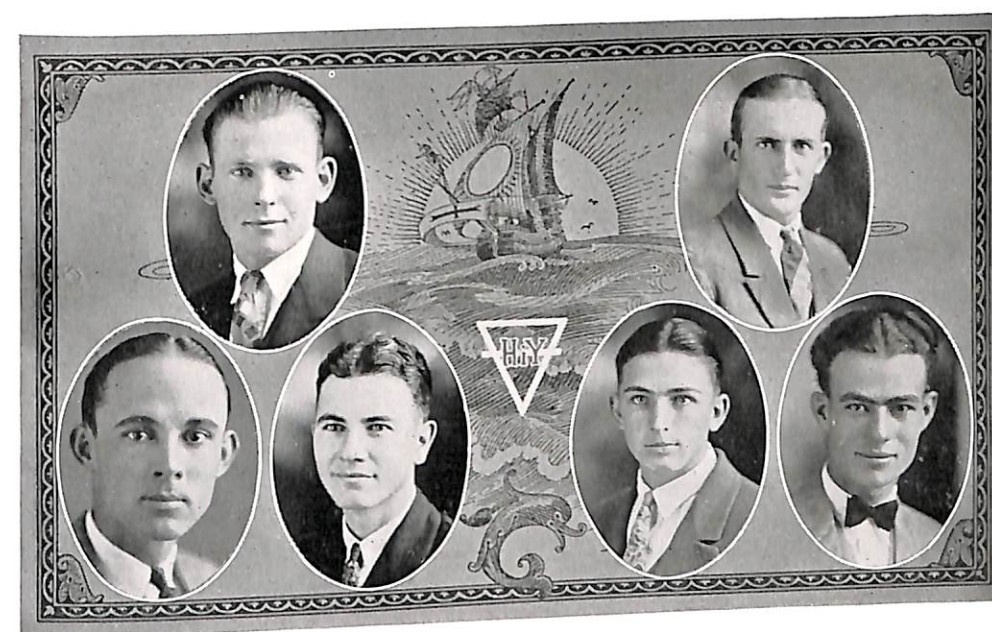

LOIS SPENCER.....*President*
 OMA CARTER.....*Vice-President*
 IRENE POWERS.....*Secretary-Treasurer*
 PANSY ROBERTSON.....*Advisor*

The Girls Reserve is an organization of high school girls, very similar to the Y. W. C. A. Its main purpose is to promote and upbuild high Christian character. Its slogan is "to face the world squarely."

The club meets twice each month, one a business meeting, the other a social meeting.

The club has been divided into two groups under the supervision of Frances Watson and Dorothy Abel. Each group seeks higher honors in scholastic efforts and in attainment along physical and moral lines.

Along with the good times the girls have on their hikes and at parties they have received great benefit from the more serious side of life.

CAMERON HI-Y CLUB

ELBRIDGE TUCKER, President
 ALVIN MIDDLETON, Vice President
 ELBERT WOLF, Secretary
 HERBERT MANSKE, Second Vice President
 ROBERT WHITE, Third Vice President
 MR. LESLIE BROOKING, Sponsor First Semester
 MR. J. G. MARCH, Sponsor Second Semester

The purpose of our Hi-Y Club is the same as that of all other good Hi-Y clubs "to create, maintain and extend thruout the school and community high standards of Christian character."

We have tried to live our slogan "Clean Living, Clean Speech, Clean Sports and Clean Scholarship."

Altho we have not spent a great deal of time on some of our programs we feel that the talks given by different men from the city of Lawton have inspired us all into doing better things, and hope that the Hi-Y work will long continue to be one of the foremost organizations at Cameron.

CAMERON ORCHESTRA

There is no organization in a High School that is more necessary than an orchestra if it is well organized and properly functioned.

The Cameron student body has always expressed the greatest appreciation for music of the best and highest grade and an effort on the part of all the members in the orchestra has been made to keep up the reputation of preceding years.

The orchestra has been called upon on numerous occasions and they have responded willingly to the best of their ability.

