## AT YOUR SERVICE

Your telephone account is handled by a young lady in our business office, called a Service Representative, whose job is to make sure your telephone service is satisfactory at all times. If you're moving your telephone to a new location, or have a question about your bill, or about your telephone service, she'll be glad to help you. If you're moving or discontinuing service, please let us know as far as possible in advance.

If you prefer to transact business in person, we shall be glad to see you at the Business Office. Hours are from 8 A.M. to 5 P.M. Mondays through Fridays.

For your convenience, an after-hours deposit box is available near the door for your use in paying bills when the office is closed.

### For Information and Service Calls . . .

information regarding bills, etc.:  
4538 Oakton Street, Skokie . . . . . Dial OR chard 3-9981
- INFORMATION**—For numbers not in Directory . . . . . Dial 411
- REPAIR SERVICE**—To report a telephone  
"Out-of-order" . . . . . Dial 611
- For **ASSISTANCE** in reaching a number . . . . . Dial "Operator"  
(Explain Difficulty)
- 

### You May Telephone Telegrams

You may telephone telegrams, cablegrams or radiograms to the Western Union Telegraph Company.

Charges for telegrams, cablegrams or radiograms placed by telephone will appear on your monthly telephone bill by arrangement with Western Union. On messages telephoned from public coin box telephones, you will be requested to deposit the telegraph charges in the coin box.

### About Your Telephone Number

Occasionally, in the past, it has been necessary to change the telephone numbers of some of our subscribers. It may, likewise, be necessary to change some numbers in the future.

We're sorry we can't say to you, "We'll never have to change your telephone number." As a matter of fact, we don't like to change them and won't do it unless it is absolutely necessary.

# REGULATIONS

## APPLICATIONS

Applications for original establishment of service must be made on the Telephone Company's standard application forms. Requests from subscribers for additional service, equipment, etc., may be made orally or in writing, and upon approval, or installation of the service, become a part of the original application. An applicant for service must pay all previous indebtedness to the Company for telephone service before service will be furnished.

## ESTABLISHMENT OF CREDIT

In order to insure the payment of all charges due for its service, the Telephone Company may require any subscriber to establish and maintain his credit in one of the following ways:

- (1) By furnishing references acceptable to the Telephone Company.
- (2) By providing a suitable guarantee in writing, in form prescribed by the Telephone Company.
- (3) By means of a cash deposit.

The Telephone Company may require the subscriber to increase the amount of the deposit at any time if, in its opinion, the charges billed against the subscriber are found to warrant such an increase.

Interest at the rate of not less than 5% per annum shall be paid by the Company on all deposits made for the purpose of establishing credit.

Service may be discontinued for failure to establish credit, as authorized above, within five days after the Company has served or mailed notice requiring the subscriber so to do. Where service has been discontinued for failure to establish credit as authorized by these Regulations, the regular restoral charge will be made and collected by the Company.

## OWNERSHIP AND USE OF THE EQUIPMENT

Equipment, instruments and lines on subscriber's premises, furnished by the Telephone Company, shall be and remain the property of the Telephone Company, whose agents and employees have the right to enter said premises at any reasonable hour for the purpose of installing, inspecting, or repairing the instruments and lines or for the purpose of making collections from coin boxes and, upon termination of the service, for the purpose of removing such instruments and lines. Such equipment is not to be used for performing any part of the work of transmitting, delivering or collecting any telephone message where any toll or consideration has been or is to be paid any party other than the Telephone Company, without the written consent of the Telephone Company.

Subscribers must not use or permit to be used any electrical or mechanical apparatus or device in connection with the equipment or facilities furnished by the Telephone Company without the written consent of the Telephone Company, or permit the attachment of any advertising devices, except upon the approval of the Telephone Company. In case any instrument, apparatus, or device of any kind other than that furnished or approved by the Telephone Company is attached to or connected with any part of the Telephone Company's property, the Telephone Company shall have the right to remove such instruments, apparatus, or devices or to suspend the service so long as such instruments, apparatus, or devices are so attached or connected, or to terminate the service.

