

## PARENTS' NIGHT HELD TONIGHT

Pictured at left are parents attending students classes. The picture was taken at Parents' Night last year.

### Is Held In Connection With Education Week

#### Nilehi Host To Parents

Nilehi will seek the privilege of being a host to parents on the night of Tuesday, November the 9. This is during American Education Week, which is being observed annually throughout the nation.

20 years ago if a parent suggested going to school to meet a teacher, Junior would probably have said, "Oh please don't, parents never visit school unless their kids are in trouble." But that was 20 years ago. Nowadays we like to show-off our school achievements. We like to have our parents "hep," to what goes on in a modern school.

#### Parents Meet Teachers

Parents' night gives the parent an opportunity to become acquainted with the teachers. It is to be understood though that this is not a get-together for teachers to tell parents about any disagreements or misbehaviours of their children in class.

Fathers will attend son's classes; mothers will attend daughters' classes. In case both parents attend daughters classes the mother will be seated and the father will take any vacant seat after roll is taken, and just the opposite if the student is a boy. Parents will receive their program cards in the mail with all seat numbers written on them. The program followed with the Tuesday's schedule, and the periods will last 10 minutes.

#### Lunch Period Changed

To avoid the confusion of last year's lunch period, this year the lunch periods will be 20 minutes long and will be arranged in the following order: A class which meets 5th and 6th periods will meet only 5th period. The class will then go to the cafeteria for refreshments during the 6th and 7th. A class which meets 6th and 7th periods will meet only the 7th period and will go to the cafeteria for refreshments during 5th and 6th periods. A class which meets 5th and 7th periods will meet only 5th period and will go to the cafeteria during 6th and 7th periods.

### Heiniger Tells Boys To Get Diplomas

Nilehi is certainly proud of Marine Sergeant Jack Heiniger. And she can well be proud, for Jack left Nilehi in 1942 to join the Marines. After completing the required training period, he became an ordnance man and an emergency gunner. He is now home from the South Pacific on 30 days leave.

Jack was a major letterman in football and in 1941 was chosen most valuable player on the team. He says, "Boys expecting to be in the armed forces should get all of the sport activities they can, for a physically fit body is certainly needed." In the Oct. 27 Navy Day assembly, Jack emphasized the importance of a high-school diploma especially in the technical branches of the service.

One interesting experience happened to Jack during an air raid in the South Pacific islands. He and his buddy were diving for a fox hole, but on feeling in one, they found it filled with something cold and slimy. They first imagined it was a dead man's "innerts," but further investigation showed a goat's intestines.

Jack is certainly glad to be home, and he urges everyone to write to friends and relatives in the service. Letters are the only connection some of them have with home.

"Although the boys are playing a great part on the battle-fields, the part to be played at home is just as great," were Jack's closing words.

### Nilehi Reflections Sale Tops Previous Records

The Nilehi Reflections has had another successful subscription sale. At the time of this writing the returns from the campaign, which ended Friday, are not as yet totaled but from every indication the sales will top any previous record.

Last year 550 subscriptions were made for the "Reflections," which was a record for the school.

