Program Begins for Handicapped

Support Services for the Physically Limited began implementing services this fall for 20 students beginning with registration on Aug. 26. Physical limitations range from speech impediment to paraplegia. The range of students' ages is equally varied.

A special orientation was arranged with instructors having SSPL students in their classes, but because of last minute rearranging of schedules, some instructors were not informed of the meeting. Though efforts have been made to contact those instructors, some may have remained un-notified.

All faculty and staff may call the SSPL office at extension 384 or 385 for information and assistance.

All student service personnel, the Dean of Instruction, and administrators cooperated in arranging services from pre-pulling class cards to special counseling.

One special service provided is parking spaces for students in wheelchairs, so that they can open their car doors wide enough to get wheelchairs out of the backs of their cars and transfer themselves from the car to the wheelchair.

The SSPL Director, Mrs. Ruby McLanahan, would like to pass on to all members of the college some "helpful hints" for use when encountering physically limited students on campus:

I) When talking to a student in a wheelchair, if possible, sit down. It is physically uncomfortable for a seated person to look up for long periods of time in order to maintain eye contact during conversation.

II) If a student is obviously in need of help, offer it. Open doors, pick up dropped articles, offer to push the wheelchair if the person seems tired. If your help is refused, remain cheerful and go on your way.

III) If a person has speech problems, wait until he has completed his sentence. If you didn't understand what he said, ask him to repeat it. Never pretend to understand when you did not.

IV) If a person is blind (no totally blind on campus this semester) use words like "look" and "see"; they will not embarrass him. To show a blind person something, tell him what it is and place it in his hands so he can "see" it. To seat a blind person, place his hand on the back of a chair and he will seat himself. When in the cafeteria, ask him if he wants his meat cut up, or help getting the salt and pepper, napkins, etc.

Remember, the physically limited are people like all of us; they just have a problem we are unfamiliar with. Treat them with the dignity, courtesy and consideration you expect from others.

Special Ed., Teacher Aide Programs Approved

New programs in Teacher Aide and Special Education Aide have been approved to offer on campus.

Dr. Chester Hastings, vice-president for program development, and Al Pollard, dean of technical education, presented the programs before the review committee of the Texas Education Agency for approval.

A local advisory committee representing the various segments of education was instrumental in developing the programs. Members of the committee were Mrs. Kitty Ferguson, North Central Texas Region for Deaf Education; Weldon Johnson, superintendent of Hill County School, Hillsboro; B.J. Adams, superintendent of Falls County School, Marlin; Dr. Franklin Matula, assistant director of instructional service, Education Service Center; Rosemary Risenhoover, special education consultant, Education Service Center; Mrs. Norma Staton, assistant superintendent for elementary education, Waco Independent School District; and Mrs. Mary Punchard, occupational therapist of Mexia State School, plus members of this college staff.

The teacher aide program is designed to train aides as para-professionals to provide general, supportive and specialized classroom services at the direction of the teacher. The special education aide program is designed to aid the teacher in providing assistance to students who have physical or mental limitations.

An Associate of Applied Science degree will be awarded at the end of study, or the completion of sixty-eight semester hours. A Certificate of Completion may be

awarded to those students who desire a one-year certificate.

Three classes will be offered this fall in the evenings as a convenience for presently employed aides who want to upgrade their skills. Classes are Understanding Education Roles, Processes and Procedures on Thursday; Basic

Media Utilization and Preparation on Wednesday; and skills for Communication with the Deaf and Hard of Hearing on Tuesday. Classes will be held on campus from 6:30 p.m. until 9:20 p.m. one evening a week from Sept. through the week of December 15-19.

In addition to specially designed

teacher aide and special education aide courses, students will also take supportive courses in child care, mental health, psychology and general education courses.

Further information may be obtained by calling Alvin Pollard, dean of technical instruction at 756-6551 ext. 215.

SG Plans Activities and Elections

Activities

The Student Government held its first meeting of the new school year Sept. 3 in the Student Activities Office. The agenda included discussions on upcoming student activities, this years student government budget, student elections, and the appointment of an election committee.

