Dear Mr. Perille:

We should like to express our sincere appreciation for your appearing and testifying in support of Senate Bill 155 on April 11, 1967.

Your statement immeasurably increased the chances of a meaningful fair housing bill being passed in this session of the General Assembly.

Much still remains to be done. We would like to continue to count on your support. The Illinois Committee is in desperate need of funds, and we do hope that your organization can make a contribution at this time to help us through this financial crisis.

Very truly yours,

Curtis Heaston
Executive Director