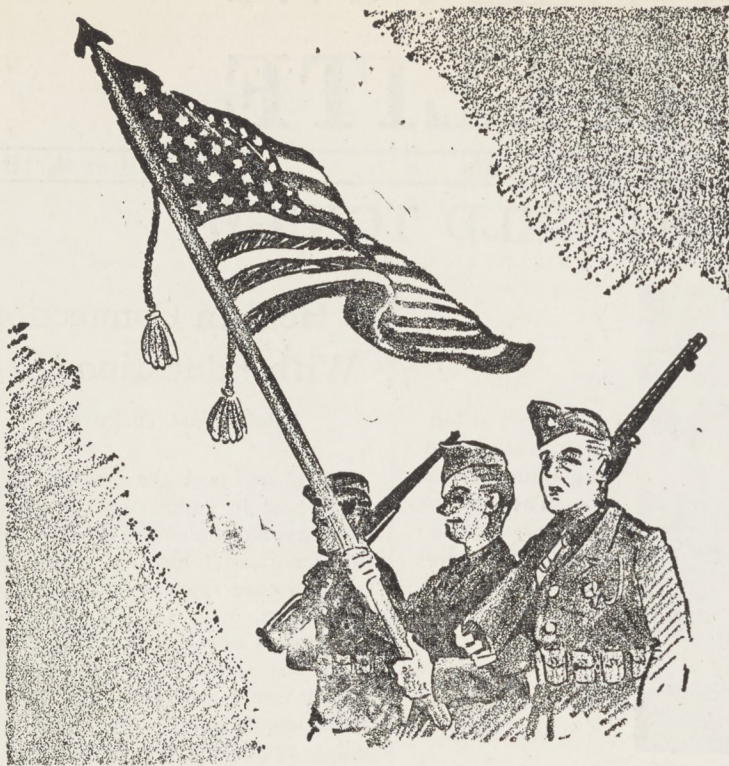

The campaign was carried on by the cooperation of the faculty sponsors and the students who are on the publicity staff. These students made daily visits to each home room to keep up enthusiasm and to promote the sales.

Last year the subscription total did not include those given to the faculty. This year, however, because of the high costs of engraving, pictures, and binding and because the yearbook is in the red, no complementary copies will be given out.

Miss Doris M. Sayre, faculty sponsor of the publicity staff for the annual, said that she was very well satisfied with the reaction shown by the students.

With such cooperation," she added, "the new "Reflections" cannot help but be the best in the history of the school."

Attention—watch for the announcements concerning the dates of the Dramatics Play. Be sure to keep those days open. The dates are December 10th and 11th.

## PEACE FREE FROM TYRANNY & WAR OUR HOPE FOR TOMORROW

November 11th is Armistice Day. "Hurray!" you might say — "A holiday." But why is it a holiday? We celebrate November 11 because on that day in 1918 our enemies of World War I surrendered. That was a wondrous day in 1918 when we gained the costly victory and ended years of torturing war. Yes, there will be parades, and flags, and marching bands, and music on this coming Armistice Day. It is indeed a great day to celebrate.

But today we are preparing for an even greater Armistice day that lies somewhere in the dim future. For this World War II is even more brutal and terrible than the last. We have no implication of what we of the United States will have to endure before we can make that second Armistice Day a reality.

On next November 11th, for one minute we shall stand in silent gratitude to those gallant men who fought to bring about that Armistice of 1918. But let this Armistice Day not only be a thanks for the past but a promise to the future — a promise to do everything in our power to end this war of today.

Things like buying those extra war stamps every week, and taking care of that war worker's baby might not seem like much. But wouldn't you be proud to know that your stamps bought those extra bullets that saved

a soldier's life, and that it was your bit that brought one more soldier home again? For this is a war in which little things as well as big things count.

We of Niles Township can be proud that we can make that Axis surrender of the future not an "armistice" but an unconditional surrender to end all wars. Can we, the youth of America, let our country down?

## NILEHILITE

The Nilehilite is edited, published, and printed by the students of the Niles Township High School, Skokie, Illinois. Dr. A. L. Biehn, principal.

## News of Our Boys In The Service.

..Niles Township's service flag has been changed again. 210 in the service now, an increase of 34. These boys' pictures have been placed in the display case also.

So  
Proudly  
We Hail

Jack Heiniger just reported home for a 30 day furlough from the Hawaiian Islands. He is now the proud owner of three chevrons.

Bob Meyer (formerly known as Eichelkraut) is expected back in Chicago from Key West, Florida, to attend advanced "prop" school at 87th and Anthony. He recently received his 2nd class Aviation Machinist Mate rating in the Navy.

Jessie Hollifield was one of the lucky soldiers to receive a furlough during the past month, and he payed a visit to his old Alma Mater.

Dick Waseley has just been transferred to Ft. Lauderdale, Florida. He managed to get home for three days before changing his address.

Pfc Robert Fawcett has been enrolled in a special course of instruction at the Signal Corps' school at Camp Murphy, Florida.

S. Sgt. Frank Gabel ran across Lt. Gene Nitch, also from Niles, during his excursions somewhere in Iran. That now makes three of them, with Nick Weber.

John Nelson claims that those much glamorized South Pacific islands aren't what the travel folders claim, tho he admits that it's to be expected because of the damage due to bombings.

Leroy Kuhn, now at Farragut, Idaho, tries very hard to fall asleep as soon as he hits the hay, — because, he complains, when 129 men start snoring, it is a bit noisy.

