## PRESIDENT NOVOTNY SPEAKS

VITAM VAS! GREETINGS! It seems as though it was only a few days ago that the deadline was given for the June issue of the newsletter. Here it is, time again for the fall issue. The summer has gone by so quickly but a lot has been accomplished.
Our EDUCATION KIT is finished and now we are receiving calls from schools and organizations who want to use it for programs. A new proposal has been submitted to the Linn County Board of Supervisors in regard to a grant for 1982.

Our Annual Picnic-a rewarding success. The event improves every year. The feeling of friendliness and belonging was evident. About 125 members and friends had a wonderful time.
The Fall Festival was earlier this month. Mae and I want to say our "Thanks" for the help that you members gave to the event.
Our family represented the Foundation in the Festival Parade. Our son, Russell, drove the convertible and Linda, our daughter-in-law, along with Sarah and Amy, Mae and I rode along. We threw gum and candy to a receptive crowd along the Avenue.

As our year draws to a close, we shall be looking ahead to 1982. By correcting some mistakes and taking suggestions of others, we can finish the tasks with a feeling of a job well done. THANKS to everyone for your help and cooperation - just a smile along the way does wonders.

Frank W. Novotny President, C. H. Fdn.

## REPORT on EDUCATIONAL KIT

The Committee of Nine responsible for the production of the UNITS met with the Committee appointed the Linn County Board of Supervisors who reviewed the completed project. The group was most receptive and positive in their comments; were interested in the information and appearance of the Units; and commented that we had remarkable results with the grant of $\$ 1500$. The Guide Books with information about the Units seemed to please them - saying it is better to have enough than to have too little about the exhibits. Questions and answers concluded the meeting as the visitors took time to examine the Units.

## 700 WERE AMONG THE MISSING!

The 4th Annual Picnic on August 20th at the ZCBJ Park (a "County Club") found some 700 of our members absent! Frank Netolicky with his button accordion furnished music while the people were arriving and during the supper hour. Emil Lamparek with his accordion supplied dance music for the evening's program.
The grill masters were decked out in redwhite striped aprons and CHEF caps thanks to Eya Kouba's sewing skill and ingenu/ty in co\&tume Aesign!

HONORS to CHARLES H. VYSKOCIL Our CONGRATULATIONS to Charles - for the honor conferred upon him by Yeshiva University. The Citation reads: Certificate of Merit, Presented to Charles H. Vyskocil in Recognition of assistance rendered to Language Resources III toward the goal of recognizing and fostering the languages of America. Awar ded in appreciation of meritorious and dedicated performance. The certificate is signed by William G. Milam, Ph. D., Assistant Director and Joshua A. Fishman, Ph. D., Director. Yeshiva University is in New York City, founded 1886, with a faculty of 1200 and student enrolment of over 6800.

## OUR PUBLICATIONS

Book sales continue to boom! Charles Vyskocil is in charge of mail orders and supplying local merchants. More than 800 copies were sold in June, July and August. The bulk of the sales were wholesale to groups having festivals, booth at a State Fair or a bazaar. Our most popular item continues to be My Czech Word Book, ABC's. The 1981 books, ALBUM OF BOHEMIAN SONGS and MEET the CZECH LANGUAGE are selling well. Sales of THE CZECH BOOK by Pat Martin telling traditions, customs and recipes is moving along with others.
We are happy our publications enjoy such widespread publicity - it helps to encourage the "roots" of our family history and pride in our ancestral culture and heritage. With so much wholesale business we are not making much profit but after all, we are providing materials for groups interested in language, music and culture. Another publication is on the make and will see the light early in 1982.

our good friend CHARLES BEZDE゙C゙NY whose birthday is in November. The story of his coming to America appeared in our June 1978 Newsletter. CONGRATULATIONS to our Mr. Bezděcny who is the father of Vlasta B. Fajmon mms
"LEARN ANOTHER LANGUAGE" is the slogan at 3 M in St. Paul. 3M offers an opportunity to their employees to study Chinese, Czech, English (as 2nd language), French, German, Finnish, Italian, Japanese, Polish, Norwegian, Russian, Spanish, Swedish. Many reasons are given for a person to study another language such as: work requires overseas travel, your work may require to live overseas, visitors to 3 M come from overseas, perhaps parents or relatives come from another country and a vacation overseas is in your plans.
More than 900 employees take courses! This project has been operating since 1966. The culture of a country is taught along with the language.

