Mr. Loren D. Reese
Executive Director Black Hawk Co.
Conservation Board
Black Hawk Park
Route 3
Cedar Falls, Iowa 50613

Dear Mr. Reese:

May I express my appreciation to you for the recent meeting which I was privileged to attend at Black Hawk Park, regarding the need for a nature education center. It occurs to me that the impetus now being placed on conservation is developing a definite need for a nature education center.

The Waterloo Community Schools have been extremely pleased with the services of Black Hawk naturalist Mr. Krebill for the outstanding job which he has done with our students on nature field trips. With all of the trips which he has assisted us with previously, and the ones arranged for from December through May again seems to point up a need for a center.

After visiting with some of my staff I am sure that we would have many more students as well as adults who would avail themselves of such a facility.

Thank you for your outstanding leadership and the splendid cooperation which we have received from you and Mr. Krebill.

Sincerely,

Ernest W. Barker
