To Residents of Skokie:

Please read the enclosed letter and pamphlet. It is an important statement of policy by your Village government. Acting in concert, the Skokie Board of Trustees, the Skokie Human Relations Commission and members of the Skokie real estate industry are placing into effect this new policy for the sale of homes in Skokie.

The actual implementation of this policy involves only those homeowners who are actually selling their homes, but the Village feels that all residents would want to be fully informed on the program and how it works. Therefore, the attached letter and booklet entitled, "Your Home and Skokie's Future" are being sent to you at this time so that all citizens will be fully informed. The booklet and its cover letter are self explanatory and will be sent to individual home sellers only if and when their home in Skokie is listed for sale.

It is important to note that the home seller retains complete freedom of action regarding the sale of his home. It is, however, the belief of the Village that this voluntary program will help to continue the orderly development of the village. We call upon you as citizens to cooperate in what is fair to all and for the long-range well-being of Skokie and its sister suburbs.

Albert J. Smith
Mayor