From what we hear about our State Department in Washington, D.C. here is a volunteer program that gets results! The 3 M Language Society says "You just enjoy languages - they're fun!"
P.S. The Czech group at 3 M is using the materials in our publication, MEET the CZECH LANGUAGE, in Nature, Family, and our Heritage.

LOVE A PARADE? WE DO! On July 4, 1981, in Swisher, the Czech Heritage Fdn. signed in for a first time entry in a Parade! President Frank Novotny and Mae polished the 1957 blue convertible Pontiac belonging to son Russell. Charles Krejci with his artistic ability painted the poster which was fastened to the doors identifying our organization. Red, white and blue streamers on hub caps and elsewhere gave the car a festive appearance. Dressed in their Czech costumes and riding along were John and Adeline Volesky. Mae and Adeline tossed out candy kisses, gum and mints to the crowds along the parade route. It was such a "fun" experience that at 6:00 p.m. Frank and Mae entered the car in the Ely Parade with Blanche and Emil Trachta as their guests. It was a happy way to publicize our organization and establish public relations.

## COME TO THE MUSEUM!

In May, our Czech Museum and Library opened its doors in a new home. More than 2000 individuals contributed money to the fund raising project. More than 70 individuals contributed volunteer labor in cleaning up the new building, finishing the interior, painting the inside and outside of the structure, packing and moving the book collection and contents of the former Museum and setting up the displays in the new home. More than 1930 hours of volunteer labor accounted for the well done tasks.

HALL FOUNDATION GRANT TO THE MUSEUM In the spring of 1981, the Czech Fine Arts Foundation applied for a grant from the Hall Foundation of Cedar Rapids. An organization is eligible for a grant after two years of successful ongoing projects and activities. A grant provides for certain functions which are not usually supported by donations.
Late in May 1981, the Hall Foundation grant was awarded. These funds provide for expenses of professional and administrative services. The grant made possible the appointment of a trained curator and one assistant. The curator is Jana Fast, the assistant, Marie Trachta.
Mrs. Trachta worked during the summer until her duties in the classroom began, so she now works as time permits.
One important task in operating a museum is to keep accurate records and statistics of purchases, donation and loans of artifacts. This information also provides complete data for insurance coverage and for grants the Museum and Library might apply at later dates.

## MUSEUM NEEDS

The Museum needs listed below are for housekeeping tasks. If our readers would like to donate any of the items call the Museum any Saturday, 9:30 a.m. to 4:00 p.m. Dial 362-8500. The "needs" are: step ladder of 6 to 8 ft ., broom, card table, steam iron, ironing board, vacuum cleaner, hammer, pliers, screw drivers-large and small - Phillips and regular.

## TOWN SQUARE CLOCK TO CHIME

Two anonymous donors presented a total of $\$ 17,000.00$ to be used specifically for a clock and chimes for Czech Village. The aluminum cast clock stands 13 ft .6 in . and has a face to the east and west. The dial has a diameter of 36 inches. A fund to insure and maintain the clock is planned. The clock will be installed early in October.

A VIEW OF THE FALL FESTIVAL
The Fall Festival is over and lots of hard work went into the Museum projects. To those who find fault, I can only say that it is impossible to anticipate everything. Many visitors from afar really enjoyed themselves and had many compliments.
The Museum was well attended with close to 800 visitors in three days. Jana Fast and crew did a magnificent job on displays. Special note was made of the beautiful "kroje" (the costumes) and the new displays and exhibits. To those of you who live close by -come some Saturday when it isn't so crowded and really browse and enjoy the visual evidence of our own "special" heritage.
And to all of the guides, a special THANKS. Many of them remained for second shifts to help out. It was hard work and many were foot weary the day after but it was great fun and so worthwhile.

MLD

## STATISTICS ON VISITORS

Since the first Museum opened in Sept. 1978, our more than 9400 visitors came from 50 states and 23 foreign lands. Since July 1, 1980 3400 visited the Museum. At convention times, Pat Martin, Village Coordinator, reports conducted tours range from 10 to 300 visitors.

