## Viet Student On Campus

Photo by Paul Chamberlain

### LONG VAN PHAM, Vietnamese Radiological Technology student.

Long Van Pham is the only Vietnamese student on campus. He came to the United States in 1966 and is enrolled in the Radiological Technology (RT) department, the only RT program within a 100-mile radius.

"In Vietnam we had the impression that Americans don't work, but I've found they work hard. Me, too," Long said.

This is Long's first semester in the RT program, but he has three degrees: an Associate Degree in Building Construction Technology from TSTI, A Bachelor of Technology Degree from American Technological University in Killen, and a Bachelor Diploma in Teaching Technology from TSTI.

"I couldn't find a school teaching X-ray technology, so I studied building construction," Long said.

"He didn't know we had an RT program here," said Alvin Pollard, dean of technology.

"Radiological technology is designed for a person to become a registered

radiological technologist under the auspices of radiological technology," said Larry James, RT instructor. "Upon completion of the program, students will have an Associate Degree in Applied Science.

The program includes 2,400 hours of clinical practice at hospitals: Hillcrest, Providence and Veterans hospitals in Waco, Santa Fe and Veterans hospitals in Temple.

Students in the RT program must meet college requirements as well as pass the American Registry of Radiological Technology examination. Courses in the program include biology, anatomy, physiology, RT Introduction, and clinical practice at the hospitals.

Long is one of 41 students in the RT program. "We have 30 students in Waco and 11 in Temple," said James. The maximum number the program can accommodate is 42. "It is a well-disciplined program. A person must really want this program to get in," James said.

Long first talked with Dean Pollard about entering the RT program. "He was very determined to get into RT," Dean Pollard said. "We almost had our quota."

Two openings became available. "We were impressed with Long's follow through in getting into the program. He received no special privileges. His credentials more than surpassed our requirements."

The RT program includes three semesters: fall, spring and a five-day, 40 hour week for 12 weeks in the summer. Graduation is in August and the American Registry of Radiological Technology examination is given in November. Upon passing this examination, a person has national credentials.

James said that the field does not require a bachelor of science degree now, but that people entering the field five to ten years from now will need one.

Long said that the first year in the

Photo by Paul Chamberlain

### LONG PARTICIPATES in welcoming and helping establish Vietnamese refugees in the community. Here he takes part in re-uniting a Vietnamese man with his wife, their six children and "one due any minute".

United States was difficult due to different customs and language. He studied English for three months in Vietnam, but he said that was not enough. He continued his study of English in the United States.

"English is necessary because the course is so technical," James said.

Long worked for the State Department in Washington, D.C. after he arrived in the United States. Prior to coming to Waco in 1972 he worked at the Defense Language Institute in El Paso.

In addition to his studies, Long is employed by Hillcrest Hospital in the Patient Transportation Department. "I have a family," said Long. "I have to go to school and then go to work." Long is

married and has a son age five and a daughter age six.

"This is a beautiful school," Long said, "and it has nice teachers. When we need something, they help us."

"We are very pleased and proud to have Long in the RT program," said Dean Pollard. "He's done a great job."

"One of the most significant factors about Long is the high regard his classmates and the administrative people at Hillcrest hospital have for him. "He receives no special privileges. He is liked for his enthusiasm and ability," James said.

"I am lucky to be at MCC, and I am lucky to be in the RT program," Long said.

## Student Representatives Take Oath

Student Government held its first functional meeting of the 75-76 school year Monday. Highlighting the agenda was the administering of the oath of office to the Vice-President elect, 19 representatives elect and Supreme Court appointees.

Officiating was Bobby Kacal, president of student government. Clark Beckner, freshman was sworn in as Vice-President.

The nineteen representatives are sophomores, Dale B. Rtt, Sprock Kellum, Barry Johnson, Dan Jones, Donald Scott, Randy Fass, Peggy Dixon, Steve Garner and David Sann.

Freshman representatives are, Bill Hyman, Pam S. ...

Advisors are Don Bynum, director of student activities and Paul Holder, Government instructor.

Supreme Court members are sophomores Marvin Schroeder, Kathryn Neuburey, Tom Fuller and freshmen Mark Beckner and David Sann.

