YOU and Your FATHER

You do not wear clothes like your father wore. You do not get up as early or work as hard as he did.

You have more conveniences, more enjoyments. Between you two at the same age there would be a marked contrast—on the surface. But deep down, in sound character and principles, you are the same.

Banking, too, is going through this "father and son" process of growth and change. Many practices and methods are being altered to meet the needs of a new age. But the bed-rock principles of sound bank management have not changed—and will not change.