THE FARM

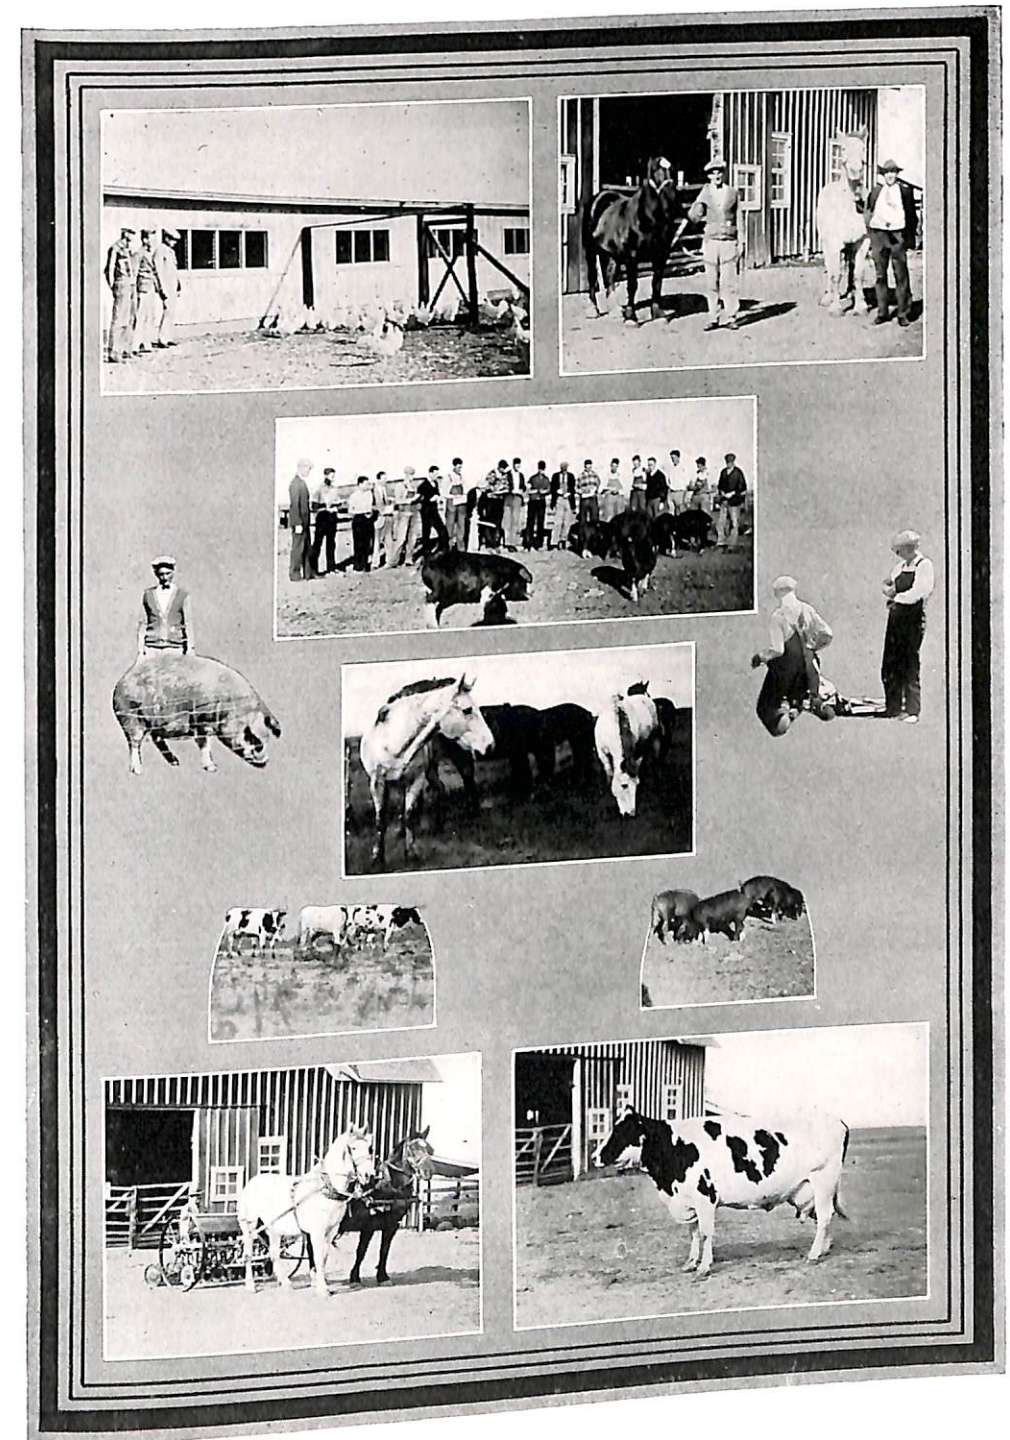

Our farm consist of eighty acres of good bottom land and seventy acres of upland.