This years' student government budget was set at \$3440. This includes \$590 for scholarships, \$650 for expenses incurred in attending the annual state convention, \$200 for records and supplies, and \$2000 for student activities.

Elections for a Student Government Vice-President, Student Government representatives, and cheerleaders were set for September 25 and 26.

Named to serve on an election committee to oversee the voting were Robert Bohne, sophomore; Cindy Loveless, sophomore; Janet Meek, sophomore; Becky Collins, sophomore; and George Rasco, freshman.

A college football tournament was set for October 1 at 10 a.m. in the game room of the Student Center. Any interested students may sign up for the competition beginning September 10 in the game room. There will be singles, doubles, and

mixed doubles competition, and trophies will be awarded to the winners.

In conjunction with the bicentennial celebration and the observance of MCC's tenth birthday, the Student Government decided to sponsor various patriotic activities which will be intended to entertain and inform the student body. These activities will be held throughout the coming school year.

The next Student Government meeting will be Monday at 10 a.m.

Elections

On Sept. 25 and 26, the student body will elect a Student Government vice-president, Student Government representatives, and cheerleaders for the upcoming school year. Any qualified student who is interested in running for one of these positions may apply for candidacy in the Student Activities Office between Sept. 9 and 19.

There will be five cheerleaders and nineteen student representatives elected, in addition to the Student Government vice-president. To be eligible to run a student must meet the following requirements:

He/She must be a full-time student, enrolled in 12 or more credit hours.

Students with previous college credit must have attained a 2.0 grade point ("C") average in courses taken.

Beginning freshmen wishing to run must have attained a "C" average during their high school career.

In addition, to run for Student Government vice-president, the prospective candidate must be classified as a freshman. If elected to the Student Government one should be prepared to regularly attend the Student Government meetings, which are held each Monday at 10 a.m. in the Tartan Room.

All candidates should study the Student Government Constitution which is printed in the Highlanders Guide, the student handbook. Current editions of the Highlanders Guide may be obtained free of charge from Don Bynum, director of student activities, in the Student Activities office.

Public campaigning by a candidate may begin as soon as he or she applies for the respective position and will continue until the days of election, Sept. 25 and 26. Winners will be announced on September 27 at the annual Howdy Dance to be held in the Student Center from 9 to 12 p.m.

Child Care Center Opens with Full House

by Carol Mitchell

Young children need a secure and wholesome environment during the first few years of life if they are to grow into healthy, productive adults. Such an environment is provided by the Parent-Child Development Center.

Each child is treated as a unique individual, and the staff works cooperatively to construct a daily program of activities suited to the child's interests, abilities, and developmental level.

Streams of experiences begin early in a child's life and continue throughout life, and many such streams are included in the curriculum at the Child Development Center. Some of the areas offered are language arts, social studies, music, art, science, and math. These subjects are not introduced to the children as "formal, isolated subjects," but as discovery experiences which lay foundations for future learning.

It is the purpose of the Child Development Center to provide a model setting in which students studying Child Development may deepen their understanding of preschool children through observation, working with children and parents, and attending special seminars and projects.

The center strives to provide a happy, secure, safe environment for the children of faculty, staff, full-time students, and the community. The goal is to meet the physical, social, emotional, and intellectual needs of the children enrolled. Age range of children enrolled is from two years four months to four years four months.

There are 28 children presently enrolled. Fifteen are on the waiting list, and applications are considered in the order that they are received.

Mrs. Geraldine Carey is the new director of the Child Care Center, and has been on campus since Jan. She came to Waco with her husband and children in Aug., 1974. Mrs. Carey obtained her B.A. from Carson-Newman College in Jefferson City, Tennessee. She then went on to achieve her Masters in Early Childhood at New Orleans Baptist Theological Seminary, New Orleans, Louisiana.

Currently, Mrs. Carey is a member of National Association for the Education of Young Children. Mr. and Mrs. Carey are directly involved as Sunday School directors for Lakeshore Baptist Church. Mrs. Carey also enjoys sewing, gardening, and playing the piano.

