## OPINION OF THE "DISPATCH."

"Voltaire's Philosophical Dictionary.—This is a translation, in two volumes, of that magnificent work which must hand the name of Voltaire down to the latest posterity. We have compared it with the French edition in three volumes, and find that the English version is a most faithful one, fully preserving the spirit of the original, and in no way abridged. The work is, of course, a very valuable one, and should have a place on the shelves of all persons who accumulate useful books. It is printed in a clear, legible type, and in a manner to be easy of reference. The publisher has done very wisely to compress the entire contents of this encyclopædia into two volumes of convenient size, inasmuch as he places an admirable work within the reach of those persons whose means would not permit them to procure a larger and more expensive edition. It is impossible to contemplate this 'Dictionary' without being struck by the Grandeur and comprehensiveness of that intellect which, alone and unassisted, could produce a work embracing so many and such varied subjects. Ingenious theories, exposures of historical or popular fallacies, philosophical essays, physics, metaphysics, in a word, all branches of learning, science and art, are the topics which evoked the brilliant wit, or tested the profound wisdom of France's greatest philosopher. Although much of the philosophy of that school to which Voltaire belonged has been since exploded; although many of his theories have been displaced by others which have been supported by arguments or proved by experiments of which he never dreamt; although, in fine, much of his reasoning on physics is now pointless, yet on the whole, and taken as a whole, the 'Philosophical Dictionary' is most valuable and most useful, not only as the record of a great man's opinions, but also in those very many departments where his comments and observations do really apply to the affairs or circumstances of the present day. We are glad to find that an English publisher has dared to do justice to a man who is much calumniated by our English saints and hypocrites, and we cordially recommend this edition of the 'Philosophical Dictionary' to our readers."

FROM THE "WESTMINSTER REVIEW."

"Many of his philosophical sayings and dogmas, which were received in his own day with reverent admiration, or with shouts of denunciation, are universally recognized now as the mere common-places of truth, or as paradoxes whose extravagance needs no refutation. But the satirical wit which he brought to the exposure of some actual grievance or genuine folly remains immortal—keen and fresh as ever, although the grievance and the folly have long passed away. One popular idea of Voltaire is that of a mere scoffer at sacred things, a ribald reviler of the best human sentiments. Another common notion of him is that of a cold sceptic, who subjected everything to the test of a narrow reasoning process ; a man who cared nothing personally either for good or evil ; who was all brain and no heart. If these romances fairly reflect the real nature of Voltaire, they exhibit the character of a warm-hearted, sensitive, indiscriminating man, who sickened over human suffering and human persecution, and who employed, with an almost reckless prodigality, against the enemies he hated most, the instinctive weapon of wit which served him best.

"What shortens the average lives of Frenchmen ; what makes men poor, and keeps them so ; what embitters domestic life ; what renders children blessings instead of curses ; what stifles freethought ; what turns philosophy to a sham ; these were the questions with which his sympathies tormented Voltaire. He thought that the state of society around him gave answers to many of them, which he determined to interpret into intelligible language. These satirical Romances are valuable because they contain Voltaire's explanations of the condition of France in his day. War, religion, hypocrisy, religious intolerance, court domination and court intrigue, superficial or quack philosophy, idlers, soldiers, and priests—these Voltaires looked upon as the national evils of France ; therefore his romances are simply satires directed unchangingly and perseveringly against all these enemies.

"Voltaire was particularly angry with some of those who invented consolation for men's misery. He flamed up especially against those who endeavoured to satisfy unquiet minds with the shallow quibbles which passed for optimism, and whose whole secret consisted in calling a disagreeable thing by a fine name.

"The purpose which animates every one of the tales, and the wit which gives force and brightness to every one of them, are the characteristics for which they merit to be immortal. No cold sceptic, working with unimpassioned heart and bitter tongue, is discernible to the reader who gives them an impartial study, but a sensitive and impulsive man, whose earnest nature lent fire to his matchless wit. That weapon of wit which in these satires Voltaire wielded honestly for the sake of his fellow men, was surely the very keenest of its kind ever employed in such a cause. Some of these romances preserve its finest achievements. Voltaire's wit is not like Molière's, for it never exuberates ; or Pascal's, for it never acknowledges earnestness ; or Le Sage's, for it is never sprightly and careless ; or Goldsmith's, for it is never childlike ; or Swift's, for it is never savage ; or Sydney Smith's, for it never plays upon words ; or Douglas Jerrold's, for it never outwardly exhibits bitterness. . . . But Voltaire's wit is of a kind which owes nothing of its preservation to its subject. On the contrary, there could be no topic so ephemeral and trifling which, encased in the amber of that incomparable satire, would not remain preserved for ever."