Supreme Court advisor is Scott Adams, history instructor.

Student Government is divided into the Executive Branch, the Legislative Branch, and the Judicial Branch. The Executive Branch includes a President, Vice-President, Secretary, Treasurer and Parliamentarian.

The Legislative Branch of the Student Government consists of one representative for each one-hundred full-time students. This representation is based on the enrollment at the close of regular fall registration.

The Judicial Branch of the Student Government is the Supreme Court which functions as the highest student judicial organization.

Regular meetings of the Student Government are held once each week in accordance with the activity schedule.

The Supreme Court will meet twice a month during the regular semester or as often as necessary to complete the business at hand.

Notice of meetings of the Supreme Court will be published in the student bulletin in advance and all meetings are open to any student, faculty member or administrator unless otherwise designated by the court.

### Representative-elect Resigns

One Student Government Representa-

tative-elect resigned immediately after the election votes were counted thus leaving only 18 representative-elects to be sworn in during the first Student Government meeting held Monday.

Because the one representative-elect had not officially entered office, the Student Government unanimously approved a motion to allow the runner-up representative candidate to take office as the nineteenth representative.

Student Government also approved a motion to allow a student to file suit in writing with the Student Supreme Court if they are opposed to the action taken by the Student Government in this case.

A time limit, falling Thursday, October 10, has been set allowing students to file suit.

Any student wishing to file suit concerning this case may file said suit in the Student Activities Office.

## Editorial

# Jubal Plays, Students 'Hustle'

by Francy Richings

Spirit on campus is fantastic! For the first time in at least two years there were more than a handful of people at the Howdy Dance.

At 9:15 p.m., just 15 minutes after the dance started, almost every table in the Student Center was taken. However, people weren't sitting down, they were hustling all over the dance floor.

The Hustle is a new dance that makes the dancers look like a single body all doing the same thing at the same time.

One person was heard saying, "They do pretty good for never having worked together before. They look like the Barry White Dancers".

Perhaps so many people attended the dance to see "the band that played at Disneyland". "Jubal" was an inspiration to even the shyest dancers.

Many of the popular songs they played sounded almost exactly like the original recordings, especially songs by Stevie Wonder and "Rufus".

They didn't have a gimmick like live

snakes, Indian headdresses, or bubble machines behind the band stand, but they were terrific anyway.

The dance took on a mysterious tone when what seemed to be refugees from a Halloween party floated in and sat down. Fortunately Harold Nolte and company were on hand to survey the situation from a few yards away and decided the group was harmless.

Shortly after the arrival of the Groovy Ghoules, Bobby Kacal, student government president, announced the student

government election winners. He read the cheerleaders' names in alphabetical order giving Jo Burns her share of excitement for the evening. No, Bobby, "B" doesn't come after "R".

After the announcements the crowd was even more enthusiastic and the band seemed to get better and better.

Perhaps the Howdy Dance was a good omen for the year. Hopefully there will never be another campus-sponsored dance when only six people, including the security guard, show up.

## A.S.K. Initiates Yearly Activities

Afro-Student Kindred (ASK) is having a Get Acquainted party from 7 p.m. until 9 p.m. Friday in the student center to begin their activities for the year. Anyone with a student I.D. may attend.

ASK will also have a car-wash and participate in a Bike-Hike for retarded citizens Saturday. The hike will begin at University Junior High School and continue down Interstate 35. Participants will walk seven miles and ride 10 miles. State prizes, such as a trip to Honolulu for two, will be given to club organizations that raise \$150 or more.

Some of A.S.K.'s goals for the year will include bake sales, Halloween and Christmas parties for children at the Waco State Home, an annual Soul food banquet, and supplying needy families with groceries for Thanksgiving.

A.S.K. won the basketball spirit night award last year and plans to follow basketball team progress and do more this year, said Sandra Rosemore, counselor and sponsor of A.S.K.

The club will be taking an educational trip this year. Last year they went to Astro-World.

A.S.K. plans to have more community projects, enter scrapbook competition, and have a talent show. They plan to participate in all activities sponsored by

student government, said Mrs. Rosemore.

Club goals include more projects that are beneficial to the student body as a whole.

"I am proud of their accomplishments and I expect bigger and better things," she said.

