### BYRON F. JOLLY

Cloud Chief, Oklahoma.

Pres. Literati '17, '18; D. and O., Stock Judging Team; Business Manager 1918 Wichita.

Foot-ball '17 (Capt.) '18 (Capt.) Basket-ball '16, '17, '18. Base-ball '16, '17, '18.

"Jolly" is prominent in both literary and athletics. Is some what of a ladies' man and leaves a fair Junior to mourn his absence. Will probably be serving his nation's call before this is published. Will with out a doubt serve his country as well as he has served his school.

### REUBEN L. HAY

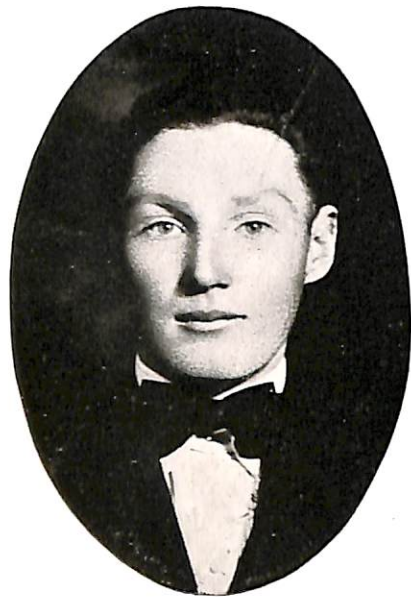

Baird, Okla.

Literati; D. and O.; Debating Team; Stock Judging Team; Editor-in-Chief 1918 Wichita; Pres. Athletic Ass'n. Foot-ball '17, '18. Basket-ball '16, '17, (Capt.) '18 (Capt.) Base-ball '15, '16, '17, '18 (Coach.)

"Hay" an all round athletic as well as an all round good fellow. Is liked by every one. Thinks he has reaped his harvest at Cameron, this being his fourth year. His Graduation doesn't take him away from his fair one. A Civil Service position is waiting for him.

REUBEN R. SHAFER

Lawton, Okla.

Foot-ball '17, '18; Basket-ball '17, '18;  
Base-ball '17, '18; Joke Editor '18 Wichita.  
Dramatic Club; Literati.

"Shocky" loves nature. He likes to stroll  
along the brooks, or among the mountains  
and study them. He is humorous and can  
make you laugh any time. Always plays  
the leading part in school plays. His past-  
time is chicken roasts. Hasn't decided what  
work he will take up.

CLARENCE TOWNSEND

Lawton, Oklahoma.

"Clan" was born a musician, and at times  
has worked his way by tickling the ivories.  
He loves the ladies far and near and can  
entertain any of them. His hobby is getting  
"by." His pastime is jerking sodas and  
playing pool.

RUSSELL C. FIELDS

Lawton, Oklahoma.

"Red" is one of our most practical stud-  
ents, being able to inform you of most any-  
thing that you might ask. Altho never  
taking an active part in either athletics or  
literary work was always in favor of them.  
His hobby is making grades and smoking  
"Owl" cigars. Has "landed" a good position  
as manager of a local dairy.

TOMMIE W. A. SCOTT

Holiday Oklahoma.

"Tommie" is a native of Africa by birth  
but claims to be of American blood. He is  
the smallest in the class but the most  
valued is not always in the largest pack-  
ages. He uses good judgment, is thought-  
ful, studious and knows when a thing is  
carried far enough. His hobby and past-  
times are stealing "Fords" and playing ten-  
nis.

J. MACK HARRISON

Lawton, Oklahoma.

Basket-ball '17; '18; D and O; Foot-ball '17; '18; Delphic Oracle; Business Manager Athletic Ass'n '18; President Class '18; Stock Judging Team '18; Ass't Editor 1918 Wichita

"Mack" is good humored, industrious, and liked by every one. Always says what he thinks and will stand for his rights with anyone. He knows the ways of the world from A to Z. He leaves a maiden fair in his memory. Will perhaps be in his country's service before long.

WILLIAM N. STAHL, JR.

Perry, Oklahoma.

Foot-ball '18; Basket-ball '18; Base-ball '17, '18 (Capt.) Delphic Oracle; Dramatic Club.

"Bill" is the youngest in our class, but not by far the least, either in size or in making grades. He is noted for his "pep." on the athletic field. Played one of the leading parts in the Dramatic play. He is looking forward to the time when he shall be graduating from O. U. rather than Cameron.

FRED L. PARKE

Literati, D and O, Dramatic Club.  
Football, '17, '18.  
Basketball, '17, '18.  
Base Ball, '16, '17, '18.

Parke is one of the three members of our class who helped in its organization. He always took an active part in athletics and other student activities. We were sorry indeed to lose Fred some six weeks before graduation; but it is something that must happen to all men at least once in life and when the call comes no one can resist. Dead No, married.

RAY-PARKE.

Miss Jewel Ray of Nowata and Fred Parke of Geronimo were quietly married in Walters, March 17, 1918. The wedding came as quite a surprise to their many friends and is the culmination of a pretty romance begun in school days at Cameron. Miss Ray was a Sophomore at Cameron before moving to Nowata. While she was visiting in Walter, the wedding occurred and thus takes from the '18 Class one the strongest members. Fred is an industrious student, having been with the Class since its organization. The '18 Class wishes them much joy and happiness in wedded life.

## SENIOR CLASS HISTORY

At the beginning of the nineteen fifteen school year a class of some twenty freshmen assembled in the halls of Cameron. Little did they know what to do and nothing of what to expect. Nevertheless, they soon settled into the routine of recitations and other activities, taking an active part in athletics as well as giving some enjoyable entertainments.

When the students were again assembled at the first of the next year the greater part of this same class with some new members enrolled as Sophomores. We entered into the work with a vim that could spell nothing but advancement and success. We were represented in all activities to such an extent that we won the admiration of even our upper classmen.

The next as Juniors our number had decreased until we had only fourteen in the class, but this fourteen had enough school spirit, real red blood, and eagerness to accomplish for twice this number. In the inter-scholastic meets we took everything and did work in the class room that pleased even the faculty.

The '18 year, the last of our course, is one that will not be forgotten by any one connected with this institution for years to come. Our number has been lowered to nine, but nine what? We have been classified in many ways but the fact is, we are all boys. We have kept up our reputation in athletics, having had five men on the foot ball team, five on the basket ball team, and a base ball team of our own. We have not made the highest grades in the school but when I inform you that seven out of the nine are absolutely on their own resources, having worked their way through the entire course and with the extra work we have had in publishing this Annual and taking active part in all other activities you will not be surprised.

It was prophesied of this class at its organization that it would be one long remembered. If it is forgotten we feel that it is not our fault and hope that the remembrances, if any, will be sweet ones.