### NOTICES OF THE PRESS:

"This is a 'Prize Essay,' but unlike the majority of prize essays, it shows real power and independent strength. But as the preface hints, the offering of a prize for such a work only suggested to the author the writing of this book as an utterance 'on theological matters,' after having been silent for thirteen years, since his 'quiet withdrawal from Christianity.' As a Christian minister, he tells us he has well studied the beliefs of Christendom and the grounds of them; and now he assures us he has 'almost daily pursued his researches after the real origin of the Christian religion.' The result of his inquiries, on both sides, are here in the massive volume before us. Ostensibly the work is an examination of the evidences for and against the prophecies of Christ, especially those prophecies which relate to the supposed drawing nigh of the end of the world; but in reality, it is an elaborate review of the life, character, and teachings of Christ. With regard to the prophecies relating to the end of the world, the arguments on both sides are really well stated, with great fidelity and equal fulness. The conclusion he arrives at is that Christ predicted the end of the world and the day of judgment as events then just at hand, and that, in consequence, we ought to regard Christ as 'neither a deity nor in supernatural communication with the deity.'

"Mr. Meredith is a shrewd, clear, and incisive writer, and says the sharpest and most outright things possible on the subject in hand. He is evidently a man of considerable reading and great industry; and, if only for the sake of his frequent notes, which are full of information, and particularly rich in quotation and illustration, his book deserves attention.

"The Christian reviewer here proceeds, at great length, to defend the character of Jesus from the charges brought against him by the author, and concludes his critique by stating that he finds that 'the last chapter, which is a refutation of the doctrines "taught by modern divines" contains passages of real power, and not a few of great beauty and eloquence,' and that 'the writer is quite capable of giving us something that may live.'"—The Rev. JOHN PAGE HOPPS, in the *Truthseeker*.

THE PROPHET OF NAZARETH—Notices of the Press—*continued.*

"It is a very serious practical question—what ought to be the result, and what must be the result, to the clergy, if the conclusions reached by some modern enquirers touching the unhistorical character of a great part of the New Testament should prove irrefutable. We refer to such works as Mr. Scott's just completed English Life of Jesus, and to the elaborate and comprehensive work, 'The Prophet of Nazareth,' by E. P. Meredith. This last work would have been more popular, and would have attracted more observation, if it had not been so voluminous. The book is one of vast research and compass; of great ability, earnestness, learning, and impartiality. It is a hard study to master all its varied contents; and the best and ablest among the clergy might think it no disparagement to enter the lists with this formidable Goliath. High priced as the work is, it is cheap in proportion to the amount and variety of the contents."—A. F. M. of the *English Leader*, in an able article—"RESULTS OF BIBLICAL CRITICISM."—Sept. 21st, 1867.

"Never did I feel more covetous of Dr. Johnson's gift of tearing out the heart of a book, than on sitting down to review the elaborate work now lying before me. To the critics described by Theodore Hook, who confine themselves to cutting a page or two, and then smelling the paper-knife, as a substitute for reading the book, 'The Prophet' seems to say:—