"The club has 47 members and I'm

expecting 30 to 35 more to join," said Mervin Harlan, sophomore president.

"Our club is trying to fulfill all goals and expects to reach greater heights in the future. It is open to any student regardless of race, creed, or color," said Harlan.

A.S.K. officers are sophomores Mervin Harlan, president; Patsy Monroe, vice

president; Carolyn Satchell, secretary; Wayne Fields, treasurer; Eanest

Trotter, public relations manager; Carlos Blackwood, sergeant at arms; Jay Whitties, parliamentarian; Diane Clark, inter-club council representative; and freshman Lisa Thomas, assistant secretary.

The club meets every Friday at 10 a.m.

## Student Administration Relations Deemed Important by New Dean

Dr. LaVerne Wong is the new Dean of Student Services on campus. She succeeds Dr. Joyce O'Rear who left MCC after seven years to be a counselor at Texas A&M University.

Dr. Wong arrived on campus from North Texas State University where she was an assistant professor.

She feels there is a need to have a strong student service program with a student and administrative inter-relationship.

"Right now our main focus is on the students and what will help them," said Dr. Wong. Student Services include financial aid, new programs, counseling, listening to students' needs, recreation, and student government.

Dr. Wong taught for 17 years in the Waco Independent School District and served as president of the Texas Classroom Teachers Association in 1969-70.

Dr. Wong received her Bachelors and Masters Degree from Baylor University, and her Doctorate from Texas A&M University. She majored in Educational Psychology and Administration.

Although Dr. Wong thinks there is little change between high school and college students, she believes that college students are more positive about their goals and ambitions.

She described the transition from high school to college work as a "pleasant change". She said her new work is interesting but she misses the teaching aspect.

She sees the students as individuals and as a study body, with needs and problems that may be handled through

better communications between students and Student Services.

Dr. Wong said the campus offers a wide variety of subjects for many different fields of work. She said, "When people speak of MCC, they speak of the beauty of the campus." Dr. Wong credits the ground keepers for their work in campus beautification.

She said, "The students look great, responsible, and interested in what they are here for," although she would like to see more friendliness among students.

Dr. Wong believes there is togetherness and openness among the teachers, and that they are highly qualified. She stated, "The variety of subjects speaks well for the staff."

dean of student services.

## Choir Director Plays Chimes To Tell Time

While strolling through the campus, music may be heard drifting from the Fine Arts building. These sounds are from the electronic bell system (Schulmerich Carillons, Inc.), operated by Kenneth Alford, choir director.

The system is used for telling time every quarter hour and for playing recital tunes. The tunes are played daily at 10 a.m., noon and two p.m. A different schedule is used on weekends.

"The only trouble is the time changes," said Alford. He has to change the time of the clock twice a year because of Daylight Savings Time.

The music used for the pre-determined tunes are on rolls similar to those used on player pianos. The system also has a keyboard for playing songs on the campus. During the Bicentennial, more patriotic songs are being used and ordered.

THE HIGHLAND HERALD is a publication of the journalism class of MCLENAN COMMUNITY COLLEGE and is published weekly from September through May, except during holidays.

Opinions expressed do not necessarily reflect those of the college, the administration, or the faculty, but of the writers themselves.

Offices of THE HIGHLAND HERALD are located at 1400 College Drive, Waco, Texas, in the Student Center, telephone 756-6551, extension 444 or 443.

# Pipeline

## Flu Shots

Health Services will give influenza vaccine injections for a minimum fee in October.

All students 18 and over are eligible for these injections. Those students interested in receiving this service come by the First Aid Room, lower floor of the Student Center and sign up prior to October 3.

## Tutors Needed

Support Services is in urgent need of tutors in Business 313, 351, and 317, in Math 300 and 303, and Biology 451.

Students having an A or B in these courses and wanting to make \$2 an hour, may contact Ruby McCalanahan in the

Support Services office, just off the cafeteria in the Student Center, or call extension 384.

## H.O.T. Fair Booths

It's the time of year for the Heart of Texas Fair and Rodeo. Along with the clubs and organizations of Waco, MCC will also have a part in the fair.