The improvements on the farm are: one combination horse and dairy barn, a silo, machinery shed, hog house and pasture, a complete poultry plant, a ten acre orchard, an alfalfa field, garden plot, and a small vineyard.

We also have on the farm several head of good Percheon horses, a herd of registered Holsteins, Durock Jersey hogs, and in our poultry plant are Purebred Rhode Island Reds, White Leghorns and White Wyandotts.

The farm acts as an experimenting laboratory for the ones who are taking the agricultural courses, produces eggs, poultry and milk for the boarding club, and furnishes employment for a number of students who wish to work their way thru school.

Mr. Hulse, Agricultural instructor, and Mr. Sawyer, farm manager, are interested in making the farm show as large a return as possible and altho the returns of the farm for the last year have exceeded anything ever obtained previous to this they have both set about to make returns from next year exceed the past, especially do they hope to see an improvement in the livestock as several new members have been added recently.

Athletics

G. V. DENNIS, Coach

Goldie is one of the cleanest coaches in Oklahoma. He teaches the boys that whether they win or lose they are to play clean hard football from whistle to whistle. He is a real sport and a friend of the student body at all times.

BASIL WILKERSON, Captain, Fullback

Shakey proved a good leader for the squad. He could kick, pass or carry the ball well and his defense was outstanding.

FOOTBALL

Football at Cameron has been slowly but steadily improving both in quality and momentum for a number of years.

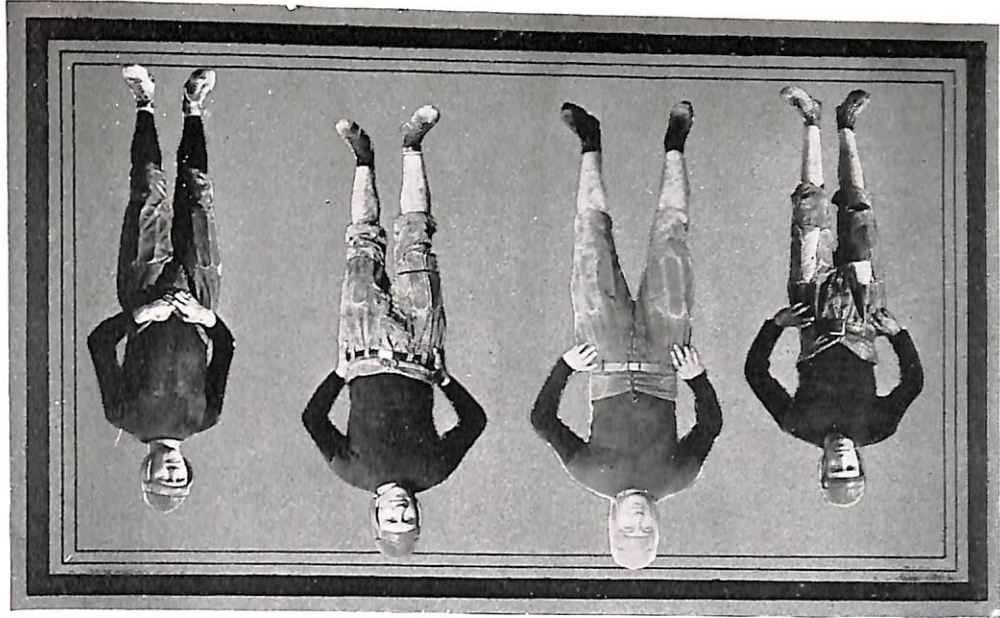

Within the last five years it has advanced from the inferior class to the class that is respected by other schools.

Every person in our school who participates in either football or any other kind of athletic game must comply with the eligibility rules of the Oklahoma High School Athletic Association.

This alone has been one of the greatest aids in placing our football where it is today.