B. F. J. '18.

## Senior Class Will

We, the Senior Class of Nineteen Hundred Eighteen, realizing that we are about to pass out forever to a world unknown to us, and having full possession of our minds, the same being thoroughly trained through the mediums of recitation, daily quizzes and examinations do make and take this time to state our last will and testament: First. To our noble successors, the Class of '19 we will the honor of having full possession of Senior Hall in the boys' dormitory, with special instructions on how to maintain the dignified air that has prevailed the past year. We also will them the right of ruling Athletics and the much abused custom of "getting by." Second. To the promising Class of 1920 we will our mental and physical power and fighting ability. May said spirit do for them as it has done for us and carry them gloriously and victoriously through all trials and tribulations. We further will them the right of disturbing the teacher in the adjoining room by whistling and boisterous talking while in the study hall. Third. We will the Freshman the use of the dictionary when the Class of '19 is not using it. To them we also will our love and loyalty to all C. S. S. A. Fourth. To the faculty we will the right to see that our successors are brought up in the way that they should go and charge them to see that Cameron remains upon this earth. Fifth. We make the President of the Class of '19 the sole Executor of this our last will and testament.

(Signed:)

## Senior Class Prophecy

New York City, N. Y.,  
Feb. 28, 1922.

Dearest Maude:—

I have just returned from the wharf. I went down to see a ship load of our soldier boys start "Over there," and a very pleasing miracle happened. I was strolling listlessly when a handsome young soldier grasped my arm. Looking around, whom should I see but Shocky Shafer? He wore a Lieutenants uniform and informed me that he expected a promotion soon. During our brief conversation he asked if I did not want to see Mac Harrison and Fred Parke. Of

course I was more than pleased to see these boys once more. Mac was dressed in a sailor suit which was very becoming. He is now a commander of a formidable looking war vessel and Fred also holds a high commission.

I have a very good position here with the Labor Bureau of Employment. A few days ago, when work was rather slack I was sitting at my desk, drumming idly with my pen and recalling old days at Cameron, when a rather timid knock sounded at my office door and in response to my provoked "Come In," the door opened slowly and imagine my consternation, when Tommie Scott's altered countenance appeared in the threshold. He seemed as much surprised to see me, as I him and started, visibly. I noticed his faltering footsteps and asked him what had impaired his health so badly. (You know that Tommie was a strong, husky lad at Cameron in spite of his 102 lbs.) He explained to me that he had worked himself up to a very high position in one of the sky scrapers of New York, but on account of the high altitude he had to retire to a lower position. (He was washing windows on the top floor.)

Tommie says he hears from his old friends and room mate, Byron Jolly, very often. Jolly is now a first class private. Owing to his getting into the service early he was able to get this destination in the short length of time, (four years.)

I received an announcement from one of the big churches of this city last week. There was to be a noted evangelist at the church the following Sunday. Out of mere curiosity I attended, and you would never guess that it was our old school fellow, Clarence Townsend. I talked to him of former days and old friends. He informed me that Billie Stahl had gone to India as a missionary to the heathens. Can you imagine our "Grown up baby" as a man and a missionary?

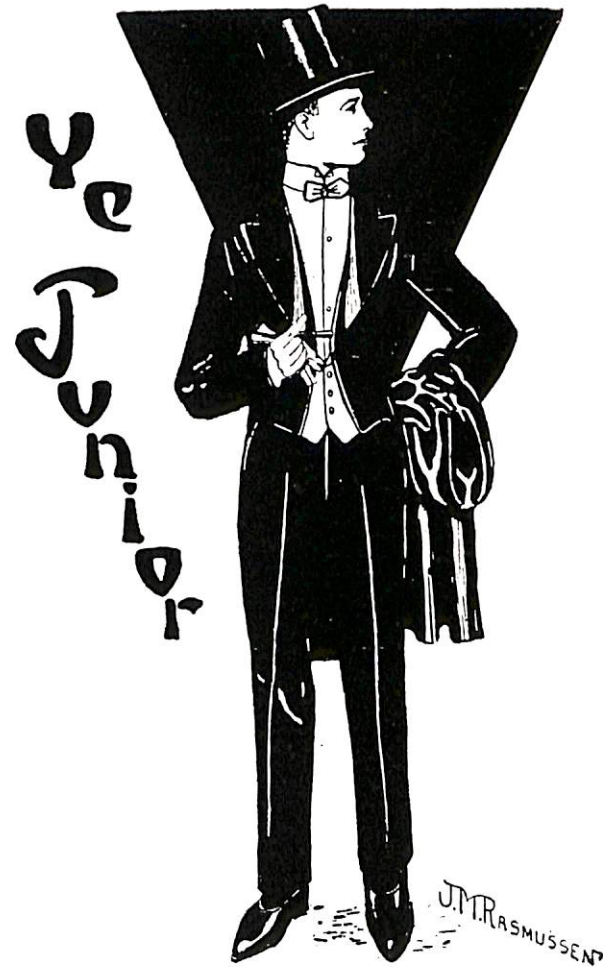

Reuben Hay came in a few days ago and pleaded very earnestly for employment. He said he must have a position that paid a good salary for it was hard for him to support wife and baby Eva during this time of "High cost of living."

Russell Fields is engineer on an interurban here. They say he is a very economical addition to the business as they use no lights on his cars. Judging from his personal appearance you cannot wonder long why they use no lights. His beautiful red top gives light enough.

I think I have said a word for all of the class of 1918 from dear old Cameron, and know that you are glad to hear of all of them.

Your friend and Chum,

LENNIE WHITE.

## JUNIOR CLASS HISTORY

Juniors! Doesn't that sound good? It does to us for by that word alone, anyone who knows the Cameron Juniors immediately think of the best all-around class that has ever begun a career in C. S. S. A.

It is one of the largest classes that has ever assembled here to stay. Very few have fallen out, and we have had the pleasure of initiating new members yearly until the class has attained the highest among its adversaries.

In athletics we have opponents but no rivals. The Juniors constituted a portion of the foot-ball and basket-ball teams and in base-ball they are not outnumbered or out done. The girls' favorite outdoor sport is tennis and some of them couldn't be called bad players.

Junior girls are noted at Cameron for their culinary ability. On May 27, 1917, they entertained the girls of the '17 class to an eight o'clock breakfast, and March 16, 1918 the Senior boys of '18 (boys because there are no girls) enjoyed a six o'clock dinner which was given in honor of the Stock Judging Team. The Junior girls also know how to reach the hearts of the members of the faculty though there are women among them. It has been said that you can always reach a man's heart by way of his stomach, and in this case sex matters not.

Only Seniors were allowed to participate on the Stock Judging Team this year but we expect to make a showing next year.

Oratory is neither dead nor a thing of the past, and in our class fellow Odell (Debs) Palmer, we see a very efficient orator and debater.

If you want the latest jokes and Charley Chaplin stunts meet Crack Roberts and Butch Franklin. They will some day be Mark Twain's successor as humorists. They have plenty of both ludicrous and dry wit.

Music, which washes away from the soul the dust of every day life, is plentiful. Frankie Baker and Ernestine Shaw could not be spared at the dormitory, for if Alice Bear should happen to be disposed, there would be no music for the "dance."

The greatest social function of the year was the Junior-Senior party given by Miss Tamsie Howard Feb. 14. It was a decided success and all expressed their sincere appreciation to Miss Howard and returned to the dormitories, declaring her a most delightful hostess.

