

28 November, 1944

Dear Prof -

Thanks for seeing I get the bulletin out here. It's heart warming to know that people back home haven't forgotten you. The October issue came to-day.

I note from the bulletin that Wagner is trying to get rid of her indebtedness entirely at this time - seems to me a good idea - while there is more money about.

The Lord has been good to Ruth & myself - and this is by way of letting you know that our small part towards reducing this debt is on the way - small, but none the less welcome, I hope.

I've got to tell you separately - that is, I can't send the money with this letter - that goes by the safest way - P. O. A. It takes somewhat longer than Postal money orders or checks, but eventually gets there. However, if in six to eight weeks time, you don't have the check - will you please let me know, so I can have it traced?

I see that in spite of the war and all the difficulties that must make

for a college like Wagner, she continues
to grow - I do hope and pray it continues
- and I'm sure it will. - soon, I hope
to be able to come back to visit all you
people and see again the hill and
the harbor - one gets so hungry out
here for the sights & sounds & smells
of home that it amounts to almost an
ache. but then you know. you were
in the same boat once - pray it won't
be too much longer -

As ever
Howard.