With only eight lettermen back and with a very limited amount of new material to pick from it looked as if it was going to be especially hard going for the Orange and Black. However the boys put some fight into the game and proved their ability in the initial game of the season with Walters High.

In spite of the fact that we lost all of our Conference games we made a good showing in the field and our membership in the Oklahoma Collegiate Junior College Conference has helped to give Cameron's football more publicity. Our victory over Wichita Falls High School and the playing of Lawton High to such a close score are marks in our advancement. The past season was not always victorious but in a larger sense it has been a great success for it has built up a strong athletic relation with other schools, has advertised our school and best of all has built bigger and better boys both physically and mentally.

FRANK WARD, Half back

Ward was a good ground gainer, always fought for all he was worth, made more than his share of the touchdowns and has two more years with us.

EARNIE POWERS, Tackle

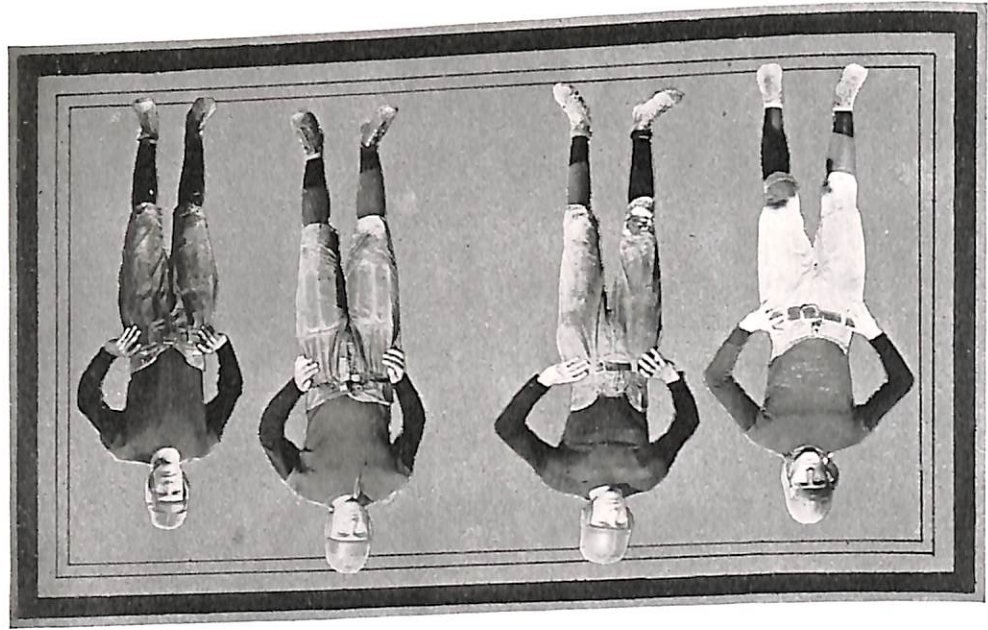

Earnie is the man who was always getting his opponents behind the line. Earnie can stop anybody's team when he wants to and as next year will be his last we expect him to do more than ever before.

ROY HAVENS, End

Many an opposing Back has been surprised by Hippo getting down in time prevent running back a punt. We think he'll graduate.

WILLIAM BUCHWALD, Tackle

Buck is as good a tackle as any team could want. He had lots of pep and fight and usually got his man.

HERBERT MANSKER, End

Turkey may not know much about football but his lack of experience was never noticed in a game. We expect him to be a strong point in the line next year.

