Dr. Herman S. Bloch
Chairman
Human Relations Commission
Village of Skokie
9700 Kedvale Avenue
Skokie, Illinois 60076

Dear Dr. Bloch:

I am on vacation this month in Florida and will, therefore, be unable to be with you and our colleagues at the meeting of the Skokie Human Relations Commission this Thursday evening.

You have my full support on the passing of the proposed anti-discrimination ordinance covering real estate brokers, a copy of which you sent to the members of the Commission last week.

You have my proxy vote on the passing of this proposed Ordinance, as it now stands or with any changes which may result from Thursday night's meeting.

From the perspective of the more than 1,000 miles that separate us, I note with pride the considered and mature manner in which the Human Relations Commission, and I should like to anticipate, the Village Board, is proceeding on this very vital matter. You are to be commended for the leadership you have given this past year and more, in the face of many pressures - and even some vilification - to map out a fair housing regimen for our village, based not upon hysteria but upon the logical extension of those American values which are shared by the great majority of our residents.

Cordially yours,

SJJ:lp