In a few more months we hope to be Seniors and occupy the proverbial seats of "respect," dignity, and privileges" that under the classmen hear so much about but never realize. It seems long ago since we were "Preps." yet it is hard to comprehend the words, "Senior," and "GOOD-bye Cameron" so soon.

May our boys be spared in this awful conflict at least until the graduation of our class in 1919, and may there be no need of them in the service of Uncle Sam by that time, is our daily hope and prayer.

L. W. '19.

SOPHOMORE CLASS

## SOPHOMORE CLASS HISTORY

In the year of our Lord Nineteen Hundred and Eighteen, the Freshie Clashes of nineteen assembled again at Cameron, this time under a new name.

We have in our class some of the most wonderful characters, and great things have been prophesied of them.

When it comes to playing Chaplin's stunts our Jensen can't be beaten, and there is Len who is quite a favorite among the girls, especially golden haired ones. Next is one whom all would know if just the word "Toad" were suggested, owing to the fact that he is short. Who other could it be but Otis Parks. Clothide Fullbright is next on the list. Queer, isn't it, how some people, because they are tall always prefer some one short.

Musicians—why yes, we have all kinds of them. By just suggesting these names, Willis, Edith, Catherine, May, and Ruby, we think of music.

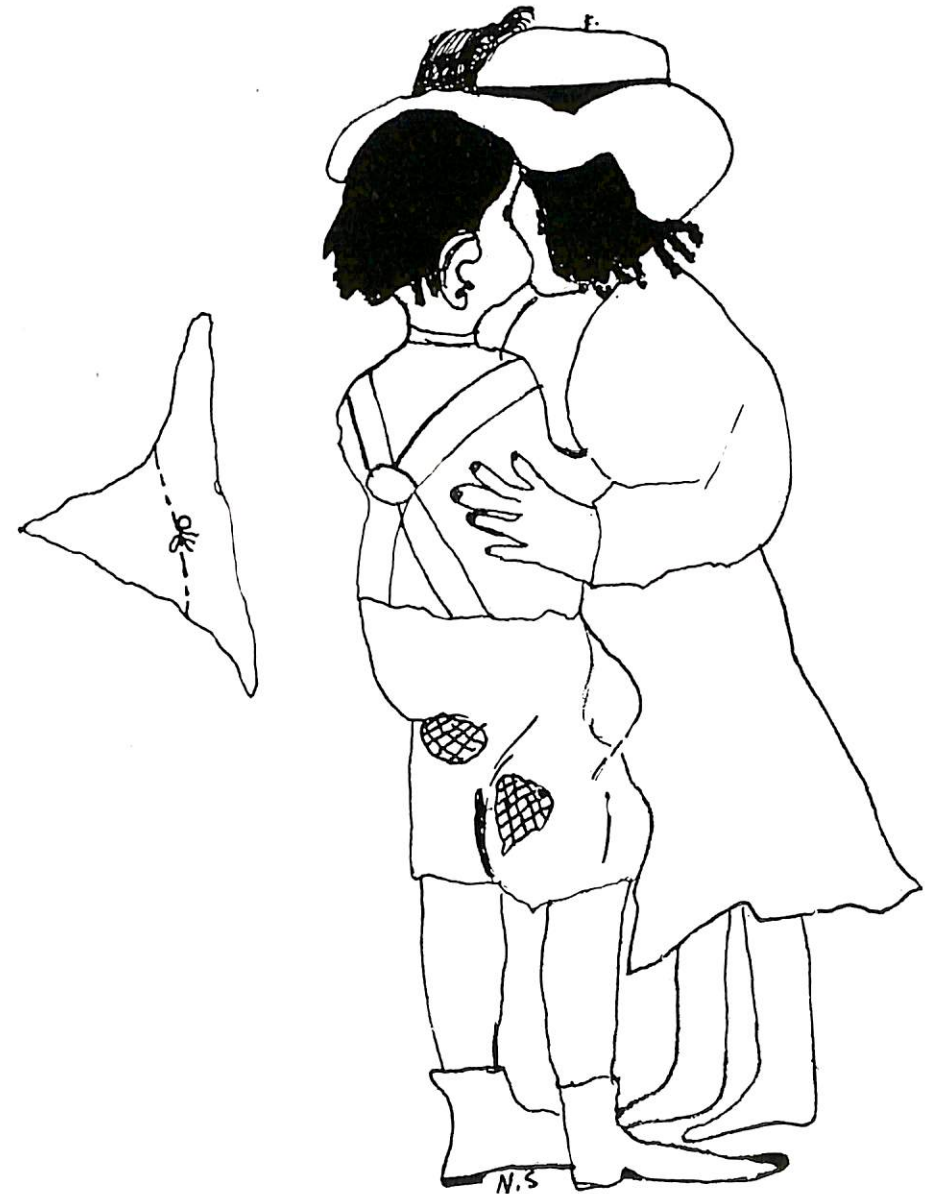

J. C. also plays an important role in our class. He doesn't have to talk; his eyes talk for him, at least that's what the girls say. Then there is our May whom everyone loves, but especially a certain "Freshie." Wonder how he knew that she liked chocolates? When we speak of Nina it seems to suggest a Senior. Wonder why? Just before Christmas Lola came, and we were very glad to have her name on our list. We must admit that she is exceedingly partial to the Seniors. We feel safe in saying that Jonnie has at last decided that she likes a Senior best.

There is Hubert and Wilbur whose names Miss Gwinn is always getting confused. We are rather of the opinion that they are going to be what we term "women haters." Oh yes! there is "Chatfie" whom we consider one of our leaders. His motto is "Take life easy."

Now this happy band of gifted Sophomores are looking forward to the year nineteen hundred and twenty when we shall come back under the title "dignified seniors."

FRESHMAN CLASS

## FRESHMAN CLASS HISTORY

The present Freshman class assembled in the hall the first day of school and occupied that first two rows of seats. With the exception of three of our members, we were all new students; but on account of our brightness (green) we soon got together, had a class meeting and elected our officers for the year. At the same time we decided to challenge the Sophomores for a tug-of-war. Although they were victorious we remembered the old adage that "a bad beginning makes a good ending" and decided to make the best of it.

During the basket ball season we challenged the Sophomores for several games in which we were victorious. Our class spirit has been the one thing that we have always been proud of, even if we could not take a great part in the activities wherein the school was being represented. We have the making of some good athletes and if they will take the advantage of getting experience, we are sure that by the time we graduate we can be represented on all the teams and make a record that will not be forgotten.