## INTERRUPTIONS TO SERVICE

When requested by the subscriber, if service is interrupted for more than 24 hours, and for causes other than

the negligence or willful act of the subscriber, an allowance shall be made, at the minimum rate for the telephone facilities and class of service affected by the interruption, for such time as the interruption continues. No other liability shall attach to the Company in consideration of such service interruption.

## TELEPHONE NUMBERS

The subscriber has no property right in the telephone number or any right to continuance of service through any particular central office. The Telephone Company may change the telephone number or the central office designation, or both, of a subscriber whenever it deems it desirable in the conduct of its business so to do.

## TELEPHONE DIRECTORIES

Directories regularly furnished to subscribers are the property of the Telephone Company, are loaned to subscribers only as an aid to the use of the telephone service, and are to be returned to the Telephone Company upon request or when new directories are issued. The Telephone Company shall have the right to make a charge for directories issued in replacement of directories lost, destroyed, defaced, or mutilated while in possession of subscriber.

No liability arising from errors or omissions in the making up or printing of its directories shall attach to the Company except in the case of charge listings, in connection with which its liability shall be limited to a refund at the monthly rate for each listing for the time an error or omission continues after reasonable notice in writing to the Company.

## USE OF SERVICE

Subscriber telephone service is furnished only for use by the subscriber, his family, employees, or business associates, or persons residing in the subscriber's household, except as the use of the service may be extended to joint users or to persons temporarily subleasing a subscriber's residential premises. The Telephone Company has the right to refuse to install subscriber service or to permit such service to remain on premises of a public or semi-public character when the instrument is so located that the public in general or patrons of the subscriber may make use of the service.

## PAYMENT FOR SERVICE

The subscriber is required to pay, in accordance with the Telephone Company's established tariffs, collection and billing practices, all charges for exchange service and equipment, and for all toll messages or service rendered to his station, including all toll messages on which the charges have been reversed and accepted by any party at his station. All bills are due when rendered and are payable at the Telephone Company's business offices.

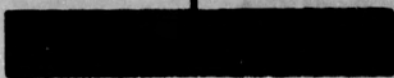

In the event that any sum due (except as provided below) is not paid on or before the 14th day after the issuance of the bill, a written notice may be sent to the subscriber, calling attention to the fact that the amount is due; and, if payment is not made within seven days thereafter, the Company may deny service without further notice.

When the service of a subscriber has been denied in accordance with the preceding paragraphs, but the service has not been terminated or the order to remove the service has not been completed, if such service is restored, a Restoral of Service Charge of \$1.50 will be made. In case service has been denied, in addition to the restoral of service charge, the subscriber will be required to pay all service charges up to the time of restoral of service. Subsequent to the completion of an order to terminate the service, it will be reestablished only upon the basis of a new service application.

These Regulations are Excerpts from the Official Regulations of this Company as on File with the Illinois Commerce Commission, September 16, 1952.

### USE THIS DIRECTORY FIRST

Many calls to "Information" are unnecessary since they are for numbers which are listed in the directory. Please don't ask our Information operators to look up numbers unless you are sure they are not listed in this directory. You can get your call through faster by referring to this directory and calling by number. Your cooperation is appreciated.

CALLING AN

OUT-OF-TOWN PHONE?

### Here's How To Save Time and Money

Some Out-of-town points are reached by dialing direct, others by dialing a code number and then giving the called number to the operator who answers. And to other places, your regular operator completes the call. By checking the list on the next page you can be sure of placing your call correctly. And you'll find some time and money-saving tips on placing long distance calls on this page.

### 3 Ways to Save Money on Long Distance Calls

1. **CALL STATION-TO-STATION** if you are willing to talk to anyone who answers. Charges begin when anyone answers at the called telephone or private switchboard. Station-to-station rates are lower than person-to-person rates. But . . .

2. **CALL PERSON-TO-PERSON** if you want to talk to a particular person. Just tell the operator you wish to talk to a particular person. Charges begin only when the called person answers.