Recruit William C. Jones is now undergoing "boot" training at Great Lakes Naval Training Station.

Aviation Cadet Victor H. Babbist is now situated at the Army Air Forces Pilot School, Cochran Field, Macon, Georgia.

Dick Boyd, now stationed at Mc Bryde College, So. Carolina, returned home for a leave on the 21st of October. He is attending school there and plans to be back on the job Nov. 1st. Cadet "Joe" Weber is going to receive a medical discharge from the Army Air Corps because of a punctured cat drum.

## NIBLETS

Starting off with a little "old business" we would like to inquire what the strange fascination was that drew all the upper classmen onto "Schaeff's" rack the night of the hay ride?

And speaking of that event, who was the poor girl who tried so desperately to sell Mr. Kent a subscription to "Esquire" so that she could meet her magazine quota?

Song of the week: Pistol Packin' Mama.

Saying of the week: Huwah—! (This is our own spelling. The guttural pronunciation is left entirely up to the personal tastes of the reader.)

Couple of the week: Peggy McNeill and Dick Denker.

Sight of the week: Miss Kranz's history classes fainting when told they wouldn't have any homework for three days. Oh, how our hearts yearn for more teachers like HER!

Underground operatives have just dug (?) up another couple of the week: "Fritz" Tolzien and Bob Wareham. Isn't there some mistake?

Question of the week: Is Fred Tolzien really president of the Garboons?

**MISTAKEN IDENTITY:** It seems that Oswald (Miss Johanns') pet time clock isn't the true Oswald at all. You see the real Oswald has been in the hospital for some time. In the meantime Oswald Jr. has taken over.

Maybe Nilehi girls had better watch their weight, or was it that the axle on Sandy Holister's car was just weak.

In talking over the situation of what to do with women after the war, Miss Harbert's 8th period Problems class has decided that the women should keep their jobs and support the men. Could it be that the predominating members of this class are males?

Who was it that sat in front of Eleanor Klinge at the movies?

By the way, did Charles Baily ever get home from the home coming game? Imagine how astonished his mother must have been when Charles walked in that evening in his track pants and a borrowed coat.

Have you noticed the lovely new haircuts the underclassmen are now displaying? Particularly Don Anderson's. What was it that prompted Ted to snip off pieces here and there? Nervousness, no doubt.

Here's a choice little morsel for you gossip fans. Hold on to your hats! That old and decrepit couple Nona J. Holappa and Sergeant Jack Heiniger are acting as chaperons at a certain (yum, yum) hay racker party. Who is chaperoning the chaperons?

## File Fantasy

Zust a year ago I was a Clark in a delacatesson. All I did was Sell Canty, Neutz, Mason jars, Lumppp sugar, Lutz soap, and Corrin on the Cobb. However, Such items as these were only purchased infrequently; most of the time when a lady came in I would just Zeller Kohl Fisher Saur Kraus.

Everything was going Wells until Erle one day last May when the stove in the store exploded and Blewitt up. It all happened like a Boldt out of the blue and the catastrophe nearly Bruck my Hart. Not only was I without a business and a Holmes, (I lived between the pickles and the smoked herrings) but Even the townspeople eyed me contemptuously. It seems the explosion had caused the air Fuhr miles around to be filled with a Hayes of lindberger cheese. I was a broken man filled with reMorse.

Finally public resentment against me became so alarming that the Mayer requested that I leave town. In the middle of the night I Stoll through the streets to the railroad station where I hopped the first Train that Wood take me Farr away.

Having paid the Price of a ticket and having tipped the Porter, I found I had to Hunt deep in my Pence to even find enough money for a Plath of beans.

When the train came to the end of the line I got off. I knew I couldn't Brod over my situation, but that I must keep up Hoppe. After walking down the main street a little ways, I saw that there was a Feher in town. I walked into the fairgrounds; and in Abbott the time it takes to say Ehne meany miney moe, I had obtained a job running the Freres wheel.

I have been traveling with the carnival Campany for almost a year. Last week we were to make a three day stand in my old home town. Since I was afraid someone might try to Schuett me, I disguised myself. However, upon returning I learned that the lindberger fumes had killed a flock of locusts which had been laying waste to the country side. It seems the whole affair didn't really do anyone any Harms and for me it proved a Blessing. I have led a Fuller life because of it and now I am a hero.