MUSEUM DISPLAYS CHANGE
Even in the new and larger quarters, there is not enough space to exhibit all of the Museum artifacts at one time. Therefore, the layout of the Museum has been rearranged to accommodate recently donated display cases. For the Fall Festival many changes were made. New exhibits highlighted memorabilia of Thomas Garrigue Masaryk, scenes from the opera "Bartered Bride" on chinaware, dolls in costumes of various districts of Czechoslovakia and handwork. Ten framed lithographs which show the handwork of cabinet decoration hang on the wall of the balcony. The present arrangement with other changes will be in place through the winter season. Then again in the spring, changes will be made in displays.

GARLIC is an ALMOST CURE-ALL In many European countries garlic is a regular additive to foods. For centuries back to Roman times, garlic was a remedy for such ailments as cough, nausea, upset, sore throat, sniffles and so on. The clove has long been said to have "prophylactic" qualities. It is doubtful that doctors today carry garlic cloves in the little black bag!
At the University of Geneva, Switzerland, as far back as 1948, a certain type of high blood pressure responded to the use of garlic. The oil is the basis for some treatments. There is a tiny capsule, a perle, of garlic oil which is said to avoid the odor when used as a medication.

Have you ever noticed that you can get the garlic treatment by just being around others who flavor their food with garlic? It was suggested that the reason one does not catch sickness because of the odor of garlic eaters even tho you try to avoid them! Well, at least garlic might make a good laugh for some but not for others.

The above is neither a prescription or advice on using garlic.

1892 MNOHO LET - Many Years Headline in local newspaper 1892. GOLDEN ANNIVERSARIES were observed by Jan Barta Letovsky and Johanna Mrakatova Letovsky - and Antonin Sulek and Barbara Sladkova Sulek. Both couples were married in 1842; the Letovskys in Moravia, the Suleks in Czechy. In 1853 they set out for the New World, arriving in Boston after 85 days on a two-masted sailing ship. They braved the long journey to Johnson County, Iowa.
Many of our older members remember the first Czech newspaper in these parts, the "SLOVAN AMERICKY" which both men shared in its publication. A picture of that print shop is in the collection of OLDE CEDAR RAPIDS

SHINER, TEXAS, SHINES! brighter than Houston. Here are the facts: Shiner is about 100 miles west of Houston, population a round 2000. Shiner's population is $75 \%$ of 2nd and 3 rd generation German and Czech immigrants, "who could not speak English. So these students had to learn the language themselves since bilingual assistance in Texas is Spanish."

A letter to the Houston newspaper pointed out the differences in education between small towns and big cities. Houston educators thought they had a better record than small towns. Shiner students scored better on the Iowa Tests of Basic Skill in 1981. Some of the 3 rd graders in Shiner scored 17 months above the national norm whereas Houston students were one month above the national norm. Hurrah for Iowa Test of Basic Skills! Do you know about the tests? Of course they were developed at the University at Iowa City.

MEMBERSHIP. We have lost some 100 members and of course they will not be reading this because they received the March issue and none since. To make up for the loss, how about inviting some relative, neighbor or friend to become a member? Some people seem to think that they have to be INVITED to join or maybe should be invited. How about a GIFT MEMBER SHIP for a birthday, or a holiday gift? The Wisconsin group of 46 came by bus to our Festival. They have over 600 members in their 3 years and ALL members reside in Wisconsin!

## EDUCATIONAL KIT.

If you are interested in having any of the UNITS of the EDUCATIONAL KIT for a PROGRAM in an organization to which you belong, either you or the program chairman could write:
Czech Heritage Fdn., Educational Kit, PO Box 761, C.R., 52406. We will send you the reservation form and the complete list of contents of the UNITS.
If more convenient to phone, dial 364-6402, or 365-0868 for information and reservation forms of UNITS.

WHAT ARE WE NOT DOING that you would suggest we DO? We have the Annual Meeting (January) and Annual Picnic (August). Should we have at least two more per year with speakers, programs, entertainment? How many of you are interested in learning to dance the Beseda Sousedská? How many would like to read Czech plays, no performances or stage shows. Write your suggestions to us at PO Box 761, Cedar Rapids, Iowa 52406.

That elusive LOGO has not yet come home to roost. The LOGO should be a sort of "trademark" or symbol of an organization to be used on stationery, envelopes, publications, programs. It could even be developed as a "patch" for jackets, sweaters, and T shirts.

There ARE folks out there in our membership who have a flair for design. Look about you at examples others have and design one for us! Deadline for submission of your art work will be November 1, 1981. Phone or write us if you want more details or directions.
