Oct. 6 1942

Dear Pres. Staughton -

It has been some time since I last wrote of my whereabouts. As you know the new programs mapped out by our armed forces are so fast that one seldom knows how or where he stands.

Time last evening you I have successfully completed and graduated from the Radio School of the Air. I attained a dual degree one in Radio operating & one in Radio mechanics. I spent some time on our big bombers both as Radio man & mechanic. I was about to have been sent to gunnery school & promoted to Staff Sergeant when I heard of my appointment as a "Flying Cadet".

This was Sept 14 and a few days later I was sent to Nashville Tenn where I officially received my

advancement in rank to cadet. At Nashville we took numerous physical mental & coordination tests for classification as Pilot, Navigator or Pilot. I applied for, and successfully completed the requirements, for Pilot.

It was then along with a number of other young men I was chosen to complete a condensed course of Pre-Flight. This course is ordinarily 10 weeks long but we are attempting to finish it in 19 days. We use therefore an aided 16 hour a day study system. In case you'd enjoy such a system at Wagner that being the equivalent to what some Wagnerians take per week - all subjects taught are on a collegiate bases with allowances for time and that which the student is already familiar.

Socially the cadet Corps strives to make each cadet a perfect gentleman and need I say succeeds

The ideals of Christianity and gentlemanisms taught me at Wagner have given me a decided advantage over the other cadets.

Another ~~benefit~~ <sup>benefit</sup> for Wagner is that friendships founded at Wagner remain constant and can be found in all active walks of life. To date I have met Pvt. George Tischer who is studying Radio at Scott Field + Sgt. Bob. Vomacka, a medical technician in Nashville Tenn. I have also heard of numerous other men in our armed forces who hail from the College on the Hill -

I shall soon be in Primary Training and shall send you another bulletin of Progress -

Yours Truly,

W.C. Alfred D. Novak -

P.S. I am also interested in keeping my pledge - so if you would tell me who (over)

you are a decided advantage over  
the other side.

Our hope for Maxwells  
is that friendship - family relations  
remain constant and can be found  
in all other words of life. To that

I have met you, Maxwells