It seems that Charlotte Quincy's most embarrassing moment came when she got up to tell the rest of the dramatics class of her most embarrassing moment. Why such a red face, Charlotte?

School spirit is thought of by the average student as a lot of yelling and noise, such as is displayed at the football and basketball games.

It is true that this is a manifestation of school spirit, and our games should be attended by every student in Niles Twp. H. S. each one "yelling his head off" to show our teams that they are appreciated.

But there is another kind of school spirit; not quite so noisy and not so spectacular, which will do a lot to help our school and each student individually.

No student should stand apart and view the school and its organizations at a distance. Each should strive to become a living part of the school and to make the school a real part in his life.

Instead of being one of the spectators at the games, concerts and plays, why not try to take part in these activities? Whether you become a star or not, you will obtain a lot of pleasure and satisfaction and really feel yourself to be a part of your school.

To sum it up — I believe that if you feel yourself to be a part of the school, you have the real school spirit.

Clifford W. Collins

Teacher: (in grammar class) — "Willie, please tell me what it is when I say 'I love, you love, he loves.'"

Willie: "That's one of them triangles where somebody gets shot."

Teacher: "Young man, are you the teacher of this class?"

Student: "No, sir."

Teacher: "Then don't talk like an idiot."

Professor: (in freshman science class) — "Who is the greatest inventor of the world has ever known?"

Freshman: "An Irishman by the name of Pat Pending."

She took my hand with loving care;  
She took my costly flowers so rare.  
She took my candy and my books!  
She took my eye with meaning looks.  
She took all that I could buy,  
And then she took the other guy.

## Red Cross Activities

What — Story on Nilehi's Red Cross Where — in *School Activities*, a nationwide magazine.

When — September, 1943 issue.

By Whom — Leota Harper.

Those of you who are not aware of what Nilehi's students have done in the field of Red Cross work should read the September, 1943 issue of *School Activities*, a nationwide high school magazine which Niles Township subscribes to. In this issue is a detailed account, written by Leota Harper, of what Niles Township accomplished last year. Here's a summary of your deeds:

Sewing was the first activity, limited to a few students who were interested enough to give their time and energy. The annual membership drive, publicized through the school newspaper, announcements, and posters, and spurred on by the huge Red Cross poster recording each home room's percentage from day to day, collected a nice sum.

The drive for books for servicemen followed, with much success. Students dug up old books, or even purchased pocketbooks to contribute to the drive. Next came the old clothes drive, successful, and proving again the generosity of Niles Township's students.

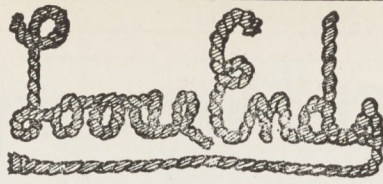

An original note entered into their next project. Miss Line, faculty sponsor, conceived the idea of commemorating Nilehi's alumni in the service, with a huge service flag, and individual pictures, displayed according to the year of graduation. This display has always attracted attention. A picture of the case, showing the servicemen's pictures, and Nilehi's trophies, appeared also in the magazine.

In addition, the Red Cross Council collected scraps of yarn, string, ribbon, etc., and made small favors for hospital ward trays.

### Date Has Been Set For Annual Broadcast

"Let's sing," seems to be the slogan of the newly organized freshman music classes. They seemed to have found out their "locker-room voices" aren't so bad after all, and now they're willing to challenge the upper-classmen.

A date has already been set for the annual broadcast over station WMAQ on the High School studio party program. With the choir consisting of about thirty-five, this party should be the best the school has ever had.

The next subject that will be taken up by the advanced students of the N.T.H.S. art department will be cartooning. Cartoons are to be of prominent students in and about Nilehi. These Nilehi celebrities are to be drawn as seen in action somewhere about the school. Music students giving forth toots on their horns, voice students crooning to their heart's content, robust athletes, and stars from all sports at Nilehi may find themselves cartooned in the near future.

Nile High has just about everything now, even an absent minded professor. Last week Mr. Nesmith ran practically all the way home in order to be ready for a date (with his wife, girls) early in the evening. But upon entering the house and noticing his car keys, he came to a startling decision. His car was still at school. By now Mr. Nesmith ought to be in good condition to run the mile. Maybe he can even beat Johnson.