EARL SMITH, Tackle

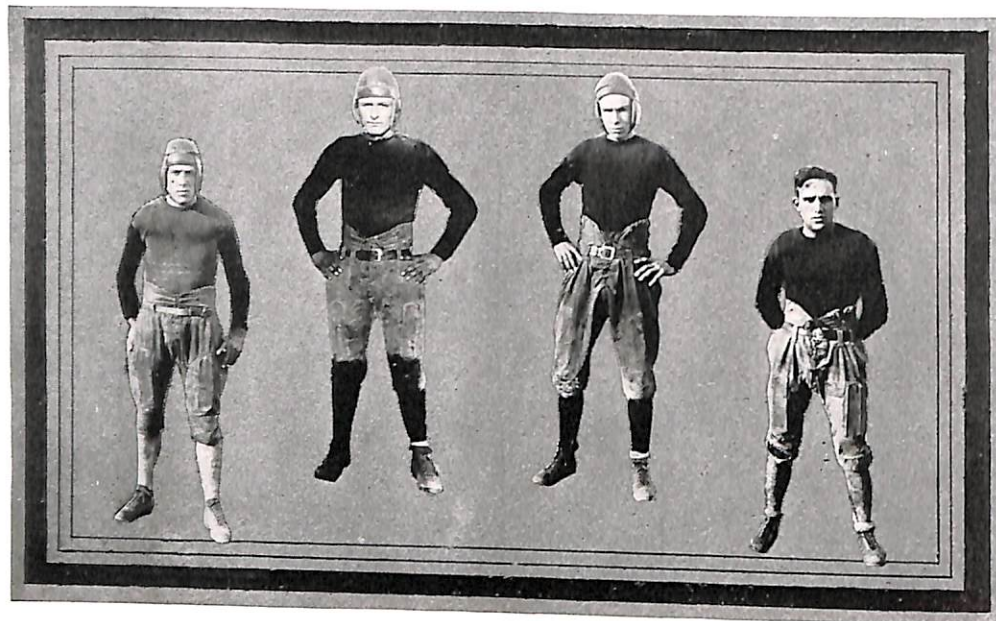

When Smith got to fighting he could down any back in his tracks and we feel that it would have been too bad for Wichita Falls if he hadn't been put out with an injured hip. Smith will probably be back next year.

DON HOWARD, Guard

Alho Don had little football experience he held a regular place on the team and was hard to get around. He has two more years.

HAROLD WOLF, Guard

Hi could always be found in every play, he played a good game against Wichita, he will be back next year.

CHARLIE ROWELL, Quarterback

Chock was the little quarter that specialized in broken field running and returning punts. He will be back next year.

DENNIS LYNCH, Halfback

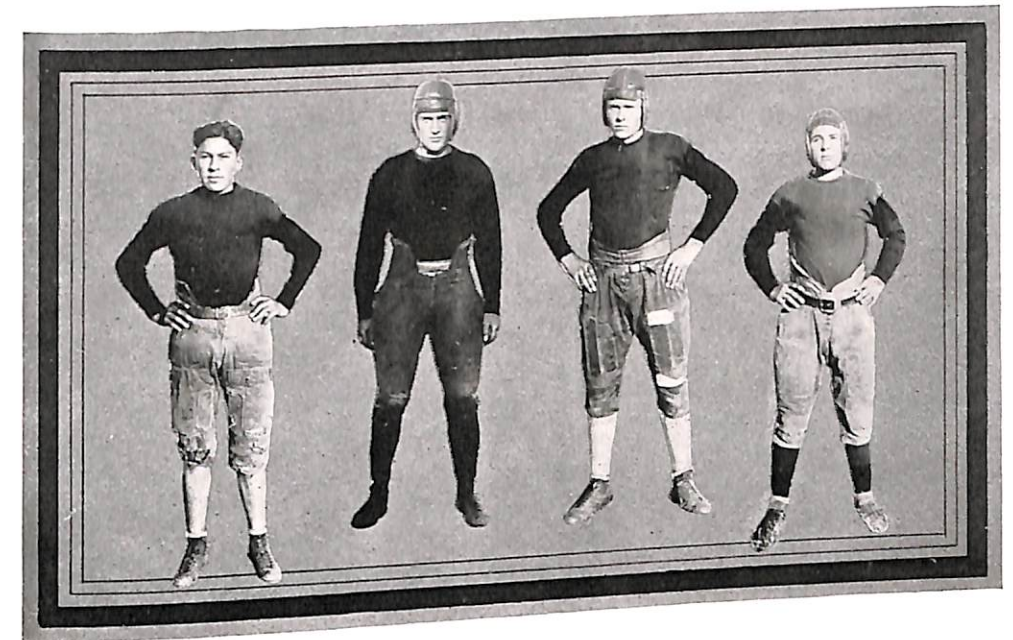

Dick was probably the fastest man on the team. He could buck the line or run the end and sometimes snatch a pass that would mean a touchdown.

TOMMY WALKER, End

Tommie our Freshman, was a good man regardless of the position, his nerve offset his lack of weight. He will be with us three more years.