*'Procul O! procul esto profani  
Conclamant vates, totoque absistite luco.'*

Nor is it wonderful that it has become an established principle with critics to lose sight of the book they are professedly reviewing, and to launch out into matters and things in general. Having conscientiously read The 'Prophet,' I shall endeavour to convey to the reader some idea of the work, and my own views thereon. In the first place, I must express my astonishment, and, to say the truth my disappointment, that this book—a Prize Essay, of closely printed demy 8vo. of 650 pages, price 12s. 6d. (which was published in 1864, and has already reached its second thousand)—has called forth no orthodox expression of opinion from Lord Shaftesbury. Possibly his Lordship finds it difficult to improve on his allocution respecting 'Ecce Homo'; for if *that* book be 'the worse book ever vomitted forth from the jaws of hell,' (see *N. R.* Oct. 13th. 1867) what words in the orthodox vocabulary are sufficiently sulphurous to define 'The Prophet'? Mr. Francklin's expressions—'horrible and blasphemous production,' 'pestilent doctrines,' &c., are tame and feeble, when compared with the truly diabolical imagery of Lord Shaftesbury. It is frightful to think what fearful figures of rhetoric may be fulminated against Mr. Meredith's book. It has been my pleasure and my pride to review this writer hitherto in the character of a literary *tirailleur*, an unerring marksman, stalking a bishop, or firing a heavy charge of swan shot into the retreating Lincolnshire Vicar, who, after commencing the fray took the earliest opportunity of showing his back to the enemy. Mr. Meredith now appears in a far grander capacity, as captain of a magnificent iron-clad man-of-war, which with true *British* pluck, he steers right into the midst of the theological squadron, laying his vessel alongside of the largest ships, and challenging a heavy fire from all quarters. And the theological squadron seem in no haste to return the raking broadside which he pours in. They appear inclined to sheer off and give him a wide berth. They seem to argue—logically enough—if the rattle of his musketry has put to flight a bishop and a vicar, what will become of us when he opens fire from his heavy guns! And so, the word is passed to the orthodox captains—(*id est*, the editors of the religious papers)—'Do not return the fire of that strange vessel. Belay there my hearties; the powder monkeys (printer's devils) are all ready to hand up ammunition, and curses, not loud, but deep, are muttered on 'the Infidel.' But the horrible theological carnage is delayed, and ink, shed for a time, ceases to flow. The smoke from Mr. Meredith's guns clears away, and, as the parsons behold the black hull and muzzles of the guns protruding from the open port-holes, most devoutly do they hope that it will all end in smoke. Truly, it may

THE PROPHET OF NAZARETH—Notices of the Press—*continued.*

be said, 'the boldest hold their breath for a time.' The pause is ominous, but it cannot last. The conflict between priestism and what priests call infidelity must go on, and the theological policy of a 'masterly inaction' will be found as futile as it is inglorious. To drop metaphor: the orthodox papers, the *Guardian*, *Record*, *John Bull*, *Christian World*, et id genus omne, pursue the worldly-wise policy of ignoring this book, which is a magnificent addition to the literature of Freethought, and a powerful effort to substitute *terra firma* in lieu of the pestiferous bogs of superstition, and theological sloughs of despond. I have the more pleasure in stating this, as it is not my intention to plaster the volume or its author with unqualified praise; but all candid persons, orthodox or heterodox, will admit that there cannot be two opinions as to the erudition, the patient industry, and the great moral courage manifested by Mr. Meredith. The writer of this elaborate work manifests great scholarship and great patience; and Buffon has said, '*Le Genie, c'est la Patience.*' The judicial spirit of impartiality is also strikingly manifested in the arguments for and against the orthodox view of the character of Jesus. 'The prefixed advertisement will show the conditions under which the work was written, and will explain the cause that considerable portions of it are written on the Christian side of the argument. The portions of the work devoted exclusively to the advocacy of Christianity are from page 9 to 51, and from 245 to 253. Should any Christian reader be so conscious of the weakness of his faith as to desire to know only what can be said in favour of his religion, he is recommended to confine himself exclusively to the perusal of these pages, and, when he has read them, to shut the book, lest his prejudice be irritated, or his mind roused to critical inquiry.' On first reading the above, I was irresistibly reminded of the polished irony of Gibbon, as displayed particularly in the 15th and 16th chapters of his immortal work. Indeed, there is a good deal, both in the literary style and in the position of this brave Meredith attacking superstition from his philosophic retreat in Monmouth, which recalls those noble lines of Byron, where, after depicting the philosopher of Ferney, he refers to the philosopher of Lausanne. . . . . But on reading the portions referred to, it will be found that our author has fully borne out this statement in his preface. 'These portions which are strictly orthodox are enforced with every possible fidelity and strength of reasoning that the writer could command when he was a sincere believer in the truth of the Christian religion,' &c. On reading Mr. Baillie's advertisement, the reader will see that the Prize Essay is not a desultory discussion of Christianity, but a most pertinent and important inquiry as to whether certain definite prophecies attributed to Jesus have or have not been fulfilled. 'Did Jesus Christ predict the Last Day of Judgment and Destruction of the World as events inevitable during the then existent generation of men?' If this question can be answered in the affirmative, then the non-fulfilment of such a clear and distinct prophecy effectually disposes of the divinity of Jesus. 'For although to utter true prophecies is no proof that the prophet is a deity, or that he has any preternatural communication with deity, yet to utter false prophecies is, in the very nature of things, a positive proof that the prophet is not a deity, and is not in any manner supernaturally influenced by the Supreme Being.'"—AUTONOMOS, in the *National Reformer* of July 12th, 1868.