The boys in wood shop, supervised by Mr. Larson, are not only backing up the war effort with bonds, but are making articles for the Red Cross such as dart games, cribbage boards, and writing tables for hospital beds or whatever else the Red Cross recommends. The articles will be shipped by the Red Cross to our injured men in oversea hospitals.

Sally Fjellman topped all records in beginners typing classes on October 11. She made a record of 69 words per minute on a one minute timed test. This is really something to be proud of for a first year student.

All students are sincerely urged to see the art display which is now at the Skokie Library. Everyone will enjoy seeing the sketches of heads done in charcoal. Large life portraits made by the students of Niles Township High School make this exhibit extremely interesting. These sketches have been in the library throughout the month of October, and they will continue to be on display during the first weeks of this month.

The Photography Club, under the direction of Mr. Bennette, is starting its yearly activities. The new students are learning how to develop their own film (if they have it). They plan to take pictures of the industrial education students when they are on their jobs. The club also plans to supply our yearbook with plenty of good pictures. Meanwhile they are taking pictures of our football team in action.

## Nilehi Now Has A School Nurse

One of Nilehi's newest plans is providing a nurse at school for the students' benefit, but the majority of them are not yet aware of the fact that they have one. She is Mrs. Thelma Cline, R. N., capable, efficient and helpful. She presides over room 223 every day from 11 a.m. until 2 p.m., ready and waiting to help anyone who requires help.

Dr. Biehn, questioned regarding the purpose of this plan, stated, "We can't help students who are ill physically. Our first task is to discover any physical disability, such as impaired vision, defective hearing, etc. Industry is interested in keeping people on the job because they obtain better results then. It is the same with a school. We want to discover the possible ills causing large numbers of students to be absent. The person best qualified to do that is someone trained for such work. Therefore, we think that the addition of a trained nurse to our faculty is an added service to the youth we serve."

Mrs. Cline feels that she can help students not only when they are ill, but in their studies. She believes in integrating health with education. For example, if a student was assigned an essay for English, she would be glad to give him the information for one on health. Or if his history project is to be a biography of Edith Cavell, she could supply facts on Miss Cavell's work.

She, herself, is an interesting person. She was born at the famous Hull House, and lived there for 8 years, along with such notables as Clarence Darrow, and Dr. Rachel Yarrows. When she decided on her profession, she determined to go back to Hull House as an R.N., and she did, to work there 2 years.

She has a B. S. degree from Loyola University, where she also taught for 6 years. She supervised the teaching of Therapeutics and Asepsis at the Loyola Dental School. She has never before done exactly the sort of work she is doing at Nilehi, but so far she enjoys it tremendously. "I like the students very much," she said, "and their problems are so varied they are very interesting."

Take advantage of your opportunity and have a talk with Mrs. Cline. That's what she's here for!

Before 11 a.m., and after 2 p.m., Miss Schaeffer and Mr. Isaacson will handle the First Aid rooms as before.

## Trojan Gridsters Have Own Views

Centering the ball to the Trojan backfield is only one of the many accomplishments of Nilehi's Bruce Gifford.

Giff as he is known to all of his friends is one of the few athletes who is also interested in what goes on in the classroom.

Born in Whitehorse, Alaska, he claims to be strictly an outdoorsman. Giff has what some people call a football head and this year coach "Ike" is relying on him to call the plays which otherwise would be done by the quarterback.

Giff is presently interested in Joan Briggs but that is no reason for you other girls to be disappointed for his interests can easily be changed.

We also have modest, stuttering Jim Moore, fleetfooted right half, who can attribute his football success to his strict training. Jim's football ability has previously been over-shadowed by Chuck Liebrant whose outstanding playing prevented Jim from starting at full, but since being shifted to right half Jim has won a starting berth.

His main interests are sports of all kinds and the unpredictable Hildegarde. The actions of the freshmen in the cafeteria and the bad examples the sophomores set are Jim's main dislikes and when asked of his opinion of the girls of Nilehi he replied,—well we'll skip that.

