IRONWORK, cast iron.

Structural ironwork originally on the Lyndon House. Includes a section of balcony railing from over the front porch, and a column with support bracket, from the front porch. The openwork railing incorporates classical swag and lattice designs, with scrolls and fleur-de-lis. The openwork column and bracket incorporate scrolling motifs. Painted white.

Railing: 35" high x 86" long. Column and bracket: 105" high x 61" wide.
American, 19th century.

\$900.00

WINDOW CORNICES (eight), brass.

Eight stamped brass cornices in two styles, on wood frames.

One style, represented in five cornices, incorporates an intricate valance motif with tassels, fringe, acorns on oak leaves and latticework. The frames have the original attachment eye hooks. Each: 6 1/8" high x 58 1/2" wide x 4" deep (typical).

The second style, represented in three narrower cornices, incorporates a Greek fret design with stylized valance border. Each: 3" high x 58 1/4" wide x 3 7/8" deep (typical).

American, 19th century.

\$4,000.00 the five

\$1,500.00 the three

\$5,500.00 total