CLIFFORD FARLEY, End

Football is Cliff's hobby. He is fast and quick and a goal kicker. He will be missed next year.

ELBERT WOLF, End

Altho this was Berts first year as a letterman, he fought hard in every game. He will fight for the Orange and Black next year.

WILLIAM COX, End

Bill was light but fast, he could get down under a punt or snatch a pass. He played a good game at Walters and we hope to see him back next year.

ELBRIDGE TUCKER, Center

Tuck our fighting Irishman is one of the best centers Cameron ever had. He was a sure passer and when an opening was needed in the line Tuck could make it.

RAY BREWER, Tackle

Altho Ray had little football experience he did some fine work as a line man, fought from whistle to whistle and it was a good team that could run a play near his end of the line.

THE OKLAHOMA COLLEGIATE JUNIOR COLLEGE CONFERENCE

The schools in the state with Junior College ranking felt it necessary to form an athletic conference. Therefore with considerable work, worry and a lot of talk the coaches of several schools of the state met in Oklahoma City on Feb. 12, 1926 and organized what is known as the Oklahoma Collegiate Junior College Conference.

The schools that entered at the beginning of the conference were: Oklahoma Military Academy, Bacone College, Murray State School of Agriculture, Cameron State School of Agriculture, Oklahoma Institute for Deaf and Dumb, St. Gregory's College, Oklahoma Christian College, and University Preparatory School.

The object of the conference is to promote better athletics and to bring the schools of the state closer together by our continued athletic relations.

BASKET BALL

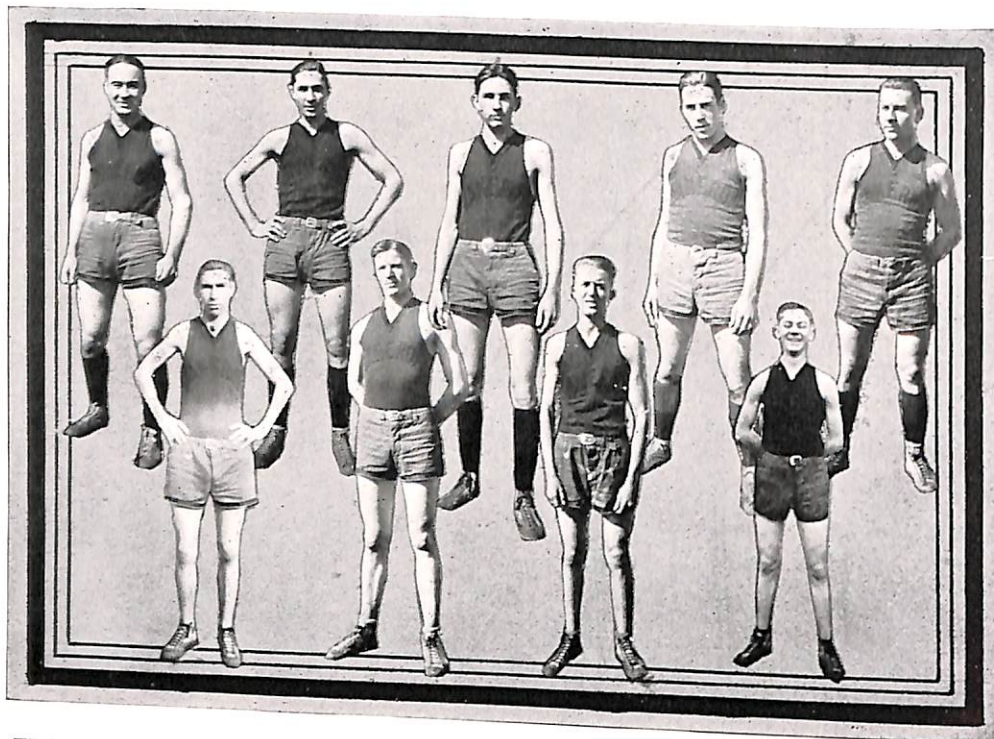

The 1927 Basket Ball season was by far the most successful in the history of basketball at Cameron.

With our gymnasium in poor condition, with very little equipment, and with only three last year's letter-men as a nucleus for a new team, the prospects for the coming season looked rather dark. In spite of the handicaps a good number of new material came out with serious intentions of making the team. Therefore after diligent efforts and long hours of strenuous work on the part of both Mr. Dennis and the boys Cameron began to realize that she now possessed the strongest cage team that had ever carried her name to victory or defeat.