The nursing association is going to help man booths at the fair. One of these is the Heart Of Texas Heart booth. There they will talk to people about their health and take blood pressure.

The nurses will also help in the emergency room on the fair grounds. A doctor will be on hand at all times during the fair and rodeo. This booth is inside the Collis.

A booth about the college including slide presentations and brochures will be set up in the general exhibits building.

## Bookstore Hours

The bookstore will be open Monday through Friday, 8 a.m. to 4:30 p.m. and Monday through Thursday 6 p.m. to 8:15 p.m.

Earline Snow, bookstore manager, said the evening hours were for the convenience of evening students, continuing education students and students who are not able to come during regular hours.

## Circle K Lil' Sis

There will be a meeting today for all girls interested in joining Circle K Lil' Sis at 10 a.m. The meeting will be held in the Liberal Arts Building, room 208. The topic for discussion will be initiation.

## Veterans Club

The campus Veterans Club will meet today at 10 a.m. in the Tartan Room. Election of Officers and proposals for advisor are foremost on the agenda.

This community service oriented club

has sponsored projects both on and off campus.

The membership is open to all interested students.

## Football Tournament

The football tournament begins today in the game room with four teams kicking off the action.

Harris and Fuller will be up against Hoshizaki and Wright. Holub and Cooper will be taking on Neal and Sheehy.

Friday the action continues with Pettit and McCoy taking on Nersta and Hudspeth. Briganice and Lesman are up against Musha and Marak.

Watch for results to be posted at the games room counter.

## United Way

The United Way Campaign is under way for MCC employees. Counselors Hazel Martin and Sandra Rosemore are co-chairmen on the campus committee.

Pat Saffle, secretary to Dean Chester Hastings is the collection agent for the drive. She is located on the fourth floor of the Administration Classroom Building in the Program Development Office.

# Ex Student In Charge Of Jobs

Cathy Dominguez, the new placement director, is in charge of work study programs and off-campus jobs on campus.

Miss Dominguez came to MCC in July. The campus wasn't totally unfamiliar to her, though, because she attended MCC part time for three years. She then went to Baylor to get a degree in criminal justice.

"I'm very happy. I was so excited to come to work here. I really enjoy being back on campus," she said. "This is my first big job and things seem to be going real well so far."

She explained what her job involves.

Mainly, she screens students for on or off campus employment.

Miss Dominguez works with two programs: the work-study program, and a program helping students find work off campus.

To be eligible for the work-study program a student must carry at least 12

semester hours. Work study jobs are on campus and the student works a maximum of 15 hours per week. Students on this program are paid \$2 an hour and get paid by the month.

In the off campus employment program, Miss Dominguez takes calls from employers seeking part time help. She posts the openings on the bulletin board in the student center. Students interested in part-time employment are screened by Miss Dominguez and referred to the employer.

"On the average, I get a call every day from employers seeking help for part time work," said Miss Dominguez.

Applications for these programs are available in the Placement Office on the third floor of the student center. Students interested in talking with Miss Dominguez may make an appointment by calling ext. 393 or 394 or going to the Placement Office.

# Students Advised

The functions and purposes of the Student Services Council deal with the responsibility of discussing problems, policies and recommendations relating to student services, intramural athletics, co-curricular activities of the college, college programming, and general areas relating to student problems and needs.

The membership of the council includes Dr. LaVerne B. Wong, dean of student services, Chairman; Dr. Ron Smith, dean of instruction; Willie Hobbs, registrar; Mel Post, director of administrative services; and five instructors representing divisions. The instructors are Abbe Dalton and Frank Taylor, vocational technology; Dr. Michael White, social science com-

munication; James Schwarz, science, math and physical education; Dr. Dale Hughes, humanities and fine arts.

The five student members representing divisions, two as yet unannounced, are sophomores Cathy Payne, vocational technology (ADN); James Proft, social science communication; and Mike Harry, science, math and physical education.

Two students appointed by the Dean of Student Services are Bobby Kacal, president of student government, and Kathryn Newburey.

Meetings will be scheduled once a month and special meetings may be called as deemed necessary by the chairman.

# Bicentennial Inspires Nostalgic Gardening

Autumn is usually characterized as the season when things die or go to sleep, but a number of plants may be started in early October to grow through the winter or be harvested in late fall.

