—and that's what the Statistician does for industry

DEFINITE knowledge of "where we are" and "what lies ahead" is as vital in business as in flying. For this expert navigating, the Bell System has long relied upon statisticians.

These men study present and prospective industrial, economic and social conditions in all parts of the country. They gather facts—analyze them, correlate them, discover their significance to the telephone business, draw guidance from them. They study and forecast the changing requirements of the public for telephone service. They estimate the probable future demand for new services, such as radio telephony to foreign lands and ships at sea. They keep the executives advised as to current progress towards the objectives thus carefully determined.

Only by plotting a course scientifically can the Bell System continue to develop along progressive lines.

ILLINOIS BELL TELEPHONE COMPANY

REGULATIONS

Applications.—Applications for original establishment of service must be made on the Telephone Company's standard application forms. Requests from subscribers for additional service, equipment, etc., may be made orally or in writing, and upon approval, or installation of the service, become a part of the original application. An applicant for service must pay all previous indebtedness to the Company for telephone service before service will be furnished.

Establishment of Credit.—In order to insure the payment of all charges due for its service, the Telephone Company may require any subscriber to establish and maintain his credit in one of the following ways:

- (1) By furnishing references acceptable to the Telephone Company.
- (2) By providing a suitable guarantee in writing, in form prescribed by the Telephone Company.
- (3) By means of a cash deposit.

The Telephone Company may require the subscriber to increase the amount of the deposit at any time if, in its opinion, the charges billed against the subscriber are found to warrant such an increase.

Interest at the rate of not less than 5% per annum shall be paid by the Company on all deposits made for the purpose of establishing credit.

Service may be discontinued for failure to establish credit, as authorized above, within five days after the Company has served or mailed notice requiring the subscriber so to do. Where service has been discontinued for failure to establish credit as authorized by these Regulations, the regular restoral charge will be made and collected by the Company.

Ownership and Use of the Equipment.—Equipment, instruments and lines on subscriber's premises, furnished by the Telephone Company, shall be and remain the property of the Telephone Company, whose agents and employees have the right to enter said premises at any reasonable hour for the purpose of installing, inspecting, or repairing the instruments and lines or for the purpose of making collections from coin boxes and, upon termination of the service, for the purpose of removing such instruments and lines. Such equipment is not to be used for performing any part of the work of transmitting, delivering or collecting any telephone message where any toll or consideration has been or is to be paid any party other than the Telephone Company, without the written consent of the Telephone Company.

Subscribers must not use or permit to be used any electrical or mechanical apparatus or device in connection with the equipment or facilities furnished by the Telephone Company without the written consent of the Telephone Company, or permit the attachment of any advertising devices, except upon the approval of the Telephone Company. In case any instrument, apparatus, or device of any kind other than that furnished or approved by the Telephone Company is attached to or connected with any part of the Telephone Company's property, the Telephone Company shall have the right to remove such instruments, apparatus, or devices or to suspend the service so long as such instruments, apparatus, or devices are so attached or connected, or to terminate the service.

Interruptions to Service.—When requested by the subscriber, if service is interrupted for more than 24 hours, and for causes other than the negligence or willful act of the subscriber, an allowance shall be made, at

the minimum rate for the telephone facilities and class of service affected by the interruption, for such time as the interruption continues. No other liability shall attach to the Company in consideration of such service interruption.

Telephone Numbers.—The subscriber has no property right in the telephone number or any right to continuance of service through any particular central office. The Telephone Company may change the telephone number or the central office designation, or both, of a subscriber whenever it deems it desirable in the conduct of its business so to do.

Telephone Directories.—Directories regularly furnished to subscribers are the property of the Telephone Company, are loaned to subscribers only as an aid to the use of the telephone service, and are to be returned to the Telephone Company upon request or when new directories are issued. The Telephone Company shall have the right to make a charge for directories issued in replacement of directories lost, destroyed, defaced, or mutilated while in possession of subscriber.

No liability arising from errors or omissions in the making up or printing of its directories shall attach to the Company except in the case of charge listings, in connection with which its liability shall be limited to a refund at the monthly rate for each listing for the time an error or omission continues after reasonable notice in writing to the Company.