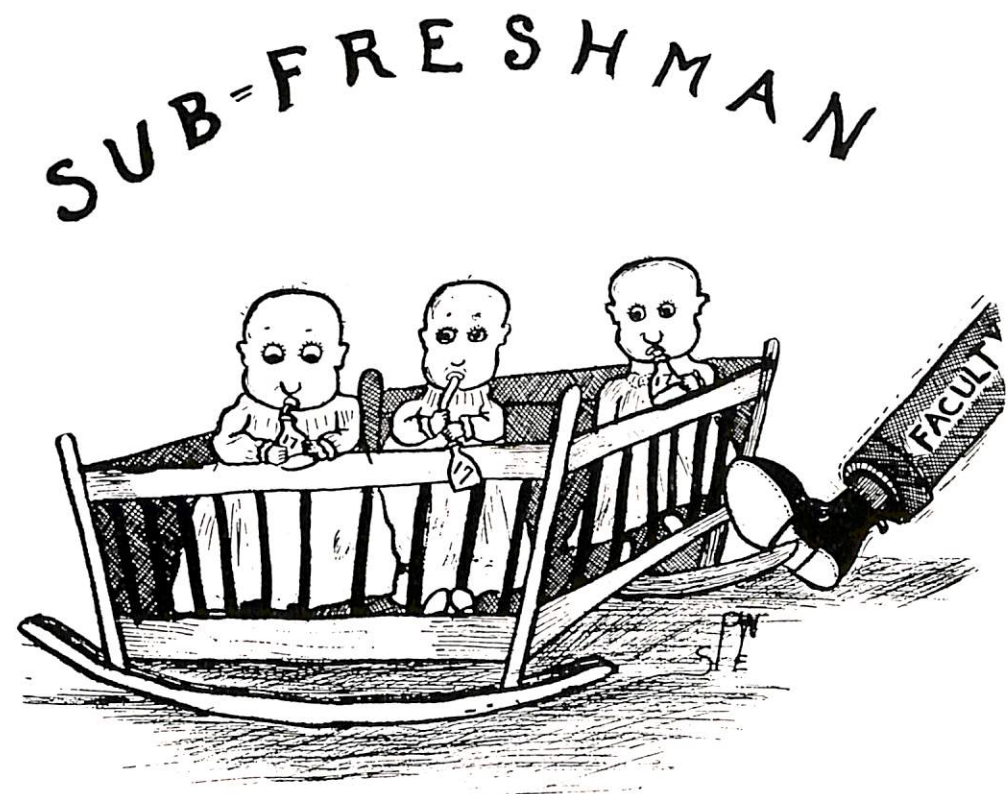

We have been blessed with some of the faculties favorites and any time we can convince Dorothy that she needs "open session" we can get it for the asking.

In the Domestic Science department it is always the Freshmen who make the experiments and we feel that we have been very successful as no one has been blown up and we have made some wonderful improvements.

Our only social event of the year was a marsh mallow roast at the red bridge. We had planned on "the more the merrier" but Mrs. Shepler interferred. I believe that the boys whose plans failed can tell you as much about this as I. Nevertheless it was a success and every one reports a good time.

Our aim is that a new assembly hall will have to be made for the other classes as we expect, by graduation, to have a senior class that will fill the present one.

PATRIOTIC PARADE.

The above cut represents the school in a patriotic parade given in honor of the Comanche County boys who left Lawton for Camp Travis, San Antonio, Texas, September 18th, 1917.

Cameron was represented by Prof. P. G. Scruggs, once a student in this school, but at that time was the teacher of Agriculture, and one of the most popular members of the faculty.

While his place has been filled by a competent instructor, it is said that he is simply "away from Cameron on a Leave of Absence." Let us cherish the hope of a safe and sure return.

MOTTO

Ever push forward,  
Work with a will, not a frown,  
It takes a live fish to swim up stream,  
Any dead one can float down.

It has been the object of this society to give a series of programs that were educational as well as a pleasure to all concerned. We consider that literary work is one of the main features of any school and hope that those who succeed us will uphold the standard that we have established in this society and that it will continue to be one of the leading organizations of this institution.

## HISTORY OF CAMERON

The Cameron State School of Agriculture is one of the original six secondary agricultural schools established by the First State Legislature. Now there are four of these schools in the state, located at Tishomingo, Warner, Goodwell and Lawton, respectively.

The purpose of the district agricultural school is to provide an opportunity to secure a well rounded secondary education, more practical than has heretofore been offered. Holding this purpose in view, the Cameron State School of Agriculture offers a useful and practical education to the young men and young women from the farms, villages and towns in Southwestern Oklahoma. These schools occupy a place in the educational system peculiar to themselves. With the introduction of agriculture, domestic science and manual training in the public schools of this state, district agricultural schools will flourish, and with the increase in popularity of such subjects in public schools, the need for district agricultural schools will be more clearly appreciated. A very small percentage of the boys and girls who attend the common schools, and a still smaller percentage of those who attend the high school enter a college. The reason for this rapid elimination of the common school pupil is that the education offered the student beyond the common school is not practical in its nature, so far as the needs of a large majority of students are concerned. The young man or young woman who completes the course of study in one of the district agricultural schools is well prepared to take up his or her life work. The preparation received is of such a practical nature as to afford a foundation for the future, no matter what profession or calling he may decide upon.

Under the constitutional and statutory provisions the Oklahoma State Board of Agriculture is the Board of Regents for this and like schools. These gentlemen are deeply interested in the development

sixty

of agricultural and industrial education and may be relied upon to carry out the purpose and intent of the law establishing secondary agricultural schools in this state. Local government is in the hands of the President and Faculty.

The peculiar climate and soil of this section make a school of Cameron's type especially important to the great Southwest. Realizing the need of a school and experimental station of this kind for this section of the state, an association of business men, headed by the Chamber of Commerce of the City of Lawton, purchased one hundred and sixty acres of land, where Cameron is now located, and presented it to the state as a special inducement to locate a school here. With a semi-arid climate and unusual soil problems, we try to adapt the instruction in general agriculture to the conditions in our own part of the state.

We commemorate Tuesday November Sixteenth, 1909 as the birthday of Cameron. On this day the first term was opened in the basement of the First National Bank building. During the third month of the third term, the school was moved from the basement of the bank into the present location, a modern three story brick building which will accommodate two hundred students. It was during the fourth term of school that our Girls' Dormitory was erected by the citizens of Lawton. This building is thoroughly modern in every respect and affords accommodation for fifty young ladies. Other improvements include a modern combined horse and dairy barn, an implement shed, planned and built by the boys' class in carpentry, a one hundred ton silo, boys' dormitory and two cement storm caves. In the way of livestock we have established a herd of pure-bred Holstein cattle, a herd of pure-bred Poland China hogs, and two of the best registered Percheron mares in the state.

The school has had a steady and substantial growth and is now one of the permanent educational units of the state.

Cameron of today shines far in her glory but Cameron of tomorrow will shine farther and brighter.

## ON PARADE

---

Once upon a Monday night,  
When all the stars were shining bright,  
To the girls "dorm" the boys took the path  
To see their future "better half"  
As this was a shirt tail parade,  
They did it without the faculty aid.

Upon the porch they proceeded,  
And by the faculty they were greeted,  
Then down the hall they were bound,  
But there they soon found  
Nothing. So back to the stairs  
They went up like bears.

