Dear Mr. Stoughton.

I was glad to receive your letter even though it was mimeographed. Your letter brought back memories. It's been near 18 months since I left the protective wings of Wagner College. I hope to continue some special subjects when this carnage is through. - I sound pretty confident. Don't I - but in this game, hardships are half won with confidence alone.

I was sorry to hear that the girls' dormitory was toasted. Anyway it got the girls a new domicile. Maybe some goofy girl conspired to get the new dormitory? It happens in the best of circles.

The list of some of the Wagner boys in service really interested me. I'm going to make a good attempt to contact Dick Hutton in Frisco. I'm in Fort Ord now all set to go over. This place is probably the last outpost. If you get what I mean.

My job here in the Medical Regiment? Well I'm a pharmacist in Co. L. Dr. David Heizer and Brabec gave me a good background in chemistry calculations. That helped ^{quite} a bit. Also with what Dr. Deal pounded into me of human anatomy, human physiology and microscopic technique. I feel quite at home here in the Medical Regt. work. I've been taught first aid to the 4th degree

The rest was just a procedure of applying one to the other, and my broad knowledge (thanks to Wagner) permitted me to understand what I was doing and why. I fill out prescriptions and take care of the Company's narcotics. This job I hold attaches a lot of responsibility. If I fall down on the job I may ~~even~~ cause a death or cause men to become sick. So being that, I hate trouble and don't look for it; I do my work faithfully and accurately. (The handwriting is terrible because ~~the~~ the pad is on my lap and is very unsteady).

Has the faculty been changed any? Is Ray Miller still at Wagner? I believe I wrote to him once and also to Doc Deal. If both are still with, then tell them to write hello at least.

Oh by the way my address for the duration is as follows.

Pfc. Anthony Di Giulio, ^{ASN.} # 20219500

Co. B. - 102nd Med. Regt.

Could you do me a favor and tell my Cousin - Joseph Perosi, a student there to write to me. He's a forgetful one. - I get a letter from Al Acittola once in awhile. It's been 2 months since I last heard from him. How's Austin Auderle doing? Give him my regards, please.

Well how's our Fencing team shaping up. It should be the end of the season now. How did football and basket ball make out this season. Say - how about send me a Wagnerian if it's possible. At least, then I could find out who's chief cook & bottle washer in Wagner.

See, how forget full of me. Here I go ^{ranting on} ~~on ranting~~ about the school etc. - How's Mrs. Stoughton and your daughter. Is Miss Stoughton in Wagner yet? Give my regards to Mrs. Stoughton and daughter and son.

Say did you know that I got married. I married a girl from Westerleigh. She attends Rev. Sellers church. I, once, had a very good talk with Rev. Sellers a finer man, I never met. He sure is swell.

Is Chapel still in force? What type of speakers have you had already. -

I think I've just about ran out of things to say and ask. So I'll close off here and say so long for awhile. - I don't expect to be in U.S. much longer. but write any way. If you can, maybe you can interest some of the people I did know to write me. Maybe some of them will - who knows. So long now and good health to you all. Don't worry, this little boy will come through or I won't even know the reason why. (Damn! ch wot) - Regards to all.

Wagnerian - Anthony Di Sinielis