Photo by Paul Chamberlain

WHERE IS THE teacher? Geraldine Carey, above center, is the new director of the Child Care Center. Mrs. Carey also instructs parent-child development classes.

Advance Placement Tests Scheduled for Fall Semester

For the first time on campus, College Level Examination Program (CLEP) is offering tests for credit in several subjects. These tests are offered to allow the student more flexibility in reaching educational goals.

The next test will be offered on Oct. 13. Applications are due 5 p.m., Friday in the counselors' office. Other tests offered on this campus will be given Nov. 10th, Mar. 15, 1976 and June 14, 1976. Paul Quinn College offers these tests every month.

To take the CLEP tests, students must pick up applications in the counselors' office. The applications, complete with check, should be turned in no later than one month before the test date.

The cost involved for the tests are one test-\$20, two tests-\$30, three to five tests-\$40.

If a student should fail the test, the grade will not appear on his transcript. The student would also still be free to "challenge" the course if he wishes to do so. The only thing the student would lose is the money. If a student wishes to challenge a course, the syllabus for each class is available in the counselors office.

The CLEP test is 90 minutes long, except for the English 311 test which has an additional 90 minute essay part. CLEP tests are given by the College Entrance Exam Board. The tests are objective (multiple choice).

The tests are offered in the following subjects: General Biology; Geology 411, 412; College Algebra; Trigonometry; Statistics; Psychology 351, 301; Introduction to Sociology 351. Other subjects offered for testing are Business Accounting 351; Economics 351, 352; Business Law 323; Data Processing 353, 310; Business 325, 360; American History 351, 352; and English 311.

A student who scores C or higher on the CLEP test will receive a CR (credit) grade on his transcript. The test grade will not change the overall average on the transcript.

MCC will not accept the Advance Placement Test or the CLEP general exam. The only tests accepted are the CLEP subject exams.

For any additional information on the CLEP tests, see Keith Geisler, director of counseling.

Record Autumn Enrollment Expected Double in Spring

Enrollment for this fall will be about 18 percent above the enrollment last fall semester. The increase was expected because of the increase in summer school enrollment.

This summer enrollment was the highest enrollment in the 9 year history of the college. In previous years summer school has indicated the pattern of enrollment for fall.

Incomplete registration figures show 3,443 students, compared to 2,907 for the fall semester, 1974.

Dr. Wilbur Ball, president of the college, said college credit enrollment has increased almost 35 percent during the past two years. This represents a boom period that follows several factors, including an influx of veterans, present economic conditions and increasing recognition of the quality of MCC programs.

A Mini-Orientation class was offered August 28 and 29 because of the in-

creasing number of freshmen, according to counselor John Nobis. The college will be offering Saturday classes for the first time this fall. "The Saturday college will provide opportunities to people who find it impossible or inconvenient to attend during weekdays or evenings. It will result in fuller use of our physical facilities and expanded service to the people of the McLennan County area," said Dr. Ball.

Most students seem to want their classes in the morning which causes the campus to be clustered in the mornings. A solution to this would be more classes in the afternoon around 3 p.m. or 4 p.m. said Willie Hobbs, registrar and assistant dean of student services.

Registration for non-credit, Continuing Education classes is now in progress and will continue throughout the fall semester. It is expected to raise the total enrollment to about 7,000. Total enrollment for the spring semester is expected to approach 8,500.

THE HIGHLAND HERALD is a publication of the journalism classes of MCLENNAN COMMUNITY COLLEGE and is published weekly from September through May, except during holidays.

Opinions expressed do not necessarily reflect those of the college, the administration, or the faculty, but of the writers themselves.

Offices of THE HIGHLAND HERALD are located at 1400 College Drive, Waco, Texas, in the Student Center, telephone 756-6551, extension 444 or 443.

Adult Reading Lab Service

Anyone needing assistance with reading or study skills can drop into the Reading and Study Skills Lab, in room 109 of the Liberal Arts Building, and talk to Cathy McDade, who is the new reading instructor. She is in charge of the "Adult Reading Lab" and will see anyone requesting help at any time.

