# AT YOUR SERVICE

Your telephone account is handled by a young lady in our business office, called a Service Representative, whose job is to make sure your telephone service is satisfactory at all times. If you're moving your telephone to a new location, or have a question about your bill, or about your telephone service, she'll be glad to help you. If you're moving or discontinuing service, please let us know as far as possible in advance.

If you prefer to transact business in person, we shall be glad to see you at the Business Office. Hours are from 8 A.M. to 5 P.M. Mondays through Fridays.

For your convenience, an after-hours deposit box is available near the door for your use in paying bills when the office is closed.

## You May Telephone Telegrams

You may telephone telegrams, cablegrams or radiograms to the Western Union Telegraph Company.

Charges for telegrams, cablegrams or radiograms placed by telephone will appear on your monthly telephone bill by arrangement with Western Union. On messages telephoned from public coin box telephones, you will be requested to deposit the telegraph charges in the coin box.

## About Your Telephone Number

Occasionally, in the past, it has been necessary to change the telephone numbers of some of our subscribers. It may, likewise, be necessary to change some numbers in the future.

We're sorry we can't say to you, "We'll never have to change your telephone number." As a matter of fact, we don't like to change them and won't do it unless it is absolutely necessary.

## USE THIS DIRECTORY FIRST

Many calls to "Information" are unnecessary since they are for numbers which are listed in the directory. Please don't ask Information operators to look up numbers unless you are sure they are not listed in the directory. You can get your call through faster by referring to the directory and calling by number. Your cooperation is appreciated.

# How to Use Your DIAL TELEPHONE

## TO DIAL A CALL

1. Look in the directory for the correct number.
2. Listen for the "dial tone." This steady humming sound tells you that the dial equipment is ready for your call. (From a coin box telephone, see bottom of page.)
3. To Dial any letter or figure, place your finger firmly in the opening for the particular letter or figure. Pull the dial around until your finger strikes the metal finger stop. Then, release the dial and allow it to return to rest without interference.

For information on out-of-town calls, see pages 3-9.

### To Dial Local Calls

Dial the first two letters and the figure of the exchange name and then the figures of the number.

For example, to call OR chard 3-4382, dial OR 3, then 4382.

### Metropolitan Service

Metropolitan telephone service, which permits calling to certain nearby communities without a toll charge, is available to 1 and 2-party residence subscribers, and to 1-party business and private branch exchange services.

Offered on an optional basis at a monthly rate somewhat higher than Local Area Service, this service also saves on Station-to-station calls to Chicago and more than 100 suburban communities.

### Telephone Signals You Should Know

#### THE "RINGING" SIGNAL \*

Within a few seconds after you complete your dialing, if the line is not busy, you will hear the "ringing signal" which tells you that the called telephone is being rung. This is an interrupted "burring" sound.

#### THE "BUSY" SIGNAL \*

By signaling you with a "buzz-buzz-buzz" sound, the dial equipment will tell you (shortly after you finish dialing a number) when the telephone you are calling is in use. When you hear this "busy signal," be sure to replace the receiver before trying your call again—or placing another call.

#### THE "NO-SUCH-NUMBER" SIGNAL \*

This is a series of siren-like sounds which indicate that you have dialed a non-existent number. When you hear this "no-such-number" signal, replace the receiver, and verify the number by looking in your telephone directory.

\* Your operator will be glad to demonstrate "dial tone" and the "ringing," "busy," and "no-such-number" signals. Just dial "Operator" and ask the operator for a demonstration of these signals.

## DIAL TELEPHONE

### To Call Another Party on Your Line From Niles 7 Telephones

If you want to know who else is on your line, dial OR chard 3-9981. Your Service Representative will be glad to tell you who the other parties are.

Niles party-line customers, when calling another party on their line, do not dial the called telephone number direct.

If you wish to call another party on your line, place the call with your operator.

- Dial "Operator."
- Give the operator the telephone number of your party line neighbor. Tell her that the number is on your line.
- The operator will ask you to hang up while she rings the other party's telephone.
- Wait for the other party to answer while the telephone is being rung. Then, remove your receiver.

If your party does not answer and you want the operator to keep ringing, move the receiver hook on your telephone up and down.

When the operator returns to the line, ask her to ring again.

### From OR chard 3 and OR chard 5 Telephones

If you want to know who else is on your line, dial 611, "Repair Service." "Repair Service" will be glad to tell you who the other parties are.

To call another party on your line, dial his number the same as any other local number. After you dial the complete number, you will hear a high pitched tone. Then dial the party code shown on the number card on your telephone. When you hear the "busy signal," hang up to allow the other party's bell to ring. Your bell will also ring at intervals, indicating that the other telephone is ringing. When the ringing stops you will know the other party has answered. Remove your receiver . . . proceed with conversation.

If your party does not answer within a reasonable period, remove your receiver momentarily in order to clear the line and stop the ringing. Then replace the receiver.

### "Beep" Tone Tells When Conversation Is Being Recorded

If you hear a brief, high, almost musical note on your telephone line while you are talking—a sort of gentle "beep" repeated every 15 seconds or so—you will know that the person to whom you are talking has a recording machine which is making a record of your conversation.

The signal is produced automatically by the device used to connect the recorder to the telephone line, and it is provided by the telephone company for your protection.