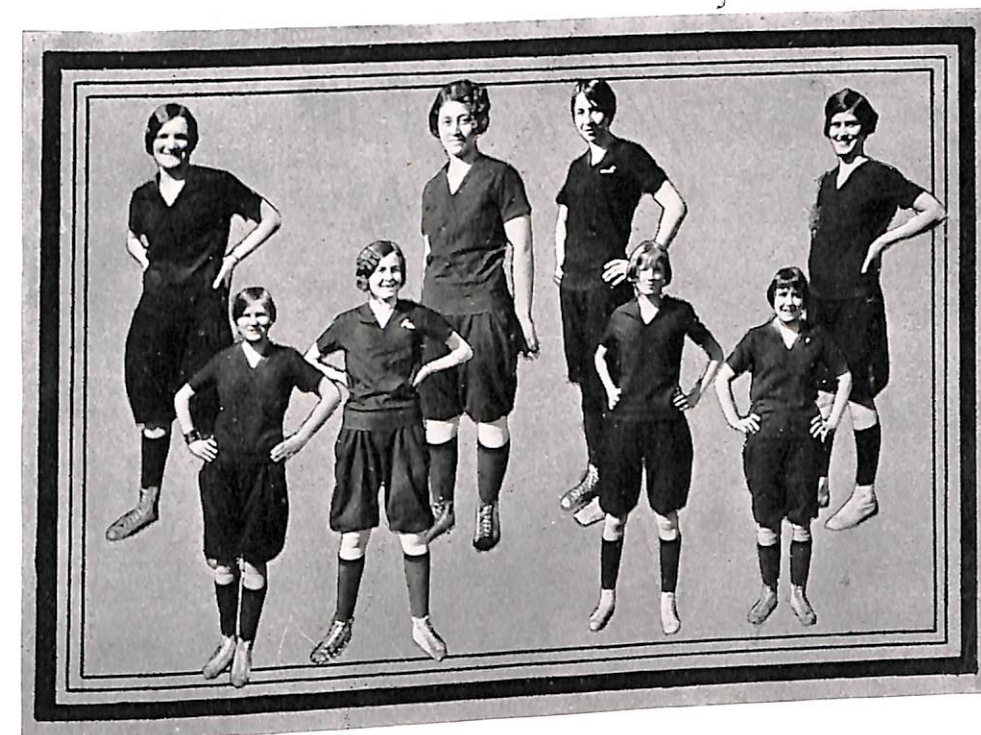

The excellent showing made in the Oklahoma Collegiate Junior College Conference against the Oklahoma Christian College, and the defeat of Lawton High School mark our advance in basket ball. The whole season was a great success in that we lost only three scheduled games.

The Girls Basket Ball team was not so successful as the boys, owing to the fact that there was not enough competition for the positions. However, the girls team was of no mean ability.

Judging the future seasons by the one just past we think that Cameron is designed to put many more winning teams in the cage.

- FRANK WARD—Forward,
Ward is a good floor worker and can hit the basket when it means a victory.
- BAST. WILKERSON—Center,
Shakey is an excellent center. He was an Honorable Mention for the Conference Tournament.
- HERBERT MANSKER—Forward,
Turkey is a good shot from anywhere on the court and we expect him to be one of our most dependable men next year.
- DICK LYNCH—Guard,
Dick is our running guard, he covers the floor in good shape.
- WILLIAM BUCHWALD—Guard, CAPTAIN
As defensive guard Buck held his opponent down to a low score and was always on his man.
- TOMMY WALKER—Guard,
Tommy always worked hard, is a good floor walker and can shoot baskets.
- RALPH HANKINS—Center,
Altho this was Ralph's first basketball experience he showed good form and we will be glad to have him back next year.
- NED PORTER—Forward,
Ned can be depended on to hit the basket whenever he gets a shot and is hard to keep up with.
- JAKE LYONS—Guard,
Jake has had little experience but the way that he went after them we feel that he will prove valuable next year.
- CHARLIE ROWELL, Forward,
Chock was small but fast and his floor work combined with his basket shooting ability made him a valuable man.