## Girl Sports--

All you gals who think that you are fooling Miss Schaefer by innocently stating that you are terribly sorry but your suit hasn't come back from the laundry and you won't be able to go in swimming are about to be disillusioned. "Schaefer" is wise! You'd better put on your thinking cap and think up some new excuses.

The informal G.A.A. initiation held on October 15 was really a swell shindig. We didn't know the underclassmen had such good voices. Yes, the initiates enjoyed it, too, the ones who lived through it, of course.

Carolyn Harnden looked awfully cute being pushed around the cafeteria in a waste basket. The respect of the underclassmen for their teachers was shown by the way they dashed up to them in the halls, fell on their knees, and cried "Allah." Let's hope the girls who were crawling around the halls on their hands and knees found whatever they were looking for.

## Coffin Corner

By Poodles

The Trojans crushed Lake Forest to the tune of 33 to 12. This victory kept Niles undefeated and a possibility of having its first undefeated season in the school history. The game was sparked by long runs and the usual Trojan power. Scoring came fast after the kickoff. Two plays after the kickoff Fredericks went wide around his own left end, cut inside and with beautiful blocking on the part of his teammates raced 76 yards for a score. The second touchdown came as a result of sheer power with Harrer and Liebrandt alternating in carrying the ball with the latter finally going over from the five. In the second period Fredericks streaked 81 yards and a tally. Liebrandt and Harrer each scored once again before the final whistle blew.

The Lake Forest—Niles game had a very interesting angle to it. Exactly one year ago today the Trojans were on their way to a conference championship when up out of nowhere came Lake Forest to topple the Trojans 21 to 0. That defeat at the hands of Lake Forest knocked the Trojans out of the running in 42. This year the reverse happened. Lake Forest was hit by everything the Trojans possessed and the outcome was a 33 to -- triumph.

The rivalry between these two schools started back in 1939 when Lake Forest stopped the Trojans 13 to 6. In 1940 Lake Forest won again to the tune of 13 to 0. 1941 brought a change in the situation with the Trojans taking a 6 to 0 decision. Then came 1942 when the Lakers walked all over the Trojans winning 21 to 0. Incidentally up to that time 21 points was the most ever scored by a victor in the series. The 1943 game is already history. The Trojans avenged their 1942 defeat and they also rolled up the biggest score in the series. At the present time the series stands at 3 games to 2 in favor of Lake Forest. Perhaps next year there might be a big change in the standings.

## Trojan Trample Scouts, 33 to 12

Nilehi ran roughshod over Lake Forest to retain its unblemished season record. The Trojans beat the Scouts, 33 to 12, for their fifth victory of the year.

As usual the Trojans packed their greatest punch in the early stages of the game. In the first fourteen minutes of playing time Nilehi had a 26 to 0 lead built up.

The first score was made by right halfback Jack Fredericks when he broke around his left end for 76 yards. Schmidt, a junior, missed the extra point.

Chuck Leibrant, 200 pound fullback, scored next on a line plunge after the Trojans had marched 49 yards to the Lake Forest 3 yard line. Schmidt, an end, converted.

Just before the first quarter ended Leibrant scored. This time the Trojans drove 48 yards before Chuck went over from the Forest 24. Schmidt again converted.

The "Men of Troy" hung up another six-pointer in two minutes of the second period when Jack Harrer, a pile-driving tailback, smashed off-tackle for 20 yards and a score. In the closing minutes of the first half the Scouts opened an aerial barrage that culminated in a score. The half ended with N.T.H.S. leading, 26 to 6.

