

TENTH PHOTO RECONNAISSANCE SQUADRON
PETERSON FIELD · COLORADO SPRINGS, COLO.

February 22, 1943

Dear Prof:

Since I am finally becoming annoyed by the delay of Wagner Bulletin and notices reaching me I must write this belated letter now. The cause of the delay was no fault of yours or any one else at Wagner. It was caused by the circuitous route of such material in reaching me. Even though I am stationed here in Colorado for seven months now, my mail from Wagner is yet addressed to March Field, California. Since I enjoy hearing from Wagner I would appreciate it if you would see to it that my address is changed on your records.

It was certainly a thrill to read news of so many Wagnerians in its service.

of many I had no idea they were
in ~~the~~ armed forces, and of those whose
duty I was aware of I had no idea
where they might possibly be.

It might interest you to hear
that I ran into an old Wagnerian here
at ~~the~~ Air Base many months. Last
July or August I was surprised to
meet Ockie Blomquist in ~~the~~ uniform
of a ~~first~~ ^{second} lieutenant, a flyer in our
air corps. That was ~~the~~ only meeting
we had and I am interested in his present
whereabouts.

My duties here at the present are
in photography. I am lab. chief of ~~the~~
photographic laboratory of our outfit.
I have trained and sent into action
many men and hope to follow them to
more active zones in the not too far
distant future.

Give my regards to Doc. D and Miss Doc
Hefelbauer, Herb Sutter, and any others who
might remember me.

Sincerely,

(Tech./Sergeant) Irving Green