Use of Service.—Subscriber telephone service is furnished only for use by the subscriber, his family, employees, or business associates, or persons residing in the subscriber's household, except as the use of the service may be extended to joint users or to persons temporarily subleasing a subscriber's residential premises. The Telephone Company has the right to refuse to install subscriber service or to permit such service to remain on premises of a public or semi-public character when the instrument is so located that the public in general or patrons of the subscriber may make use of the service.

Payment for Service.—The subscriber is required to pay, in accordance with the Telephone Company's established tariffs, collection and billing practices, all charges for exchange service and equipment, and for all toll messages or service rendered to his station, including all toll messages on which the charges have been reversed and accepted by any party at his station. All bills are due when rendered and are payable at the Telephone Company's business offices.

In the event that any sum due (except as provided below) is not paid on or before the 14th day after the issuance of the bill, a written notice may be sent to the subscriber, calling attention to the fact that the amount is due; and, if payment is not made within seven days thereafter, the Company may deny service without further notice.

When the service of a subscriber has been denied in accordance with the preceding paragraphs, but the service has not been terminated or the order to remove the service has not been completed, if such service is restored, a Restoral of Service Charge of \$1.00 will be made. In case service has been denied, in addition to the restoral of service charge, the subscriber will be required to pay all service charges up to the time of restoral of service. Subsequent to the completion of an order to terminate the service, it will be reestablished only upon the basis of a new service application.

The Regulations Herein Stated are Excerpts from the Official Regulations of this Company as on File August 15, 1933, with the Illinois Commerce Commission.

INFORMATION ABOUT TELEPHONE SERVICE

How to Use the Telephone

When using the telephone, speak distinctly in a moderate tone of voice.

To recall the operator on a Common Battery telephone, (one where you signal the operator by lifting the receiver from the hook) move the receiver hook slowly up and down three or four times. To recall the operator on a Magneto telephone, (one where you signal the operator by turning a crank) hang up the receiver and give the handle one quick turn.

Party Lines

All subscribers on the line have equal rights; for that reason calls should be reasonably limited in length of conversation. To make for efficient service and to prevent annoyance to others on the line the following rules should be observed:

When you wish to call, remove the receiver and listen. If the line is in use, restore the receiver to the hook and wait for those using the line to finish.

Always answer your own signal. If there is any confusion about the rings, report the facts to the Chief Operator.

Telephone Service Calls

Call "Information" for names not listed in this directory.

Call "Supervisor" to report unsatisfactory handling of your calls.

Call "Repair Service" when your telephone is out of order.

Call your Business Office, Niles Center 9981, (Niles subscribers call Wilmette 9981) for all matters relating to new telephone service, removals, termination of service, directory listings, adjustments of accounts, collection of bills, etc.

Telegrams by Telephone

You may telephone telegrams, cablegrams or radiograms to the Postal Telegraph Cable Company or the Western Union Telegraph Company.

When calling either of the telegraph companies follow the instructions shown under its listing in this directory.

By arrangement with these Telegraph Companies the charges for telegraph messages sent by telephone will appear on your monthly telephone bill. On messages telephoned from public coin box telephones, you will be requested to deposit the telegraph charges in the coin box.

LONG DISTANCE TELEPHONE SERVICE

Station-to-Station Service—A station-to-station call is a call to a telephone at an out of town point on which the person calling will talk with anyone who answers at that telephone. Tell the Long Distance operator you will talk with "anyone who answers."

Reduced rates are in effect during the evening and night periods as follows:

Day Rates—4:30 A.M. to 7:00 P.M.

Evening Rates—7:00 P.M. to 8:30 P.M.

Night Rates—8:30 P.M. to 4:30 A.M.

During reduced rate periods no station-to-station rate of less than 35c is reduced nor any rate of more than 35c reduced below 35c.

Person-to-Person Service—A person-to-person call is a call to a particular person or a particular extension telephone on a private switchboard at an out of town point. The rates for this service are the same for all hours and are somewhat higher than corresponding station-to-station day rates.

Reversed Charges—Charges may be reversed on all person-to-person and station-to-station calls. Where the station rate is less than 25c the rate for reversed charge station-to-station service is higher than the station-to-station rate.

Report Charge—A report charge is made if communication cannot be established on person-to-person or Reversed Charge calls for reasons beyond the Company's control.