(On a call from one point to another in Illinois, a "Report Charge" is made if the particular person you want cannot be reached and you ask the operator to cancel the call.)

3. **PLACE YOUR CALL AFTER 6:00 P.M. ON WEEK DAYS** or any time Sundays; you'll make a substantial saving. Rates are also reduced on Thanksgiving, Christmas and New Year's.

On calls within Illinois the reduced rates apply to "station" calls where the initial period rate is 45c or over and to "person" calls where the initial period rate is 70c or over. Reduced rates on calls to telephones outside of the state apply to "station" calls where the initial period rate is 40c or over and to "person" calls where the initial period rate is 55c or over.

### Tips For Saving Time

You'll get faster service if you give the details of your call to the Long Distance operator like this:

Give her the name of the town and state you are calling. Then the telephone number, if you know it; otherwise, the name and address of the party you want.

EXAMPLE: "Detroit, Michigan—WO odward 5-3456"

If it's a person-to-person call, also give the operator the name of the person you want.

If you don't know the telephone number, give the name and address and tell the operator whether it's a station-to-station or person-to-person call.

Give your telephone number when the operator asks for it—and hold the line unless the operator says there will be a delay. Most long distance calls go through while you wait.

### SPECIAL CALLS YOU CAN MAKE

**OVERSEAS CALLS**—You may talk by telephone to any one of more than 90 countries, territories and dominions throughout the world. Dial "211" (Long Distance) and place your call in the usual way.

**SHIP-TO-SHORE CALLS**—Most ships may be reached by telephone. Dial "211" (Long Distance) and place your call in the usual way.

**COLLECT CALLS**—If you place a call "Collect" and it is accepted on a "Collect" basis by the person you are calling, it is paid for by him instead of you.

The charges are the same as for other out-of-town calls except that there is an additional charge on "station" calls to telephones in Illinois when the regular rate is 35c or less and to telephones out-

side Illinois when the regular rate is 25c or less, (not including federal tax in either case).

On calls within Illinois, if the call is not accepted, you pay a "report charge". This charge is not made, however, if you decide to pay for the call yourself.

**CALLS TO VEHICLES**—You can now telephone to or from properly equipped vehicles operating within mobile service areas.

Calls can be made to or from any telephone reached by the Bell System.

To call a mobile-equipped vehicle, dial "211" (Long Distance) and tell the operator you wish to place a mobile telephone call, then give her the number of the vehicle you are calling.

# CALLING CHICAGO?

## Check These Exchange Names and Figures

The figure of the exchange name is a part of the exchange name—always use it. When dialing, dial only the first TWO letters (capital) and the PROPER figure of the exchange name, then dial the four figures of the telephone number.

# How to Use Your DIAL TELEPHONE

## TO DIAL A CALL

1. Look in the telephone directory for the correct number.
2. Listen for the "dial tone." This steady humming sound tells you that the dial equipment is ready for your call. (From a coin box telephone, see bottom of page.)
3. To Dial any letter or figure, place your finger firmly in the opening for the particular letter or figure. Pull the dial around until your finger strikes the metal finger stop. Then, release the dial and allow it to return to rest without interference.

For information on out-of-town calls, see pages 2-7.

## To Dial Local Calls

Dial the first two letters and the figure of the exchange name and then the figures of the number. For example, to call OR chard 3-4382, dial OR 3, then 4382.

## Metropolitan Service

Metropolitan telephone service, which permits calling to certain nearby communities without a toll charge, is available to 1 and 2-party residence subscribers, and to 1-party business and private branch exchange services.

Offered on an optional basis at a monthly rate somewhat higher than Local Area Service, this service also saves on Station-to-station calls to Chicago and more than 100 suburban communities.

## Telephone Signals You Should Know

### THE "RINGING SIGNAL" •

Within a few seconds after you complete your dialing, if the line is not busy, you will hear the "ringing signal" which tells you that the called telephone is being rung. This is an interrupted "burring" sound.