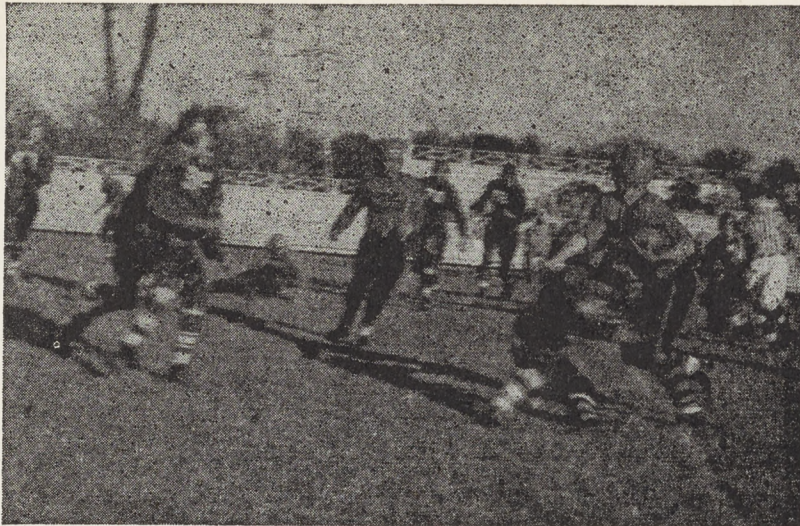

From the scoring standpoint the second half was dull compared to the first half. Both teams scored once in the last half.

Nilehi got its marker in the third period when Fredericks was convoyed on an 81 yard touchdown jaunt by his team-mates. Schmidt's kick from placement was good.

Lake Forest made its touchdown in the fourth quarter on a blocked kick. The point after touchdown was missed and Nilehi held on to its lead and won, 33-12.

# Nilehi Loses To Wildcats

Libertyville's point producing machine proved too much for Nilehi's eleven as they rolled up 37 points to the Trojans' 13. It marked the first defeat of the year for N.T.H.S.

The Trojans scored a touchdown early in the second period on a 56 yard pass from Bill Shay to Jack Fredricks and another shortly afterward on a 1 yard line plunge by Chuck Liebrant. Outside of these offensive spurts and fine first quarter football, however, they couldn't keep up with the Cats.

### Statistics Offer Solace

The general statistics may not be quite so depressing to the Trojans as the score. They had 13 first downs to the victor's 6 and piled up 87 more yards from scrimmage. The Wildcats' 193 yards by passing, however, was considerably better than the Nilehi 68.

Libertyville's first score came late in the first half on a 70 yard touchdown pass from tail back Norman Erickson to end Paul Schaffer.

### Touchdown Parade

Then came the deluge. The Wildcats made five touchdowns in the second half to snow under the Trojans.

Three Cat markers came in the third quarter. Luce, fullback, plunged 7 yards for one T.D. and Erickson scored another on a lateral after completing a pass in the flats. This play covered some 35 yards. The other six-pointer was made on a 42 yard pass to end Paul Schaffer.

In the last period Libertyville made two more touchdowns for good measure. A 4 yard line plunge and a 48 yard end run accounted for the last scores.

## Arlington Cardinals Trampled By Nilehi

The Trojans gridsters followed through for their fourth win of the season by decisively trouncing a high spirited Arlington eleven. Scoring in every quarter except the last Nilehi showed the home town fans some colorful offensive playing and to top it off they played their best defensive ball so far this season. Although Tolzien was out of the lineup because of injuries no weaknesses were shown at the guard spot due to the fine fill in jobs of Denley and Piastrelli.

### Lead in First Quarter

The Trojans headed the scoring column in the first quarter by sending Harrer for 20 yards through tackle. Liebrant plunged for the conversion sending the home team ahead 7 to 0.

The second quarter proved to be a one sided affair with the Trojans pushing Arlington down the field with their power plays. Liebrant after softening the Cardinal line with his plunges finally broke away scoring the second Trojan touchdown. Schmidt missed the conversion and the Trojan led 13 to 0 at the half.

The second half opened with Nilehi intent on making another touchdown which they did when Harrer ran around end for seven yards and converted making the score 20 to 0.

### Fourth Quarter Shows "T" Formation

In the middle of the fourth quarter Coach Ike threw in the second string backfield to try out the "T" formation which will be used in future games.

## Cheeleaders Fight For Trojan Victories

"Let's give the old Trojan Locomotive." That's the way they start it and soon 844 students are lustily cheering Nilehi's teams on to victory.

The cheerleaders are partly responsible for our victories. They are the ones who give the Trojans the courage to go out there and FIGHT!

This year's varsity team is made up of June Ohlson, captain, Ann Schirra, Grace Nelson, Betty Farr, Betty Welton, and Laline Morse. The junior varsity cheerleaders are Barbara Horton, Anne McKeever, Pat Schirra, Dolores Lauth, Mildred Zarell, Beryl Schwabe and Charmaine Neutz.

Very little praise is given to the cheerleaders. In appreciation for all they have done let's cheer with them at each and every game.