Up stairs they saw many sights,  
Among them were some great frights.  
Down the hall the boys did roar,  
And the girls stuck their heads out of the door  
Because they were heard to say,  
"We have on our negligee."

Back to the stairs the boys did get,  
And Mrs. Shepler said, "Don't go yet.  
So for the girls the boys did yell  
But it really sounded like H——.  
Then down the stairs they did file  
At the rate of a minute a mile.

On the outside they did stop  
To fix up a little plot.  
And again they yelled for the girls  
With their fair and beautiful curls,  
Then to the "dorm" they did run  
After their evening of a little fun.

TERROR ! ! ! !

---

The silence was intense; each cheek paled, a terrible fear grip-  
ped each heart; tears came to the eyes of many; many a prayer  
was sent heavenward when they realized the immediate danger.  
Many of those present would have preferred facing starvation or  
even jumping from a high cliff than pass through the present ordeal.  
This calamity was terrible, and worse than all they were unpre-  
pared; wholly unsuspecting. A raging lion would not have thrown  
them into such tantrums—Mrs. Farley was entering the study hall.

"THE FORD IS MY CAR."

---

The Ford is my car; I shall not want.  
It maketh me get out and get under;  
It maketh me to wade in mud beside the still water.  
It leadeth me in the narrow road of the country.  
It restoreth my vocabulary; my mouth runneth over.

Surely goodness and mercy shall follow me all the days of my  
life, and I shall ride in my Ford forever.

# SOCIETY

On the night of Hallowe'en the students were chaperoned to the "Red Bridge" where they were entertained with a picnic supper and an evening of fun and frolic. Miss Gwinn acted as fortune-teller of the evening and furnished much amusement for all. Various games were played and everyone present spent an enjoyable evening.

\* \* \* \*

## TACKEY PARTY

When it became known that there was to be no Lyceum number on the night of February Seventh, it was decided by the Faculty that the students should be given a "Tackey Party" instead. No announcement of the party was made until in the evening at dinner, hence it came as a pleasant surprise to the students. At the stated time, Seven Thirty, all had assembled in the dining room, dressed very fitting for the occasion. The boys with their chosen partner fell in for the Grand March around the hall, the Faculty acted as judges and prizes for the 'tackiest' costumes were awarded to Dot Livingston and Frank Jensen. Music and games furnished the amusement for the evening. At a late hour an ice course was served to the guests, after which they departed for their respective apartments in the dormitories.

On the evening of March 16th the Junior Girls entertained the Senior boys and their guests with a dinner in honor of the victory of the Stock Judging Team at Oklahoma City, the boys having brought home the loving cup which now becomes permanent property of the school.

At six-thirty the guests went into the dining room which was artistically lighted with candles, and decorated with violets. Dainty hand-painted place cards aided all in finding their places. A four course dinner was served consisting of cream tomato soup, meat

loaf, baked potatoes, peas, pickles, divinity salad and ice cream and cake.

The dinner was prepared and served by the girls, which shows the splendid work they are doing in the Domestic Science Department. This was only one of the many dinners the Junior girls have given this year and they are to be congratulated upon their success.

\* \* \* \*

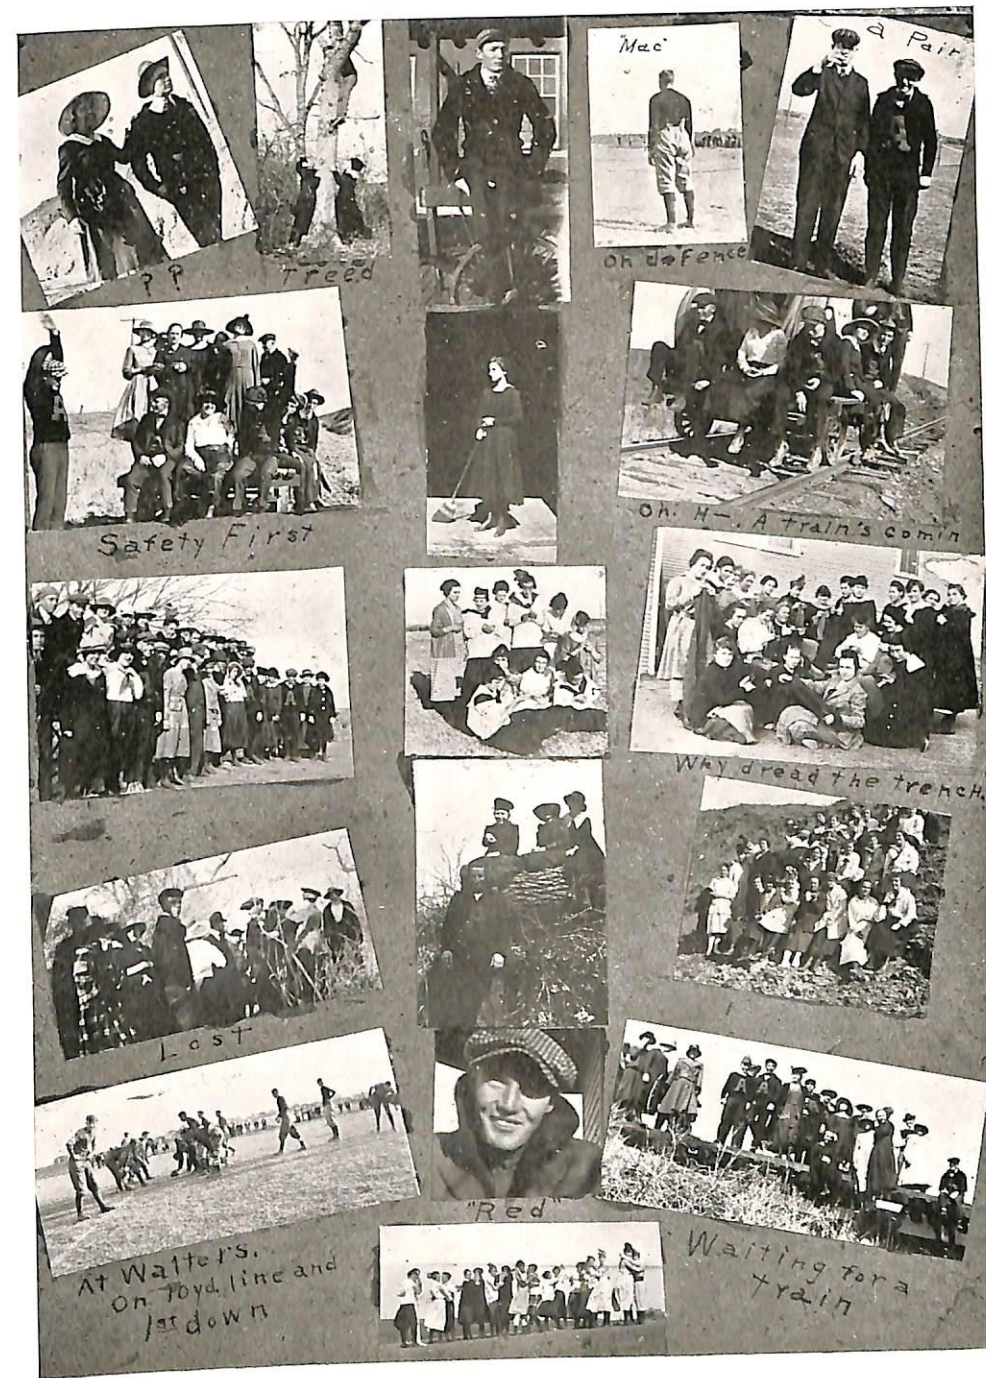

### JUNIOR-SENIOR PARTY

Miss Tamsey Howard entertained the Seniors and Juniors at the home of Mrs. Stafford on the evening of February Fourteenth. The early part of the evening was spent in playing out-of-door games, after which Miss Dalin entertained the guests singing and playing several musical numbers. At a later hour delicious refreshments were served and all departed for their homes, voting Miss Howard and Mrs. Stafford delightful entertainers.