"Germany has produced its celebrated '*Leben Jesu*' by Strauss, and France its '*Vie de Jesus*,' by Renan; but England has never until now produced any distinguished or remarkable life of Christ. This has just been accomplished by Mr. Evan Powell Meredith, whose elaborate work has the English characteristics of solidity, thorough exhaustiveness, and great clearness of statement. The author was educated for the Christian ministry; but he subsequently, to use his own explicit and courageous words, 'quietly withdrew from Christianity, whose doctrines, after considerable examination and research, he had ceased to believe, and therefore could no longer conscientiously preach.' After being for thirteen

THE PROPHET OF NAZARETH—Notices of the Press—*continued.*

years from his secedure silent on theological matters, the offer of the Baillie Prize induced him to enter upon the composition of this volume, to which he has devoted the labours of seven years. There are numerous authorities quoted in the work. Mr. Meredith, acting upon the genuine intuition of literature, enters upon the examination of his subject with the resources of a scholar, the spirit of a gentleman, and the courage of a critic, who knows that the purpose of criticism is the discovery and estimate of the truth, and that the duty of a critic is to express an honest, uncompromising, and discriminating opinion. The result is a very remarkable and valuable book of 652 demy 8vo. pages, solid, of more than ordinary width and length. The Christian reader will find in this volume more information than all the Crudens, and Kings, and Kittos, and commentators have ever supplied touching the true characteristics of these most interesting subjects—the predictions, precepts, actions, discourses, and social intercourse of Jesus Christ; and that stated in language which is considerate without weakness, and bold without offence. As perfect for reference as for reading, the 'Prophet of Nazareth' is accompanied with a most copious and complete index.—*The Reasoner.*

"Believing that the Christian religion is like a goodly vineyard overgrown with thistles and weeds, the author sets himself resolutely to the task of destroying the crowded undergrowth; and he handles his spade and his scarifier with much skill and noticeable pluck. . . . Now, whatever may be the merits of the modern German critics, Bishop Colenso, the Essayists and Reviewers, and the other black sheep of the Church, there can be no mistake respecting the plainness of Mr. Meredith's language or the boldness of his speculations. . . . Those who wish to continue the subject may purchase the volume for themselves. They will find Mr. Meredith always in earnest, and always gentlemanly in tone."—*The Newcastle Daily Chronicle.*

"After reading this volume no one should be unacquainted with the real character of Christ, and with the nature and tendency of his teachings. We never remember reading a book with less pretension, and at the same time being more exhaustive. The Christian's view is fairly stated, and the Freethinker's position is so well defended that it forms a complete library; and all other books on the two-fold question here discussed may be fearlessly dispensed with. As we hope to refer on more than one occasion to 'The Prophet of Nazareth,' we shall now content ourselves with quoting," &c.—*The National Reformer.*

"Mr. Meredith appears to have withdrawn quietly from Christianity some years ago, but to have employed himself with inquiries into its origin; and in the present work we have the result, distributed into arguments for and against the divine nature of its Founder, the reality and accomplishment of his prophecies concerning the destruction of Jerusalem, the end of the world, and his own resurrection, the excellence or defects of his teaching, and the probable sources of his precepts. Mr. Meredith has endeavoured not to wound unnecessarily the feelings of believers."—*The Westminster Review.*

## VOLNEY'S RUINS OF EMPIRES.

Translated from the French. Handsomely bound in fine Cloth, 2s. 6d.

