Dear Prof,

Normandy 20 Oct.

Stopped in a nearby town for lunch and met
Waddie Procci a lieut in the Medical Corps. Had a
pleasant chat for a few moments, but had to be
off on our separate routes before we had chance
to trade much news.

The continent is about the way indicated by Eric
and Ernie Pyle, and life generally interesting in the
unique way of the Mauldin cartoon.

Hope that you are doing your share to fight the
unfortunate and somewhat untimely civilian optimism
that I fear is sweeping the country. Am inclined to
think that this false optimism is in relation
to how close we is to home.

My sincere best wishes to you and Mrs Stoughton

Ed Jones
