

PROPOSED RESOLUTION

Mindful of NTJC's on-going concern for causes of national and international scope throughout our twenty-six year history but now especially cognizant of the world wide attention focused upon Skokie , we affirm an out-stretched arm and a warm heart to receive and welcome concerned Jews from other communities throughout the United States and Canada who journey to Skokie to express SOLIDARITY and SIGNIFICANCE to our struggle to prevent a Nazi march in our community.

To that end we shall favorably consider providing whatever hospitality and generosity of spirit necessary to receive, embrace and be reached for in gratitude for blessings uniting the Jewish people as one in its common concerns.

Furthermore be it hoped for that such visits not only be in response to but in awareness of that which motivates a sense of Jewish People, one and indivisible, now and at all times.