\* \* \* \*

### SOPHOMORE PARTY

The Sophomore Class, accompanied by several guests from other classes 'hiked' to the nearby woods to spend the evening where they enjoyed a Marshmallow and "Weenie" roast. Everyone reported a delightful evening.

## CAMERON ATHLETIC ASSOCIATION

R. L. Hay ..... President  
 Odell Palmer ..... Secretary  
 J. M. Harrison..... Business Manager

The brand of athletics and athletes at Cameron is one of the best in the state. We have turned out some of the best teams this year that have ever represented this school. Owing to the fact that we had practically the same team this year that we had last, we had a foot ball team that could "step." Had we been eligible to join the conference we would have had a "cinch" on the Southwest championship and a good chance for the state.

In basket ball, our squad consisted of five Seniors with three years, and a Junior with two years of experience on the team here. Had we not been handicapped in practice we would have made a record that would have been a credit to any team.

In base ball, at the present time, we are doing some excellent work, and so far have won three games out of four played. At this rate we will be ready to play anything in the state by the time school closes.

Athletics as a whole is one of the main organizations of any school. Show me the man who has made good in athletics and years later I will show you the same man as one who has made good in life.

C. L. RUSSELL, Coach.

B. F. JOLLY, Captain.

Jolly came to Aggiedom from Carnegie three years ago and entered as a Sophomore. He played the position of quarter and as a field general he was hard to beat. Jolly has made two letters but is lost to future Aggie foot ball by his graduation.

HEVA ATCHAVIT.

"Hebo" played the game at end and was a sure ground gainer when it came to jerking down forward passes and running a broken field.

Heva is a true Comanche; his middle name is pepper and in football he certainly shows it.

F. L. PARKE.

"Bully" played the position of center and could put the pig skin back to good shape. Had a habit of going to sleep if any one hit him but could come to life as soon as a sub was called in. He will not be with the team next year but will soon have a team of his own.

REUBEN HAY.

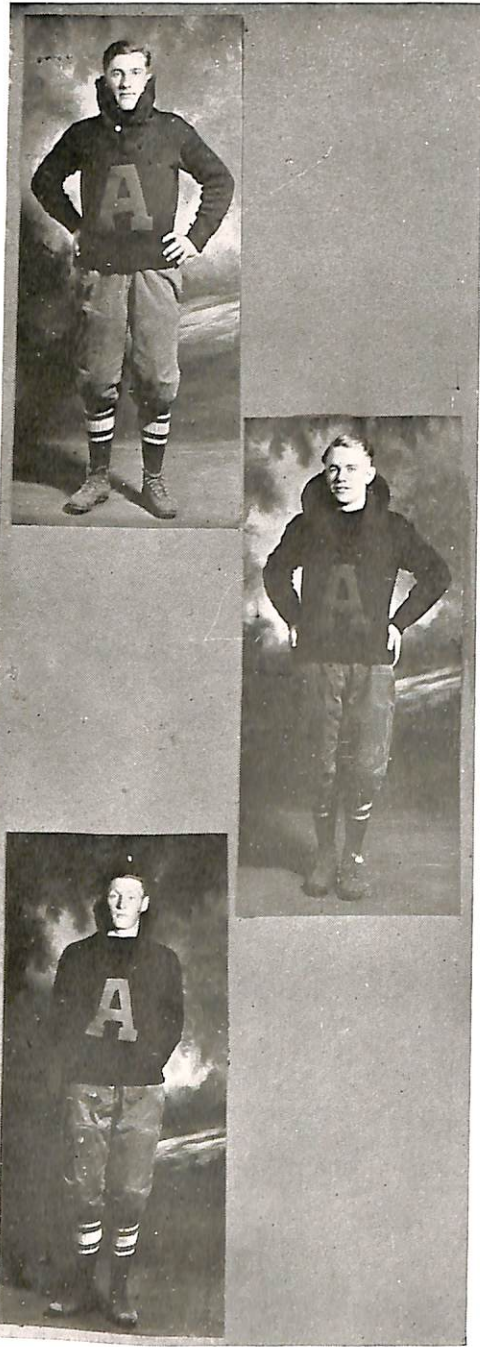

"Stumpy." It was remarkable how Hay could get around his opponents and jerk down a forward pass. He played left half to a perfection. Another man lost for next year.

ROY WATSON.

Watson played right tackle and was always on the job. What "cools" me is how Anadarko's full back got past him on the kick off. Will be with the Aggies another year and a man that can be depended on.

MAC HARRISON.

"Jack" played the game at right half and was a man to be depended upon. No one could hit harder or lower than he. This is "Jack's" second year on the team and Cameron aggregation will miss him next year for he will probably be "Somewhere in France."

OTIS PARKS.

"Toad" played the game at guard and could hold the line like a two hundred pounder. Had pep from start to finish and was always in the game. Parks will be with us two more years.

REUBEN SHAFER.

"Shocky" played left tackle. The way he had of getting that red head thru the line and getting a man is not for us to talk about. It was a miracle. His present ambition is to drive an air plane over Berlin. He will graduate this year.

W. N. STAHL, JR.

"Dad"—the biggest kid on the team. The only time Bill did not like foot ball was when he was on the side line during a game. He played the game at end, was good on forward passes and knew how to handle his man.