Call By Number—Calling by number speeds your call. Give the Long Distance operator the name of the place and the telephone number you are calling. If you are making a person-to-person call also give the name of the person with whom you wish to talk. If you do not know the number give the name and address and the number will be furnished by the operator during the completion of the call so that you may make a note of it for future use.

TOLL CALLS HANDLED BY YOUR OPERATOR

Station-to-Station calls from Niles Center, Morton Grove and Tessville to the points shown below and other suburbs of Chicago are handled by your local operator. It is not necessary to call "Long Distance." Simply give the number desired to your operator who will record and complete the call.

Take Command

You need only pick up your telephone to control millions of dollars' worth of property—a thousand yards or a thousand miles of wire—five thousand or five million dollars' worth of equipment—a few or many of the Bell System's hundreds of thousands of trained workers.

What you get from your telephone depends on your wish of this or any moment.

Few things you buy can so exactly fit your needs. Telephone service is made to your order for each call — and the telephone becomes an extension of your voice and personality for whatever purpose you choose.

The Bell System, of which the Illinois Bell Telephone Company is a part, provides a constantly improving service at the least cost consistent with financial safety.

ILLINOIS BELL TELEPHONE COMPANY

An Extension Telephone?

An extra telephone instrument connected to your present line is an extension telephone. It costs but a small additional sum and may be located in a different part of the house than the telephone you have now.

In the kitchen an extension enables you to both make and answer calls without leaving the room or deserting the task which you happen to be doing.

In the bedrooms you may telephone in privacy and comfort day or night with an extension telephone.

Our Business Office will arrange for prompt installation or any telephone employee will gladly take your order.

Publishers

350 East Cermak Rd., CHICAGO

Telephone Victory 3232

"Its easy to find ~
Where to buy it"

To find the telephone number of a
business concern you have in mind—

*First, locate the heading descriptive of the general
type of business. This will be found in its
regular alphabetical order.*

*Next, locate the desired concern and telephone
number by examining the listings under the
heading.*

To find where to buy the article
or service you want—

*First, locate the heading indexed by the name of the
article or service you wish.*

*Then, select from the listings the dealer with whom
you wish to do business.*

Under these headings may also be found
headings descriptive of particular kinds of
articles or services and the dealers in a
position to serve you. The advertisements
provide you with more complete buying in-
formation.

Trademark or brand names will be found
in alphabetical order according to the trade-
mark or brand name, also under the general
business classification.

If further information is desired please
call Niles Center 9981 or Morton
Grove 9981

For the Hard of Hearing

A special telephone has been developed by the Bell System for the aid of those with impaired hearing.

Installed in the home or office, it amplifies the volume of sound, making it possible, in many instances, for those who experience difficulty in hearing to hear more easily.

Our Business Office will gladly give further information

YOUR BUYER'S GUIDE

Communication Services TO FIT YOUR PARTICULAR NEEDS

The Illinois Bell Telephone Company has a solution for your communication problem, whether it be in your business or at your home. A partial list of the many time saving and convenient facilities offered for your consideration is shown below.

TELEPHONE SYSTEMS for communication between different parts of the office, home or plant.

EXTENSION TELEPHONES in another part of the office or home.

CODE CALLING SYSTEMS designed to permit the sounding of code signals in various parts of the office or plant. By means of these code signals, persons away from their telephones may be summoned to the nearest telephone to receive a call.

CONVENIENCE PLANS to provide greater flexibility in making or answering calls on one or more lines and with intercommunicating and secrecy features.

TELEPHONE TYPEWRITER SERVICE for instantaneous communication of typewritten messages between offices in the same building, in the same city or in different parts of the country.

LOUD RINGING BELLS for locations where noise makes it difficult to hear the ordinary telephone bell.

EQUIPMENT for the reception of telephone orders with speed and efficiency.

ESPECIALLY EQUIPPED TELEPHONES for those who have difficulty in hearing over an ordinary telephone.

A telephone call to our Business Office, will bring a representative who will gladly discuss with you your own particular communication problems.

The Link between School

Students at college and their parents and friends at home keep in close touch with one another by means of the telephone. A talk over the Long Distance lines is the next best thing to a visit home.

and Home

DIRECTING THE SALES

Using Long Distance telephone service the business man or his sales manager can effectually and directly handle a selling force, large or small. He can inspire his salesmen with his own personality. He can provide them with the most effective "follow up."