### THE "BUSY SIGNAL" •

By signaling you with a "buzz-buzz-buzz" sound, the dial equipment will tell you (shortly after you finish dialing a number) when the telephone you are calling is in use. When you hear this "busy signal," be sure to replace the receiver before trying your call again—or placing another call.

### THE "NO-SUCH-NUMBER SIGNAL" •

This is a series of siren-like sounds which indicate that you have dialed a non-existent number. When you hear this "no-such-number" signal, replace the receiver, and verify the number by looking in your telephone directory.

• Your operator will be glad to demonstrate "dial tone" and the "ringing," "busy," and "no-such-number" signals. Just dial "Operator" and ask the operator for a demonstration of these signals.

8

## To Call Another Party on Your Line From Niles 7 Telephones

If you want to know who else is on your line, dial OR chard 3-9981. Your Service Representative will be glad to tell you who the other parties are.

Niles party-line customers, when calling another party on their line, do not dial the called telephone number direct.

If you wish to call another party on your line, place the call with your operator.

- Dial "Operator."
- Give the operator the telephone number of your party line neighbor. Tell her that the number is on your line.
- The operator will ask you to hang up while she rings the other party's telephone.
- Wait for the other party to answer while the telephone is being rung. Then, remove your receiver.

If your party does not answer and you want the operator to keep ringing, move the receiver hook on your telephone up and down.

When the operator returns to the line, ask her to ring again.

## From OR chard 3 and OR chard 5 Telephones

If you want to know who else is on your line, dial 611, "Repair Service." "Repair Service" will be glad to tell you who the other parties are.

To call another party on your line, dial his number the same as any other local number. After you dial the complete number, you will hear a high pitched tone. Then dial the party code shown on the number card on your telephone. When you hear the "busy signal," hang up to allow the other party's bell to ring. Your bell will also ring at intervals, indicating that the other telephone is ringing. When the ringing stops you will know the other party has answered. Remove your receiver . . . proceed with conversation.

If your party does not answer within a reasonable period, remove your receiver momentarily in order to clear the line and stop the ringing. Then replace the receiver.

## "Beep" Tone Tells When Conversation Is Being Recorded

If you hear a brief, high, almost musical note on your telephone line while you are talking—a sort of gentle "beep" repeated every 15 seconds or so—you will know that the person to whom you are talking has a recording machine which is making a record of your conversation.

The signal is produced automatically by the device used to connect the recorder to the telephone line, and it is provided by the telephone company for your protection.

If you do not want a record made of what you are saying, ask the person with whom you are talking to disconnect the recording machine. The "beep" signal stops when the recorder is disconnected.

Use of a recorder without this signal is unlawful.

## FROM COIN BOX DIAL PHONES

1. Deposit one dime or two nickels. One nickel won't work.
2. Listen for dial tone.
3. Dial the number as listed in this directory. (For Out-of-Town Calls, see page 5.)

**BE SURE OF THE NUMBER BEFORE YOU CALL**

*For That Home-To-Be...*

## PLANNED TELEPHONE SERVICE!

Telephone wiring can be as modern and inconspicuous as plumbing and electrical work *if provisions for it are made before your home is built.*

Concealed wiring through the use of rigid, flexible or thinwall conduit enables you to have *built-in telephone outlets* . . . neat little plates similar in design to electrical outlets . . . wherever you desire.

Conduit placed in walls and floors by the contractor at the time of construction, eliminates exposed wiring on baseboards and moldings and reduces the possibility of interruptions to your telephone service. Costs are nominal and the telephone company provides all wires and wiring work. You merely have the conduit installed.

Your telephone company will be glad to consult with you *without cost or obligation* and make recommendations for built-in conduit. Just call our business office and ask for "Architects' and Builders' Service."

ARCHITECTS, CONTRACTORS AND BUILDERS  
ARE INVITED TO CALL UPON US FOR HELP IN  
PLANNING TELEPHONE FACILITIES.

ILLINOIS BELL TELEPHONE COMPANY
