GIRLS ${ }^{1}$ DRILI TEMM
The Girls' drill team held a business meeting at the home of Mrs. Rose Svoc, March l5th. Mrs. Martha Felter was selected pianist for the drill.

Since the pattern, color and matorial of the costumes were definitely decided upon, the meeting was voted a huge success and was adjourned until March 24th.

## A RAW RECRUIT

(Domoristrating The Bum's Rush) -By Irma Zahradnik.

Did you hear. what I heard? I suppose you all heurd that our good member, Milo Holecek, ha's become a sailor, but did you hear about the rush in whioh he left. This, is what happoned. Mike. was given a 45 minute notice to be at the depot to leave for Califorit $a$ : He immediately rushed home. Upon arriving at home he began to Iook for a suitcase. My! what exaitement. He couldn't find a good suitcase. He finally took a suitsase, belonging to his brother, although it was in a poor condition. His mother warned him but he was in too much of a hurry to take noto of tit.

Later in the afternoon two of his frionds begen talking. This is shat they said:
"Did Mike leave for the Navy?"
No: He dian't say anything to xe o Thy?"
"I saw him running down the street with his underwear hanging out of his suiticase."

Immediately one of the boys colled the Holecek residence. Mrs. Holecok tola them it was true.Mike had left.

I wonaer if he had any clothes When he reached California or just an empty suitcase.

## FISHING FEVER

-ByMilo Heral
Ah Spring, beautiful Spring When a young man's fancy furns to love but not so to the fishing. sportsman those thoughts wurn to the finney tribe of the rippling cold slear streams and to tho beautiful biras singing on high. Oh: What a wonderiful feeling to be close to Mother Nature and her Zealings.. There the fisherman stands without a cere but really foels like living anew. Romember the old slogan "ish and toul fit.

The outlook for this elshing soason shomla be promising trum 211 indiations and renorts inom the losal Fish and Game Fiestcratinii club. The club has thue ior tesured some 65,000 game fish of aduit size which were lanu locked
in ponds by the gast high water. There have been sevevaj hundred wall. eyod pike saved which is an indication that pire orice again are working up our ceand Rivar.

This is an indsation that the Cedar river is boing eleared of poIution which in the past has kept many game fïsh from working up each spring。

In talking to some of our state conservation officers I have learned that the state legislation will pass some new fishing lows and rulings on or about the 15th of April.

As the law now stands you can fish but don't catch anything, you can also hunt but don't shoot anything so gcvern yourseif accordingly until the nev laws come out.

Esthor Nezerka and Elsie Tefor discussing the free lancers of our lodge: "Phich rould you desire most in your husband -- brains, wealth or appearance?" "asked Elsie.
"Appearance" snapped Esther, "and the sooner the better."
F. Zahradnik - Did you ever hear Doc talk to himself in meeting?

Rudy Felter - Yes, but he doesn't realize it, he thinks we're listening.

Lady bird, Lady bird, fly away home.

Your house is on fire and your babies will burn!

Thile Sister Henrietta
Seabrooke was concentrating on the first prize at a ard party, a aall came to rush home to her burning home. Luakily the damage was slight.