There are no regular times set up for these sessions; a student can go in on a regular basis or just drop in. These sessions are free and non-credited.

Mrs. McDade received her master's degree at University of Texas in Austin and has spent two years teaching at Burleson High School near Fort Worth. The Communications Lab is super-

vised daily from 8 a.m. to 1 p.m. by John Willingham. Willingham is a 1975 graduate of Texas University in Austin with an MA in history and a minor in English. He will help students with any problems they are having in English. Willingham will also be teaching History 351 on Saturdays.

Margarita Sanchez is available to set up individual student programs using the students' textbooks.

Both Mrs. McDade and Miss Sanchez will be using tapes, books and programmed reading materials to help their students.

The Lab is also beneficial for make-up work.

Pipeline

Volleyball

Team roster sheets for intramural volleyball in both men's and women's competition are now available. They may be picked up in the Student Activities office or in the HPE equipment room and should be returned to the Student Activities office.

Each team should have a minimum of six players, however, eight is the preferred number. The games will be played on Mondays, Wednesdays, and Fridays at 10 a.m. There is no charge to enter.

First and second place teams in both divisions will be awarded trophies. The deadline for entering is Friday, September 12.

Nursing

A Nursing Students Association membership coffee will be held at 10 a.m., Monday in the Highlander Room, third floor of the Student Center Annex.

Guest speaker, Mary Cantrell, program director for mental health, has chosen "Why Do People Act the Way They Do?" as her topic.

Relax Workshop

Relaxation training workshops will meet four times, beginning from 10:05 a.m. to 10:55 a.m., Monday in Nursing 108.

The workshop will feature a specific method of relaxation which may be used in any situation when nervousness or anxiety is present, such as during tests, in social situations, when trying to fall asleep, etc.

The four sessions will cover necessary techniques and a method of home practice.

Growth Group

Growth groups will meet for two hours, one afternoon per week for eight weeks. The times and days are 1:15 p.m. on Mondays and 1:45 p.m. on Tuesdays.

The purpose of the group is to experience oneself and others in an honest and meaningful way and ultimately to advance in one's own personal development.

Students may sign up for the groups in the counseling office.

Supreme Court

There will be five justices appointed in the near future to this year's Supreme Court of McLennan Community College.

Any student who wishes to be considered for placement on the court must take a test over the Student Constitution printed in the Highlanders Guide. This test will be administered at 10: a.m. Monday in the Student Activities office.

There will be three sophomores and two freshmen appointed to the court. Their major duties will be to interpret the Student Constitution when any problems or controversies arise, and to hear and rule on traffic appeal cases.

Technical Ed.

Because of the rapidly growing need for allied health services in Central Texas, MCC has joined with Temple Junior College in a cooperative arrangement to provide training in health care service. Applicants enroll for required academic courses at the college nearest them, and health courses are taken through the college offering the program. A dozen programs are available through the cooperative arrangement. Information may be obtained through each college's technical education division.

Cosmetology

The college has added an instructor's training course to the Cosmetology Program already in operation. Cosmetology instructors must have 1000 clock hours' above educational requirements for licensure as beauticians: A waiting list of prospective students is being compiled now at the

office of the dean of technical education because all training slots for cosmetology instructors are presently filled.

Student Housing

Students are in need of information on housing opportunities in the county, according to Don Bynum, director of student activities.

His office lists rental and sale property in the area to help students in finding suitable housing. Only MCC students use the listings, and there is no charge to them or the property owners.

All kinds of rental property, including rooms, apartments, and houses are needed, but students most often request garage apartments or duplexes, and they prefer furnished housing.

Owners who would like to list their property with the college may do so by calling the Student Activities Office at 756-6551 and giving the information or by mailing it to that office at McLennan Community College, 1400 College Drive, Waco, Texas 76708.