If you do not want a record made of what you are saying, ask the person with whom you are talking to disconnect the recording machine. The "beep" signal stops when the recorder is disconnected.

Use of a recorder without this signal is unlawful.

### FROM COIN BOX DIAL PHONES

1. Deposit one dime or two nickels. One nickel won't work.
2. Listen for dial tone.
3. Dial the number as listed in this directory. (For Out-of-Town Calls, see pages 3-9.)

# CALLING AN

# OUT-OF-TOWN PHONE?

## Here's How To Save Time and Money

Some Out-of-town points are reached by dialing direct, others by dialing a code number and then giving the called number to the operator who answers. And to other places, your regular operator completes the call. By checking the lists on the next five pages you can be sure of placing your call correctly. And you'll find some time and money-saving tips on placing long distance calls on this page.

### 3 Ways to Save Money on Long Distance Calls

1. **CALL STATION-TO-STATION** if you are willing to talk to anyone who answers. Charges begin when anyone answers at the called telephone or private switchboard. Station-to-station rates are lower than person-to-person rates. But . . .
2. **CALL PERSON-TO-PERSON** if you want to talk to a particular person. Just tell the operator you wish to talk to a particular person. Charges begin only when the called person answers.

(On a call from one point to another in Illinois, a "Report Charge" is made if the particular person you want cannot be reached and you ask the operator to cancel the call.)

3. **PLACE YOUR CALL AFTER 6:00 P.M. ON WEEK DAYS** or any time Sundays; you'll make a substantial saving. Rates are also reduced on Thanksgiving, Christmas and New Year's.

On calls within Illinois the reduced rates apply to "station" calls where the initial period rate is 45c or over and to "person" calls where the initial period rate is 70c or over. Reduced rates on calls to telephones outside of the state apply to "station" calls where the initial period rate is 40c or over and to "person" calls where the initial period rate is 55c or over.

### Tips For Saving Time

You'll get faster service if you give the details of your call to the Long Distance operator like this:

#### FIRST

Give her the name of the town and state you are calling. Then the telephone number, if you know it; otherwise, the name and address of the party you want.

EXAMPLE: "Detroit, Michigan—WO odward 5-3456"

If it's a person-to-person call, also give the operator the name of the person you want.

#### SECOND

If you don't know the telephone number, give the name and address and tell the operator whether it's a station-to-station or person-to-person call.

#### THEN

Give your telephone number when the operator asks for it—and hold the line unless the operator says there will be a delay. Most long distance calls go through while you wait.

## CALLING LONG DISTANCE?

### Some Long Distance Rates

Rates are for the initial talking period and do not include Federal Tax.

NIGHT AND SUNDAY RATES apply from 6 P.M. to 4:30 A.M. and all day Sunday. These are the legal rates of the Company as of June 9, 1953.

## SPECIAL CALLS YOU CAN MAKE

**OVERSEAS CALLS**—You may talk by telephone to any one of more than 90 countries, territories and dominions throughout the world. Dial "211" (Long Distance) and place your call in the usual way.

**SHIP-TO-SHORE CALLS**—Most ships may be reached by telephone. Dial "211" (Long Distance) and place your call in the usual way.

**COLLECT CALLS**—If you place a call "Collect" and it is accepted on a "Collect" basis by the person you are calling, it is paid for by him instead of you. To place a "Collect" call, dial "211" (Long Distance).

The charges are the same as for other out-of-town calls except that there is an additional charge on "station" calls to telephones in Illinois when the Skokie, Ill.

regular rate is 35c or less and to telephones outside Illinois when the regular rate is 25c or less, (not including federal tax in either case).

On calls within Illinois, if the call is not accepted, you pay a "report charge". This charge is not made, however, if you decide to pay for the call yourself.

**CALLS TO VEHICLES**—You can now telephone to or from properly equipped vehicles operating within mobile service areas.

Calls can be made to or from any telephone reached by the Bell System.

To call a mobile-equipped vehicle, dial "211" (Long Distance) and tell the operator you wish to place a mobile telephone call, then give her the number of the vehicle you are calling.

*For That Home-To-Be...*

**PLANNED TELEPHONE SERVICE!**

When planning that postwar home be sure to make provisions for telephone service. Rigid, flexible or thinwall conduit can be built in easily at the time of construction . . . eliminating exposed wiring on baseboards and moldings.

Your telephone company will give you further details on request. Just call our business office and ask for:

## LINCOLNWOOD

## MORTON GROVE

## NILES

## SKOKIE

**Lincolnwood** is an outgrowth of the Village of Tessville which received its charter in 1911. The name was changed in 1935. It is a fast growing residential community. Its population exceeds 5,000.

**Morton Grove**, located approximately 15 miles northwest of Chicago's loop, was incorporated in 1895. It is a well established community of homes and industries. The Forest Preserve properties located within the corporate limits are noted for their natural beauty. Its population exceeds 6,000.

**Niles** was incorporated in 1902 and now has a population of approximately 5,000. It was a stop over place during stage coach days, when the road, now Milwaukee Avenue, was famous for its Plank Road and Toll Gates.

**Skokie** is an outgrowth of Niles Center, which was incorporated in 1888. The name was changed to Skokie in 1939. The community contains 100 miles of paved streets, with curbing, sidewalks, water and sewer systems installed. It is one of the fastest growing communities in the metropolitan area, and its present population exceeds 23,000.