With the Bicentennial making its way into the lives of people throughout the nation, some people may be inspired to provide things for themselves as their forefathers did.

From the early individualistic days of the country until recent produce mass production, families had to plant and grow things to feed themselves through the winter.

Here are some guidelines for October planting from Empire Seed Company, Waco, supplemented by "MacDonald's Farmers Almanac 1975".

Vegetables to plant include:

**Beets**—Buy one ounce of seed per 100 foot row and plant 18 to 20 inches apart. Ready to eat in 90 to 120 days.

**Early Cabbage**—Buy one quarter ounce per 100 foot row and plant 20 to 30 inches apart. Ready to eat in 90 to 110 days.

**Carrots**—Buy one half ounce per 100 foot row and plant rows 12 to 18 inches apart. Ready to eat in 55 to 80 days.

**Celery**—Buy one quarter ounce per 100 foot row and plant rows 18 to 36 inches apart. Ready to eat in 120 to 150 days.

**Collards**—Buy one quarter ounce per 100 foot row and plant rows 18 to 30 inches apart. Ready to eat in 100 to 120 days.

**Eradibe**—Buy one ounce per 100 foot row and plant rows 18 inches apart. Ready to eat in 100 days.

**Kale**—Buy one quarter ounce per 100 foot row and plant rows 18 to 24 inches apart. Ready to eat in 55 to 60 days.

**Kohl-Rabi**—Buy one quarter ounce per 100 foot row and plant rows 18 to 24 inches apart. Ready to eat in 50 to 70 days.

**Lettuce**—Buy one quarter ounce per 100 foot row and plant rows 12 to 18 inches apart. Ready to eat in 70 to 90 days.

**Mustard**—(Yes mustard comes from a plant before it comes from the jar) Buy one quarter ounce per 100 foot row and

plant rows 12 to 18 inches apart. Ready for harvest in 80 to 90 days.

**Onion sets**—Buy one quart per 100 foot row and plant rows 12 to 18 inches apart. Ready to eat in 100 days.

**Parsley**—Buy one quarter ounce per 100 foot row and plant rows 12 to 18 inches apart. Ready to eat in 65 to 90 days.

**Radish**—Buy one ounce per 100 foot row and plant rows 12 to 18 inches apart. Ready to eat in 20 to 75 days.

**Spinach**—Buy one ounce per 100 foot row and plant rows 12 to 18 inches apart. Ready to eat in 45 days.

**Turnip**—Buy one half ounce per 100 foot row and plant rows 18 to 24 inches apart. Ready to eat in 45 to 90 days.

For those with a more aesthetic winter garden in mind many types of flowers and bulbs may be planted now.

Flowers include ageratum, allium, blue bonnet, candytuff, carnation, calendula, Chinese forget-me-not, columbine, cereopsis, cornflower, delphinium and dianthus.

Other flowers to plant now are English daisy, gypsophila, hollyhock, larkspur, pansy, phlox, snapdragon, stock, sweet William, and viola.

Bulbs to plant in October are anemone, daffodils, crocus, freesia, grape hyacinths, hyacinths, iris, jonquill, lilies, narcissus, ranunculus, oxalis, snowdrops and tulips.

This is also the time to plant Bermuda or winter lawn grass.

"McDonald's Farmers Almanac 1975" predicts fair and blustery weather with light rains throughout the month of October. The almanac's advice to farmers for October is to seed down permanent pastures, finish all harvesting and look to the poultry. Have everything in snug shape for winter and make mushroom beds.

With preschoolers in red suits riding down Austin Avenue on horses and the bicentennial wagon in town, now is a good time to plant a nostalgic winter garden.

# Clan Places Second In Tourney

## Essenburg Wins Men's Singles

by Terry Tacker

The MCC tennis tournament, held Friday and Saturday, included teams from Cooke County, Weatherford, Hill, and Vernon Junior Colleges. A women's team from Baylor and the Highlander team also competed.

Randy Essenburg won the men's singles play with a 6-4, 6-3 victory over Chris Wall of Cooke County. Debbie Donley, also of Cooke County, defeated Denise Norred 6-1, 4-6, 6-1, for the women's championship.