Real Estate

This is the first full school year in which the college credit Real Estate Program will be available at MCC. The Program will meet educational requirements of the 1975 Real Estate License Act passed by the Texas legislature.

Day and evening classes will be offered to aid Central Texas residents in meeting educational requirements to obtain real estate licenses and to renew them.

Probation, Suspension Procedures Put in Action

A new scholastic probation suspension procedure has been put into effect this year, hopefully eliminating the confusion resulting from last year.

The reasoning behind the probation suspension rule is helping the student by letting him know exactly how he is doing grade-wise.

The rule acts as a warning device to the student while, at the same time, letting the teachers and counselors know about students who need more help.

The new system is a simplified version of the old one, with some alterations. If a student's grade point average falls below 2.0 but remains above 1.5 for a semester, the student is placed on probation for the following semester. However, the

student will not be suspended unless his grade point average falls below the 2.0 mark in two consecutive semesters.

This gives the student a chance to have a bad semester—because of what problems he may have—and then give him ample time to correct himself. Also, the new system works on an accumulative basis. This is to say that the student's grades are averaged from semester to semester. The student will not be placed on probation until his average has dropped.

The new procedures will undoubtedly come under fire by many students, however, the new system should be considered an asset to the student and not a hindrance.

De-BiCommittee Organizes Decade - Bicentennial Plans

Dr. Wilbur Ball, president of the college, recently appointed a committee to help plan and coordinate the tenth birthday celebration of MCC in conjunction with the nation's bicentennial celebration.

Appointed as committee chairman was Mickey Ferguson, and as vice-chairman Dr. Chester Hastings. Also placed on the committee were Don Bynum, Lupe Diaz, Bill Haskett, Kitty Hawthorne, Bobby Kacal, Charles Kennedy, Ben Portwood, Mel Post, Dr. Michael White, and Blanche Willis.

The college opened its doors to students in Sept., 1966, and in the ten years that have followed many accomplishments have been made. One goal of the committee will be to make the present student body aware of these ac-

complishments through celebrations and commemorations.

The committee set the following goals for the Decade Observations: to focus on, celebrate, and communicate the achievements, status, and future of the college and its meaning and relationship to the citizenry of Central Texas.

The goal for the Bicentennial celebration will be "To focus regular on-going college activities in the classrooms, offices and service areas, on the things that make and have made our country great," said committee member Don Bynum.

The first project the committee has planned is a raising of the American Bicentennial flag at the college. This event will take place in the immediate future.

Mistakes are Good Teachers

A RECENT Chicago Journalism Review furnishes these helpful rules by Ernest Tucker on grammar and spelling:

"Don't use no double negatives. Make each pronoun agree with their antecedents. Join clauses good, like a conjunction should.

"About them sentence fragments. When dangling, watch your participles. Verbs has got to agree with their subjects. Just between you and I, case is

important, too. Don't write run-on sentences they are hard to read.

"Don't use commas, which aren't necessary. Try to not ever split infinitives. It is important to use your apostrophe's correctly. Proof-read your writing to see if you any words out. Correct spelling is essential.

"A simple following of these rules should prove invaluable in helping you write real good."

DANNY THORPE with "Missouri" from Austin. (Formerly "Tuscon" from Waco.) Thorpe played in an MCC talent show two years ago and returned Friday to perform with his group.

Coaches Sign Promising Athletes

Golf

Anyone who sees Jimmy Clayton these days will notice the young coach is filled with optimism for his 1976 Highlander golf team.

"Without a doubt, this is the best group of freshmen I have ever recruited," said Clayton. These freshmen, mixed with three returners and two other promising sophomores, should assure the Highlanders of fielding a strong team.

If tradition means anything about how the team will finish, the Highlanders should place nationally. In 1974, the golfers finished in seventh place in the National Junior College Athletic Association Tournament, and they finished second in the same tournament last year.

Steve Elkins and Rick Heusner are the two newcomers. They join returners Russell Orth, Greg Grosz, and Dale Carlisle to form the five sophomores. The rest of the team will be formed by these freshmen:

Dirk Kirley-from Abilene High School was medalist 2 years in Abilene Invitational H.S. Tournament and District 5AAAA medalist.