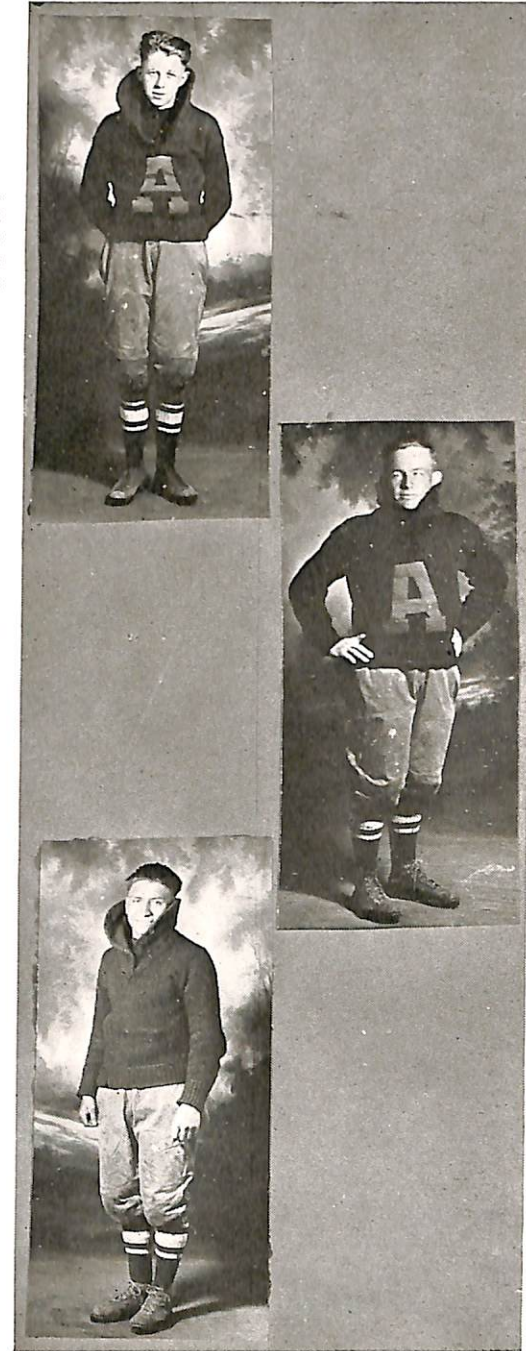

OLEY FRANKLIN.

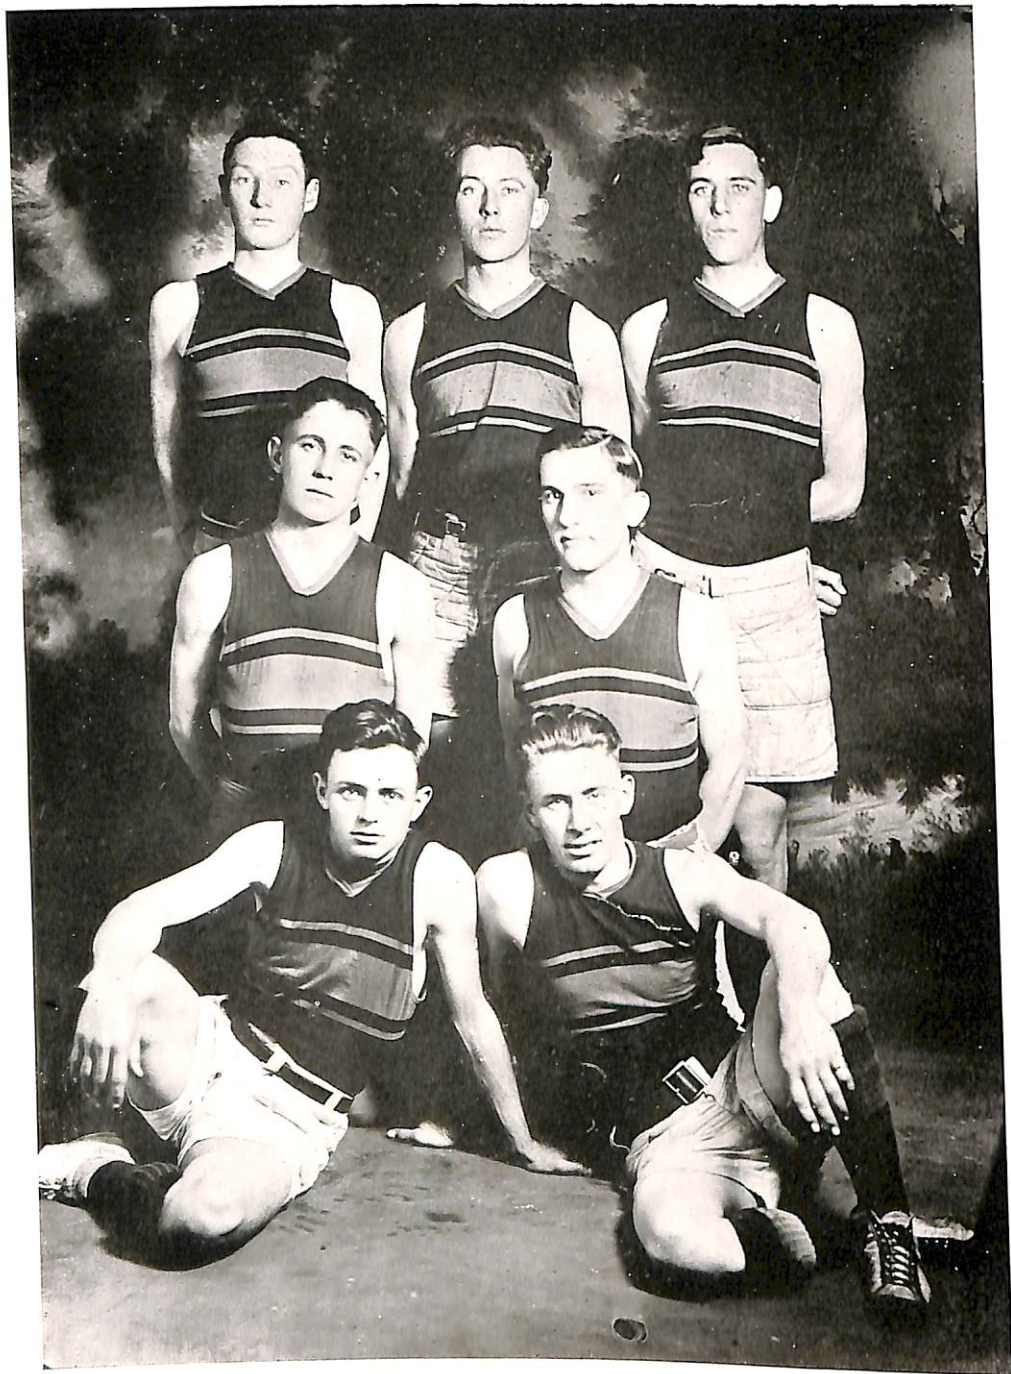

"Butch" played left guard and was like a brick house when it came to moving him. Was so cross eyed his opponent did not know what he was going to do. Will be with the bunch another year.

ABNER COOSEWOON.

"Chief" came to us from the Indian school. Was remarkable at breaking interference and wiggling thru the line on center smashes. He played full back and never lost his head.

A Comanche maiden broke up his foot ball career.

BASKET BALL TEAM.

EARL ROBERTS—This is "Crack's" first year on the team and he showed good ability as a 'cager.' He is tall and does not take up much space in width, which makes him a hopeless case for the guard. "Crack" will be the only old man on the team next year.

\* \* \* \*

REUBEN HAY—Hay is an 'old-timer' on the Aggie Team, this being his third year. He played right forward and when it comes to shooting goals from all angles with men hanging all over him, he has no equal. Hay graduates this year.

\* \* \* \*

REUBEN SHAFER—"Shock" has been on the Aggie line-up for two years and can easily count the goals on his fingers that have been made off of him in that time. They have quit 'making' players too quick for him to guard. His last year.