"Randy really played well," said Coach Don Tatum. "He hadn't been playing that well lately, but he came through and won the tournament."

When asked about Miss Norred's play, Tatum said, "Denise came to MCC without a scholarship and started out our number five player. She upset Sherry Collazo and almost upset Debbie Donley."

On his way to the finals, Essenburg defeated Mike Cantrell 6-0, 6-1, Craig

Carter 6-0, 6-4, and Craig Nybo 6-2, 6-0.

Norred beat Bevan Lovelady 6-1, 6-4, Patty Qualls 6-3, 3-6, 6-0, and teammate Sherry Collazo 6-0, 6-2, to advance to the finals of the women's competition.

The Highlanders did not fare so well in doubles play. The team of Elaine Kocian and Sherry Collazo was defeated in the semifinals as was the team of Arlene Simms and Tobe Mason. Essenburg and Steve Heath were eliminated in second round action of the men's division.

Trophies went to first place winners and to the team with the most points accumulated at the end of the tournament.

Cooke County placed first with 20 points. The Highlanders finished second with a total of 11 points. Weatherford had seven points, Vernon one, Baylor women one, and Hill had none.

Following are match by match Highlander scores:

**MEN'S SINGLES**  
Essenburg, MCC, def. Cantrell 6-0, 6-1  
Essenburg, MCC, def. Carter 6-0, 6-4  
Essenburg, MCC, def. Nybo 6-2, 6-0  
Essenburg, MCC, def. Wall 6-4, 6-3  
Broach, MCC, def. Harrell 6-1, 6-3  
Nybo, def. Broach, MCC 6-1, 6-3  
Williams, def. Rodriguez, MCC 6-3, 6-2

**WOMEN'S SINGLES**  
Norred, MCC, def. Lovelady 6-1, 6-4  
Norred, MCC, def. Qualls 6-3, 3-6, 6-0  
Norred, MCC, def. Collazo, MCC 6-0, 6-2  
Donley, def. Norred, MCC 6-1, 4-6, 6-1  
Collazo, MCC, def. White 6-1, 6-3  
Collazo, MCC, def. Devitt 6-4, 6-0  
Mason, MCC, def. Billton 6-1, 6-1  
Meyner, def. Mason, MCC 6-3, 6-2

**MEN'S DOUBLES**  
Essenburg-Heath, MCC def. Henry-Cochrane 4-4, 7-5, 6-4  
Williams-Bloodworth, def. Essenburg-Heath, MCC 6-4, 6-3

**WOMEN'S DOUBLES**

COED practices serve.

## Golf In Action

The Highlander golf team will participate in the St. Thomas University Invitational Tournament tomorrow. Tournament competition will be on the Bear Creek golf course in Houston.

Five men qualified for the Houston tournament. Dale Carlisle shot a total of 614 for a 72.2 average. This is the lowest fall qualifier score in two years.

Dan Cronquist qualified, with a 625 score for a 73.5 average. Steve Elkins shot a 635 score for a 74.7 average.

Bobby Heath and Dirk Kirley will also make the trip as they shot scores of 643 and 645.

# Sky is the Limit for John

by David Williams

Sophomore  
John  
Derrick

fabulous freshman year in which he ranked All-America, he is back for his sophomore year.

Many coaches have commented on his play last year and could say nothing but "super". He is a super prospect for college and even the professionals after he is finished with his education.

Last year he averaged almost 20 rebounds per game which ranked him as one of the best in the nation. He can easily be compared to David Thompson, college player of the year last year.

John has set his goals high; he wants to win the national title, and lead the nation in rebounds.

John says that his jumping ability just comes naturally.

"I want to help the team as much as possible. If I am rebounding and playing good defense the team will win. Defense will win the games for us this year."

John has no idea where he will go to school; however Southern Methodist University and North Texas State University are among the maybes.

Derrick worked all summer to improve his game. The scouts can not wait to see where he is going.

If Derrick's game has improved over last year then the only limit for him is the sky. Whatever he does this year will be for the team. The best is yet to come for Derrick and only time will tell.

John Derrick is a familiar name around the state in the area of junior college basketball. Derrick came to the campus with superb credentials. After a