Lee Singletary-made the team as freshman at Oklahoma University and was District Champion and Runner-up state champion while at Kilgore H.S.

Mark Knutson-from Albert Lee in Minnesota was District Champ and State Champ his sophomore year. He was second in state his senior year.

Dan Cronquist-from St. Paul, Minn. was State Champion his senior year, placed 5th two years in Texas-Oklahoma Junior Tournament, placed 9th in state open which included pro golfers and 5th in National Insurance Tournament.

Bobby Heath-from Stillwater, Oklahoma placed 3rd in state his senior year, and placed 2nd two years in Texas-Oklahoma Junior Tournament.

David Sann was district 11AAAA medalist and tied for third in the Dallas Invitational Golf Tournament in 1975. He is from W.T. White H.S. in Dallas.

Jack Twedell, Jr.-from Richardson Berkner was Champ of District 6AAA and Champ in the Dallas Invitational AAA Competition in 1975. He also placed 35th in Amateur Junior World Competition in San Diego.

Mark Beckner-from David W. Carter H.S. was medalist in District 12AAAA Tournament and medalist in 1975 Dallas City Invitational Tournament.

Clark Beckner-from David W. Carter H.S. was Runnerup in District 12AAAA in 1974 and 1975 and 3rd in 1974 and 1975 Dallas Invitational and 1975 Fort Worth Recreation Golf Tournament.

The Highlanders' first tournament is set for October 2 and 3 in Houston.

Amateur Athletic Federation tournament.

Tobe Mason and Arlene Simms, freshmen, played doubles together at Moody High School in Corpus Christi. They were semi-finalists in District AAAA competition. They also won the Corpus Christi City Tournament doubles competition this summer.

Returning from last year's team are Wacoans Elaine Kocian, Becky Carpenter and Phyllis Goldens, sophomores. Miss Kocian was a finalist in the conference tournament in which the Highlanders became co-champions with Grayson County College. Denise Norred, a freshman from Marble Falls, and state semi-finalist in AA competition, will also be coming out for the team.

At the moment, the men's division is not so stable due to the lack of depth, said Tatum.

Sophomores Randy Essenburg of Waco and Steve Hirth of Groesbeck will be returning. Essenburg was a finalist in doubles and semi-finalist in singles in the conference tournament last spring.

Lee McCleary, sophomore of Waco will be eligible to play in the spring semester. He played for the Highlanders three years ago before serving in the army. Others trying out for the team are Jay Frazier and Terry Lancaster of Marble Falls; Bill Broach, Curtis Rodriguez, and Randy Chenot, all of Waco; Rick Ryer of Robinson, and James Eakins of Groesbeck.

Tennis

Tennis is back in swing on campus and coach Don Tatum has his forces practicing for competition. The Highlanders' first match is 2:30 p.m. Monday on home courts. The opposition will come from Cooke County Junior College.

The Highlanders signed three outstanding women players for the 1976 season.

Sherry Collazo, freshman, was a semi-finalist in district AAAA for Killeen High School last spring. She teamed with Melissa Segrest to win the Waco Open doubles title for girls 18 and under. Sherry also was a finalist in the Texas

Try
to get the hang of it.

Face it...you've always wanted to fly! Most of us remember that feeling...and for a lot of us it never went away. If you're one of those, Air Force ROTC can get you winging. Our Flight Instruction Program (FIP) is designed to teach you the basics of flight.

We don't do it with

a hang glider but the FIP does include flying lessons in light aircraft at a civilian-operated flying school. The program is an extra given to those who want to become Air Force pilots through Air Force ROTC. Taken during the senior year in college, it is the first step for the guy who

wants to go on to Air Force pilot training in jets after graduation. Air Force ROTC also offers scholarship ships...\$100 a month allowance...plus it pays for books, and lab fees in addition to full tuition. This is all returned for the guy who wants to get the hang of Air Force flying.

Put it all together in Air Force ROTC.