- OMA CARTER—Running Center,
Red was quick, peppy, and full of fight.
- RUTH RHOADES—Guard,
Ruth was a sure and dependable guard.
- GENEVA TAYLOR—Captain, Forward,
Fast, tricky and a real captain.
- GWENDOLYN BEST—Forward,
Bum was a steady forward and a smiling sport.
- ZULA LOMAX—Forward,
She was always sure of her left hand throws.
- JANE ABELL—Forward,
Good on long shots.
- GLADYS HAILE—Jumping Center,
It takes an extraordinary center to out jump her.
- DOROTHY CATES—Guard,
The quickest and best guard we have.
- OPAL TUTTLE—Guard,
She has had little experience but proved to be a valuable guard.

A FRESHMAN'S SOLILOQUY

I've been made fun of,

Been called green, been put under the cold shower, I've slipped off to town, been caught, put on the farm, Got lost in the pasture and I've missed my breakfast. I've bought a campus ticket. Been reported sick when it was too cold to get up, and I've seen a Senior put on my last and ONLY clean shirt.

I've been lovesick, homesick, hungry, tired, sleepy, cold and broke. I've offered advice to Seniors, tried to speak in chapel and have furnished the whole dorm with cigarettes.

I've gone to town without a permit, I've gone to band practice without my instrument, I've gone to class without my lessons and now I've FLUNKED.

I went out for football.

Was used for a tackling dummy,

Tried basket ball, but couldn't see any baskets,

Tried baseball and got lost in the field, got dry, hit a hi ball for the dorm and now since I've got kicked out of study hall, I'll just wait around here and see what in the h—l these hi headed Seniors are so smart about.

“Yes, the stage was sheltered by trees.”

“What about the audience?”

“Oh, he was all right. We lent him a raincoat.”

CAMERON BOARDING CLUB

Board at Cost—\$12.00 Per Month

Balanced Food

Well Prepared

SERVED BY STUDENTS

Girls who wish to work their way serve the meals, Ambitious boys wash dishes.

No other state institution in Oklahoma serves high class meals so cheap as the Cameron Boarding Club, because it is a partnership arrangement.

Our food is purchased at wholesale prices and served by students.

Our menus are prepared by our Domestic Science Teacher. Each menu contains some Holstein whole milk.

Nothing is better for boys and girls of high school and college age than pure milk.

ATTEND

Cameron State School of Agriculture Because

- It is a State School;
- It is a rural School for rural boys and girls;
- It is a progressive institution.

The main purpose of this school is to meet the needs of the rural population; not only of the boys and girls who attend school here but also their parents and southwestern Oklahoma as a whole.

In order to do this, we offer the following courses:

AGRICULTURE—Both practical and theoretical.
Manual Training—Bench work and Blacksmithing.
Home Economics—Sewing and Cooking.
MUSIC—Band, Orchestra, Piano and Voice.
SCIENCE—Physics, Chemistry and Veterinary Science.
ACTIVITIES—Debating, Dramatic Club, Athletics, Demetrian.
Hi-Y, and Oratoricals.

In order to do the above work successfully we have:

A STRONG FACULTY—13 Members.
ADMINISTRATION BUILDING—A large well equipped brick.
LIBRARY—Complete.
LABORATORY—Adequate.
DORMITORIES—Three for Boys and two for Girls.
GYMNASIUM—Large and new.
FARM—160 Acres.
CATTLE—Registered Holsteins.
HOG—Registered Duroc Jerseys.
CHICKENS—High producing White Wyondottes, White Leg-horns, and R. R. Reds.

For further information concerning Cameron,

Address: J. G. March, President
Lawton, Oklahoma.

LASTWORD

Perhaps you have read the Foreword so now for a Lastword. It takes cooperation on the part of the multitude combined with persistence, inspiration and labor on the part of those more closely connected with the "Fascinating Sport" to build a successful annual and we feel that the multitude has shown splendid spirit during the construction of this WICHITA.

The condition in which this book appears together with the impression which it makes on you are to determine how well we have performed our task for you are the one to judge our efforts.

If you find mistakes in this book please excuse them for we did not intend to make them. Regardless of its faults this is the best "WICHITA" ever published in 1927. We hope that you are not disappointed in it and that it will serve you well.

The Staff.
