

Our Government Laws were made for our
own Country - No other Nation has a right
to send their Bred and try to enforce
their own laws on American Residents
Mr Carter Human Right Laws reaches far
but should never be taken to believe our
forefathers meant for those who came in
as aliens or Criminals from other
Shores - to start their own way here
This is America - lets keep the flag
and hold the first - after God.

So many want to forget that it was
God who helped the Pilgrims face the
storms and trials to Land here and
make our 'Declaration of Independence
Laws - And the Right of any and all
Americans must be to be united with
the Laws of our nation

Those who want to abide by laws of other
Countries should not be given citizenship in
America. If we turn to God in earnest
He will point the right way to end this
trouble for you. Please Call on the
Courts and state your case
Sincerely

Keep faith and stop this ~~laughter & merriment~~
We have had 2 wars with the Nazis -
So many homes as my own - broken by the
loss of a loved one - lets not let them grow and
take charge over here.