\* \* \* \*

FRED PARKE—"Bully" played center and guard at different times. It took a tall one to out-jump him and a fast one to get goals while he was guarding. His last year, on account of the low prices of marriage licenses.

\* \* \* \*

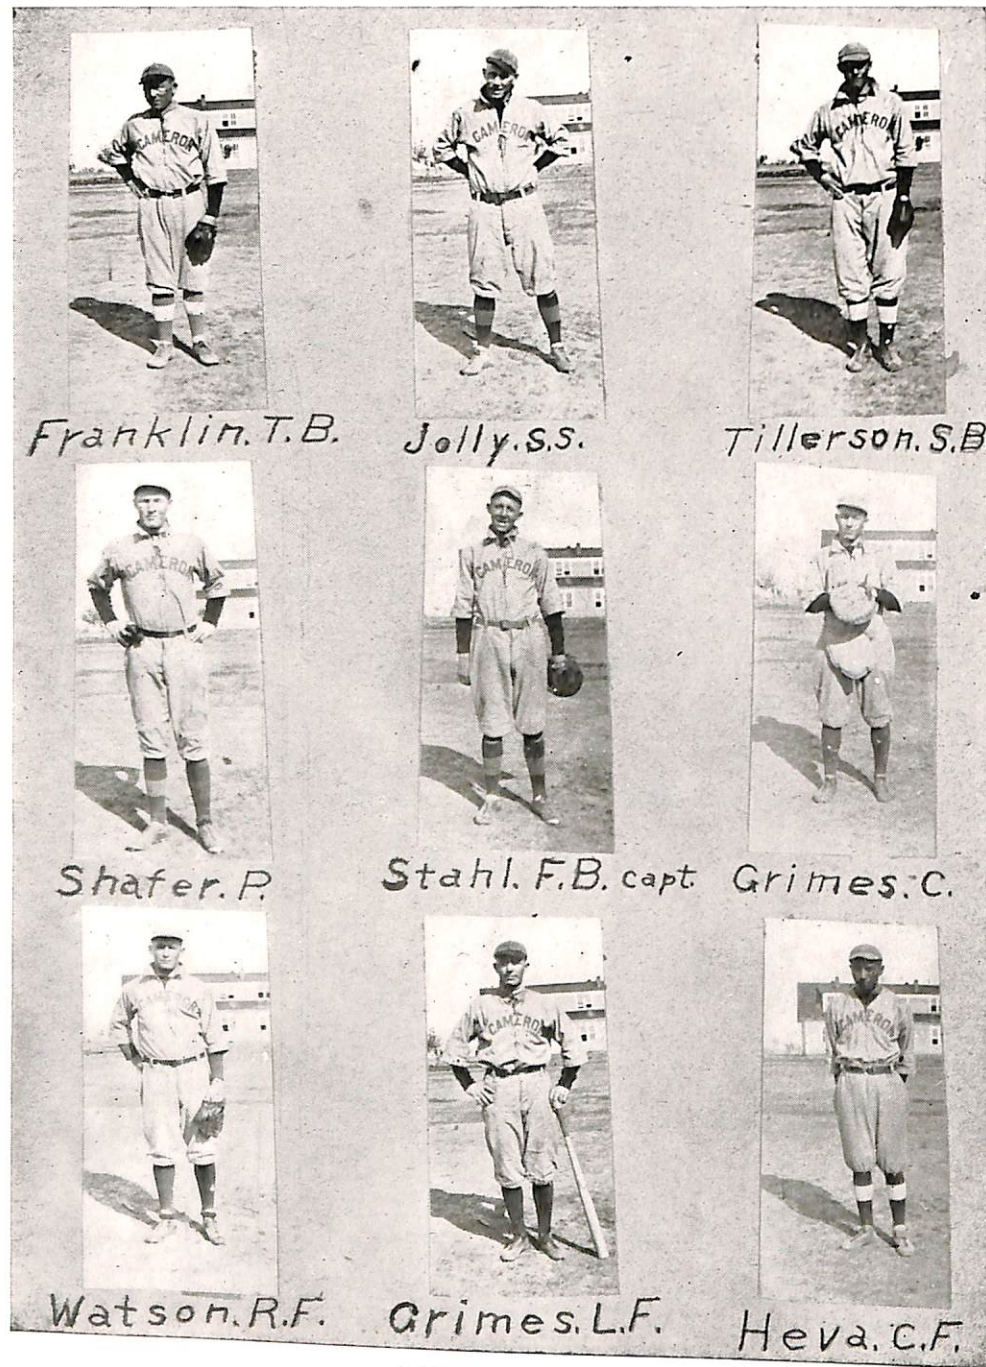

WILLIE STAHL—This was Bill's first year on the team and he "showed up" good at center. They had to grow tall to out-jump him and step out to cover the court in his company. An '18 graduate also.

\* \* \* \*

J. MAC HARRISON—Jack played guard and was always there when it came to riding a man in a close game. He was fast and heavy enough that it took a good man to star while he was guarding him. He graduates with the remainder of the team.

\* \* \* \*

B. F. JOLLY—Jolly is another man with three years experience. Played guard this year and was good at breaking up interference and getting through the (side) line for a—bench. Will play his next game in Berlin.

"Have you written your graduating essay?" asked Maud.

"Yes," replied Mac.

"Wasn't it a lot of work?"

"Just dreadful. First I had to hunt up words that were big enough, and then I had to keep looking in the dictionary to see what they meant; and honestly, I began to think I never would get it finished."

\* \* \* \*

Shock—"When Shaw proposed to you did he get down on his knees?"

Dot—"I should say not."

Shock—"Why didn't he?"

Dot—"Probably because they were occupied at the time."

"Where is Solomon's Temple," asked Miss North.  
"Do you think I don't know anything," replied Havah.  
"Well where is it?"  
"On the side of his head, of course."

BETTER SHOES FOR LESS MONEY

## The Story of John and Bill

Three months ago, John and Bill were working daily at the same task. They were both discouraged. John recognized the great opportunity in the commercial world, decided he would try to do better. Bill said, "Ah! forget it."

John used the opportunity and after properly applying himself for a short period of four months, accepted a \$60 position in an office with a promise of \$85.00 after the first months work. Bill had the same chance, but he turned it down. Today he is working for the same salary, barely meeting the month's bills.

The untrained man is not needed in the business world. He is worthless. Uncle Sam will not send the untrained soldiers to France. It's the trained man he needs. And the same is true with the business offices of our country, but just think of the vast number of "Bills" in the world in the stores, offices, on the farms and everywhere. Are you one of them? Wake up! Every time you see a C. C. B. C. ad your chance is staring you in the face.

If you want to be independent and to make more money, don't wait another day. Enter now for a thorough course of Shorthand and Bookkeeping. It may take a little determination and grip on your part to make the necessary arrangements and overcome the other obstacles, but the result will be a source of satisfaction and profit to you the rest of your life. You should write for our large catalogue to day.