A new edition of one of the most famous works of the French Encyclopædists—Volney's "Ruins of Empires"—has just been issued by Mr. E. Truelove, 256, High Holborn, London. It is scarcely necessary to say anything about this remarkable work, except that the present edition is neatly printed and handsomely bound. Not many readers are perhaps aware that Macaulay's celebrated New Zealander was really invented by M. Volney. Here is the passage in the "Ruins" which bears out this assertion:—"Who knows but that hereafter some traveller like myself will sit down upon the banks of the Seine, the Thames, or The Zuyder Zee, where now, in the tumult of enjoyment, the heart and the eyes are too slow to take in the multitude of sensations; who knows but he will sit down, solitary amid silent ruins, and weep a people inurned, and their greatness changed into an empty name?" I may add that M. Volney discusses some of those Eastern problems which the European Powers are still endeavouring to solve.—"*Puck*" in the *Newcastle Chronicle*.

The author was a deputy to the National Assembly of 1789, and long shared with Paine and others a position of eminence among anti-Christian writers. Under the form of an allegory, he develops his theory of Society, of Law, and of Religion, denounces tyrants and priests of every sort; and in a supplement entitled, the Laws of Nature, deduces in the form of question and answer his own principles of morality from the physical constitution of mankind and of the universe. The book was once thought to be a literary firebrand of the most malevolent potency, but we have learned to tolerate such literature as complacently as we regard a bundle of Chinese crackers. The Edition, which has been entirely reset, is very neatly printed.—*The Bookseller*.

Mr. Truelove has just published a new edition of that excellent work, "Volney's Ruins of Empires." It is printed remarkably well, and is bound in cloth with much taste.—*Secular Review*.

**ANALYSIS OF THE INFLUENCE OF NATURAL RELIGION** on the Temporal Happiness of Mankind. By PHILIP BEAUCHAMP (a pseudonym adopted by G. Grote, the historian of Greece), 123 pp., 1s. in cloth boards, 2s.

"Among the works read in the course of this year (1822) which contributed materially to my development, I ought to mention a book (written on the foundation of some of Bentham's manuscripts, and published under the pseudonym of Philip Beauchamp), entitled 'Analysis of the Influence of Natural Religion on the Temporal Happiness of Mankind.'

"This was an examination not of the truth, but of the usefulness of religious belief in the most general sense, apart from the peculiarities of any special Revelation; which, of all the parts of the discussion concerning religion, is the most important in this age, in which real belief in any religious doctrine is feeble and precarious, but the opinion of its necessity for moral and social purposes almost universal; and when those who reject revelation very generally take refuge in an optimistic Deism, a worship of the order of Nature and the supposed course of Providence, at least as full of contradictions and perverting to the moral sentiments as any of the forms of Christianity, if only it is as completely realized. Yet, very little, with any claim to a philosophical character, has been written by sceptics against the usefulness of this form of belief.

"The volume bearing the name of Philip Beauchamp had this for its special object. Having been shown to my father in manuscript, it was put into my hands by him, and I made a marginal analysis of it as I had done of the 'Elements of Political Economy.' Next to the 'Traité de Législation,' it was one of the books which, by the searching character of its analysis, produced the greatest effect upon me. On reading it lately, after an interval of many years, I find it to have some of the defects as well as the merits of the Benthamic modes of thought, and to contain, as I now think, many weak arguments, but with a great overbalance of sound ones, and much good material for a more completely philosophic and conclusive treatment of the subject."—JOHN STUART MILL'S AUTOBIOGRAPHY, page 69.

"This essential portion of the inquiry into the temporal usefulness of religion is the subject of the present Essay. It is a part which has been little treated of by sceptical writers. The only direct discussion of it with which I am acquainted is in a short treatise, understood to have been partly compiled from manuscripts of Mr. Bentham, and abounding in just and profound views; but which, as it appears to me, presses many parts of the argument too hard."—J. S. MILL'S ESSAY ON THE UTILITY OF RELIGION, page 76.

"Although not generally known, it is, we believe, a fact that the late Mr. Grote was the author of a treatise on Natural Religion, published under an assumed name so far back as the year 1822. The full title of this work is 'Analysis of the Influence of Natural Religion, &c., &c., by Philip Beauchamp.'"—*The Athenæum*, May 31, 1873.
